UCLA 39, St Mars 0
Colorado 23, Utah 0
Temple 25, NYU 0
Michigan State 25, Kansas State 6

The Canadian staged a half-hour drive against unusually light resistance to cover two miles and link up their seaborne forces behind the German pocket in the SCHELDT Estuary and other troops over the TURNHOLT Canal. North of ANTWERP the Canadians are standing firm against bitter counterattacks.

House-to-house fighting continues in AACHEN, where the infantry is gradually clearing out the enemy. Bitter encounters with the enemy also took place NE of AACHEN.

The First French Army moved forward in the VOSGES Mountains and established excellent new artillery positions.

A "security silence" prevails on the HUNGARY front, where the Russians recently gained rapidly.

Three stories were told today concerning the plight of BELGRADE, capital of YUGOSLAVIA, but one thing seemed certain - if not already in Allied hands, this vital center will be within a few hours. The Russians reported they were within 2 miles of BELGRADE; another report said Marshal TITO's men were fighting in the city, and BERLIN admitted a battle on the fringe of the city.

3216

Allied aircraft have indeed been busy during the past 24 hours.

Today 1200 heavies were out over targets in GERMANY. Last night and today the RAF has dropped 5,000 tons of incendiaries and explosives on one target. Among cities raided were BRUNSWICK, BERLIN, HAMBURG and MANNHEIM.

Mediterranean aircraft in ITALY flew some 1700 sorties. Twenty-six Allied planes were lost.

The 51st American Troop Carrier Wing, it was revealed today, carried paratroopers over GREECE during the initial stages of the invasion there. With the Germans out of Southern GREECE and ATHENS in our hands, the American aircraft are now engaged in taking hundreds of tons of emergency medical and food supplies to GREECE. Advance aircraft of the RAF are now operating from ATHENS airports.

BERLIN today blamed the "withdrawal" of German units from Southern GREECE on the "treachery of RUMANIA and BULGARIA".

The Fifth and Eighth Armies in ITALY made some headway.

So rapidly are the Russians clearing the Germans out of the BALKANS that the Reds are capturing tremendous quantities of equipment. Yesterday the Reds knocked out 200 German tanks and more than 50 planes. The Russians are pushing forward in the forests south of RIGA. Twelve more German transport ships were sunk in the BALTIC.

TOKYO today reported Allied raids for the fourth consecutive day on FORMOSA, but Allied chiefs were silent concerning any such raids. Four Japanese ships, including three freighters, were sunk in the PACIFIC. The day in the PACIFIC theater found the Allies in BURMA conducting strong attacks on a Japanese escape line. Tanks were used during the day's fighting in INDIA.

The Germans last night announced the death of Field Marshal ROMMEL. The cause of his death was not given.

More flying bombs hit LONDON.

The Allies have a new weapon of their own, the "earthquake" bomb. This type bomb explodes within the target and the Allies have used it with success against dams, canals, and flying bomb centers. Its principal features are additional weight, a delayed action fuse, and a thicker casing than other bombs.

In the Field
160600 Oct. 1944

PATROL REPORTS NIGHT OF OCTOBER 15-16.

A patrol from F Co, 3rd Bn, in charge of Sgt Chabo, with 2 men, left at 2100 with mission of reconnaitering road from Vossendaal Woods to the Southwest. The patrol advanced to within 100 yds of the road and set up a listening post which was maintained for 2 hours. No ey activity was heard. Patrol returned at 2400.

Patrol from E Co, 3rd Bn, made a reconnaissance to an abandoned 20mm gun position and tent in vic of 770561. They returned with certain ey documents and equipment which is being forwarded by liaison officer. The following items were at the position but could not be carried away: 12 rifles M 93, 6 four-barrel 20mm guns, 1 searchlight 1 generator, 50 cases 20mm ammo, 25 spare parts Z 72, 2 known booby traps (1 trip wire, 1 setting in soft dirt by fox holes). The patrol reported sleeping spaces in fox hole for about 36 men, indicating that it was the approximate strength of the crew manning the position.

Patrol from E Co, consisting of 3 men, made a reconnaissance to 773564, with mission of checking ey dead for identification. The patrol reported that the bodies had been removed.

Patrol of 1 officer and 5 men left Road Block at 769568 with mission of establishing listening post at 770570. They maneuvered to within 75-100 yds of RJ at 770570. Officer confirms ey outpost still in that position; estimates it is held by at least 1 squad. Heard noises indicating positions from ey OPs along road to trail forks at 772569. During the period about 2130 heard MG fire from approx 772568, firing to south. Patrol ldr feels certain ey is dug in along road from 770570 to the Northeast. Strength of ey unestimated in those positions; distance of entrenchments undetermined. At approx 2400 hrs listening post heard what they believed to be either an ey contact patrol or sentries moving across field along trail 771561, estimated 2 or 3 men.; difficult to determine exact location.

NO. 120.
MAP: GSGS 4427, 1/25,000, Sheets 6 SW, 12 NW; GSGS 4414, 1/25,000, Sheets 4102, 4202.

1. ENEMY SITUATION AT END OF PERIOD.

a. Enemy Front Line: No change.

b. Defensive Organization:

(1) Ey dug in along road from 770570 to NE (325), ey emplacement and MG on RR embankment at 789629 (505), two squads to plat of ey dug in with MGs and rifles around house at 77457[illegible] (504), ey digging activity on NE side of road at 778581 (504).

(2) MG at 772568 (325), MG at 775574 (504), MG at 789630 (505).

(3) OP at 770570 held by one ey squad (325).

(4) Mortar posn believed to be 100 yds N of church (779582) in WYLER (Div Arty); 81 mm mortar at 788618 (505).

(5) Mortars located today and engaged by Allied Arty: Nebelwerfers at 80045525, 782562, 799551, 80005498, 77355612, 80035530, 782562, 79405550; mortars at 77936088, 78195759 (3 mortars), 78725710, 78855705, 77315688, 775610 (Div Arty).

(6) Ey CP in shed at 823545 (325).

(7) Pillbox at 773604 camouflaged as haystack (504).

c. Units in Contact: See Annex No. 1 for new identification.

4th Btry 748th Light Flak Bn was identified by soldbuch picked up by 325th Gli Inf patrol night 15 - 16 Oct. No conclusions as to the presence of the unit (previously identified) can be made at this time.

d. Artillery - Location and Caliber.

(1) Work being done around suspected gun position at 824545 (Div Arty).

(2) Two guns located by Air OP at 814556 and engaged by our arty (Div Arty); arty fire from dirt emplacements at 824544 (325).

(3) Ey Arty, WAAL River to REICHSWALD, inclusive, definitely located: (No change) 6 light btrys, 7 medium btrys, 3 hvy btrys,

3316

3 hvy AA btrys, 3 dual purpose btrys, 14 btrys, caliber unknown, and single guns (Div Arty)

(4) Gun at 809626 (505).

e. Reserves and Other Forces Capable of Intervention: No change.

f. Supply and Evacuation Establishments.

(1) Ey aid stations at 782561, 790599, 755548, 805563 (325).

(2) House at 78455727 caught fire and then "exploded" when fired upon by our arty at 1045 (505, 325).

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary:

The nine prisoners taken by 505th Prcht Inf on the night 15 - 16 Oct vic ERLEKOM came in without violent resistance, and it is gratifying to know that four of them carried on their persons propaganda leaflets fired over the area 15 Oct by our artillery.

Increased animation was shown throughout the period by the enemy. There was considerable noise of motor transport by night, and several bodies of troops of company size were seen during the day moving SW along the highway through NUTTERDEN. Some scattered vehicular movement to the SW was also seen in NUTTERDEN. These manifestations may augur either a relief or a reinforcement to our front.

Shelling into the division area was somewhat increased today. One of our company command posts reported receiving forty to fifty small rocket shells in one minute.

b. Operation of Component Elements.

(1) Artillery Shelreps.

G-2 REPORT NO. 120.

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
16 OCTOBER 1944

INTERROGATION REPORT NO. 12

1. UNIT IDENTIFICATION IN CONTACT:

Unit	No. of PW's	Place	By
4th Co Security Bn I/6	9	(789629)	505

2. STRENGTH & ORGANIZATION: This Bn consists of four Rifle Cos each about 125 men. Cos are poorly equipped to the extent that all men are armed with Danish rifles and in the Cos there may be found up to six Czech MGs. They also have some Panzerfaust, although PW state that none of the men are trained to use them.

3. HISTORY OF UNIT: For some time now confusion has reigned supreme on the question of German Order of Battle and this is no exception. The designation of this Bn I/6 corresponds exactly with a Bn of Landesschuetzen troops which were identified in the early stages of our operation. However, this Bn is a security Bn. To go back a little further, all PW stated that originally they were in the VI Security Bn. This unit was organized middle of September and came into this area on 18 September. It was committed for only three days - 20 to 23 September vicinity of WYLER MEER. The rest of the time it has been kicking around from one place to another in a reserve status. The Bn was subjected to a major surgical operation between 8 - 10 October. From the time it left MUENSTER until 8 October the Bn was commanded by a Capt BUTLER. On 8 October a Capt. BRACKEBUSCH arrived on the scene with the remnants of another Bn. A general reshuffling took place. The 1st and 2nd Cos were made up of all "KV" (combat fit) personnel from the BRACKEBUSCH Bn. The 3rd and 4th Cos were similarly taken from the BUTLER BN. The Bn was then renamed from VI to I/6 Security Bn and put under command of BRACKEBUSCH. The remaining personnel of the two Bns were formed into a Bau Bn (Construction Bn) under command of BUTLER and are believed to be either cleaning up debris in CLEVE or working on defenses in REICHSWALD. No confirming information is available, but it seems quite likely that this I/6 Bn under BRACKEBUSCH is actually our old friend more easily recognized by the name of AHLEMEYER. AHLEMEYER has been listed KIA or MIA for some time and his Bn simply disappeared into the blue. When last contacted it had already been severely mauled. Its reappearance at this time and under these conditions seems quite normal.

To add further interest to the situation, several of these PWs were sent to join the 11th Co 1052 Regt on 8 October. On 12 October they were returned to their original unit because they were not considered satisfactory material for the 1052 Regt. To date we have only identified the 2nd Bn of this Regt in the form of the former 58th Bn. The fact that these men were sent to the 11th Co indicates the presence of a 3d Bn in the area. PW also stated that although the present status of I/6 Bn in relation to 1052 Regt is unknown, the former VI Bn had recently come under control of 1052 Regt.

3316

4. TROOP LOCATIONS.

The I/6 Security Bn holds the sector from (790628) - (830650).

Co sectors are approximately as follows:

(a) (790628) - (800635).

(b) (795640) - (800650).

(c) (800650) - (830650).

(d) The reserve Co of the Bn is in MILLINGEN. The Bn CP is located at KEKERDOM, as are the trains.

The Bn came into these positions on 13 October and PW believe they relieved part of 1052 Regt.

The 11th Co of 1052 Regt is in NIEL.

Irvin Bushman
IRVIN BUSHMAN, K
Captain, F. A.,
Interrogator.

G-2 NEWS SUMMARY

This news summary is from LONDON BBC broadcasts:

Another beachhead which they made yesterday resulted in a new link-up for Canadian troops in the SCHELDT Estuary today and one-third of the German-held pocket is now ours. The Canadians retook a village entering the causeway approach to the Islands in the Estuary, but have been unable to recapture the causeway itself from the Germans. Commentators, however, said the situation was such that the Germans would be unable to use the causeway.

American troops today withdrew from underground fortresses near METZ, where they have been fighting several days. Although the Americans withdrew, they continued artillery barrages on the fortresses.

The First French Army approached an important pass through the VOSGES Mountains.

At AACHEN bitter fighting continued within the city.

For the first time since withdrawal of the British airborne troops from ARNHEM, troops of the Second Army are across the Lower RHINE. Patrols made the crossing, 8 miles west of ARNHEM.

Beyond OVERLOON the Second Army gained some ground, but mines are slowing the progress.

Allied bombers caused considerable damage in the important supply point of WILHELMSHAVEN.

The status of HUNGARY in the war remained uncertain tonight. The Regent of HUNGARY broadcast a message yesterday that the Germans were certain of defeat and that HUNGARY was engaged in armistice negotiations with the Allies. The Regent ordered Hungarian military commanders to cease fighting. Meanwhile, the Nazis seized the two remaining radio stations in HUNGARY and the Governor of NE HUNGARY issued decrees that civilians will be off the streets by 2000 hours, public assembly will be prohibited, workers will return to their jobs, and food store operators will keep their shops open. MOSCOW maintained its "security silence" concerning HUNGARY. BERLIN radio said fierce battles are continuing on the Hungarian Plains.

3316

BERLIN admits street fighting is going on in BELGRADE. The important center of NISJ has been liberated.

The Allies again bombed MEMMEL and TILSIT. The Russians have taken over in PETSAMO.

Greek warships today landed troops in PIRAEUS, GREECE, after slight difficulty with harbor mines. The Allies have seized NAKSOS, a Greek island. The Germans left ATHENS almost undamaged except for the destruction of a radio station.

More China-based Allied aircraft have blasted targets on PACIFIC Islands, and carrier-based aircraft are continuing their assaults. The carrier-based craft are known to have destroyed 91 planes. The latest series of raids have ranged from islands north of JAPAN to below the equator. MAPOUS Island again was raided. The Japanese broadcast stories of fierce sea and air battles, but they were unconfirmed.

Several of the flying bombs headed for LONDON and Southern ENGLAND were destroyed last night by Allied planes.

Steady progress continued on the Fifth and Eighth Army fronts in NORTH ITALY.

APO 469, US ARMY,
IN THE FIELD,
172400 OCT 1944.

NO. 181.

MAP: GSGS 4427, 1/25,000, Sheets 6 SW, 12 NW; GSGS 4414, 1/25,000, Sheets 41GE, 42GA.

1. ENEMY SITUATION AT END OF PERIOD.

a. Enemy Front Line: No change.

b. Defensive Organization:

(1) Two MGs astride road at 774574 (W of RJ), two MGs at 778577 (325); captured bn and several riflemen dug in at 77065758, with MG 30 feet NE of one of our gliders at that point (504); ey strongpoint with MG and mortar at 778614 (505).

(2) Ey digging in at 77085775, one squad dug in along line 77025764 - 77105758, approx one ey squad dug in along hedgerow from 77025764 to 77105772 and ey pcons dug in along trail from 77025764 to 77125760 (504); small no. ey in foxholes at 76926120 (505).

(3) Ey mortarslocated today and engaged by Allied Arty: Nebelwerfers at 795555, 80425550; mortars at 81165239, 77936088, 7738-6096 (Div Arty).

(4) Ey searchlight vic 809561 (325).

(5) Ey Nebelwerfer at 799551 (325).

c. Units in Contact:

(1) No change.

(2) Documentary evidence collected by 325th GIi Inf identified the 2nd Co., 25th SS PGR (12th SS Pz Div). This is thought to be an old identification left over from the attack from DEN HEUVEL WOODS 1 Oct, which involved a portion of 12 SS Pz Div.

d. Artillery - Location and Caliber.

(1) Ey arty located today and engaged by Allied Arty: Four guns at 8060552585, three guns at 8136052020 (Div Arty).

(2) Ey arty, WAAL River to REICHSWALD, inclusive, definitely located: No appreciable change from previous report which was 6 light btrys, 7 medium btrys, 3 hvy btrys, 3 hvy AA btrys, 3 dual purpose btrys, 14 btrys, caliber unknown, and single guns (Div Arty).

SECRET

3410

(3) Ey gun pulled by prime movers spotted at 782561. Gun moved up to 783562 about 1915. Ey smoked area when our arty fired on gun (325).

e. Reserves and Other Forces Capable of Intervention: None known.

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary: Mortar and artillery fires continued on a slightly reduced scale.

b. Operation of Component Elements.

(1) Artillery Shelreps:

Unit Reporting	Time	Location	Direction (Azimuth)	No. of Rds.	No. of Guns	Caliber
504	?	776560	144	?	1	150
325	0023	755572(a)	145(b)	?	1	?
325	0836	755572(a)	99(b)	?	?	?
505	1115	769628-768634	90(Approx)	20	?	75
505	1335	776630	95 - 110	7	1	75
505	1445	775630	120	8	?	75
325	1507	755572(a)	155	4	?	?

(a) Location of observer.
(b) Azimuth from observer.

(2) Aviation, Combat: Ey planes dropped two sticks of anti-personnel bombs, believed to have been of "breadbasket" type, along NIJMEGEN - MOOK highway about 1845.

(3) Chemical Warfare: See Par 1 d (3).

c. Miscellaneous:

(1) During past few days ey has moved about more freely during daylight behind his own lines. This probably has been because weather conditions limited Allied air activity.

(2) "Unusual" amount of motor movement heard in WYLER and LAGEWALD between 162300 and 162400 (504).

(3) Usual amount of ey flare activity during night 16 - 17 Oct., red and yellow flares being reported.

3. MISCELLANEOUS.

a. Enemy Casualties:

(1) Estimated Killed: No estimate.

(2) Prisoners of War:

(a) Taken during period of report: 0.

(b) Taken to Date: 2,977.

b. Weather:

(1) During period - generally overcast, showers after darkness.

(2) Outlook for coming 24 hours - Showers.

4. ENEMY CAPABILITIES: All reports indicate extensive enemy armor and infantry diversions from the NEDER RIJN - WAAL - MAAS salient to reinforce the ANTWERP and AACHEN sectors. The thinning out of reserves among the hostile forces facing our division leaves them with no offensive capabilities other than localized small scale attack efforts. The preeminent enemy capability is to attempt to hold his present line, while forging ahead with refinements and extensions of his defensive system.

TRANSLATION OF CAPTURED DOCUMENT

SOURCE: PHANTOM

The German Woman at War

The following circular, captured by 6 South African Armd Div, was published by a HAMBURG firm.

Dear Front Soldiers:

When will you come badk on leave?

When will you be able to forget the hard duties of a soldier and exchange them for a few days of joy, happiness and love? Back at home we know of your heroic struggle; however, we do understand that even the bravest get tired and that he needs a soft pillow, tenderness and healthy pleasure.

WE ARE WAITING FOR YOU!

For you who have been compelled to spend your leave in a foreign town; we are waiting for you whom the war has robbed of his home, waiting for you who stands alone in the world without a wife, without a fiancee, without a flirt.

WE ARE WAITING FOR YOU!

Cut out our badge on this letter. Display it visibly on your glass in every tea room, in every bar which is in the vicinity of a railway station; soon a member of our League of Lonely War Women will take charge of you, and the dreams you dreamt in the front line and the longings of lonely nights will find fulfilment...It is you we want, not your money, therefore ask for our membership card at once. There are members everywhere, since we German women understand our duties towards our country and towards those who defend it.

Naturally, we are not unselfish - for years and years we have been separated from our menfolks, surrounded by all these foreigners; naturally we long to have again a real German boy to press him to our bosom. Don't be shy; your wife, your sister or your sweetheart is also one of us. We think of you but we also think of the future of our country. He who rests, rusts.

IN THE FIELD,
17 OCTOBER 1944

G-2 NEWS SUMMARY

This news is from LONDON BBC broadcast:

The Canadians driving north from the TURNHOLT Canal are within 6 miles of the SCHELDT Coast. North of ANTWERP enemy attacks were driven off.

In the VENLO Area the British Second Army pressed to within 5 miles of the MEUSE River and patrols got within a half mile of the river. There are indications that the Germans may be taking armor from the Second Army front and moving it to the AACHEN region, where there is a stronger concentration of enemy tanks.

In AACHEN itself the Americans gained from house to house, using machineguns and 4.2 chemical mortars firing phosphorous.

Patrols which recently got across the LOWER RHINE west of ARNHEM went to within a mile of that city and saw no indications of plans for an enemy attack.

1300 American bombers today used instruments to pound targets in COLOGNE. Although the sky was overcast, the raid was successful. The assault followed attacks on COLOGNE last night by Mosquitoes.

Heavier battles are taking place on the Seventh Army front. Troops of Japanese descent, it was revealed today, are fighting with the Seventh Army.

Fate of HUNGARY in the war remained an unsettled question today as the Nazis in HUNGARY maintained control of the Hungarian radio stations and MOSCOW kept silent concerning battles on the Hungarian Plains.

The Germans broadcast over the Hungarian stations that the Regent of HUNGARY had been persuaded by a clique to give his armistice speech, and that he was very much alive but had stepped aside in favor of a younger man after changing his surrender decision.

The stations also broadcast regulations that virtually put martial law into effect in HUNGARY.

The Reds pushed the enemy farther west from RIGA, sank three more troop ships, and waged a strong offensive on the East Prussian frontier.

3411

Allied planes traveled 1500 miles round-trip to resupply Polish patriots.

Fighting continues in BELGRADE, where Marshal TITO's men have captured 1300 prisoners.

Units of the Jap fleet, Admiral NIMITZ revealed, recently approached FORMOSA but when they saw the Allied strength turned and fled without attacking.

That the Japs did make some sort of an attack in the PACIFIC seems apparent from the fact that 160 carrier-borne Jap aircraft were destroyed. A Jap crusier and destroyer were sunk. Damage also was inflicted on enemy units which took refuge in HONGKONG.

Allied aircraft today carried out new assaults on FORMOSA, and on LUZON in the PHILIPPINES.

Fierce sea fights are reported in the ADRIATIC. Twelve enemy ships were sunk off the Dalmatian Coast.

The Eighth Army in NORTH ITALY gained some ground on a wide front, while the Fifth Army moved forward 1,000 yards on Route 65.

The King of ENGLAND has returned from a tour of West Wall battlefields. He crossed bridges seized by the Allies during airborne operations and inspected gliders on their landing fields. During his four-day trip he was within range of enemy artillery. One day he spent in an RAF operations room and he also spent a day each with Field Marshal MONTGOMERY and General DEMPSEY.

S-2 Estimate of the enemy Situation to accompany
S-2 Periodic Report No 31, 181500 October 1944, this Hq

I. SUMMARY OF THE ENEMY SITUATION:

a. Enemy Activities in Forward Areas:
Consists of plateen defensive installations centered at 774574. Plateen defensive situation 777576 with heavy weapons to the rear of defensive zone. These weapons believed to belong to the Battalion, generally located on the line VOSSENDAAL - LAGEWALD - WYLER. Battalion supply believed to be located vic 787576. Enemy reserves believed located in Company strength in ZYFFLICH with ability to move on short notice South to WYLER, West to SNORENHOOK and North towards ERIEKOM. General line facing 504 Prcht Inf from WYLER to BAD WYLER on other side of WYLER MEER believed to consist of two pillboxes, numerous rifle pits and mortar positions, with control centered in ZYFFLICH. No enemy identifications of recent date.

b. Movements, Concentrations and Establishments in Rear Areas:
504th Prcht OP report continuous movement of motor vehicles in KRANENBURG. This is particularly true at night when lights are more visible. 325th Glider Inf OP reports considerable movement KRANENBURG and WYLER road to vic 785575 at which time observation is lost. Quality and quantity of enemy supply leads to the belief that Regimental, possibly Division, supply points to be located in KRANENBURG. It is believed that the rail-head in the vic of the station and factory in KRANENBURG is not in use and that the majority of the supplies are being moved by motor vehicles to establish dumps. Several plateens accompanied by two and three vehicles have been observed moving from KRANENBURG north towards WYLER in the past three days. The hill to the South and West of Wyler is believed to mask several large munitions dumps because of the amount of traffic observed on the KRANENBURG road and leading to the belief that fairly short hauls are being made. The amount of automatic weapons, mortars, and Nebelwerfers facing the 504 and 325 lead to and, in turn, believed that enemy supply is very good in the immediate vic, and, this supply being replanished by a not too distant dump.

c. Terrain and Weather as they Affect the Enemy:
The terrain immediately in front of the 504th Prcht Inf sector beardered on the NE by WYLER MEER, a definite AT barrier; on the East by a large dike, and on the South by open flat ground, interspurts with numerous ditches, generally lends itself to excellent enemy defensive positions. Plateen positions in house in the vic of VOSSENDAAL and the orchard to the South of VOSSENDAAL, together with buildings at LAGEWALD and WYLER are definite terrain obstacles for friendly attack.

3498

The ability of the enemy to blow the numerous small bridges over the deep drainage ditches to impede the progress of armour is of distinct advant age to infantry defense. The flat ground lends itself rapidly to long and accurate cleared fields of fire. Weather: - with the start of the rainy season, poor visibility, wet soft low-lying ground, against armour, the low ceilings, and bad flying conditions against air allow enemy ground forces more freedom of movement than if friendly air was more active. Poor flying conditions against air allow enemy ground forces to use more roads to move up supplies to troops on the extreme front positions from closely located rear area dumps (KRANENBURG).

II. CONCLUSIONS:

a. Enemy Capabilities:

(1) To defend his present positions, reinforcing the high ground immediately back of KRANENBURG and organize the low ground in the front against any possible break-through we might attempt to launch. This capability is favored in that the enemy shows no marked aggressiveness, lack of active patrolling (both combat and reconnaissance) and no apparent large scaled build-up of Company, Battalion or Regimental size in front of this organization.

(2) To launch limited objective attacks on IMTHAL, GRENSKANTOOR, from the South using the line WYLER - LAGEWALD as a possible line of departure.

(3) To launch limited objective attacks against the high ground at 765594 in an attempt to gain a penetration of our lines, moving his armour on the route VOSSENDAAL - GROOTE VLIE REMBERG and IMTHAL - HOLDEMN.

FROM: Div Arty DATE 18 Oct

TO : G-2 TIME RECEIVED OR SENT 2206

TRANSMISSION: Telephone, radio, in person, messenger (Circle One).

MESSAGE: (Use back of page if necessary):

Report from "A" Btry - 456 F.A.Bn

One person (type of wearing apparel ~~Could~~ Could not be distinguished) approached "A" Btry outpost. Previously reported at 2025 when challenged the person threw a grenade at the outpost then exchanged SA fire with it. Outpost could not determine whether other people were present with the person. The person presumably got away since no trace of him was found. (3524)

G-2 REPORT

FROM: 180001 OCT 44
TO : 182400 OCT 44

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
182400 OCT 1944.

NO. 122.

MAP: GSGS 4427, 1/25,000, Sheets 6 SW, 12 NW; GSGS 4414, 1/25,000, Sheets 4102, 4202.

1. ENEMY SITUATION AT END OF PERIOD:

a. Enemy Front Line: No change.

b. Defensive Organization:

(1) Ey morters located today and engaged by Allied Arty: Two Nebelwerfers at 80785533; Nebelwerfers at 80285533, 80695536; mortars at 79605567, 77335664 (Div Arty).

(2) Ey digging in around houses at 772576. These houses occupied by ey. House at 771578 also occupied by ey. Ey digging at 775584 (504).

(3) Complete system of trenches in DEN HEUVEL WOODS, completely encircling woods and placed generally just inside edge of woods. Long supply and communication trench starting at house at 77305635 and running E for several hundred yards (320 FA Air OP thru 325).

(4) MG in house at 77445825 (504).

(5) Trip wire for AP mine at 77515816 (504).

(6) Hq 84th Div at KELLEN, CP of 86 Pz Pioneer Bn (atchd to 84 Div) in KRANENBURG (PW to 325).

c. Units in Contact: See Annexes No. 1 and 2 for new identification.

d. Artillery - Location and Caliber.

(1) Ey arty estimated at lowest strength since area occupied by 2d Army - Br. Estimate. No estimate on which btrys moved out (Div Arty).

(2) Ey arty located today and engaged by Allied Arty: SP gun at 77775823, guns going into position at 846554, btry at 78005618, gun at 80556137, and SP guns at 78135773, 77305647, 78255679 (Div Arty).

(3) Four SP 88mm guns dug in as AT guns at CLEVE (PW to 325).

3535

e. Reserves and Other Forces Capable of Intervention: No change.

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary:

The enemy's mine-laying preparations in one part of no man's land were interrupted on the night 17 - 18 Oct by the shooting up of a reconnaissance party by a 325th Gli Inf patrol. Probably elsewhere along the front similar enemy activities were in progress, and proceeded undisturbed.

Diminished shelling took place in our area during the period, reflecting the thinning out of artillery facing us.

b. Operation of Component Elements:

(1) Artillery Shelreps:

Unit Reporting	Time	Location	Direction (Azimuth)	No. of Rds.	No. of Guns	Caliber
325	0720	755572	?	6	1	?

325	1850	749571(a)	115(b)	Conc.	?	Light

(a) Location of observer.
(b) Azimuth from observer.

(2) Aviation, Combat: Two sticks of bombs, believed to be of "breadbasket" type, dropped in Div Area during day, one in 504 CT area and one along NIJMEGEN - MOOK road.

(3) Tanks: Three ey tks vic WYLER, one immobilized by our arty (504).

c. Miscellaneous: Continued ey movement in daylight on NUTTERDEN - KRANENBURG - WYLER highway.

3. MISCELLANEOUS.

a. Enemy Casualties:

(1) Estimated Killed: 2.

(2) Prisoners of War:

(a) Taken during period of report:

1. Reported by Provost Marshal: 0.
2. Reported thru Medical Channels: 2.
3. Total Reported Today: 2.

(b) Taken to Date:

1. Reported by Provost Marshal: 2,782.
2. Reported thru Medical Channels: 197.
3. Total reported to date: 2,979.

b. Weather:

(1) During Period: Partly cloudy to cloudy. Precipitation in afternoon. Cool.

(2) Outlook for coming 24 hours: Local showers.

c. Other Intelligence:

(1) About 2035 two men approached 456th outpost but fled when challenged. About 2200 one man approached same outpost and threw hand grenade when challenged (456).

(2) At 1500 at 728604 three men wearing U. S. uniforms accosted by Dutch civilians. Civilians reported that the three men could not speak English (Div Arty).

4. ENEMY CAPABILITIES: No change.

INTERROGATION REPORT #8

PERIOD: 172300 Oct to 180200 Oct.

Total number of Prisoners interrogated: 2
Total number of Prisoners up-to-date: 181.

Distribution:

No. of PW's	Unit	Captured by
2	1st Co 86th Panzer Engineer Bn	3rd Bn

Strength:

The 86th Panzer Engineer Bn is composed of 3 Co's consisting of two platoons each; approx. Co strength is 60 men. Each platoon has three LMG's.

Order of Battle:

The 86th Panzer Engineer Bn is an integral part of the 9th Panzer Division and was with that unit in the ARNHEM sector until the night of 14/15 October.

Personalities:

CO - 1st Co - 86th Panzer Engineer Bn.....1st Lt DUELE
CO - 2nd Plat - 1st Co " " ".....2nd Lt BENZ (killed)

Comments and Notes:

These two PW's were brought in by a 3rd Bn patrol at 172300 Oct. he PW's together with an officer and another man were ambushed in ic. 772563. The 2nd Plat. of the 1st Co left KRANENBURG approx. 71830 Oct under the command of Lt BENZ with the mission to lay a mine- ield opposite our sector. They carried 48 Anti-Tank and 48 Anti- ersonnel mines. The Anti-tank mines were partly Teller mines and artly "Riegel" mines. The latter was a new kind of mine to this PW ho is an old army-engineer. Shortly before being ambushed by our pa- rol Lt BENZ, one SGT and two messengers went ahead of the rest of he platoon in order to stake out the minefield; they never reached he location of the intended minefield and when our men opened fire t BENZ and one messenger were killed while the SGT and the other essenger were wounded and taken prisoner.

3535

SECRET

The 86th Panzer Engineer Bn left the 9th Panzer Div during the night 14/15 October and were to reach KELLEN (NE of KLEVE) by afternoon of 16 October. From KELLEN they proceeded via KLEVE to KRANENBURG. The entire trip was made by army trucks. PW stated that entire Bn was attached to 84th Inf Div for mine-laying purposes. PW states that Div CP of 84th Inf Div is located in building near church in KELLEN and that while passing through KLEVE he saw four (4) assault guns (self-propelled, cal. 8.8 cm) dug in in the eastern outskirts of the town. The 1st Co CP is located in KRANENBURG.

The minefield: The Anti-Tank mines were to be laid at a lateral distance of 4 meters between mines. The rows were to be two meters apart and staggered.

The "Riegel" mine is approx. 70 centimeters long and 12 to 15 centimeters wide. It is believed to contain more explosive than the old Teller mine. (PW estimated weight at 10 kilogram). The housing of the mine is metal. The mine can be made safe by the insertion of two pins approx. 20 cent. long into two respective recesses on the side of the mine approx. five cent. from each end.

Morale:

Both PW's were Austrians and wounded; they told the old story of being fed-up with the war. One of them carried an Allied "Safe-Conduct" leaflet with his papers, stating that 'it might come in handy at some time'.

They knew little about the 84th Inf Div to which they were attached at the moment, except that the personnel of that Div came from replacement and convalescent units, also from air-corps ground crews.

One PW stated that he had heard a rumor that the 9th Panzer Div was about to move down to the AACHEN sector.

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
18 OCTOBER 1944

INTERROGATION REPORT NO. 13

1. UNIT IDENTIFIED IN CONTACT.

Unit	No. PW	Place	Unit
1st Co 86 Pz Pi Bn	2	(773563)	325 Inf

2. UNIT ORGANIZATION AND STRENGTH.

a. The 1st Co of the 86th Pz Eng Bn has only 2 platoons of approximately 30 men each although PW stated they had only 27 men in their platoon. The Bn has 3 Cos and the other 2 Cos correspond to the 1st in strength. The present strength of the unit was attained only after a company of replacements was received from the 80th Eng Repl Bn in GERMANY and divided among the 3 Cos.

b. The equipment of the Bn may be deduced from the following information taken from a document found on PW which represents his platoon:

4th Squad	5th Squad	6th Squad
1 MG 42	1 MG 42	1 machine pistol
2 boxes ammo 500 rnds	2 boxes ammo 500 rnds	1 MG 42
rifle ammo 540 rnds	rifle ammo 480 rnds	4 boxes ammo 1,-000 rnds
1 pistol	8 rifles	rifle ammo 540 rnds
9 rifles	11 hand grenades	9 rifles
1 Very pistol	1 Faustpatrone	6 hand grenades
1 tool case		1 Panzerfaust
1 reserve barrel		
16 hand grenades		
1 Faustpatrone		

3. ORDER OF BATTLE: The 86th Pz Eng Bn is a part of the 9 Pz Div. It has been engaged with the rest of the Div in the ARNHEM sector. On 14 Oct the 1st Co was attached to the 84th Inf Div. PW stated that the rest of the Bn was still with the Div and that he thought the Div was either withdrawn into GERMANY to rest and re-fit or was to be committed in the AACHEN sector.

4. TROOP LOCATIONS.

a. 84th Div CP - (917568) in the immediate vicinity of a church building in KELLEN.

b. 1st Co of 86th Pz Eng Bn is bivouacked in houses along road SE of KRANENBURG in vicinity of (814558).

5. MISCELLANEOUS.

a. PW were captured when their platoon went out on mission of

3535

laying a mine field. They had just started staking out area for the field when attacked by our patrol. The field was to be installed in vicinity of PW capture.

b. The minefield was to have a 48 metre front with a single row of 48 anti-personnel mines (wooden cases) spaced at 1 metre intervals. A double row of Teller mines, 12 in each row and spaced 4 metres apart, was to be installed 2 metres behind the row of anti-personnel mines. Then behind this, also a double row of 12 each, and 2 metres behind the Teller mines, were to be "Riegel" mines. PW, a WEHRMACHT engineer for 5 years, stated that this was a new mine to him. He described it as being 67 cm long, 8 cm high, and 15 cm wide. The outer casing is a light weight metal and the entire mine weighs approximately 10 kilograms. The mine is intended as an anti-tank and anti-vehicle device, and is installed flush with the ground level.

c. One of PW had propaganda leaflet among his papers. When questioned about it, he was rather non-committal: "One never knows."

S-2 PATROL REPORT

Two man patrol of Corporal Smith and Pfc Heath left our outpost line at 725700 at approximately 2330 hour on the 16th of October and moved by the most direct route to the canal at 730712 where a board bridge is located. They lay within sight of this bridge and watched two Germans go up and down the canal calling "Comrade" for the purpose of checking the men in their holes. The patrol assumed that this was done about once an hour. They waited for about 30 minutes, allowing time for the Germans to become drowsy, then Cpl. Smith moved forward and crawled across the plank bridge. Nothing happened, so Pfc Heath followed him. They then boldly walked down to the southwest and crossed the second bridge just as the Germans had done. The crossing was made at 010001. From that point on they moved down the ditch to approximately 733715. Meeting no enemy, they continued by the most direct route to approximately 739732. They reached this point at 0300 hour. Here they heard the noise of digging and estimated it to be about a squad of men. They moved to the west along the road (739722 - 730725) to the patch of woods at 730727. There was a line of entrenchments generally along this road. They then turned north again and made their way to the buildings in the orchard at 743732. The buildings had recently been burned. In the vicinity of the buildings they found a platform scale built into the ground, one board of which was loose. They tore up the board and crawled under the platform scale and slept from 0600 Hr to 0900 hour.

At 0900 hour, noticing no activity, they moved out for local reconnaissance. There was no sign of Germans in the vicinity. They stayed in the corner hedgerow at (744732) in observation. Between the hours of 0900 and 1000, they saw two Germans push a cart in amongst the buildings at 745737; one civilian walk down the road at 746735; and one German walk along the dyke at 744738. They inspected the line of entrenchments along the road (745732 - 732740). At 1130 they moved to the house at 740733. The house had evidences of having been used by the Germans in the past, as they found a switchboard, German equipment, some odds and ends of food, motor oil in the barn, and places where four men had slept. There was an ME 109 that had been shot down in the orchard in the rear of the house. At 1400 hour they observed a German walk in amongst the buildings where they had spent three hours in hiding. The patrol stayed in the building until 1800 hour. The patrol left the house and moved to the dyke at 741-738. They observed that the buildings in the vicinity of the dykes were occupied. The dyke was about 25 feet high. On top of the dyke was a cement, paved road. They saw a 3/4 track, well armored, move northwest on the dyke at 1830 hour. They went onto the dyke and walked east on the dyke as far as 749741. They observed entrenchments on the reverse slope of the dyke, similar to those found on the canal. Then they retraced their steps back to the point from where they had

3535

climbed onto the dyke. While on the dyke, they were passed by one small vehicle going east containing six men, which almost ran them down, and by one German walking, that took no notice of them.

The patrol moved back to the house at 740733 to study their map and plan their way back to our lines. At 2030, they started their trip back to our lines. They did not "sneak and peek", but rather walked boldly down the road to the point 744732, turned south and followed the road down to point 739722. At this point, the night previous, they had heard digging. At this time, however, the location seemed to be unoccupied. They continued on their way to the dyke by the shortest route. They were at the dyke by 2130 hour. They walked across the first bridge, down the center dyke between the two canals, across the second bridge and into the field on our side of the canal. There they stopped to formulate a plan for capturing a prisoner.

Their plan formulated, they nonchalantly walked back onto the bridge and down onto the path at the base of the reverse slope of the canal. They moved up the canal to the northwest. At the first hole, Pfc Heath called "Comrade". There was no answer. The hole proved to be empty, so they went on to the next one, which was a large machine gun emplacement, with sleeping compartments in it. Here Pfc Heath again called "Comrade". This hole also was vacant. At the third hole, his call of "Comrade" was rewarded by the head and shoulders of a German soldier. It was a simple matter to make it clear to the man that he was being captured by shoving a TSMG muzzle into his face. The man raised his hands over his head without hesitating. He was motioned out of his hole, told to put his hands down and the party of three walked briskly down the canal up to the bridge and onto the field towards our line. From this point on, it was a simple matter to make their way back to our forward positions.

G-2 NEWS SUMMARY

This news review is from LONDON BBC broadcasts:

Troops of the British Second Army gained more ground in the VENRAIJ area, including the town itself, and also took vital road junctions.

The Germans in the SCHELDT Estuary are battling grimly, although there were some signs they may be setting off demolitions. The Canadians reached a point seven miles from a town on the SCHELDT Coast.

North of ANTWERP the Canadians increased their hold on a village commanding the escape route.

Fighting continues in AACHEN. The Germans made a counterattack north of AACHEN, but it amounted to little.

Gen. PATTON's men gained a mile and were within 4 miles of METZ The Americans in the BELFORT area advanced despite enemy counter-attacks.

The U. S. Eighth Air Force sent 550 bombers out today to attack COLOGNE. Part of the Fortresses and Liberators also hit the KASSEL area. Earlier, Bomber Command had heavies over a rail center 15 miles south of COLOGNE.

Diplomatic representatives of HUNGARY in SWEDEN and SWITZERLAND have refused to recognize the puppet government in HUNGARY which was set up after the Regent announced he was seeking Armistice terms with the Allies. Nothing has been heard from Admiral HORTHY since. The situation in HUNGARY is still unknown, but there are reports a considerable portion of the First Hungarian Army is fighting with the Russians.

During the past two days 4,000 Germans resisting the invasion of BELGRADE have paid with their lives. Fighting continues in the heart of the city against the remnants of three German divisions. The Germans, who still hold two districts of the city, have no possible way of escape.

The Greek Prime Minister arrived today in ATHENS and with his cabinet took over affairs in the city. Scores lined the streets to see him and the city was beflagged. It was made known today that

3535

when rival political factions clashed Sunday in ATHENS 8 persons were killed and 40 injured.

Greek guerrilla bands are to be organized into a single army to fight with the Allies.

Beyond RIGA the Reds have pushed the Germans 20 miles toward their only escape port and the Soviet air force is intermittently hammering this port.

Every male in GERMANY between 16 and 60 years of age will be a member of the Armed Forces, the HITLER government decreed today.

A German announcer compared the new organization to the English Home Guard. They will not wear uniforms but will have special insignia.

A LONDON news commentator said one of the principal purposes of the German "Home Guards" undoubtedly would be for use in case of airborne attacks.

LONDON again had more flying bombs.

Reports from the PACIFIC told of new carrier-borne attacks on the PHILIPPINES.

SUBJECT: Probabilities of Flooding Areas in the Vicinity of Nijmegen by Breaks in the Dykes.

TO : Commanding General, 82nd Airborne Division, A.P.O. 469, U. S. Army.

THROUGH: G - 2, 82nd Airborne Division, A.P.O. 469, U. S. Army.

1. Submitted herewith is a report of investigation on the probabilities of flooding areas in the vicinity of Nijmegen by breaks in the dykes.

2. Critical water levels mentioned in Appendix IV were not underlined in copy supplied by Mr Bekendam.

APO 469, U. S. ARMY

21 October 1944.

PROBABILITIES OF FLOODING AREAS IN THE VICINITY OF NIJMEGEN BY BREAKS IN THE DYKES

This report includes a statement signed by B. G. KRIETER (Civilian) (The Technical Chief Inspector of the Rhine-Waal Area) and by R. BEKENDAM (Civilian) (The Waterways Inspector of the Province). A translation of the statement is included.

Also included is data of the "Highest and Lowest Water Levels at Nijmegen"; a data sheet showing a closer study of water levels during critical periods; and a map showing the weakest points in the dykes.

Summarizing on the topic the following can be said. The water level of the Waal needs watching when it reaches 9.5 meters at Nijmegen for flooding is possible. A 1 meter rise above this level is not serious but when it exceeds 1 meter the danger of damage by flooding becomes serious. By studying the elevations of the ground as shown on our 1/25,000 maps (in meters) areas that would be flooded in case of a break in the dyke can be determined. The gradient of the Waal is 13 cm per kilometer for study of the Waal at points other than Nijmegen. Although generalizing on probable water levels cannot be accurately determined from the available data it looks as if there is no danger of flooding until the Spring of next year when the high level exists over longer periods of time.

The XXX Corps (British) is taking readings at Nijmegen and other points twice daily. Today's water level is 8.4 meters at Nijmegen. (The guage is located at the ponton bridge site.)

Mr. R. Bekendam (address: Witsenburgschelaan 36, Nijmegen) states that there is a Diesel driven pump at Nijmegen that pumps the water out of the basin formed by the dykes East of Nijmegen. An outage of this pump would not be serious except when a sustained high water level exists. A similar pump is located at Gorinchem 410563 (1/100,000) that drains the basin (Island) North of Nijmegen. This pump is in enemy hands. This is a major installation so that if it were destroyed replacement would be difficult and flooding of the "Island" in the Spring would be very likely.

XXX Corps will include water levels of the Waal in their reports.

E. A. Bedell

E. A. BEDELL,
Major, 307 A/B Engr: Bn.,
Division Engineer.

Beknopt rapport
betreffende de hoogwaterstanden op de Waal en de Rijn in verband met overstroomingsgevaar van de Betuwe tengevolge van het eventueel doorsteken van de bandijken.

3 bijlagen.

Op verzoek van den Chef van den Inlichtingendienst is door ondergeteekenden nagegaan in hoeverre, gezien de tegenwoordige militaire situatie, tengevolge van het doorsteken der dijken van de Waal en de Rijn gevaar voor overstrooming van de Betuwe zou kunnen ontstaan.

Daarvoor zijn in bijgaanden staat (bijlage I) verzameld de hoogste en laagste waterstanden van de Waal te Nijmegen voor iedere maand vanaf 1917. Overstroomingsgevaar ontstaat, wanneer na het doorsteken van de dijken op bepaalde punten het water gedurende eenigen tijd te Nijmegen het peil van 9.50 m.+ N.A.P. met tenminste 1 m. overschrijdt.

Op genoemde staat zijn de waterhoogten, waarbij in een dergelijk geval gevaar voor overstrooming ontstaat, rood onderstreept, terwijl geringe overschrijdingen van een groene lijn zijn voorzien.

Een peil van 9.50 m.+ N.A.P. correspondeert in verband met het verhang in de rivier ongeveer met een peil van 11.50 m + N.A.P. bij de splitsing d er rivieren te pannerden, terwijl er tevens rekening mee moet worden gehouden, dat het verhang der rivieren ongeveer evenwijdig loopt met de terreinhelling van de Betuwe van Oost naar West. Bij eenigszins langdurige overschrijding van dit peil ontstaat dus voor de geheele Betuwe overstroomingsgevaar, wanneer de rivierdijken worden doorgestoken.

950 a2c/122 r

Over 't algemeen liggen buitenwaarts (rivierwaarts) van de hooge bandijken s.g. buitenpolders, die door een meer of minder hooge kade deze polders beschermen tegen hooge zomervloeden, doch die bij zeer hooge standen, die gewoonlijk in den winter voorkomen, innundeeren.

De gevaarlijke plaatsen, die met kans op overstrooming voor het doorsteken in 't bijzonder in aanmerking komen zijn derhalve gelegen op die plaatsen, waar geen buitenpolders met bekading voorkomen, waar het binnenstroomende water de minste belemmering ondervindt en niet eerst de vaak vrij hoog gelegen buitenpolders behoeft te passeeren.

Bijlage III

Op mede bijgaand topografisch kaartje zijn deze plaatsen met een roode lijn aangegeven. Wordt dus op één of meerdere dezer plaatsen de dijk doorgestoken, dan ontstaat na overschrijding van het critieke peil van 9.50 m. te Nijmegen met plm. 1.-m. gedurende b.v. een week een overstrooming van de Betuwe, waarbij het water zich van Oost naar West een weg zal banen.

Uit bijlage I moge blijken, dat in het voorjaar vaker hoogwaterstanden voorkomen, dan in het najaar. De verhouding is ongeveer als van 3:2. Een vaste regel is dit echter niet.

Teneinde een voorstelling te geven omtrent den tijdsduur van de hoogwaterstanden, zijn in bijlage II opgenomen de perioden, waarop sinds 1934 te Nijmegen het peil van 9.50 m.+ N.A.P.

Appendix III sheet 1

E.A.P. werd overschreden en waarop tevens de waterstanden te Hulhuizen, nabij het splitsingspunt van Rijn en Waal, zijn aangegeven.

Uit één en ander moge blijken, dat gedurende den gehelen a.s. winter en dus ook in het najaar, hoog water is te verwachten en wil men overstrooming van de Betuwe tengevolge van vijandelijke handelingen voorkomen het absoluut noodig is, dat de dijken sich vast in geallieerde handen bevinden, terwijl ook dan nog voortdurend dijkwacht moet worden gehouden en op de minste punten voldoende materiaal gereed moet liggen om ontstane gaten, voor ze door uitspoeling grootere afmetingen verkrijgen, te kunnen dichten.

Tenslotte zij volledigheidshalve nog opgemerkt, dat bovenstaande evenzeer geldt voor de Zuidelijke Waaldijk van Nijmegen tot Tiel, die de gebieden van het Rijk van Nijmegen en van van het Land van Maas en Waal tegen overstrooming beschermen.

Nijmegen, 19 October 1944.

De Techn. Hoofdambt. v.d. R.W.: B.G. Kreiter.

De Waterbouwkundige van den Prov. Wat.: R. Bekendam.

SECRET

Report Concerning The Highwater Levels on the WAAL And The RHINE in Connection with Danger of Floods in the BETUWE Region as a Result of the Breaking of Dikes.

The undersigned have investigated on request of the Netherland Intelligence Service whether there would be a danger of floods for the BETUWE, in view of the possibilities that dikes may be broken on account of the military situation.

Therefore data have been collected (Appendix I) showing the highest and lowest levels of the WAAL RIVER at NIJMEGEN for every month since 1917. Danger of floods starts when, after the dikes have been cut on certain points, the water level for some length of time at NIJMEGEN exceeds the level of 9.50 M. over AMSTERDAM sealevel by at least one Meter.

On this appendix one finds the water levels, through which in such a case danger of floods starts, underlined red. Smaller excesses of this level are underlined green.

A level of 9.50 M. over AMSTERDAM sealevel corresponds in connection with the downward course of the river to a level of 11.50 M. over AMSTERDAM sealevel at PANNERDEN where the RHINE is split in two. One should also take into account that the downward couse of the river runs about parallel to the terrain levelling of the BETUWE from East to West. In case the above mentioned level is exceeded for any length of time, a danger of floods exists for the entire BETUWE, when the river dikes have been cut.

Generally on the outside of the dikes towards the river there are "outside polders", which are protected by not very high dams against floods in the summer. However these "polders" usually get flooded during the winter, when the water level is higher.

The danger spots for flooding therefore are those spots where there are no "outside polders", so that the water there has no obstacles of these dams, surrounding these fairly high "outside polders".

On Appendix III these spots are indicated by a red arrow. In case the dike is cut on one or more of these spots, a flood will take place in the BETUWE after exceeding the critical level of 9.50 M. at NIJMEGEN by one Meter during one week. The water then will flow from East to West.

From Appendix I it appears that in spring the high water levels are more frequent than in the fall. The ratio is about 3 : 2. However it is not a rule.

Appendix II shows the duration of the high water levels, during which since 1934 at NIJMEGEN the level of 9.50 M. over AMSTERDAM sealevel has been exceeded. Also the water levels at HUILHUIZEN are shown near the point where the RHINE and the WAAL split.

From the above it should become clear that during the entire coming winter, also during this fall, high water may be expected. If one will prevent the flooding of the BETUWE as a result of actions by the enemy, it will be necessary that the dikes are fully under Allied control. A "dike guard" must be kept and there should be enough material available near danger spots so that possible cuts in the dikes can be stopped immediately before these cuts become large as a result of washing out of the dike.

SECRET

Appendix IV
Sheet 2

Report - Re Floods in the BETUWE Region (Cont'd). Page 2.

Finally the above also goes for the Southern WAAL dike from NIJMEGEN to TIEL that protects the territory between MAAS and WAAL against floods.

PATROL REPORT

At 2445 Hr. the 2d. Bn. 2 man patrol left E Company's CP, with the mission to cross the canal and reconnoiter the far side. The patrol moved to the orchard at 743695 where enemy MG fire was encountered. The patrol crawled from under this fire, moving generally NE to a point about 50-70 yards from the canal. At this point the patrol remained in observation from about 0300 hr. to 0350 Hr. and was able to locate an MG at each of the following positions: Inside or in front of the house at 746698; at 746699; on dike at 74506995. These MG's fired rather consistently. The patrol decided it was too late at this time to attempt a canal crossing, and crawled back to our lines. Time of return, 0530.

The 2, three man patrols sent out by 3rd Bn. reconnoitered from 2000 hr. to 0500 hr. and reported having made no contact with the enemy.

As of 0900 Hr, a 3 man patrol from the 2nd Bn, whose mission it was to reconnoiter this side of the canal, had not yet reported in. The patrol was last in contact at 2200 Hr.

PATROL REPORT

At 2130 hours 16 October, 1944 a two man rcn patrol, Cpl. King S. Burke and Pvt Hughes, left Battalion Hdqts. with the mission of crossing the canal to the 3rd Bn. front and remaining in a position from which they could listen and observe any activity or traffic on the road from 7 9772l to 759721, also road from 476716 to 741711.

The patrol was armed with 2 TSMG's and carried 1/3 "K" ration, belts, canteen, first aid packets, grenades and side arms. No helmets were worn.

The patrol left the H company CP at 720690 at 200 hours and by using a crouched walk were able to move to a point about 100 yards from the canal bank at 737708 and heard Germans moving and speaking at that point. The patrol then moved to another point on the canal at 736707 and crossed the canal at this point at 2400 hr. Cpl. Burke reported the canal to be waist deep with a foot of mud on the bottom.

By creeping and crawling, the two men crossed the central dyke and then the farthest ditch unobserved and cautiously made their way NW with the intention of skirting the woods at 740715 because of our own artillery which was scheduled to fall there.

Because they knew nothing of enemy dispositions byond the canal, the patrol moved with caution until themen reached a point where they could observe and hear any traffic that moved on the the two roads they were instructed to reconnoiter. At 0430 hour, 16 Oct, 1944 they established an OP in a straw pile at 741721 and remained till 1900 hour.

Before dawn the 16th, the patrol heard onemotorcycle and two vehicles moving SE on BERGENDESCHE STRAAT and all traffic in their vicinity stopped for the remainder of the day.

At 0730, eight enemy troops unarmed and without equipment, were seen moving in the orchard at 738712 and no other movement was observed until 1630 hour when four enemy troops with full equipment were seen moving SW on a sunken road which runs from 737722 to 730712 until they disappeared near the canal.

No other troop movement was seen and after dusk, Cpl Burke and Pvt Hughes started back. From a point near an orchard not shown on themap at 7727714 considerable activity could be heard in the orchard. At this point, both men were crawling and continued to do so until the canal was reached. They recrossed the dyke at 731711 and reported in to 3rd Bn HQ at 0100 hr. Two groups of 4 men were heard moving S on the road from 7 772.. to 730712.

Both men reported no visible activity on the canal during the entire day except the four men noticed. At the most, they saw twelve men during the entire day and heard approximately twenty moving in the orchard mentioned above. Emplacements (individual with cover) were found along a line 7 E BERGERDENSCHE ZWEG but were not investigated.

PATROL PLAN 19/20 OCT - 25/26 OCT

1. The patrols prescribed herein are the minimum requirements for the period from the point of view of Division Headquarters. Commanders may and should order such additional patrols within their sectors as are necessary to (1) Maintain the initiative in no man's land; (2) Keep in touch with the enemy's development of front line installations; (3) Detect any change in present defensive attitude of the enemy; and (4) Obtain and maintain knowledge of the identity of enemy units facing them.

2. a. Night 19 - 20 Oct. No patrols prescribed.

b. Night 20 - 21 Oct.

504th Frcht Inf: Rcn patrol (not larger than three men) to proceed to KRANENBURG - NIEL Road and observe movement from concealed position as close to KRANENBURG as practicable during daylight 21 Oct. Return to our lines night 21 - 22 Oct.

c. Night 21 - 22 Oct: No patrols prescribed.

d. Night 22 - 23 Oct:

505th Frcht Inf: Rcn patrol (not larger than three men) to KEKERDOM - LEUTH Road and observe movement from concealed position as close to KEKERDOM as practicable during daylight 23 Oct. Return to our lines night 23 - 24 Oct.

3592

e. Night 23 - 24 Oct: No patrols prescribed.

f. Night 24 - 25 Oct.

325th Gli Inf: Rcn patrol (not larger than three men) to vic factory south of KRANENBURG to observe movement from concealed position during daylight 25 Oct. Return to our lines night 25 - 26 Oct.

g. Night 25 - 26 Oct: No patrols prescribed.

3. a. Patrol plans for above patrols and those additional patrols prescribed by units, including routes and time schedules, will be submitted to G-2 daily by 1700.

b. Patrol reports on all patrol activity for previous night will be submitted to G-2 daily in quadruplicate by 0800.

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
19 OCTOBER 1944

PATROL PLAN 19/20 OCT - 25/26 OCT

1. The patrols prescribed herein are the minimum requirements for the period from the point of view of Division Headquarters. Commanders may and should order such additional patrols within their sectors as are necessary to (1) Maintain the initiative in no man's land; (2) Keep in touch with the enemy's development of front line installations; (3) Detect any change in present defensive attitude of the enemy; and (4) Obtain and maintain knowledge of the identity of enemy units facing them.

2. a. Night 19 - 20 Oct. No patrols prescribed.

b. Night 20 - 21 Oct.

504th Prcht Inf: Rcn patrol (not larger than three men) to proceed to KRANENBURG - NIEL Road and observe movement from concealed position as close to KRANENBURG as practicable during daylight 21 Oct. Return to our lines night 21 - 22 Oct.

c. Night 21 - 22 Oct: No patrols prescribed.

d. Night 22 - 23 Oct:

505th Prcht Inf: Rcn patrol (not larger than three men) to KEKERDOM - LEUT Road and observe movement from concealed position as close to KEKERDOM as practicable during daylight 23 Oct. Return to our lines night 23 - 24 Oct.

File

e. Night 23 - 24 Oct: No patrols prescribed.

f. Night 24 - 25 Oct.

325th Gli Inf: Rcn patrol (not larger than three men) to vic factory south of KRANENBURG to observe movement from concealed position during daylight 25 Oct. Return to our lines night 25 - 26 Oct.

g. Night 25 - 26 Oct: No patrols prescribed.

3. a. Patrol plans for above patrols and those additional patrols prescribed by units, including routes and time schedules, will be submitted to G-2 daily by 1700.

b. Patrol reports on all patrol activity for previous night will be submitted to G-2 daily in quadruplicate by 0800.

Subject: Result of Patrol Activities for night 18-19 October 1944.

To : A. C. of S., G-2, 82d A/B Division, APO 469, U. S. Army.

The following are the results of patrol activities for night 18-19 October 1944:

A Combat patrol consisting of 25 men operated during the hours 0300-0500 19 October 1944. The patrol left "H" Co OPL and went to House (771578). At this point the patrol split into two groups to continue on mission. (The Intelligence section (10 men) had earlier found this house unoccupied)

The first group went to CR 773577, received MG fire from House at 772576; proceeded to creep and crawl - discovered a four man enemy listening post in vic of house at 772576. At this point a fire fight developed and the patrol shot 3 of the enemy, the fourth man escaped into the darkness. The Patrol leader (1t Smith) was WIA). The patrol then continued on, checked house at 773576 and foxholes on road south of CR 773577 - these positions were found to be unoccupied.

The second group went to house at 773577 - found enemy positions (about 20 foxholes, dugouts, etc), which were dug in around the house and along hedgerow extending North and South. (All positions were unoccupied). As the patrol approached the house at 773577, 2 enemy were observed fleeing in the direction of VOSSENDAAL.

Both groups rendezvoused at 774576, preparing to move to VOSSENDAAL.

Patrol returned at 0515.

APO 469, US ARMY,
IN THE FIELD,
10 OCTOBER 1944

G-2 NEWS SUMMARY

The following is from LONDON BBC broadcasts:

Signs of weakening by the German forces were apparent today in the SCHELDT Estuary as the Canadians improved their positions and got within 1½ miles of a point vital to the Germans.

The Canadians have taken a large number of prisoners. Flooding caused the Germans to withdraw many of their AA guns. It is evident that the enemy must battle hard if he holds on long to the 60 square miles of land now in his possession.

Typhoons broke up a strong concentration of enemy tanks in the SCHELDT area.

In the VENRAIJ region the British Second Army consolidated its forces and moved closer to the MEUSE.

Allied bombers struck today at the important supply centers of MANNHEIM and LUDWIGSHAVEN.

BERLIN today admitted the loss of a small town on the East Prussian frontier, but MOSCOW kept silent concerning the strong offensive the Germans say the Reds are waging. The town which the Nazis admit losing is between 500 and 600 miles from the fartherest point of the German drive into RUSSIA a few months ago.

While MOSCOW was mum about their reported 50-mile front along the East Prussian frontier, the Red air force continued to pound rail junctions vital to any efforts they might make in EAST PRUSSIA.

BERLIN also admits a Soviet push from the CARPATHIANS into CZECHOSLOVAKIA. Allied reports of the 170-mile front there said the people ran out to welcome their liberators, much as they had on the Western Front. The Red forces pushing into Eastern CZECHOSLOVAKIA moved through an important pass and captured a town in Northern TRANSYLVANIA, then effected a link-up with their brothers moving up from the South.

JAPAN today broadcast a story that the Americans had invaded an island in the Central PHILIPPINES, but the Americans issued no communique regarding the sector. The Americans yesterday did bomb tar-

3665

gets off this island and the report of the invasion therefore seemed possibly true. The Japs also told of another big air attack on MANILA, this report also being unconfirmed by Allied sources.

Indian troops have been principally responsible for the capture of TIDDIM, 6,000 feet up in the hills, after advancing 130 miles in 71 days. Much of the 130 miles the Allied forces traversed jungle and hill country. They are now pursuing the enemy a mile beyond TIDDIM.

Prime Minister CURTIN of AUSTRALIA said "increased effort" is marking preparations there for the big push against JAPAN.

In an Order of the Day HITLER announced that Field Marshal ROMMEL died Oct. 14 of injuries sustained in an automobile wreck. HITLER did not attend the funeral, but four German generals guarded ROMMEL's remains until cremation.

Prime Minister CHURCHILL and Foreign Secretary EDEN were guests last night at a Russian state dinner in MOSCOW. The official report of the dinner said a "very real understanding" had grown up between Mr. CHURCHILL and Marshal STALIN.

G-2 REPORT

FROM: 190001 OCT 1944.
TO : 192400 OCT 1944

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
192400 OCT 1944.

NO. 123.
MAP: GSGS 4427, 1/25,000, Sheets 6 SW, 12 NW; GSGS 4414, 1/25,000, Sheets 4102, 4202.

1. ENEMY SITUATION AT END OF PERIOD.

a. Enemy Front Line: No change.

b. Defensive Organization:

(1) See Annexes 1 and 2.

(2) Ey mortars located today and engaged by Allied Arty: Nebelwerfers at 732563, 80285533, 80695536, and two Nebelwerfers at 80785533; mortars at 77375696, 79245398, 79605567, 77335664 (Div Arty).

(3) Mortars at 777613 (505).

(4) MG at 77615831, also 14 ey digging at same point. Diggers dispersed with mortar fire (504); ey digging at 801561 (325).

(5) Arc of wooden stakes in ground between 767600 and 769-605. Observer believed stakes might mark minefield or carry wire to be set off by night patrols (505); (for other ey mining activity see also Annex No. 1 to this report and Annexes 1 and 2 to G-2 Report No. 122.)

c. Units in Contact:

The identification (PW taken by 325th Gli Inf) of the 84th Fus. Bn in the DEN HEUVEL sector today disposes of the Prcht Lehr Bn, from the HERMAN regiment, in this area, in addition to further confirming the presence of the 84th Division to our front. PW's statement that his organization relieved a parachute unit 17 Oct gives an indication of the date on which the HERMAN unit left our front. It is logical to assume that Prcht Bn LORENZ vic WYLER has also been relieved by the 84th Division.

PW's statement that reliefs are made every twelve days, if correct, means a change-over vic DEN HEUVEL on 29 Oct.

A PW was taken by 505th Prcht Inf from 2nd Co, 1052nd Regt, night 19 - 20 Oct vic 787622. This tentatively places 1st Bn, 1052nd Regt, in the THORENSCHE MOLEN sector, replacing Battle Group LEVIN, and abreast of the 2nd Bn, 1052nd Regt, previously identified along the QUER - DAMM.

3668

d. Artillery - Location and Caliber.

(1) Gun at 82106171 engaged by 456 FA (Div Arty).

(2) Extremely slight recent enemy artillery activity precludes an estimate of number of pieces now facing us (Div Arty).

e. Reserves and Other Forces Capable of Intervention: No change.

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary:

An attempt by the 325th Gli Inf to raid the DEN HEUVEL WOODS with a reinforced platoon on the night 18 - 19 October was met with brisk small arms fire. The enemy is still very touchy about this piece of terrain. Our other patrols during the night 18 - 19 October discovered no major enemy activity.

Enemy artillery fire was very light during the period. Evidence of improvements in enemy defenses continues to be received.

b. Operation of Component Elements.

(1) Artillery Shelreps.

Unit Reporting	Time	Location	Direction (Azimuth)	No. of Rds.	No. of Guns	Cal.	Interval
325	0100	755572(a)	120(b)	Two gun flashes seen.			
325	1030	755572(a)	85(b)	?	?	?	?
320 FA	1801	767576	120	1	1	?	?
320 FA	1810	75535632	115	1	1	?	?
320 FA	1815	75725726	120	12	?	Nblwfr	?
320 FA	1820	75535632	125	?	?	?	?
320 FA	1825	75725726	115	6	?	Nblwfr	?

(a) Location of observer.
(b) Azimuth from observer.

(2) Aviation, Combat: Two flights by ey aircraft over Div area early evening of 19 Oct.

c. Miscellaneous: Flying bomb launched at 1900 on Az of 69° from 773585 (504); flying bomb passed over 754618 on course 320° Magnetic Azimuth at 1930 (505).

3. MISCELLANEOUS.

a. Enemy Casualties:

(1) Estimated Killed: No estimate.

(2) Prisoners of War:

(a) Taken during period of report: 1.
(b) Taken to Date: 2,980.

b. Weather:

(1) During period: Cloudy to partly cloudy. Scattered showers.

(2) Outlook for coming 24 hours: Showers.

4. ENEMY CAPABILITIES: No change.

ANNEX NO. 1 TO
G-2 REPORT NO. 123

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
19 OCTOBER 1944

INTERROGATION REPORT NO. 14

1. UNIT IDENTIFIED.	NO. PW	PLACE	BY
2nd Co 84th Fus Bn	1*	(773562)	325 Inf

2. UNIT STRENGTH AND ORGANIZATION: The 84th Fusilier Bn was reorganized in vicinity of WAHN, GERMANY, during September. The Bn once more has 3 Rifle Cos and a Hy Wpns Co. The Rifle Cos have 3 platoons in each, but do not have more than 70 men per Co. The interesting thing to note at this point is that the replacements all came from the navy. According to PW statement, GERMANY is denuding such ports as WILHELMSHAFEN, BRAKE, etc., of navy people and putting them to work as doughfeet. The only information on the armament of the unit is that they have only 2 LMG per platoon. The 3rd Squad in each case is equipped with the Panzerfaust.

3. TROOP LOCATIONS.

a. PW does not know if any other Co of the Bn is committed at present. The 2nd Co relieved a para unit on night of 17 Oct in vicinity (773563). PW stated that the rest of the Bn was bivouacked in the school building in KRANENBURG. They had been told that we would not attack in this area, and that theirs was purely a defensive mission. PW said that the area to their front was mined and that they were also to string some barbed wire in the next day or so.

4. MISCELLANEOUS.

a. PW states that all civilians were evacuated from KRANENBURG on about 15 Oct.

b. PW stated that he ran into a "Bouncing Betty" when coming through the lines. By throwing himself to the ground he was not hit.

c. PW complained bitterly about being shot at by our troops while he was coming over to surrender. Both he and his comrade, who was killed, were unarmed. He did not, however, explain how our men were to know that he was unarmed and wanted to surrender. (They came across at midnight and did nothing to identify themselves as they approached our lines.)

19 OCTOBER 1944

HQ 505TH PRCHT INF
IN THE FIELD
191300 OCTOBER 44

INTERROGATION OF CIVILIANS.

1. Six civilians were picked up by "D" Co, 505th Prcht Inf, on the WAAL River vic of ERLEKOM at approx 2330 night of 18/19 October. One of these civilians, Corneles de Groot, was identified by the Mayo of BEEK, Mr. Sassen, and recommended by the Mayor for intelligence an truthfulness.

2. Civilians were Corneles de Groot with his wife and baby and Jan Advokaat with his wife and baby.

3. They were living in factory at 797643 (KEKERDOM). When they received the order that all civilians had to be evacuated on 19 Oct, they escaped down the river into our lines. They left in rowboat at 2300 and were picked up at about 2330. They kept near to North Side of River above factory at 784637 at ZANDBERG and then came toward the middle as they knew there were troops in the vic of the factory. Mr. de Groot gave the following information:

a. The Germans have given the order that the area of KEKERDOM, ZANDPOL, LEUTH, MILLINGEN, and ZEELAND be evacuated today (19 Oct).

b. In the factory 797643 there were 50 Germans up to yesterday (18 Oct). Yesterday about 130 new men moved in, making a total of 180 men.

c. Hq is in office bldg at 79786436. Troops are living in stable at 79846444, in bldgs at 79686424 and 79646424. These last two buildings mentioned have roofs six feet thick. Troops are also living under bridges over narrow gauge RR (not on map) at 80146390 and 79686398. These are small concrete bridges. They are built over ditches which are now dry. Troops are also in bunkers at 79586398 and vicinity.

d. MGs are at 79586398 and 79646396. These are placed on the ends of a building which has only a roof (see photo - not on map) Mortar at 80366368. Three AT guns in orchard at 825632. One of these AT guns was destroyed and five men killed by our shelling a few days ago.

e. Soldiers in factory had told de Groot that there were SS troops in factory at ZANDBERG 783637. (Our troops have seen five men at this place identified as German soldiers.)

f. Food is given to the soldiers at the factory every night at 1930 in the South end of the stable at 79846444. The food is brought by horse and wagon along the road from KEKERDOM to the factory at 79946446. Along this road there is a lot of traffic because

the road south of this, also leading to the factory, is under observation.

g. Close to the road in the field at 800634 are foxholes which are the end of the defense line during the daytime. At 2000 hr daily about 20 soldiers who sleep in the factory during the day take up positions in area around 792632. About 7 of these soldiers have AT rifles, the rest have rifles.

h. In the town of KEKERDOM, Mr. de Groot estimated that there were about 150 German soldiers.

i. During the last few days civilian labor has been working on the construction of a defense line running from 810614 along parallel to the road to MILLINGEN.

j. Two different friends have told de Groot that the Germans have one man submarine boats stationed at Van der Pool's factory on the North side of the river at MILLINGEN. These boats were to be used to go down the river to NIJMEGEN to destroy the bridges.

k. In the area of ZEELAND the Germans have destroyed one mill and the steeple of a church because our arty was using them as landmarks to zero in on.

l. Many soldiers have shown him and spoken with him about the leaflets which our arty fires. Some of them knew that it was true that the American prisoners were well taken care of, but others are afraid that they would be killed. Most, however, are afraid to give up for fear that their wives and children in GERMANY will be killed if they desert.

m. The German soldiers he has seen in this area are very poorly dressed, supplied, and fed. The morale is also very bad. Some have asked Mr. de Groot for bad vinegar which they could drink and get sick so they could leave the front.

Interrogation by M/Sgt WOLLIN, 505.

PATROL AND ACTIVITY REPORT for night 19/20 Oct.

1. Patrolling during night was screening and lateral patrols only. Patrols have no reports to make on enemy activity to the front.

2. At 2130 a raft was sighted on North side of WAAL at 734656 by Outpost No 3 at 734651. By 2200 this raft had drifted to the South side of River and came into "C" Co's hands. There were two home made seats on it but no people.

3. Remainder of night the River Bank was vigorously patrolled to find persons who might possibly been on raft. Although no one was seen on the raft, Outpost No 3 reported that when they first saw raft it "seemed" that one person jumped overboard. They could not be sure.

Subject: Result of Patrol Activities for night 19-20 October 1944.

To : A. C. of S., G-2, 82d A/B Division, APO 469, U. S. Army.

The following are the results of patrol activities for night 19-20 October 1944:

"G" Co Combat Patrol of 1 Off 3 EM left (775589) at 1920 for destination (776588) to wait in effort to 'sand-bag' enemy patrol. If no enemy patrol by 2200 - will search houses down road for PW. The patrol worked along the road to (776588) and then moved NW about 150 to 200 yards towards the edge of the woods and then 400 yards towards WYLER where contact was made with enemy force. Our patrol threw two gammon grenades which failed to explode. Then the enemy patrol fired on them using M/P. Our patrol then withdrew, hoping to draw the enemy into ambush, however this plan failed. The patrol returned at 2315 - no casualties, no PW's.

"H" Co Combat Patrol of 1 Off 5 EM left (762582) at 191900 October 1944, for destination (771578) to search house at (771578) for dead enemy and Listen. This first Patrol found no bodies, no signs of enemy activity and no enemy in area. This area is clear. This patrol returned at 2330.
Another patrol of same strength was sent out to verify this patrol&s findings. The report was the same.

"I" Co Combat Patrol of 1 Off 7 EM left (773584) at 200030 October 1944, for area vic (775582) but did not carry out original plan. Much activity was heard out along double hedgerow due East of (773584) and that area was chosen for investigation. The patrol searched out the woods immediately North of hedgerow and along hedgerow to (777584) and found that the enemy had withdrawn from woods and hedgerow, vacating their dug in positions up to (777584). At (774584) a few enemy were sighted and fired upon . One enemy was thought to hit and upon investigation no enemy was found. While returning the patrol intentionally made noises to attract enemy fire, but to no avail. Enemy motorcycle was heard vic of LAGEWALD. The patrol returned at 0430. No casualties, no PW's.

AIR NOTES No. 158

1. 83 GROUP

18 Oct.

Apart from the two tgts referred to yesterday the main effort was divided between 8 Corps front where the Forward Control Post was operating and the rail cutting programme. 454 sorties were flown.

For 8 Corps, gun posns, mortars and houses held as strong points were attacked and the RAF particularly remarked on the successful use of red smoke.

Foreign rails showed an upward trend with 73 direct hits on lines NORTH of the RUHR and running along the Dutch frontier. In the former area a large amount of REICHSBAHN property was dealt with (see results below).

Score -	Destroyed	damaged
Locos	1	19
Rly trucks	6	56
Pas coaches	-	18
River Craft	-	6
MET	4	10

(5 of our aircraft and three pilots are missing).

2. ENEMY AIR ACTIVITY

Cloud conditions made sightings largely a matter of chance and only three aircraft were sighted by our pilots all day. Two FW 190s were caught in the curious occupation of dropping parachutes and containers SOUTH of ZUTPHEN; and an ME 262 was seen over NIJMEGEN at 7000 feet. The latter made off after making two wide orbits. Probably the enemy effort in this area was larger than that described above but most of his offensive strength is engaged in the AACHEN area.

The dusk AP attacks by enemy aircraft continued.

3. BOMBER COMMAND

Day 17 Oct

59 sorties on WALCHEREN ISLAND Dykes with good results.

4. VIII USAAF

Day 17 Oct.

1,248 aircraft on COLOGNE.

/5.....

3718

5. IX USAAF

Day 17 Oct

35 bombers attacked FUSKIRCHEN.

216 Fighter and Fighter bomber sorties were flown on rail cutting.

6. 2 GROUP

Night 17/18 Oct

13 Mosquitos on AMERSFOORT - AMSTERDAM - THE HAGUE - HAARLEM areas. No movement seen but stationary lights were attacked.

8 Aircraft attacked the BRESKENS - FLUSHING ferry.

G-2 31 A

Hq 504th Prcht Inf RCT
Berg en Dal, Holland
200600 October 1944

Subject: Results of Patrol Activities.

To : A. C. of S., G-2, 82d A/B Division, APO 469, U. S. Army.

The following are the results of patrol activities conducted by units of this command during the period 19-20 October 1944:

"G" Co combat patrol consisting of 4 men left (775589) at 1900 with the mission of proceeding to 776588 and wait for the enemy to appear in an effort to "sandbag" same. If no enemy appeared at 2200, the patrol was to search houses vic 775589 in an effort to obtain a PW. The patrol worked along the road to 776588 and then moved NW about 150-200 yards towards the edge of woods and then proceeded 400 yards parallel to the road towards WYLER where contact was made with enemy forces. Our patrol threw two gammon grenades, which failed to explode, and the enemy retaliated with MP fire. The patrol then withdrew to the woods hoping to draw the enemy patrol into ambush. After waiting some time it was apparent that the enemy was making no attempt to pursue them, so the patrol returned, contacting our lines at 2315. Our patrol suffered no casualties and captured no prisoners.

"H" Co combat patrol consisting of 4 men left (762582) at 1900 with the mission of proceeding to (771578) and search house in this vic for dead enemy, removing any and all Soldbuchs that might be found. The patrol was then to stay in the vic to listen in an effort to gain further information. The patrol proceeded as per schedule to their designation and found no corpses. No signs of enemy activity and no enemy in the area was found. The patrol reported that the area was clear. At 2400 the patrol returned to our lines with no casualties, PWs or Soldbuchs.

"I" Co combat patrol consisting of 6 men left (773584) at 2400 with the mission to proceed to 775582 to obtain a PW in that vic. The patrol left our lines at the appointed time from the appointed place, but did not carry out their original plan. As they started out, much activity was heard out along the double hedge-row due East of 773584, and that area was chosen for a reconnaissance. The patrol searched out the woods immediately North of the hedge row and then along the hedge row to 777584 and found that the enemy had withdrawn from the woods and had dug in positions up to that point. At 774584 a few enemy were sighted and fired upon. One was thought to be hit but upon investigation no wounded or dead enemy were found. While returning, our patrol intentionally made noises to attract enemy fire, but to no avail. One enemy motor cycle was heard in the vic of LAGEWALD while the patrol was returning. The payrol contacted our lines at 0430 - no casualties or prisoners.

G-2 REPORT

FROM: 200001 OCT 44.
TO : 202400 OCT 44.

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
202400 OCTOBER 1944

NO. 124.

MAP: GSGS 4427, 1/25,000, Sheets 6 SW, 12 NW; GSGS 4414, 1/25,000, Sheets 4102, 4202.

1. ENEMY SITUATION AT END OF PERIOD.

a. Enemy Front Line: No change.

b. Defensive Organization:

(1) Nebelwerfer at 79975456 engaged by Allied Arty (Div Arty).

(2) Ey CP at 81146438 (civ report to 505).

(3) Ey billets at 80746428, 80886424, 80936435 and in small houses vic 81226445. "Rest Place" in factory at 802654 (civ report to 505).

(4) Ey digging activity side of road 776518 to 770510, trenches running N & S (ASP).

c. Units in Contact: No change.

d. Artillery - Location and Caliber.

(1) Amount of ey arty fire insufficient for an intelligent estimate of total ey arty on 82d A/B Div front. Four former Med Btry posns unoccupied as of 1600 today. Possibility exists that Btrys merely displaced to alternate posns (Div Arty).

(2) Three med arty pieces at 8086051025 engaged by Br Arty today (Div Arty).

e. Reserves and Other Forces Capable of Intervention: No change.

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary:

The outstanding event of the day was the firing of leaflets into our lines by the enemy. This is the first time we have been propagandized during the current campaign. Of the five types of leaflets examined at this headquarters, four were designed for British consumption, leading to the suspicion that the enemy's knowledge of our troop locations is not too exact. Most of the texts were crude

SECRET

3771

attempts to play on war weariness and fear of death, and had no merit. One specimen, however, was a shrewd capitalization on our reverse at ARNHEM, and was written in an effective style.

Ground action during the period consisted of artillery and mortar fires.

b. Operation of Component Elements.

(1) Artillery.

(a) Shelreps:

INTERROGATION REPORT to accompany S-2 Report 33.

1. One PW, Obergef. Joseph Mandel, of 2nd Co 1052nd Regt, was picked up by "D" Co after voluntarily coming into our lines at about 191700.

2. PW states that he originally came from the 25/IV Air Corps Con Bn. In the latter part of August all men under 38 years of age were formed into the Fortress Bn 17 at GOTHA. Approx three weeks ago (1 Oct) he and five others of Fortress Bn 17 were sent to AMBERG to pick up machine guns. Returning from AMBERG they found that their Bn had pulled out, leaving a rear echelon. Some men joined these six at GOTHA and they proceeded to JULICH only to find that their Bn had already left there. Again members of rear echelon joined them at JULICH, bringing the total of this roving party up to 72 men.

PW states that from JULICH these 72 men moved out and were to report to some unit in vic of CLEVE. Designation of unit unknown. However, PW does not believe that they reached their intended destination of CLEVE, but were thrown into the 1052nd Regt as replacements. The men were broken into three groups of 24 each, one group to each Bn. PW moved directly into pos vic 787622 eight days ago and has been there since.

PW is quite ignorant as to the disposition of his Bn. However, he knows that the 3rd Co 1052nd is on right of 2nd Co and believes that there are troops to the front of his Co. PW was with MG crew in ditch 784622 and states that there is another MG slightly to the West along road.

Their positions are very well camouflaged and there is no movement at all during the daytime. Even the foxholes have pots in which the men relieve themselves.

PW states that most of the men are married with families and are completely fed up with the war. He says that most of the men are carrying white flags in their boots in case they should have a chance to surrender. However, they fear that harm might come to their wives and children if it were to leak out that they had deserted. PW recommends that leaflets be dropped into their positions promising their safety and that of their families should they surrender.

Interrogation by S/Sgt Burrer, IPW, 505

G-2 NEWS SUMMARY

This news review is from LONDON BBC broadcasts:

Invasion of the PHILIPPINES by the Americans, the fall of AACHEN after several days of house-to-house fighting, a new successful drive by the Canadians north of ANTWERP, and a ten-mile penetration of EAST PRUSSIA by the Russians are highlights of today's news.

On most other fronts substantial progress is reported, giving a more optimistic outlook on the Allied fighting fronts than for any recent 24-hour period.

Confirmation of the invasion of an island in the Central PHILIPPINES, between LUZON and MINDANAO, is in communiques issued today by Gen. MACARTHUR. The invaded island is 115 miles long and from 20 to 40 miles wide.

Four beachheads, covering some 11 miles, were established without the loss of a single Allied vessel and with virtually no opposition from the Japs.

Tanks and infantry got ashore and moved inland some distance toward the island's capital before the Nipponese recovered from their bewilderment. They apparently had expected an invasion of MINDANAO, at a much later time.

The Nipponese tonight, however, were battling the Americans and Australians fiercely about three miles inland. The Allies, though, had still lost no vessels. The Seventh fleet and part of the Third fleet are landing men and equipment. Reports from Gen. MACARTHUR reaching WASHINGTON told of the initial successes. The American Sixth Army is in on the invasion. Gen. WALTER KRUEGER is commanding the Allied ground forces.

BBC broadcasts tonight revealed that at 1530 hours today AACHEN fell to the First United States Army after house-to-house battles the past few days. During the day the Americans continued with mopping up activities north of AACHEN. A German artillery and tank attack was beaten off in the afternoon.

On the Third Army front air bombardment broke up an enemy tank formation at LUNEVILLE. The French captured another town at the southern end of the VOSGES. 1,000 Allied bombers blasted STUTTGART, NURENBERG, and WIESBADEN.

The First Canadian Army at 0730 hours today initiated a new and already successful attack on a narrow front north of ANTWERP. The Canadians are pushing the enemy back from the East and from the original bridgehead over the TURNHOLT Canal. Gradually they are clearing the German pocket in the SCHELDT Estuary. Rocket-firing typhoons today eliminated several German strongpoints and artillery positions along the SCHELDT Coast.

Because of heavy rains during the past 24 hours, the British Second Army drive toward the MEUSE has been virtually at a standstill.

Although MOSCOW remained silent, the Germans today told of Soviet army penetrations from 6 to 10 miles within EAST PRUSSIA. If the BERLIN reports are true, the Reds have taken the Kaiser's old hunting grounds in EAST PRUSSIA. GERMANY has been announcing the reported huge Russian offensive for the past four days.

In HUNGARY, TRANSYLVANIA, CZECHOSLOVAKIA and YUGOSLAVIA the Russians progressed, capturing and killing thousands of Germans and Hungarians and seizing tremendous quantities of equipment. 11,000 Hungarians and Germans are reported to have been captured in HUNGARY. SE of BELGRADE several thousand of the enemy are reported to have died and 6,000 prisoners were taken.

The Soviets announced progress west of RIGA. Marshal TITO reported the fall of an important town on the DALMATIAN Coast. The Germans yesterday evacuated THEBES, 40 miles north of ATHENS, and the Allies have occupied the city.

Both the Fifth and Eighth Armies gained during the past 24 hours in NORTH ITALY. Despite adverse weather conditions, Mediterranean airmen flew 900 sorties.

Subject: Results of Patrol Activities.

To : A. C. of S., G-2, 82nd A/B Division, APO 469, U. S. Army.

The following are the results of Patrol Activities conducted by units of this command during the period 20-21 October 1944.

A Regimental Recon Patrol consisting of two men, left the "C" Co CP, 1st Plt. at 1900, proceeded SE between Wyler and Vossendal. Was first fired upon by MG, believed to be one in ground house (V8) vic (7744975E), saw two men enter Vossendal from house (V8) vic (7745976), observed Mortar (approx 82mm) vic 784573, continued SE to vic (783969) where MG fired on them from vic (7850569), from this point observed six man patrol walking up road from (7850569) to(787571) checking along road as they went. Stayed in vic for 15 min, observed vehicular traffic between Kranenburg and RJ at (7877970). The patrol then returned to 1st Plt. "C" Co CP at 2400. No PWs NO Casualties.

2nd recon patrol consisting of three men left "C" Co CP at 2330. Patrol went to (776968) checking foxholes enroute, which were empty. At coordinates given above, MG fired on them. Patrol attacked position and killed gunner. Gunner weighed 200lbs and his foxhole was 7 ft deep. Patrol tried to get body of enemy, but were unable to because of his weight and fire from other enemy pinning them down. Patrol took MG34 and returned at 0145. Larger Patrol went to get body, but were pinned down by enemy fire at OPL and had to return.

PATROL AND ACTIVITY REPORT for night 20/21 Oct.

1. "D" Co combat patrol of 20 men and Lt Carr, patrol leader started 1840 from 784627 under cover of heavy mortar, MG, and small arms fire as well as arty. Proceeded along South side of road to RJ 788627 cleaning out houses along route. Captured 2 PWs at approx 786626 and arrived RJ 788627 at 1930 after having received hand grenades and small arms from North side of dyke road. Proceeded SE along unimproved road to vic of two houses 789625 where they became involved in a heavy fire fight.) Estimated, and later confirmed by PWs, that there was one platoon in vic. Patrol returned with two PWs at 2000. (See Interrogation Report). Estimated enemy killed--3.

PATROL REPORT - NIGHT OF OCT. 20-21.

S/Sgt Kose, in charge of a 3 man patrol from C Co, 1st Bn, left C Co CP (766571) at 2300. The patrol proceeded very slowly as instructed to point 771573, which they reached at 2400. No ey action was noted by the patrol up to this time and the leader then moved his patrol to 772574. Here they drew MG fire from gun positions at approx 773573 and 771574. The right gun opened up firing up the nose of the hill and the left gun was firing cross fire. While the patrol was in this position the ey fired 2 flares of about 30 sec duration, one at 0030 and the other at 0040. Also voices could be heard from the left MG position. Sgt. Kose stated that he believes the ey moves up at night to occupy these MG positions, withdrawing before daybreak. Patrol left this position at 0040 and made their way back to our lines, arriving at 0215.

Patrol from A Co, 1st Bn, left the front line at approx 1830, consisting of 3 men, with Pfc. Shareml as leader. The patrol proceeded directly to 769561, where they established an ambush party, but no ey was seen or heard. They reported back to the Bn CP at 2200.

FROM: 505 DATE: 21 Oct 44

TO : G-2 TIME RECEIVED OR SENT: 1350

TRANSMISSION: Telephone, radio, in person, messenger (Circle one).

MESSAGE: (Use back of page if necessary):

Query:

1. May Dutch interpreters attached to Regt, who are being sent out on patrols, be outfitted in U.S. uniforms?

2. May they be given written identification for use within Regtl area? (They are not permitted to leave Regtl area unless accompanied by member of this command)

Passes OK —
CG will render a decision on uniforms

Message File No. 3838 G-2 Sender - Receiver: Phil Cayot

NO. 125.

MAP: GSGS 4427, 1/25,000, Sheets 6 SW, 12 NW; GSGS 4414, 1/25,000, Sheets 4302, 4202.

1. ENEMY SITUATION AT END OF PERIOD:

a. Enemy Front Line: No change.

b. Defensive Organization:

(1) See Annexes Nos. 1, 2 and 3.

(2) Ey mortars located today and engaged by Allied Arty: Nebelwerfers at 80685500 and 79845509, mortars at 77405585, 77706159, 78295897, 79895523, 79845509 (Div Arty).

(3) Ey MGs at 773573, 774574 (325); MGs at 77645752, vic of 78505685 (504).

(4) Strong point and road block at 77675872 still occupied, house vic 77745760 occupied by ey (504).

c. Units in Contact: No change. See Annexes Nos. 1 and 2.

d. Artillery - Location and Caliber.

(1) Slight volume of fire still precludes estimate of ey arty capable of firing into 82d A/B Div sector (Div Arty)

(2) Gun located today at 79606397 engaged by 456 FA (Div Arty).

(3) Gun believed to be in factory at 797642 (505).

(4) Gun at 110° Az from 75535632, 112° from 75725726, and 108° from 75905687. (505)

e. Reserves and Other Forces Capable of Intervention: No change.

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary:

The enemy's day on our front was one of confusion and harassment.

3909

The 505th Prcht Inf reports that their patrols on the night of 20 - 21 Oct. left the enemy placing mortar fire on their own troops.

KRANENBURG was attacked by Typhoons this morning, and about one hour later three single engine fighters appeared over our area on what may have been a retaliatory strafing mission. The net result of the reprisal was the loss of one German airplane. During the afternoon the command posts of the German 84th and 190th Divisions were also attacked by Typhoons, with results reported as good.

The propaganda shoot at 1700 hours on DEN HEUVEL woods and vicinity by the 325th Glider Inf, 82nd Div Arty, and supporting British Arty drew a strong reaction from the enemy in the form of artillery, mortar, and small arms fire and hasty infantry movement. Some of the enemy artillery fire fell on their own troops.

b. Operation of Component Elements.

(1) Antiaircraft Artillery: AA fire, believed to be 20mm, from vic of REICHSWALD, directed against Arty Air OP plane (325).

(2) Artillery.

(a) Shelreps:

Unit Reporting	Time	Location	Direction (Azimuth)	No. of Rds.	No. of Guns	Cal.	Interval
325	1116	75535632	795548 (x)	?	?	?	?
325	1146	75535632	796553 (x)	6	?	?	?
325	1158	75725726	182	6	?	?	?
325	1158	75725726	783557 (x)	8	?	?	?
325	1230	75905687	995545 (x)	?	?	?	?
325	1352	75535632	796553 (x)	12	?	?	?
325	1354	75725726	?	4	?	?	?

325	1546	75725726	155	12	?	?	?
325	1904	75535632	130	1 volley	1	Nblwfr	?
325	1910	75725726	120	3 volleys	1	Nblwfr	?
320 FA	1920	76085735	100	1 volley	1	Nblwfr	?
325	2315	750566	806550 (x)	12	?	Nblwfr	?

(x) Est. location of gun.

(b) Ey has prearranged defensive fires. 325th reports ey fired time fire on his own lines after our propaganda shoot today. This would indicate ey thought it was an attack and called for defensive fires (Div Arty). See Also Par. 2 b (4) (a).

(3) Aviation, Combat: Three single engine ey planes, with small bombs under wings, strafed vic 760600 during morning. One ey plane was shot down. (Lt. SAUER, pilot of Arty cub plane, which had been chased by ey plane, commented on the report that ey was shot

down by MG fire: "Nonsense. I led him down so low that he couldn't pull out and crashed. I claim him.")

(4) Infantry.

(a) Ey mortared his own posns during our patrol action night 20 - 21 Oct (505).

(b) Approx 100 rounds 122 mm mortar landed at 777627 during 30-min period beginning about 1340. Fire came from Az 50°. Eight-sec. interval from sound of mortar to burst (505).

(c) Six-man ey patrol operated along road from 78505685 night 20 - 21 Oct (504).

(d) Ey in about plat strength resisted our patrol vigorously in and around bldgs at 789625 night 20 - 21 Oct (505).

(e) Ey replied to propaganda shoot with MG and rifle fire, obviously thinking our arty was indication of an attack (325).

c. Miscellaneous: Flash, believed to be from long range rocket, seen from 75725735 at Az of 87° at 1906. Three long range rockets seen from 75725726 at Az of 90° between 2300 and 2303, flash rising vertically to high altitude and then travelling west (325).

3. MISCELLANEOUS.

a. Enemy Casualties:

(1) Estimated Killed: No estimate.

(2) Prisoners of war:

(a) Taken during period of report: 2.
(b) Taken to date: 2,983.

b. Weather:

(1) During period: Generally overcast. Visibility poor. Cool.

(2) Outlook for coming 24 hours: Foggy at first, fair later.

c. Other Intelligence:

(1) Telephone line between 505 and Arty Ln O tapped by "someone not having British or American accent". Strange voice broke in and asked for "Artillery". (Div Arty, 505).

(2) Smoke pouring out of DEN HEUVEL WOODS at 1332 (325).

(3) Ey blew up by arty fire their own ammunition train which they abandoned in GROESBEEK WOODS on 17 Sept (325).

4. ENEMY CAPABILITIES: No change.

G-2 REPORT NO. 125.

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
21 OCTOBER 1944

INTERROGATION REPORT NO. 15

1. UNIT IDENTIFIED.	NO. OF PW	PLACE	BY
3rd Co 1052 Regt	2	(786627)	505 Inf

2. ORGANIZATION IN STRENGTH.

It is believed that this is a normal 4 Co Bn. The 2nd and 3rd Cos have now been identified by PW. The Bn has been in the line constantly since 19 Sept with but very few replacements and all of the Cos are down to about 60 men. The 3rd Co has two platoons left out of 3 when they came here on 19 Sept. The Co has six LMG. It is believed that they have a Heavy Weapons Co in support.

3. ORDER OF BATTLE.

Until a week ago the Bn was still undesignated. It was hastily formed on 17 Sept in DUSSELDORF and was committed in the sector E of GROESBEEK on 19 Sept. PW stated they were originally members of the 77th Repl Bn and 39th Fusilier Repl Bn (Convaloscents). About 80 men from the two Bns were sent to DUSSELDORF to join their present unit. (It may be interesting to note that the 39th Fusilier Repl Bn commanded by GRUENEKLEE also came into this area about 20 Sept and was identified by us in vicinity of MOOK. PW spoke in a very uncomplimentary manner about his old Bn CO.) The Bn had a little bit of everything in it when first organized. It was in the line vicinity GROESBEEK for 8 days. They were pulled back for several days rest and then recommitted in their present sector S of the WAAL River on or about 1 October, where they have been ever since.

4. TROOP DISPOSITIONS:

a. 3rd Co holds sector (787623) - (787628).
b. 1st Co is on left of 3rd Co.
c. 2nd Co on left flank of Bn.
d. CP of 3rd Co in house at (786626).

5. PERSONALITIES:

Bn CO --- Capt KASTNER
3rd Co CO - 1st Lt LANG

6. F.P.N. 31787.

7. MISCELLANEOUS.

a. The Bn was named I Bn 1052 about 15 Oct. At same time 328 Repl Bn was also entered in their soldbuch.

b. It is of note that according to letter found on one of PW COLOGNE was being evacuated as early as 14 September 1944.

INTERROGATION REPORT to accompany S-2 Report No. 34.

1. Two PWs taken 2000 hr 20 Oct by "D" Co combat patrol at 786626. PWs of 2nd Pltn, 3rd Co, 1st Bn, 1052nd Regt. FPN 31787 D.

2. UNITS' STRENGTHS:

2nd Pltn 3rd Co.....25 men
Total 3rd Co.....50 - 60 men.
3 squads per platoon.
2 platoons per Co.
4 Cos per Bn
3 Bns to 1052nd Regt.

3. PERSONALITIES:

Sqd Ldr 8th Squad.....Sgt Vogel
CO 2nd Pltn.....Lt Brettnei
(previously Sgt Menden)
CO 3rd Co.....Oberlt. Lang.
CO 1st Bn.....Capt Kastner

4. LOCATIONS:

3rd Co CP 78816264 in cellar
2nd Pltn CP 78856251 in house
One MG and six men 78656271 on bottom floor.
One MG front of ditch 78696264
One MG rear of ditch 78846250
2nd Pltn front from 78656271 along ditch to 78846250
1st Pltn front from 78686274 to 78816285

5. REMARKS:

a. Regt arrived 18 Sept near GROESBEEK. Was put into action on 19 Sept. After one week they moved out and went into an unidentified village for one day's rest and then moved into present positions.

b. Arty barrage at 1640 hr 20 Oct hit close to 78816264 but failed to score direct hits. Target has good cellar which could only be damaged by direct hit of heavy caliber.

c. House at 78656271 has been used as OP during daytime.

d. 2nd Pltn is dug in along ditch from 78656271 to 78846250 and have good protection from weather and shell frags.

e. Food is obtained from 2nd house in ZANDPOL at 79946261 where kitchen is parked beside house. Food is obtained around 2100 with variation of 15 minutes. 2 men from each squad are sent to get food.

f. Other Cos may get food in same area but at different houses.

g. Arty barrage at 2140 hr 20 Oct hit between dyke and ZANDPOL 799626. PW was on way back to squad with food when barrage began.

h. 1st Co is to left of 3rd Co and 2nd Co is still farther to the left. (2nd Co PW 19 Oct said 3rd Co to their right).

i. PWs did not know what unit was in front of them. They thought that they were opposed by British units.

j. In general our arty did not cause too many casualties although it hit fairly close.

k. No leaflets have been observed.

l. No mail has been received for five weeks. Many troops have not completed training. Age is from 20 to 37 years. Most of the men do not care to continue struggle - even non-coms are complaining about the hopelessness of it. Officers control men fairly well so that few would dare to desert.

Interrogated by Lt Kupferschmidt, IPW, 505.

TRANSLATION OF A CAPTURED GERMAN DOCUMENT

Document is letter written to a solder of 2nd Co 1052nd Regt by his family residing at RIEHL, GERMANY (vicinity of COLOGNE).

RIEHL, Sept 14, 1944

Dear Johannes,

Thank you very much for your letter. I will reply immediately, hoping that you are still at your old station, although the military situation has become extremely critical. AACHEN has already been evacuated and apparently we will be able to stay here for only a few more days. Yesterday, we received a telegram from MERCEDES stating that she would gladly put us up. We want to accept her kind offer. When you hear that COLOGNE has been evacuated, start writing to: Family PUTZ, c/o Family NEUBAUER, CHEMNITZ (SAXONY), GRENZGRABEN 2.

We have already come to the point where we seriously consider packing up. It is hard to leave the nice beds, all the home-made preserves, but everything must remain here. We are only permitted 30 pounds of baggage and the sad part of the story is that I cannot even carry that much. Father must go to where the post office moved, i. e., somewhere outside the combat zone. May God protest us.

Despite all this misery, I am glad to know that you are not actually at the front. If that were so, it would be more than I could bear.

Yesterday at 0830 we had a community MASS for our soldiers, such as takes place every Wednesday. Just as the Holy Communion was being distributed, five bombers swooped down near the church. What a noise -- you cannot imagine with what speed everybody dived under the benches. Nobody thought we would ever leave the church alive; yet we were lucky. But the fright which we experienced lasted the entire day.

MARIA went to LANGENDORF and STOCKHEIM (Note of Translator: Vicinity DUREN) last Sunday. There they also have to leave their homes. The trip there was extremely dangerous for MARIA. She had hardly left the train at ZULPICH when planes came down and strafed the train. The farmers don't dare go out to their fields anymore.

I will close now.

A thousand regards and kisses from your parents and MARIA.

Translation of A Captured German Document

Document found on PW of 2nd Co 1052nd Regt, 21 Oct 1944.

THE FUEHRER'S SPEECH IN 1950

Now that England and Ireland are under the protection of the Greater German Reich and my old comrade HERMAN GOERING has been appointed "Czar of Russia", Roosevelt has finally agreed to offer us the United States as a German colony. Also France has found her home in the Greater Reich. Now that our Japanese friends have finally established the German - Japanese boundaries, we can consider that chapter finished. There will be no more European surprises.

I do not want to slight those men who have so faithfully and unselfishly served the cause:

They are: Obersturmfuhrer PETAIN,
SA Oberbrigadefuhrer CHURCHILL
and what many would not have thought possible
SS Untersturmfuhrer STALIN,
who at the present time is orientating himself to our way of living at the ORDENSBURG in SONDHOFEN.

My greatest thanks belong beyond a doubt to the head of the Catholic church, my dear party member ROSENBERG, now POPE PIUS XXV.

In remembrance of the late GAULEITER of India, party-member GHANDI, I beg you to stand up from your seats.

I thank you!

The Great Mufti of JERUSALEM, party-member GOEBBELS, sends the hearty congratulations of the Arabian people. With deep appreciation I appoint him "CHIEF RABBI" of Palestine and Transjordania. I also make known that in mutual accord with the Czar of Russia, party-member GOERING and after conferences with the Holy Father in Rome, party-member ROSENBERG, the Winter Relief program this year will start on May 1st, so that the compatriots in Siberia will receive their packages in time.

Attention! Attention! This is the World-Radio-Station Berlin! You have just heard a portion of the FUEHRER's speech, the Fuehrer of all nations! ADOLF HITLER! The FUEHRER spoke from CHILE, where he is at present visiting his troops. The speech will be repeated at 2300 hours by GAULEITER PETAIN in French and by SS-Untersturmfuhrer STALIN in Russian.

WHAT IS LOVE?

Five men discuss a problem, love. They are a doctor, a businessman, an engineer, a lawyer and a singer.

The doctor says: Love is a disease during the course of which both parties must be put to bed.

The businessman says: Love is a business proposition and you can get more out of it than you put in.

The engineer says: Love is a movement which runs only when it stands.

The lawyer says: Love is a law suit in which the defeated party also receives justice.

The singer says: Love is a duet which later becomes a trio.

We soldiers have found that love is something different, namely:

Below 16 years,	it is a hobby.
From 16 - 20	some combat patrol activity.
From 20 - 30	strength through joy.
From 30 - 40	beauty of work.
From 40 - 50	wonder of technique.
From 50 - 60	triumph of will.
From 60 - 70	technical emergency service.
From 70 - 80	unnatural art.
Over 80	Sir, comrade, where are you?

G-2 NEWS SUMMARY

This news digest is from BBC broadcasts heard at the 82d Airborne Division CP:

The Canadian First Army was successful today in its double thrust north of ANTWERP, moving approximately 5 miles toward the Dutch frontier. The Canadians are now much nearer to the towns of ROOSENDAAL and BREDA.

Mopping up continues in the AACHEN area, where the First Army has taken 11,000 German prisoners. Local German counterattacks north of BELFORT have been broken up.

BELGRADE is free after 3½ years of Nazi servitude and Soviet troops have driven so far NW of the city that at one point they are 95 miles from BUDAPEST. At BELGRADE reports showed that the fighting in the city resulted in the deaths of 9,000 Germans and the capture of 14,000 others. A flotilla of ships got through the mined waters of the DANUBE to help the Russians at BELGRADE.

Three Russian forces are continuing their drives through the BALKANS with good results. MOSCOW is still silent concerning deep penetrations into EAST PRUSSIA which the Germans told about today for the fifth consecutive day.

The Germans broadcast today that Admiral HORTY, Hungarian regent who gave a speech last week advocating an armistice with the Allies, had gone with his family to GERMANY. The Nazi report claimed that Admiral HORTHY wished to retire and asked for German protection. A Nazi puppet government succeeded his administration in HUNGARY.

More detailed accounts of the American invasion of LEYTE island in the Central PHILIPPINES show that from the start the Japs have resisted and that a major Japanese counterattack is impending. Two of the four or five landings (one report said four beachheads were made, another told of five) immediately ran into small arms fire and a short distance on land encountered mortar fire.

Tonight there were conflicting reports concerning the main airfield on the island. One said it is in American hands, the other that fierce fighting is in progress on its fringe. This airport is big enough in size to accommodate the largest Allied bombers for major operations. Seizure of this airport would be in line with Gen. MACARTHUR's usual style of waging an offensive - seizing a large landing field and then operating from there. Another battle area, known as Point 522, has been taken and retaken several times by the Americans, but is now firmly in our hands. The fighting is intense also at a flying strip close CULAG.

The Japs so far have been unable to cause much damage to the

3910

invasion fleet. They did torpedo one craft and damage another. The initial invasion fleet consisted of 600 vessels.

It became known today that for three days the Allies hammered the NICKABAR Islands in the INDIAN Ocean. In addition to its diversionary effect for the invasion of the PHILIPPINES, these attacks caused tremendous damage to enemy depots and installations and affected the security of Jap-held SINGAPORE.

The largest supply column of all time has crossed the ATLANTIC from AMERICA and reached ENGLAND without a casualty.

Mr. A. V. ALEXANDER, First Lord of the Admiralty, today announced the arrival of the column. It included 167 supply ships. They carried 10,000 vehicles, in addition to a variety of supplies. The crossing required 17 days. Mr. ALEXANDER said "one cautious U-Boat" approached the column but was kept from attacking. The convoy occupied 26 square miles of the sea's surface.

Historically famous THERMOPYLAE PASS is in Allied hands. Reports today said British patrols have reached LAMIA, approximately 100 miles north of ATHENS, and if this is true the Germans undoubtedly have surrendered the famous pass without a struggle.

The Fifth and Eighth Armies have made substantial gains in NORTH ITALY.

A correspondent writing today of the NAPLES port, which the Germans attempted to wreck before their evacuation of that city, said it had handled 8,000,000 tons of cargo during the past 12 months.

Indian troops are pressing the Japs 50 miles south of TIDDIM and also on another front resulting from the recent conquest of TIDDIM.

It was made public today that Mr. CHURCHILL and Mr. EDEN left MOSCOW two days ago and were given a "big official sendoff".

Subject: Results of Patrol Activities for Night 21-22 October 1944

To : A. C. of S., G-2, 82d A/B Division, APO 469, U. S. Army

The following are the results of Patrol Activities conducted by units of this command during the period 21-22 October 1944:

"A" Company Recenn Patrol of five men left Company position at 212000 October 1944 for enemy strongpoint and road-block at (77675872). The patrol started out and split into two groups; the first group to go to objective and draw fire while the second group circled left to give flanking fire. As the first group reached enemy position the enemy exploded a line of demolition charges that extended along NW edge of woods at (77675872) and up road about 100 yards, from that point towards (775588). The charges seemed to explode simultaneously as if connected with primer cord. The first group was fired on by MG from woods and then both groups returned fire. They reported that some of their rounds were hitting against solid objects (possible portable pillboxes or armored vehicles, from sound of impact and richeching of rounds). Other results of fire fight could not be determined. Patrol returned 2235 hours. No casualties, no PW's.

"C" Company Recenn Patrol of 5 men left company position at 220200 October 1944 for vic of CR (77645812), to harrass enemy position in that vic. Patrol proceeded towards house (77645812). Enemy listening post in first house on left. Outpost of 4 or 5 men at (77705835) which fired on patrol with BAR. Enemy listening post also at (77505825) in house. This latter listening post is about 100 yards West of hedge. Our patrol fired no shots. Patrol returned at 0400. No casualties, no PW's.

2d Bn Recenn Patrol of 3 menleft Co CP at 0100 October 22, 1944 for destination WYLER via road from (773577). Patrol returned at 0315 with a negative report. No casualties, no PW's.

"F" Co Combat Patrol of 1 Off 3 EM left house (787577) at 211940 October 1944 to proceed to house (771578) and houses along road, and hedgerows vic of (773577) to make a recenn of these houses and vic to see if enemy had reoccupied these positions reported vacated by previous patrols. Patrol proceeded across open fields to about (771576) where they spotted 6 enemy with MG moving NW along road, who were halted by what was an enemy OP beside two trees at (76935780). Digging was heard at this spot and also the driving of stakes. Enemy reached (76935780) at 2015 hours. The patrol heard much noise along road and hedgerows in vic of house (773577). A light was seen in this house. Judgeing from the noise, the enemy strength in vic is estimated at 1 platoon. Patrol returned at 2300. No casualties, no PW's.

2nd Bn Combat Patrol of 8 men left IMTHAL at 211930 October 1944 for VOSSENDAAL, then to (78255725), then to 78505675), then two men to KRANENBURG . Patrol to include two men from Regt Recn Plat. Mission to obtain PW. Patrol reached VOSSENDAAL and were observed by the enemy through a flare fired by the enemy in vic of (782576). While they were there, two truck loads of enemy, carrying an approx total of 30 men arrived at WYLER from direction of KRANENBURG and deployed into houses and the wooded area axround WYLER.

The trucks unloaded at 2300 hours in vic of (783575). The patrol then withdrew back passed VOSSENDAAL where enemy was heard in vic of LAGEWALD. While dropping back the patrol was fired upon from orchard (776582) by two MG's. The patrol returned fire and from there returned to friendly lines. The orchard is well dug in by enemy. It is believed there is a platoon of enemy in this orchard. The enemy in LAGEWALD were in houses and digging in orchard on SW side of road. The patrol was prevented from reaching KRANENBURG by strong enemy points and returned to "C" company CP at 0010 hours. No casualties, no PW's.

PATROL REPORTS - NIGHT OF OCT. 21-22.

Patrolling activities were hampered by fires (including haystack and glider) which were burning to our front at the scheduled time of departure; as a result of the fires two of the patrols were delayed about 3 hours and one patrol did not leave.

Co C Patrol: Patrol of 4 men, with Sgt Koze, of Co Co, 1st Bn, as leader, left at 0200 thru C Co outpost after being delayed 3 hours. Patrol moved SE to approx 771568 to establish a listening post, at which point they observed 1 MG firing from vic of 772568, where the road enters Den Heuvel Woods from the Groesbeek-Wyler hwy. Considerable traffic was heard, including motorcycles and other vehicles, along the Wyler-Kranenburg hwy. Patrol reported back to 1st Bn CP at 0400.

Co B Patrol: Recn patrol of 3 men, with mission of making reconnaissance to vic of 779566, had not reported in as of 0630.

Co A Patrol: Patrol of 5 men from A Co, with mission of establishing ambush point in vic of 770560 and a listening post vic of 771562, delayed their departure until 0300, at which time the patrol was cancelled.

PATROL AND ACTIVITY REPORT for night 21/22 October.

1. S-2 patrol of two 1st Sgt men and one Recon S-2 man started 0030 from 763602 and followed ditch SE toward NYLEN KER. After moving about 20 yards one flare came up from east and lighted area. Ptl went on about 100 yds to edge of water at 764602. Along the way they heard voices from the east and Northeast. At the water's edge they found a raft, which, upon investigation, could not carry a man but could have been used to carry a man's arms and equipment. Ptl pushed raft out into water and let it drift downstream. Voices were heard from vic of water holes at 767604 and 767606 and one flare was fired. One mtr shell landed immediately thereafter at about 60 yds to their left in the water. Another mtr shell followed and landed some distance to the rear. Ptl moved out about 50 yds of the 100 yds width of NYLEN KER and received light small arms fire with possibly one MG firing in addition to the rifle fire. The water was very cold, making it impossible to stay in for long. The ptl returned to our side of the NYLEN KER making considerable noise but did not receive any more enemy fire. Back at 0330.

2. "F" Co patrol of two men left at 0400 hr from 780624 and moved 3c. to 781618. Stayed there for 40 minutes. No activity was found along road in this vic. Voices were heard from houses to NE at approx 783619 but no activity or movement was heard. Ptl returned approx 0600 hr.

3. Enemy activity during night was in general very light. Early in night, one man crawled to vic 783618 and heard weapons and enemy movement around houses in that vic. This is nearly same information as given by patrol of "F" Co. in 2 above. Arty was fired on this group of houses with unobserved results, but airbursts were reported as directly over target.

NSDAP - CITY CHAPTER KRANENBURG
The Chapter Leader

CIRCULAR TO ALL PARTY MEMBERS: It has been brought to our attention that members of the NSDAP have lately taken a position which is unbecoming to a party member. It should not occur that party members listens to enemy rumors and propagenda, which might influence his position. We regret to say that few party members have gone so far as to take their insignia off in order not to appear as a member of the party. Those who haven't the courage at all times and in any situation, to be true to the FUHRER, should at least have enough courage to say so publicly and then withdraw from the party. Those who want to remain with us, should openly display their faith. The party and national insignia must be worn. It is the duty of every member to ignore all gripes and political jokes, and to report serious offenders to the undersigned or his representatives. Even though we have listened to such maneuvers of enemy elements, because we have not seen any significance in them, these can now be falsely interpreted. We party members now have the mission to fight against the rumors and bitching and to take radical states to counteract them. We must take dreadful measures against serious offenders. That we can do that has been shown in the past, and if necessary, will be done again. There is no basis for some worries. Our military and political position is so staple that nothing can change or interrupt them. According to the district leaders proclamation, I ask each and every party member (men and women) to take a position befitting the Fuhrer, and for every one to set a good example. I hope that no party member from our chapter, forgets this appeal, as the district leader has been ordered to expel all offenders from the party.

Heil Hitler!

City Chapter Leader

Patrol report

[illegible] Recht. Inf.
In the Field
[illegible] 22 Oct. 1944

The [illegible] patrol, with the mission to cross the canal and search the area for enemy troops in the vicinity of [illegible], left our front lines [illegible] at 1800 hrs and has not yet returned.

One patrol left our [illegible] at 738[illegible] and proceeded to the vicinity of 737705. The patrol then moved to [illegible] from 739703 to 734707. At this point [illegible] the patrol heard movement, talking and [illegible] of the canal. The patrol located a [illegible] on the canal [illegible] and 741703. The patrol returned [illegible] 737707, 737705, 740704,

The patrol [illegible] 20-21 Oct. 1944
remained in the building [illegible] patrol returned.
During the day he observed [illegible] the vicinity of 750708, and about 50 [illegible] at 1715 hrs. When 1800 hours he directed fire [illegible] 1715 hr. when they were indistinguishable [illegible] 0 hr. the two men returned to the outpost [illegible] hr. the patrol left for the canal. [illegible] of [illegible] hand grenades [illegible] three drowned from the [illegible] 742702. The patrol moved to the vicinity of the house [illegible] white phosphorous grenade into it. In the vicinity of the house encountered and killed [illegible] ambush has not yet established, for no enemy rock could be found. [illegible]

WHITE AT E Co OP. ABOUT 4,200 YDS NE.

MAP COORDINATES

Saw something floating silently and easily and invisible
pyramidal shape with a beveled platform on
top. Light from concentration of white flame. 6
metallic pendulum suspended at apex of pyramid
and base of platform seemingly vertically in air
estimated at 12 feet. Pendulum was of metal
to the left and at slightly greater swing than
what appeared to be top of a pedestal
which gave off an occasional dull metallic
gleam.

Operation Instructions to Bn. Commanders

Subject: Patrol Training

1. The battalion on the MLR will organize, instruct and train the following type of patrol groups under the supervision of a Regimental S-2 representative
   a. Reconnaissance: To establish correct information regarding the enemy
   b. Combat: To engage the enemy and inflict losses as great as possible
   c. Ambush: To kill and secure prisoners
   d. Raids: Combination of "b" and "c"

2. Each morning at 0930 a representative from the Regimental S-2 section will be present at the C.P. of the Battalion on the RRL to assist the battalion S-2 in the briefing of patrols to go out the following night. Bn. S-2 will designate type and number of patrols - patrols will then be present for briefing of missions to be accomplished the following night. A minimum of two patrols will be sent out nightly.

3. Patrols will be designated as reconnaissance, combat, etc. and will be organized and equipped accordingly. Missions will be confined to contact points prescribed along route directed by the briefing officer. Suggested contact points:
   a. Platoon C.Ps. of Forward Companies
   b. Outposts
   c. Forward company C.Ps.
   d. Adjacent units on MLR and RRL

4. The regimental representative will conduct the briefings for the patrols the first two days the battalion occupies the RRL, the Bn S-2 will carry on with briefings for the remainder of the time on the RRL with the regimental representative present for each of his briefings.

5. The purpose of the patrol training is to teach the mechanics, organization and to simulate as nearly as possible actual combat conditions in an effort to improve the patrol standards and accomplishments of this regiment.

Vol. I, No. 12

Oct 22, 1944

ARTILLERY FIRE, both our own and the Germans, was by far the outstanding activity of this period. Without doubt we sent out and received more than in any other period since we've been in this sector. During the first 3rd of the period arty fire was somewhat above normal and then at 1700 we had a "propaganda" shoot and this is what built up the total. We had a total of 72 guns firing at that time. The majority of the guns fired regular shells but some of them fired shells filled with propaganda leaflets. Between 1700 and 1730 from 600 to 1000 shells were fired into Cy territory. Some of the propaganda shells fell short and part of C Co, 1st Bn was showered with leaflets, but this was quickly adjusted.

In retaliation for all this shelling the Cy opened up on us and worked our area over pretty well. Most of their firing seemed to be done with Nebelwerfers and mortars. Why did the Cy open up with all this fire in return for ours? It's possible they thought an attack was being made by us and they were laying down all their defensive fires. An indication of this was that our front line Cos reported they laid down fire right in front of their own lines. Another possibility is the Cy might think that by showing us they can return a pretty fair amount of arty fire every time we open up it might discourage us and make us keep the amount of fire at a minimum.

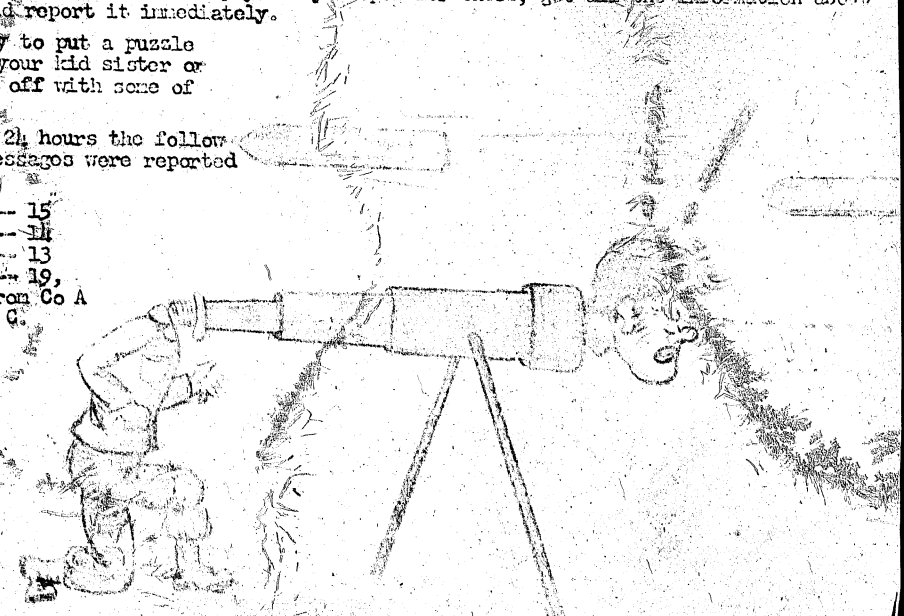
Yesterday we had an air mission on Krahenburg; eight British typhoons strafed and rocketed the town. The attack looked pretty successful; some fires were observed in the town after the attack. A short time after this 3 Cy planes (ME 109s) were reported over our area by several observers. One of the planes made a pass at a 3rd Bn Co; right after this the 3rd Bn reported one of the planes appeared to be smoking and looked like it had crashed in the western part of our area. This was later confirmed and it was believed the plane was shot down by AA fire. Every one seemed to be in agreement with this except the pilot of one of the arty cub planes at which the ME 109 had made a couple of passes. This pilot claimed he had led the 109 down so close to the ground when it dived on him it couldn't pull out and crashed. He claimed the plane.

Some more 'buzz bombs' were reported last night; at least that's what they're believed to be. Usually when you first see them they're way off in the distance and look like a ball of fire rising up into the air. One we saw looked at first like a flare; we waited for it to drop to the ground or burn out like flares usually do but this kept right on rising and finally got so high we lost sight of it. Most of them that have been picked up by observation seem to rise in the East to a great height, streak across the sky and disappear to the West. Keep your eyes open for these; get all the information about them you can and report it immediately.

Did you ever try to put a puzzle together after your kid sister or kid brother ran off with some of the pieces?

During the past 24 hours the following number of messages were reported to this Hq by:

Cherokee -- 15
Pawnee -- 11
Chief -- 13
1st Bn -- 19,
including 8 from Co A
and 5 from Co C.



OUR [illegible] BELIEVE IN A GOOD [illegible] LET'S KEEP IT UP!!

G-2 REPORT

FROM: 220001 OCT 44.
TO : 222400 OCT 44.

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
222400 OCTOBER 1944.

NO. 126.

MAP: GSGS 4427, 1/25,000, Sheets 6 SW, 12 NW; GSGS 4414, 1/25,000, Sheets 4102, 4202.

1. ENEMY SITUATION AT END OF PERIOD.

a. Enemy Front Line: No change.

b. Defensive Organization:

(1) Ey mortars located today and engaged by Allied Arty: Nebelwerfers at 80135645, 81415491, 80633CO, 78295720, and 77555541; mortars at 79915558, 79815530, 791542, and 79445575 (Div Arty); Nebelwerfer at 776578 (504).

(2) Two MGs vic 77555665, MG vic 772568 (325); MG at 771600 (505), two MGs vic 776582 (504).

(3) Unestimated no. ey dug in vic 782576 (504), 6 - 8 ey digging at 806556 and later observed carrying what appeared to be RR ties (325).

(4) Ey listening post in house at 77505825, outpost at 7770-5835, OP at 78935780 (504).

c. Units in Contact: Captured map, taken from adjutant of 108 Pz Brigade on AACHEN front, shows II Parachute Corps boundaries as the WAAL River on the North and the RR line from GOCH to the MAAS River on the South. Boundary between 84 and 190 Divisions is shown to be from CR 768542 East along 541 Grid Line (30 Corps).

d. Artillery - Location and Caliber.

(1) Estimates.

(a) Slight volume of arty fire still precludes est ey arty between WAAL River and REICHSWALD (Div Arty).

(b) Approx 50 ey guns est. to be North of WAAL on ARNHEM front, of which approx one-third probably could fire into 82d A/B Div Area (30 Corps).

(2) No arty locations reported during period.

4010

e. Reserves and Other Forces Capable of Intervention: No change.

f. Supply and Evacuation Establishments: Ey aid stations at 79566238, 79516202, 79286154, 78146228 (456 FA).

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary: Generally quiet. Continuation of mortar and Nebelwerfer fire but decrease in arty fire.

b. Operation of Component Elements.

(1) Artillery Shelrcps.

(2) Aviation, Combat.

(a) Four cy planes over Div area night 21 - 22 Oct (504). One cy plane over Div area about 1500 (325, 504, 505).

(3) Engineers: Ey exploded line of demolition charges, that extended along NW edge of woods at 77675872, along road about 100 yds, and thence toward 775588, when our patrol approached night 21 - 22 Oct. The charges seemed to explode simultaneously as if connected with primacord (504).

(4) Tanks:

(a) Tracked vehicles heard vic 776649 at 1455.

(b) One tracked vehicle, and two trks, moved into DEN HEUVEL WOODS at 1900 (320 FA).

3. MISCELLANEOUS.

a. Enemy Casualties:

(1) Estimated Killed: No estimate.

(2) Prisoners of War:

(a) Taken during period of report: 0.

(b) Taken to date: 2,983.

b. Weather:

(1) During period: Partly cloudy.

(2) Outlook for coming 24 hours: Fair.

c. Other Intelligence: Following is report of a 320 FA Ln O with 504 on ey tower located at 80075810 at 1600:

"I saw something flashing rhythmically in the sunlight. There was a pyramidal-shaped tower, with a boxlike platform on top, of light construction and made of new lumber. A metallic pendulum, suspended from the apex of the tower and base of platform, was swinging in an arc estimated at 12 feet. To the left and at slightly greater range was what appeared to be the top of a vehicle, but no more of this object could be seen. Personnel activity was observed around the base of the tower." (Arty fire was placed on the tower. Personnel was dispersed but tower was not destroyed.)

TRANSLATION OF CAPTURED DOCUMENT

To Party Member, Mrs. Schuster

9 ~~October~~ SEPT. 1944

NSDAP - CITY CHAPTER KRANENBURG

The Chapter Leader

CIRCULAR TO ALL PARTY MEMBERS: It has been brought to our attention that members of the NSDAP have lately taken a position which is unbecoming to a party member. It should not occur that party member listens to enemy rumors and propaganda, which might influence his position. We regret to say that a few party members have gone so far a to take their insignia off in order not to appear as a member of the party. Those who haven't the courage at all times and in any situation, to be true to the FUEHRER, should at least have enough courage to say so publicly and then withdraw from the party. Those who want to remain with us should openly display their faith. The party and national insignia must be worn. It is the duty of every member to ignore all complaints and political jokes, and to report serious offenders to the undersigned or his representatives. Even though we have listened in the past to such maneuvers of enemy elements, because we have not seen any significance in them, these can now be falsely interpreted. We party members now have the mission to fight against the rumors and complaints and to take radical steps to counteract them. We must take dreadful measures against serious offenders. That we can do so has been shown in the past, and if necessary will be done again. There is no basis for worries. Our military and political positions are so stable that nothing can change or interrupt them. According to the district leader's proclamation, I ask each and every party member (men and women) to take a position befitting the Fuehrer and for every one to set a good example. I hope that no party member from our chapter forgets this appeal, as the district leader has been ordered to expel all offenders from the party.

Heil-Hitler!

City Chapter Leader.

ENEMY AGENTS

Five Dutch enemy agents have been picked up in Second Army Northern sector. They were sent over in two separate parties the same day, neither group knowing of the other's mission. Both were briefed by the same German officer. One party seems to have consisted of seven saboteurs, of whom only three were caught. These three denied that they were responsible for the sabotage of the bridge on the OSS - LITH road and it is possible that it was done by the other four. Before being given this mission they had been in German service wearing uniform, but for this job they were given civilian clothes. They were given a large quantity of explosive and their instructions were to make a dump in some recognisable place and also, if they had an opportunity, to blow Allied AFVs. The dump was for the use of German soldiers who would follow, wearing civilian clothes and speaking Dutch. They were taken to our outpost posns by the Germans at night, but afterwards lost their way. They put the explosive by a house and bicycled on next day and were picked up. They had had some sort of training in sabotage and were all three ardent Nazis.

The other two were spies. They were sent through the enemy FDLs at night but also lost their way and hid in a chicken hut, where they were found. One of them stated that he was an officer in an enemy special service and the other had also been employed on Gestapo type work. Their orders were to report on the unit signs in the areas OSS - GEFFEN, which they were told was part of our winter line. They had heard that a Dutch cook in the German officers' mess frequently went to OSS.

The salient points are these. The enemy is sending agents behind our lines. They are neither keen nor competent but some may get through. They may have friends or make friends behind our lines and it is therefore absolutely essential that civilians should know as little as possible of our dispositions, activities and plans. Particularly here where the vast majority of the population is friendly, helpful and interested, it is easy to forget that a minority does exist. The civilian population at the moment knows too much.

LIGHTS ON THE RHINE

Lights were first reported by American night fighter patrols on 10 Oct in the area from DUSSELDORF to COLOGNE and between the rivers ERFT and RHINE. Many lights were soon burning in obvious violation of blackout regulations.

On the 12th, the third consecutive night, hundreds of lights were reported by fighter pilots in the COLOGNE - DUSSELDORF - BONN area. No flak was encountered. The following night found the RHINE cities from DUISBURG to COLOGNE ablaze with lights. COLOGNE was so bright that the marshalling yards were clearly visible from 10,000 feet. At DUSSELDORF the lights were almost as bright but appeared to be in clusters, as if certain factories or large buildings only were the blackout offenders.

During the night 15/16 October fighters on intruder missions attacked the following illuminated cities: - DUREN, DUSSELDORF, COLOGNE and BONN. At COLOGNE and EUSKIRCHEN-BONN the bombing did not affect the lights during the early part of the night. At EVENHEIM only part of the lighting in the centre of the town went out. A considerable increase in the number of scattered lights was reported, particularly in the smaller towns and villages.

During the night many fires and lights resembling unshaded street lights were reported from COLOGNE. In the late evening the lights went out but came on very brightly about midnight. Later in the night large orange flares, fires or lights became visible both around COLOGNE, MUNCHENGLADBACH and SOLINGEN.

The above are the bare facts. At the present stage no conclusions can be drawn. A number of possible reasons for the sudden departure from the blackout will strike everyone but on examination none appears to offer a solution.

25 OCTOBER 1944

G-2 WAR SUMMARY

This news summary is from BBC reports.

The British Second Army today initiated a new double thrust on the left flank of the BIRKENHEAD salient, headed toward GERTOGENBOSCH.

A correspondent broadcasting the new offensive said both columns had advanced about a mile in the mutual weather.

The Germans were forced to withdraw from two villages north of ANTWERP and the United forces moved forward more than a mile. The Allied progress north of ANTWERP has totaled 10 miles in 2 days.

The First Canadian Army had expected a stream south of ROOSENDAAL to be a tank barrier, but tanks got across it with little difficulty.

In the pocket to the South the Canadians are reported to be fighting in one of the last pockets still held by the enemy in that area.

Meanwhile, American and British aircraft blasted targets in HOLLAND and GERMANY. A new drive was carried out in HOLLAND which will interfere greatly with German supply lines. 1100 American bombers attacked MUNSTER, MUNICH, and BAYREUTH.

BERLIN admitted today that all resistance has ended in AACHEN.

The breaching of a dam 25 miles east of NANCY is making the enemy's use of armor difficult on Gen. PATTON's front.

The Allies have made fresh gains in the VOSGES Mountains. In fact, the fiercest fighting of the day along the WEST WALL probably took place there.

Two Russian offensives nearly 20 miles deep have been made into EAST PRUSSIA, according to BERLIN reports, but after several days MOSCOW remains silent about this drive. The Reds, according to German announcers, have seized much of the German Hunting Forest to the south of the main railway leading to INSTERBURG.

German reports also tell of fighting in the Norwegian frontier section, but MOSCOW has made no announcement concerning this area since the occupation of PETSAMO.

4011

In HUNGARY the Soviets have advanced to the long N - S stretch of the DANUBE below BUDAPEST. Advances of 20 and 25 miles were made during 24 hours on two Hungarian fronts.

The 100,000 Americans fighting in the PHILIPPINES continue to succeed in overpowering the Japs. They have seized the capital of LEYTE Island, a large bomber airfield, and a fighter airstrip. Two Jap counterattacks have been broken up. The Americans have now penetrated the island to a depth of at least 7 miles on a 20-mile front. They are using infiltration tactics against prepared positions.

Admiral NIMITZ meanwhile reported that 50 Jap planes had been destroyed in the PACIFIC, along with a half dozen enemy vessels.

Eighty-three American officers who escaped from the Japanese when a ship on which the Japs were moving them was torpedoed have reached the American lines in LUZON. They were brought into the lines by Filipino guerrillas who had hidden them. The Japs, it was reported today, murdered a large group of officers on the ship and shot others who were attempting to get away.

Flying bombs shortly before last midnight caused damage and casualties in Southern ENGLAND.

The Germans are falling back in the ADRIATIC sector of NORTH ITALY and the Eighth Army has established bridgeheads over another stream. The Fifth Army captured three hill positions.

Subject: Results of Patrol Activities for Night 22-23 October 1944.

To : A. C. of S., G-2, 82nd A/B Division, APO 469, U. S. Army.

The following are the results of Patrol Activities conducted by units of this command during the period 22-23 October 1944:

"F" Co Combat Patrol consisting of 15 men and 1 officer left house at (767577) at 1900. They proceeded to house at (771578) intending to sandbag the enemy there. The Patrol found no enemy there, and searched all hedgerows in that vic for enemy positions finding nothing. Patrol then went to RJ at (773577) and moved NE along hedgerows to (774579) finding nothing. The Patrol then returned along road searching houses enroute up to (772576), no enemy. The Patrol then returned to our lines and immediately started out again to search the house at (771578) again. Returning with negative report. Patrol returned at 2300. No PWs; No Casualties.

"A" Co Recon Patrol consisting of 5 men left Co position at 2400 proceeding to Roadblock and Strongpoint at (77675872) enemy opened fire at this point with 2 MGs and some rifles. This is the first time that rifle fire came from this position. Enemy did not throw hand grenades as on previous occasions. Demolitions set off last night, (Re; Patrol Report 220600) was set off again, with same pattern but with less Demolitions. Fire fight ensued with our Patrol withdrawing, while withdrawing enemy threw hvy mortars on them the complete distance to ORL. Mortar estimated to be coming from (77925826). Patrol claims Strongpoint was definitely reinforced. Returned at 0215. No PWs; No Casualties.

"C" Co Patrol consisting of 5 men left Co position at 0200 to harass enemy at CR (77645812). At (77525838) Patrol encountered enemy emplacement made of hvy logs, Patrol got up close and opened fire. Enemy returned fire with two MGs and one TSMG. Two riflemen also opened fire on them from field at left. Patrol crawled to within fifteen feet of position and enemy retaliated with concussion grenades. Patrol circled to rear of enemy and were fired upon from another emplacement of the same type approx. 100 yds away at (77705834). Patrol counted three more emplacements of this same type running from E to W at the above coordinates. 60 mm mortars were fired at these emplacements without any affect. Patrol then withdrew and returned at 0420. No PWs; No Casualties.

PATROL AND ACTIVITY REPORT night 22/23 Oct:

1. 1st Bn three man patrol left at 0020 from 763612 and went East. Searched fields on North side of dyke as it moved along HOLLAND-GERMANY border line. Found nothing. Enemy had a MG at approx 76856115 firing at MA 350. At about 150 yds from MG position patrol decided to to move along dyke to get in back of MG. When at a point about 75 yds from the MG the gun stopped firing and patrol could not locate it. Patrol waited 45 minutes to try to locate MG but could not. Came back along dyke to 76566101 and went onto top of dyke. Came down again and along dyke to 763612 at 0410 hr. During patrol 25 flares were sent up by enemy.

2. Two man patrol sent by 2nd Bn left at approx 2400 hr. No word has been received from them as of 0600. Expected back at 232400.

3. Nothing to report of enemy night activity.

PATROL REPORT FOR NIGHT OF OCT. 22-23.

Co C Patrol. Led by Sgt Kane, with 4 men observed on patrol with prime mission of getting a prisoner. They followed a route from Co C CP in Vendili to point 772572, where they crossed the main road (Villeneuve Loan). At 2400 the patrol searched the settlement of 3 houses at 772571 and then established a listening post with the hopes of ambushing an enemy. At approx 0300 they left the house and proceeded to the north edge of Dam Mauvul woods where they established another listening post and ambush post. Heard sounds in Dam Mauvul, believed to have been digging; heard no sounds of vehicular movement. Remained in this position approximately 3/4 hours and then returned to C Co CP. No ey contacted.

Patrol leaders from A and B Cos were reporting in to 1st Bn CP at 0745 hrs.; reports will follow.

S/HQT
3-2

0755—Report from ldr of Co A patrol, which established ambush post at 772562, to observe what is believed to be an ey listening post. Remained in position until 0200; no ey observed; no ey contact.

PATROL REPORT

A standing patrol was in the orchard at 743699 from 1930 Hr. to 0430 Hr. A heavy caliber gun fired from the vicinity of 749708. At 1030 Hr. and at 0300 Hr. A horse cart was heard on the far side of the canal at 2315 Hr.

A combat patrol left the OPLR at 0100 Hr. and moved to within 30 yds of the canal at 738705. Here the patrol was pinned down by 3 MG's, machine pistols, and riflemen along the canal for one & one-half hours. The patrol returned at 0600 Hr.

[illegible], [illegible] Regt. Inf.
In the Field
23 October 1944

[illegible] patrol north of Wadrine Wiese, 21-22 Oct. 1944

Lieut. Ellis and Pfc. Kennedy left 735700 at 1900 hr. on the 21st, and followed the canal bank to 7171 in the vicinity of the canal. From this point they could hear 2 machine guns, one at 737713 and the other at 737717. The machine guns were firing in a northeasterly direction. Before delivering himself into the hands of the enemy, Lieut. Ellis and Pfc. Kennedy moved to a point on the canal bank in the two guns and waded across the canal. They then moved [illegible] to the road (737722). At this point they found unoccupied entrenchments. [illegible] truck [illegible] on the road toward them, and stopped at J 739722. Some men stepped from the bush to talk to the driver. The patrol could see the barrel and shield of an anti-tank gun in position at J 739722. A previous patrol had reported six fresh graves at this point on the 18th of October. The two men continued up the road to [illegible] where they saw men smoking at the J 744732. The patrol left the road at this point and moved to the group of buildings at 740739. These buildings were found to be unoccupied and badly demolished. The two men reached a small farm building at 0100 hr. at 755734, where they spent the remainder of the night.

They remained in this house throughout the day in observation. On the road (497[illegible]-761738) they saw a total of 17 vehicles move in both directions during the day. They estimated 40 vehicles, including 3 half-tracks, to have travelled the dyke road (750741-760740-765730) in both directions from 0900 hr. to 1800 hr. They observed movement in the buildings along the dyke road at 762735, and saw 2 half-tracks parked in the vicinity. The men observed coming about in the area wore a similar grey uniform, while the soldiers in each vehicle wore a dark uniform.

At 1800 hr. Lieut. Ellis and Pfc. Kennedy started back. On their way back, at 758734, they were questioned by a German soldier as to where they were going. Pfc. Kennedy, who speaks German fluently, counter-questioned the German as to the whereabouts of the road, and upon receiving directions they moved on their way. The two men crossed the road (739734-741730) at 740731. They found no emplacements in the vicinity of the road at this point. The patrol continued back to the canal along the most direct route, by ditch. At [illegible] they had crossed the canal the night before, they lay in observation and listening for about an hour. Again, using the noise of our artillery and German machine guns, Lieut. Ellis and Pfc. Kennedy crossed the canal by wading at 2300 hr. on the 22nd of October.

RECONNAISSANCE ORDER

Maps: GSGS 4427, NORMANDY 1/25,000, Sheet 12 NW

PATROL PLAN NIGHT OF OCT. 23-24.

1. The 1st Bn is charged with mission of securing information of the enemy East from our front to within the sector 77345636-77325595.

2. The 1st Bn will furnish two Combat Patrols which will be supported by Arty fire, to obtain information as indicated.

a. Patrol # 1: One 9-man Combat-Reconnaissance patrol combined, plus 2 atchd Engrs; 11 men totalled.

b. Patrol # 2: One Combat Patrol; 8 men totalled.

3. a. Patrol # 1 will leave friendly lines as indicated on overlay at 2000. It will maneuver along picked routes and be in position at 77325590 at 2300. At 2300 patrol will assault ey left flank on movement from the ey rear.

Mission: (1) Patrol will take prisoners.
(2) Patrol will establish absence or presence of ey minefield within sector.
(3) Patrol will establish absence or presence of tactical wire within sector.
(4) Locations, if positive, will be reported as accurately as possible upon interrogation immediately after return of first member of patrol. Patrol leader will report to Regtl Hq.

b. Patrol # 2 will leave friendly lines as indicated on overlay at 2030.

Mission: (1) To maneuver into and be in position at 771563 at 2300.
(2) To lend fire support as diversionary force by delivering fire on ey right flank between points 772562-773564.
(3) Patrol will open fire on its objective simultaneously with that of arty.

4. Front line Companies will be prepared to give fire support if needed.

SUPPLEMENT TO:

PATROL REPORT FOR NIGHT OF OCT. 22-23.

Co B patrol of 5 men: Leader and 1 man moved out with Co A patrol to point where A Co set up listening post. They then returned to British contact point to pick up other men in their patrol. Moved to approximately 7725640, where they suspected they were spotted because they heard a whistle in the woods, sounding like a signal. This was about 0015 or 0030. They remained there about 45 mins. Because of the lights which were causing them difficulty in moving about they returned to the British contact point. At 0130 they went out a second time and reached a point about 773558, where they heard noises in bldgs to their left. Patrol leader said they remained in that vic about 1/2 hour because the lights still were interfering with their movements. Returned to our lines at 0300.

G-2 REPORT

FROM: 230001 OCT 44
TO : 232400 OCT 44

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
232400 OCT 1944

NO. 127.
MAP: GSGS 4427, 1/25,000, Sheets 6 SW, 12 NW; GSGS 4414, 1/25,000, Sheets 4102, 4202.

1. ENEMY SITUATION AT END OF PERIOD.

a. Enemy Front Line: No change.

b. Defensive Organization:

(1) Ey mortars located today and engaged by our arty: Nebelwerfers at 79905468, 77515669, 79445575; mortars at 78775647, 7784-5822, 78245812, 77795806, 77905837, 79945468 (Div Arty); Nebelwerfers at 776576, hvy mortar at 77925826 (504).

(2) Ey emplacements at 77705834 and 77525838 (504).

(3) CP, BG WOLF, at 780582 (big house between 2 churches at WYLER); CP, 3d Co, 9th Prcht Regt at 778585 (PW to 504).

(4) Road block with mines and covered by 2 MG at 776588 (PW to 504).

(5) AP mines SE of road block at 776588, at 777587 to 775586, and with pull wires breast high along edge of woods, 777587 to 776586 (PW to 504).

c. Units in Contact: 504 Prcht Inf today captured in the area NE of IM THAL 2 PW with information to fill out the one known blank in the picture of ey front line troops now facing the 82d A/B Div. This blank spot was the front between WYLER and the area N of DEN HEUVEL WOODS.

(1) The PW's, taken at 777587, were from 1st and 2d Plats, 3d Co, 9th Prcht Regt (probably originally from 3d Prcht Div). This Co, together with 1st and 2d Cos and some unspecified troops from 15th Prcht Regt, make up Battle Group WOLF, named after the CO, Captain WOLF.

(a) PW's stated the Battle Group's lineup from NE to SW is 3d Co, 1st Co and 15th Prcht Regt troops. Second Co is in the vic but PW does not know exact location.

(2) Exact relationship of Captain WOLF's group, which is of Bn size, to 84 Div, presently on our front, is unknown.

(3) With addition of WOLF's parachutists, the ey lineup before us

4104

from the WAAL River South is believed to be I Bn, 1052 Regt; II Bn, 1052 Regt; BG WOLF, and at least one Co (84 Co) of 84 Fusilier or Ren Bn. Farther South, on 43 (Br) Div's front, is 1051 Regt, also of 84 Div, and then 180 Div.

(4) BG WOLF actually came into the line about two weeks ago, PW said. Last known identification we had made in the area was BG LORENZ, another Prcht Bn.

(5) Armament in the 3d Co of Battle Group WOLF, according to PW statement:

(a) First platoon armed with 2 MG '42, 1 MG '34 2 Ofenrohr (German bazookas) and 4 Panzerfaustc.

(b) Second platoon armed with 2 or 3 MG '34 and '42, 2 bazookas, 4 Panzerfaustc, and 1 60mm mortar.

(c) Armament of the third platoon (the Flak Einheit) is not known.

d. Artillery - Location and Caliber.

(1) Arty Estimate - There is some question regarding the hostile arty strength. Five single guns (possibly all SP) were engaged by Div Arty today. Yesterday three new btry locations were reported. There is still med and hvy arty in the sector. Total probably does not exceed 3 btrys med and one btry hvy, with some light singles and btrys (Div Arty).

(2) Hy arty located today and engaged by Allied Arty - SP guns at 7927[illegible] and 7926[illegible]; guns at 7765[illegible] and 77795806 (Div Arty).

e. Reserves and Other Forces Capable of Intervention: No change.

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary:

(1) The enemy displayed comparatively little activity during period except for some mortar, arty and small arms fire. However, he succeeded in knocking off portions of two smokestacks which 505 Prcht Inf had used as OPs.

(2) (a) The enemy did not react quickly to the 504 Prcht Inf's PW catching expedition just before darkness. For several afternoons 504 had laid down mortar barrages at about the same time. Today some 1,000 mortar shells were fired along with arty concentrations.

(b) After the preparatory fire today, Corp. HEIDERBRINK, according to 504 report, dashed through the enemy minefield carrying a roll of tape in each hand to mark a safety lane. Right behind came a man wielding a mine detector. The rest of the party followed the trail blazers, captured 2 PW, one of whom was wounded, and returned to our lines. The group, incidentally, included litter bear-

ers to carry back the wounded PW. None of our personnel was a casualty and it is believed that at least seven of the enemy were killed.

b. Operation of Component Elements:

(1) Artillery Shelreps:

Unit Reporting	Time	Location Of Observer	Direction (Azimuth)	No. of Rds.	No. of Guns	Cal.	Interval

(x) Location of impact.

(2) Banks: One tk in VOSSENLAAL at 1410 (504).

3. MISCELLANEOUS.

a. Enemy Casualties:

(1) Estimated Killed: No estimate.

(2) Prisoners of War:

(a) Taken during period of report:

1. Reported by Provost Marshal: 1.
2. Reported thru Medical Channels: 1.
3. Total reported today: 2.

(b) Taken to date:

1. Reported by Provost Marshal: 2,787.
2. Reported thru Medical Channels: 198.
3. Total reported to date: 2,985.

b. Weather:

(1) During period: Hazy, cool.
(2) Outlook for coming 24 hours: Scattered showers.

4. ENEMY CAPABILITIES: No change.

IN THE FIELD,
23 OCTOBER 1944

G-2 NEWS SUMMARY

This news is from LONDON BBC broadcasts:

BULLETIN:

MOSCOW late tonight confirmed the invasion of EAST PRUSSIA on a 110-mile front. Another news bulletin said the British were within two miles of 's HERTOGENBOSCH.

Outstanding Allied progress in HOLLAND and BELGIUM headlines today's news, while substantial improvement in our positions took place elsewhere on the West Wall, in the PHILIPPINES, in NORTH ITALY, and in EAST PRUSSIA.

From the North, South and East the British troops are moving toward 's HERTOGENBOSCH, and FRANK GILLARD, a BBC correspondent, reported the troops this morning were within three miles of that vital German-held communications center.

In this sector the Germans are hard-pressed, with only the nature of the terrain favoring them. The commander of a German grenadier regiment has been made prisoner.

The latest drive toward 's HERTOGENBOSCH began today from the South, and before noon had moved 2½ miles.

The Canadians and British are closing in on ROOSENDAAL. Along the SCHELDT Estuary more progress has been made following the clearing of BRESDENS yesterday. Today the Canadians took a town three miles south of BRESDENS harbor.

Gen. PATTON's troops forced the enemy from a few more villages east of NANCY. The Seventh Army annexed more territory for the Allies in the VOSGES Mountains. The First United States Army, in the AACHEN area, reported flying bombs last night, while LONDON experienced none of these missiles for the first night in twelve. Gen. HODGES is sending out patrols beyond AACHEN. The First Army has captured 1600 stragglers since AACHEN's fall.

Bombers struck hard at HAMBURG and Western GERMANY, and at supply columsn in HOLLAND during the past 24 hours.

The DeGAULLE government in FRANCE was officially recognized today by the UNITED STATES, BRITAIN, and RUSSIA.

In the Hungarian Plains the Red Armies have a 200-mile front ranging from the CARPATHIANS on the right to the Lower DANUBE on the left, and mobile columns are pressing on. At their most advanced point the Soviet troops are within 25 miles of a rail junction

(4105)

through which the Germans must evacuate any troops they get out of TRANSYLVANIA and LITHUANIA. Marshal STALIN's men have moved 40 miles beyond DEBRECZEN.

The troops who liberated BELGRADE have advanced west of the city and captured another town. Elsewhere in HUNGARY three other towns were captured. On one battlefield the Russians took 2500 prisoners and left 4,000 dead Germans.

Exactly what is going on in EAST PRUSSIA only the Germans and Russians know; the German reports may be exaggerated or untrue, and MOSCOW thinks it is "premature" to say anything concerning this front. If the German versions are true, the Russians have not yet gone as deep as 20 miles in the East PRUSSIAN salient. The salient is approximately 70 miles in length, from ROMINTEN forest to the SUWALKI area south of LYCK. The Nazi broadcasts continue to emphasize the fierceness of the fierce German resistance. Fighting is in progress near ALLEN.

The Reds now hold the important nickel mines along the Norwegian frontier, the result of an offensive they started recently in the PETSAMO region.

The Eighth Army is reported to have occupied a town 20 miles from RIMINI, while the Fifth Army consolidated its positions SE of BOLOGNA.

On his way back to LONDON from MOSCOW Prime Minister CHURCHILL conferred with Middle East military leaders in CAIRO and stopped briefly in ITALY for talks with Gen. ALEXANDER.

A large island off the East Coast of GREECE has been occupied by the Allies. British troops are running into enemy roadblocks and demolitions near LAMIA, a Greek town 100 miles north of ATHENS.

American Army Engineers on LEYTE Island are having little time to themselves since the PHILIPPINES invasion, for they are rapidly getting airfields into condition for offensive action. Already our fighters are using one of the fields. The bomber base the engineers are attempting to get ready is three miles west of TACLOBAN, LEYTE's capital. We hold TACLOBAN.

Meanwhile, the American and Australian infantrymen are fanning out. They are attempting to control the straits between LEYTE and SAMAR. At one point SAMAR is only 4 mile from LEYTE. The Japs are showing little air strength. At dawn and dusk a few planes usually fly over. The Japs are withdrawing toward the hills, and there they undoubtedly will find tremendous handicaps in getting supplies.

The Americans have made air attacks on an island 110 miles south of LEYTE.

Subject: Results of Patrol Activities for Night 23-24 October 1944

To : C. C. of S., G-2, 82nd A/B Division, APO 469, U. S. Army

The following are the results of Patrol Activities conducted by units of this command during the period 23-24 October 1944:

"C" Company Recconn Patrol consisting of five men left company area at 1915 Proceeding to house at 776583 and finding it unoccupied remained in vicinity approximately one hour. Upon hearing noises in vicinity of (777582) the patrol went to investigate and upon approaching houses at this point they were fired upon by several enemy riflemen and a MG. The riflemen and the MG were in and around the house. The patrol was also fired upon by another MG from a hedgerow at (776583). The patrol then withdrew and returned at 2105. No PW's, no casualties.

"F" Company Combat Patrol of one officer and fourteen men left D company mortar position at 1830. The patrol travelled SE towards Vessendaal along trail (764580) (777576). The patrol stopped at (77055775) and set up an OP with telephone communications. They then progressed to crossroads (772577) and set up another OP with telephone communications. A reconnaissance was then made investigating all houses thoroughly from (772577-774579). Upon finding these houses free of enemy the patrol then proceeded on trail SE towards Vessendaal where ME fire was observed coming from area vicinity of (778578). The patrol then went to approximately twenty-five yards of the Vessendaal-Lafswald road. The enemy then fired on the patrol using a TSMG, a bazooka and tossed three grenades from over the hedgerow. Private Pliszka sustained a wound on his left hand, result of the grenade throwing. At this time the getaway man reported a MG set up in a house at (775575) and fearing a trap the patrol group withdrew. A MG in a house at (775574) opened up and at the same time an orange flare was fired into the air. While the patrol was dropping back to OP at CR (772577) mortar fire began to drop in the area. The entire patrol dropped back to OP at (77055775) where the patrol leader called Fox Co informing them of the situation. The OP's were ordered maintained at (77055775) and (772577). The remainder of the patrol returned to Fox Co CP. Patrol in at 0400. No PW's, one man LWIA.

"C" Company Recconn Patrol of five men left Co OP at 0230 and proceeded along inside double hedgerow for about 150 yds. and were quickely detected. A flares were fired from vicinity of (776586) and Able sector. Two rifle-grenadiers and also enemy riflemen opened fire from vicinity of (77585846) along hedgerow. Friendly patrol threw gammon grenades with undetermined results. Enemy appeared to be jittery. The patrol returned at 0430. No casualties, no PW's.

IN THE FIELD
240600 October 44

PATROL AND ACTIVITY REPORT for night 23/24 Oct:

1. Two man patrol sent out by 2nd Bn on night 22/23 Oct to reconnoiter vic LEUTH--KEKERDOM has not returned nor has any word of it been received.

2. 1st Bn patrol of 2 men from 1st Bn and 1 man from Regtl S-2 left at 0015 hr from 763612 and proceeded directly to MOSTERT DYKE. Turned East along Dyke and walked on North side of Dyke to 764612 and looked over dyke. Heard eny voices, coughing, and movement on inside slope of South bank (North slope of bank on South side of canal). Water was approx 30' wide at this point, depth undetermined. At this time one amber flare was fired.

Proceeded East along dyke and at 0040 hr stopped at 765611 and looked over dyke. The same was heard as before. Two amber flares were fired at this time. Water was 20-25' wide.

Proceeded along dyke to 76956105 and were there at approx 0100 hr. Patrol spread out along ditch to listen for eny movement and MG. Heard voices from same side ditch as before.

At approx 0120 hr went along dyke to 77256130 and arrived there at 0125. At this point the eny movement and voices seemed greater than at any point along the dyke. The men seemed to be in pairs. Estimated to have passed thirty men or more up to this point. Two flares, one amber and one white were fired at 0145. MGs fired from vic 778615 toward 2nd Bn at 0145.

Left this point on return at 0145 hr and at 0150 patrol was pinned down for five minutes by short bursts from MG firing towards dyke. Went West along dyke and at 0200 hr patrol was again fired upon. Continued West and at 0210 hr stopped and looked over dyke. Heard voices and movement on same side of dyke as before. Left dyke at 0215 and came back through lines 0230 hr.

From 0150 to 0230 hr eny MGs were firing into 2nd Bn area. Ptl leader does not believe that eny knew there was a patrol in vic but that they were just fire harassing fire.

Three MGs located at points 7705614O, 77256135, and 772614.

3. One PW in civilian clothes was picked up after coming down the WAAL River on a raft. During night there was little enemy activity after light arty fire in front line area in early part of night.

HQ 505TH PRCHT INF
IN THE FIELD
20 October 1944

SUBJECT: Printing of Propaganda leaflets.

TO : G-2, 82nd A/B Div.

1. Request that 10,000 copies of propaganda leaflets be printed suitable for firing by artillery behind the enemy lines. Text of leaflets to be as follows:

SOLDIERS OF THE 1052ND REGIMENT
AND OTHER UNITS

We know your positions; we know that you are poorly cared for in food, clothing, and shelter. We know that you now have the knowledge that has been kept from you by your leaders: That a national socialistic Germany cannot possibly win this war--it has already lost it.

Many of your comrades have realized this and have ceased to participate in the hopeless struggle of continued war. They are now safe and well cared for. They have the assurance that they will soon see and be with their families again.

Why don't you join these comrades at once so that you too will have the assurance of seeing your family again instead of leaving your lifeless body on the field of a hopeless battle?

You have seen the great flights of bombers pass over your heads to bomb the military objectives in the interior of your Fatherland. You have seen our artillery fire fall on your comrades--this will be increased continually. Thousands of your comrades will be killed needlessly if you choose to remain where you are, and you, too, will die in vain.

We know that you want to surrender but are afraid because your leaders say that you will be shot. They are trying to frighten you. Not one of your comrades who have surrendered have been mistreated. If they had known that they would be treated as they are treated now, they would have surrendered much sooner. Surrender now and your family will know that you are alive and well and you will hear from them after a few weeks--not like it is now when you don't get any mail for months.

As for the safety of your families, the Allies have many of your comrades safe in the rear. How can your leaders determine if you have been killed or captured or if you have surrendered? They cannot justly punish the families of the captives--there are too many such cases and the party leaders have too many other problems at this time. So rest assured that your families will be safe.

--1--

(Propaganda Leaflets continued)

We have heard from German soldiers who have already come over to us that your leaders tell you that it is a sign of weakness that we send you these leaflets. Oberleutnant Bischeff, who at present is resting at Klaverlaag with his Unteroffizier Fritz, is one of these who has told you that. You know as well as we do that the Oberleutnant thinks more about his nine thousand guilders which are in the safe at Bussem than about your lives.

Don't let them fool you. These leaflets are not a sign of weakness. Look for yourself at the facts on all war fronts and see who is strong and who is weak. We want to save lives, and one of them can be yours. It is up to you.

Continued resistance in this useless struggle, which, as you know, will inevitably end with Allied victory, simply lengthens the period which will mean continued starvation and destruction of your homeland as our bombers continue to hit military objectives in your rear.

WE WILL HELP YOU. Follow the roads at night or in the daytime. Come boldly--do not try to sneak through our lines. Now is the time to come toward our lines--they are very close to you. Our troops have been notified to expect you. They will not fire on you if you comply with the above instructions.

HEADQUARTERS 82D AIRBORNE DIVISION
Office of the Division Commander

A.P.O. 469, U. S. Army,
9 October 1944.

GENERAL COURT-MARTIAL }

ORDERS NUMBER 91 }

Before a general court-martial which convened at Headquarters 82 Airborne Division, APO 469, U. S. Army, pursuant to paragraph 2, Special Orders No. 180, this Headquarters, 1 August 1944, was arraigned and tried:

Private Samuel J. A. Garcia, 38 031 246, Company "G", 504th Parachute Infantry.

CHARGE: Violation of the 93rd Article of War.

Specification: In that Private Samuel J. A. Garcia, Company "G", 504th Parachute Infantry, did, at _____, on or about 1 August 1944, with intent to commit a felony, viz, rape, commit an assault upon _____, by willfully and feloniously throwing her to the ground, raising her dress, and lying upon her.

PLEAS:

To the Specification of the Charge: "Not Guilty"

To the Charge: "Not Guilty"

FINDINGS:

Of the Specification: "Guilty"

Of the Charge: "Guilty"

SENTENCE:

To be dishonorably discharged the service, to forfeit all pay and allowances due or to become due, and to be confined at hard labor at such place as the reviewing authority may direct for seven (7) years. (One previous conviction considered).

The sentence was adjudged on 9 September 1944.

The sentence is approved but three (3) years of confinement imposed are remitted. As thus modified, the sentence will be fully executed, but the execution of that portion thereof adjudging dishonorable discharge is suspended until the soldier's release from confinement. The 504th Disciplinary Training Center, _____, _____, _____, is designated as the place of confinement.

A.P.O. 469, U. S. Army,
9 October 1944.

GENERAL COURT-MARTIAL)
ORDERS NUMBER 92)

Before a general court-martial which convened at Headquarters 82d Airborne Division, APO 469, U. S. Army, pursuant to paragraph 2, Special Orders No. 180, this Headquarters, 1 August 1944, was arraigned and tried:

Private Joseph S. Kitz, 13 014 822, Company G, 508th Parachute Infantry.

CHARGE : Violation of the 93rd Article of War.

Specification: In that Private Joseph S. Kitz, Company "G", 508th Parachute Infantry, did, at _____, _____, on or about 11 July 1944, with intent to do him bodily harm, commit an assault upon Mr. John Cooper, by cutting him in the abdomen with a dangerous weapon, viz: a knife.

PLEAS:

To the Specification of the Charge: "Not Guilty"

To the Charge : "Not Guilty"

FINDINGS:

Of the Specification of the Charge: "Guilty, except the words 'with intent to do him bodily harm', 'by cutting him in the abdomen with a dangerous weapon, viz: a knife', substituting therefore, respectively the words, 'wrongfully' and 'by striking him with his hands and fists' ".

Of the Charge : "Not Guilty, but guilty of violation of the 96th Article of War".

SENTENCE:

To be confined at hard labor, at such place as the reviewing authority may direct for six (6) months and to forfeit forty dollars ($40.00) per month for a like period.

The sentence was adjudged on 8 September 1944.

The sentence is approved and will be duly executed. The 508th Parachute Infantry Stockade, _____, _____, _____, is designated as the place of confinement.

G-2 NEWS SUMMARY

Here is the news for the past 24 hours as given in BBC reports:

War commentators today devoted most of their attention to the progress in BELGIUM and HOLLAND, the Russian conquests in EAST PRUSSIA, and the invasion of SAMAR in the PHILIPPINES.

Dispatches tonight said Gen. DEMPSEY's men were in the outskirts of 's HERTOGENBOSCH, threatening the German divisions in Southwest HOLLAND and [illegible] important link in the Nazi communications system.

In the 's HERTOGENBOSCH area the Second Army is threatening a 12-mile Nazi defense line. Already 600 Germans have surrendered and scores of others were known to be moving into the Allied lines.

HITLER must decide, probably within a few hours, whether it is worthwhile to [illegible] his Fifteenth Army in SW HOLLAND. It is estimated there are 80,000 enemy troops in the area, with 15,000 to 20,000 others in coast defense units.

More advances were made toward ROOSENDAAL. Heavy fighting was reported 4 miles from BERGEN, a vital SCHELDT Estuary port which we now hold. The German grip on the SCHELDT Estuary has weakened within the past two days as the British and Canadians scored new successes.

Gen. PATTON's troops have now moved a total of 20 miles beyond NANCY. Elsewhere on the Western Front there was little change during the day. Gen. DeGAULLE visited French troops in the VOSGES Mountains.

ESSEN, much battered German industrial city, got its worst blow of the war last night as 1,000 of our bombers dropped 12,500 tons of incendiaries and explosives on it from above the clouds. The bomber pilots couldn't see the targets, but that doesn't matter much these days. Using instruments, they pasted the vital spots nevertheless. Ack-ack was extremely heavy and as our planes left strong formations of German fighters were approaching. BERLIN was another target during the night. Three German planes were shot down off the Norwegian coast.

The huge Russian armies clearly held the advantage 20 miles inside EAST PRUSSIA tonight as the Germans frantically moved in fresh divisions. GOLDAP is now in our hands. Scores of villages in GERMAN and LITHUANIA are now Soviet-held. With such headlines as "The Hour of Retribution Has Come", the Red press today announced that Russian flags are waving over scores of places along the 90-mile East Prussia front.

4194

Virtually no German civilians are in EAST PRUSSIA, but they evidently departed in a hurry. Livestock are roaming about and there are plenty of abandoned supplies.

One East Prussian city has already been dealt the fate of AACHEN, and a Russian communique said similar destruction awaits any other East Prussian town choosing to resist.

From the North the Russians also are threatening East Prussia with a double thrust.

The Germans continued attempts to open up lines of escape through SLOVAKIA. There also was fierce fighting during the day in YUGOSLAVIA.

With the nickel mines of the PETSAMO region already in their hands, the Russians are threatening an important port in NORWAY.

Prime Minister CHURCHILL is back in LONDON after conferring with Marshal STALIN in MOSCOW, and the House of Commons gave him a big cheer today. Mr. CHURCHILL announced he will give a short summary of his trip to the Commons Friday and expressed hope it will not lead to a debate.

The Americans have invaded another PHILIPPINE Island. Although not officially confirmed, correspondents reported today that American tanks are seven miles inland on SAMAR. This large island is separated as one flies from LEYTE by only ¼ mile of water. The Japs have been cleared from three smaller islands to the East of LEYTE.

SAMAR itself is 150 miles long and its invasion is looked upon with great interest as another important step in wresting the PHILIPPINES from the Japs. 14 miles north of SAMAR is the main island of LUZON.

Allied patrols have moved north of LAMIA following the complete occupation of that Greek city.

The Fifth and Eighth Armies are getting determined resistance from the Germans in NORTH ITALY but are making some headway.

The Allies in BURMA have advanced 11 miles toward a high peak held by the Japanese.

G-2 REPORT

NO. 128.

MAP: GSGS 4427, 1/25,000, Sheets 6 SW, 12 NW, GSGS 4414, 1/25,000, Sheets 4102, 4202.

1. ENEMY SITUATION AT END OF PERIOD:

a. Enemy Front Line: No change.

b. Defensive Organization:

(1) Ey mortars located today and engaged by Allied Arty: Nebelwerfers at 78145795 and 78145842, mortars at 77515989, 77725680, 77305680, 78035652 and 78306100 (Div Arty).

(2) MGs in houses at 775575, 775574 and 777582, in hedgerow at 776583 and in vic 778578 (504); MGs at 77056140, 77256135, 772614 and in vic 778615 (505); MG at 771569 and 773572 (325).

(3) Ten ey digging in at 801558 at 1500 (325).

(4) Two mortars to right of windmill at LAGEWALD (504).

(5) CP, 3d Co 1052 Regt in house at 84586382 (PW to 505).

c. Units in Contact: See Annex No. 3 (IPW Report No. 16).

d. Artillery - Location and Caliber.

(1) Est of ey arty on 82d A/B Div Front: No change. (Div Arty).

e. Reserves and Other Forces Capable of Intervention: No change.

f. Supply and Evacuation Establishments: Supply echelons for ey units in 505 sector are at DUTTELWAARD, 876604 and RIENDERN, 890-584 (PW to 505).

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary:

(1) During most of the period the ey continued sporadic mortar and arty fire, with some Nebelwerfer fire added in the afternoon. Inf action was confined to MG and S/A reaction to our patrol activity during the hours of darkness.

4195

(2) The 325th Glider Infantry reported presence of three self propelled guns to their front shortly after dark on 24 October, and loud voices from vicinity of DEN HEUVEL WOODS as an indication that the enemy might be relieving some of his forces. The 504th Parachute Inf expressed the same view late in the period as the enemy increased his artillery and small arms fire, but displayed no other aggressiveness, in what appeared to be a diversionary move.

b. Operation of Component Elements.

(1) Artillery Shelreps:

Unit Reporting	Time	Location Of Observer	Direction (Azimuth)	No. of Rds	No. of Guns	Cal.	Interval
325	0230	7585334	130 - 135	Sporadic		?	?

ANNEX NO. 2 TO
G-2 REPORT NO. 128

HQ GPO A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
24 OCTOBER 1944

THE ORDENSBURGEN SCHOOL FOR PARTY LEADERS

(The quotes below are from a captured document, "Der Weg zur Ordensburg" (The Origin of the Ordensburg) by Dr. Robert Ley, Reichsorganisationsleiter (Reich Organization Leader) of the NSDAP (Nazi Party). Dr. Ley, a member of Hitler's inner circle, was responsible for the building of the Ordensburgen and for the selection of students to attend them. Efforts to train the future political leaders of Germany. If Dr. Ley's thoughts were occasionally involved or confused the responsibility is his and not that of the translator).

1. Ordensburg, [illegible].

A. Among the Nazi [illegible] should have higher [illegible] come out of the Ordensburgen. [illegible], (the word Ordensburg goes back to German medieval [illegible] Knights, such as the Teutonic Knights, were joined in an [illegible] Order, with a central shrine or headquarters in [illegible]) were founded in 1933 to train Nazi political leaders [illegible] years). The Supermen who have come out of the Ordensburgen are [illegible] imbued with Nazi ideology. They get [illegible] political jobs in Germany and become [illegible], Kreisleiter, Gauleiter and Reichsleiter. They are generally the most arrogant element in a not too modest community. In the last few years necessities of war have forced the Ordensburgen to give their students to the officers corps of the SS and Wehrmacht. Many graduates of Ordensburgen are in the German forces or holding high political and army jobs inside Germany. There is no secret about Ordensburg graduates. In Germany they and their families make sure that everybody knows they belong to the chosen few. The Ordensburgen themselves are now believed to be used by the Wehrmacht for various purposes.

2. Founding of the Ordensburgen.

A. There are believed to be six to nine Ordensburgen in Germany. The first three, started in 1933 and opened in 1936, were VOGELSANG, in the Eifel Mountains, S. of COLOGNE, SONTHOFEN in the Bavarian ALPS, and CROSSENSEE in POMERANIA.

B. "The Bergen were built from nothing. Where they stand there was nothing before. I did not want to rebuild old castle, because the new powerful ideas of HITLER cannot be preached in dusty buildings. In size and effect the Ordensburgen reflect the greatness of the Fuehrer's new and beautiful goal".

3. Selection of Students.

A. "The candidate must be a party member. But that is not enough. I must know that he has proven himself to be eager to work for the community and nation without any personal gain or glory. He must have the inner calling to work for his country for the rest of

4195

his life. All candidates will have to be recommended through party channels, and will have to be judged and selected at each step. I shall make the final selection. In that manner we will never send a dud to any Ordensburg."

B. "The second requirement is that the candidate must be a perfect specimen of health. We do not mean only the healthy condition of his organs. We believe that we can read one's mind and soul by looking straight into one's eyes and face."

C. "The third question is: are you healthy by heritage, is your family tree in perfect order? One is not only a product of the present time but also a product of one's blood."

D. "These requirements are very simple. In fact the intellectual might call them primitive and not understand them. All examinations are strictly forbidden. If we would have even a sketchy examination, we should soon have a college examination and later on a theological one".

E. "Tuition is free. In fact, each student will get a salary, uniform and lodgings free. His family, particularly in the case of married men, will be supported."

4. The Curriculum.

A. "The belief in the correctness of the National Socialistic ideology can be scientifically supported up to a certain point, where the ideas become unlimited and external. We believe that our culture is not only the product of eternal influences and education, but also the product of all deeds which our ancestors, from the lowly labourer to the highest artist, have accomplished. These deeds are an expression of our discipline, and our discipline is a factor of our race. Therefore our culture is a product of our race. Science is far enough advanced to prove the existence of high and low races. We know now what a bastard is and a parasite. So we can say that our beliefs in race have turned into scientific knowledge. Therefore, we shall teach at our "Ordensburgen" Race, History, Art-history, Philosophy, Economics, and Social Science. Party member Rosenberg himself will select the proper teachers for these subjects."

B. "The next subject is the physical education of these He-Men. Are you a He-Man, and are you willing to prove it? Therefore sports are the main part of this programme. We do not want to create Matadors or even Olympic contestants, but we use sports to test and improve the following characteristics of discipline:

(1) We want to test the bravery, the resoluteness and the boldness of men, and improve it. Therefore, everyone will parachute out of a plane or commit similar daring acts. Everyone will have to dive from a 30 ft board - whether or not he can swim. Everybody will learn how to fence and how to box.

(2) Next we want to know if these men have the will to lead and to rule. All leaders of the party must want to be rulers. We enjoy rule, not to practise despotism or sadistic tyranny, but be-

cause we are completely convinced that in all matters only one man, and we mean only one, can be the responsible leader. Therefore, - they will learn how to ride a horse, to rule a living animal with their iron will.

C. "Whoever rules others, must first learn to rule himself. Therefore, we shall have strict tests in will power, for example no smoking or drinking for a week."

D. "Naturally we also teach the functional matters necessary for everyone to be a political leader in any specific field.

E. "The total course will last three years. Each separate year will be spent at a different castle to broaden knowledge of people and country. After that each student will spend six months at the Marienburg in East Prussia and after a few years of practical work, he will be sent to a special school for whatever branch he is active in (for instance the 'Strength Through Joy' School at Prwitte for the German Labour Front, Dopt Army School at LOBEDA.) Later on he will go to a yearly refresher course at the 'Gauburgen', the former Gau Schools."

5. The Supermen Type.

A. "The secure and self-assured appearance of a young leader is of great importance. These men should be firm, and nothing in the world should make them falter. They must act correctly on the polished floors of high society as well as on the shabby grounds of little huts. We do not want to create conceit, but proud and self-assured bearing. We do not want to live like ascetic monks in these castles but we shall mingle with other people, including the opposite sex."

6. Culture and Punishment.

A. "What I want to make clear above all to future political leaders, students of the Ordensburgen, is this: these men, to whom the NSDAP now gives everything which a real man can hope for from life must realise and keep in the bottom of their hearts that they are now dedicated to the Order for life and death and that they must obey it without question. Obedience is the characteristic that has made everything great in this world. Obedience has been the pillar on which He-Men institutions have survived for hundreds and for thousands of years.

B. "I want to make it clear: these men, who will have the honour of being the political Leaders of Germany and to whom the gate to the highest power and supreme leadership is open - for these men alone will one day lead Germany - these men must know and realize that from now on there is no road back for them. He who fails or he who would betray the Part of the Leader will be destroyed by this Order. Everyone of them must know and understand that when the Party takes the Brown Shirt away from anybody, the person involved will not only lose the office he holds, but he ~~personally and his~~ family, wife and children will be destroyed. Such are the hard and inexorable laws of the Order. Every National Socialist Leader must know -

4195

I want to hammer this idea into the consciences of all men at the Ordensburg - that he is climbing a steep grade. You can only walk here if you have a sleep-walker's sure touch. You can only have this assurance if you are inspired by absolute belief in and unshakeable loyalty to Adolf Hitler and his Idea".

SECRET

ANNEX NO. 3 TO
G-2 REPORT NO. 128.

HQ 82D A/B DIV
APO 469, US ARMY,
IN THE FIELD,
24 OCTOBER 1944

INTERROGATION REPORT NO. 16

1. UNIT IDENTIFIED.	NO. PW	PLACE	BY
1st Co 9th Para Regt	1	(777587)	504 Inf
3rd Co 9th Para Regt	1	(777587)	504 Inf

2. STRENGTH AND ORGANIZATION.

PW were from 1st and 3rd Cos of 9th Para Regt. However, if PW statements are accurate, it is a misnomer to call it more than a Co. There are now 3 Cos, each with 2 platoons totalling between 40 - 50 men. In addition there is a group of about 45 men who were originally from a Flak unit in the 2nd Para Div. (PW called it the F F 2 - Fallschirm Flak unit 2nd Para Div.). This gives us a group of roughly 200 paratroopers and constitutes the 9th Para Regt as it exists today. The PW who is now part of the 3rd Co was originally an engineer in the 15th Pz. Co. The PW from the 1st Co arrived only 5 days ago as a reinforcement from the 1st Marsch Co of the 93rd Flieger Regt. He was 1 of 4 who were sent up to fill a need for men trained in automatic weapons. The 3rd Co is reported to have 6 - 8 LMG 42.

3. ORDER OF BATTLE.

The 9th Para Regt fought with the 3rd Para Div in the CAEN sector in FRANCE. The Regt reformed in SOLINGEN, GERMANY after our breakthrough but apparently did not get any reinforcements. They were moved to WYLER area shortly after our landings on 17 Sept, but according to PW were not committed until about 10 Oct. They have been in same area ever since. PW states that on their left flank they have the 15th Para Regt and that in size it corresponds to the present strength of the 9th. There is, of course, no confirmation of this latter statement. However, these are the first PW to come out of the area W of WYLER MEER in some time. The fact that the enemy does have a Para unit in the line at this point, other identifications to the left and right of this sector, the fact that the two groups, 9th and 15th Regts combined, would constitute no more than a weak Bn (if PW statements are correct), all tend to give logic to the information, inasmuch as the sector involved is approximately a Bn sector.

4. TROOP LOCATIONS.

a. PW were holding an OPL with 6 men, 3 from each Co, at approximately (777587). MLR is 50 - 100 yards behind this point.

b. The 3rd Co is on right flank with a front of about 300 - 400 yds extending to SW from WYLER MEER at approx. (778586). The FF2 unit holds the sector on their left. The left flank of the battle group is held by 1st Co. Whereabouts of 2nd Co is unknown.

c. Elements of 15th Para Regt on left ???

4195

d. Bn CP at (780582).

5. PERSONALITIES.

Capt WOLF - CO of what is left of 9th Para Regt.
Lt KRAUSS - CO 3rd Co.

6. F.P.N. - L 63109.

7. MISCELLANEOUS.

a. A deserter who turned in to the 505 Inf had a very interesting story:

b. On 23 January 1944 he received a 3 week furlough. He went home and decided not to return to RUSSIA. Through a friend, ANTON JOEKEN, in [redacted], he contacted a Dr. SCHEFFERS in MILLINGEN. This doctor is a Dutch citizen and had been imprisoned as a hostage by the Germans for some time. PW had his leg broken by the doctor. He told German authorities that it happened when he fell from a horse. PW was admitted to the hospital in KLEVE on 20 February and stayed there until September. Early in September, the hospital was moved to RHEINE in WESTPHALIA. PW was released from hospital on 29 Sept and was granted a furlough until 8 Oct.

c. The PW hoped that Allied troops would advance and liberate his home. When 8 Oct came and he saw that his hope was in vain, he sent his father to KLEVE. His family know a Capt SCHWARZ, senior officer of the post, fairly well. Capt SCHWARZ used to be a teacher in civilian life and had taught some of the members of the family in school. Capt SCHWARZ extended PW's furlough several times for a few days. The family paid back by sending several food packages from their farm.

d. On 23 Oct, the furlough had expired again. The father went to KLEVE only to find out that Capt SCHWARZ had been transferred. The officer who had taken his place refused to extend the furlough any more. PW immiedatd y decided to desert. He knew a man who lived in MILLIGEN right on the bank of the WAAL River. This friend prepared a raft and last night PW let himself float down. He was told that he would meet Allied troops at the 6th brick factory and that is where he landed. After being interrogated, PW requested a special favor: He asked our Arty to fire one shell in the direction of his home. This was the signal he had arranged with his family to let them know that he was safe.

IRVIN BUSHMAN,
Captain, FA,
Interrogator.

Berg en D., Holland
5360) October 1944

Subject: Result of patrol activities.

To : A. C. of S., G-2, 82d A/B Division.

The following re the results of patrol activities conducted by units of this Cmd during the night 4-5 October 1944:

"A" Co RCN patrol consisting of 3 men left their Co CP at 2000 with the mission of reconnoitering the general area vic (776568). The patrol proceeded to the enemy MB (776568) vic (776568) & received fire. The patrol came back & reported. The enemy, however, returned by moving the area with MG fire, which continued for a short (776564). The patrol encountered fire, they withdrew and entered their own lines. No casualties; no others.

"C" Co RCN patrol consisting of 6 men left their Co CP at 2000 with the mission of reconnoitering vic (776564). The patrol advanced toward their objective when fired upon by MG fire from (776564). Having advanced towards beyond the MG (776564), the patrol ran into enemy MG's (two) in the vic of (776564) & (776564). The patrol returned fire & withdrew; returning to Co CP at 2300 - No casualties; no others.

"F" Co (Combat) Patrol, consisting of one officer and [illegible] left their CP at [illegible] with the mission of reconnoitering toward MG [illegible] (776577) crossing to the [illegible] of road and proceed to [illegible] (776576), patrol ran into MG and 6 men were wounded by fire, [illegible] fire, which resulted in one man killed in action. [illegible] to the Loy [illegible] (776576); 2 more MG opened fire from (776577) and 1 MG opened fire from (776577). Patrol then withdrew to (776576) and MG opened fire from (776576). [illegible] dropped approximately 10 rounds in the area. [illegible] mortar shells were also dropped; [illegible] veterans of high quality. The patrol returned at 2300 - one man killed in action; no prisoners; no enemy casualties inflicted.

HQ 505TH P/CHT INF
IN THE FIELD
250600 October 44

PATROL AND ACTIVITY REPORT for night 24/25 Oct:

1. At 2100 hr one enemy plane flew over our lines and dropped 3 red flares and then dropped 6 red flares between our lines and KEKERDOM.

2. A German patrol of undetermined size tried to penetrate at 0430 hr "B" Co positions at 764600 but were stopped by "B" Co fire. Visibility was very poor and it was impossible to determine exact strength or casualties but there were an estimated 5 men. They got to within 25 feet of listening post at 764600 and began to fire with an MG which immediately jammed. They hurriedly retreated under our small arms fire.

3. At 0500 a 7 man screening patrol which was screening 3rd Bn relief of 2nd Bn ran into enemy MG at 787627 and returned small arms fire. Patrol returned with no casualties and went out again by another route. This time they located two MGs, one on each side of house at 787627, and returned with information. Mortars were to fire on it, and a patrol is to go after MGs with hand grenades. No further report.

4. Relief of 2nd Bn by the 3rd Bn was effected with little enemy action interfering. There is no reason to believe that the enemy knew of a relief being effected.

5. "C" Co, outposting the south bank of the WAAL reports the following: At 0405 hr, outpost No 5 at 748653 heard a rowboat on river some distance out and direction of movement unknown. At 0620 outpost No 8 at 667641 reports a rowboat landing on South bank of river near their position. Outpost fired on boat and threw grenades. Boat left and recrossed toward North bank. Visibility was poor.

25 October 1944

REPORT OF PATROLS - NIGHT OF OCTOBER 24-25.

Ron Patrol #3: Consisting of 5 men from Co C, with mission of establishing listening post and investigating house at 77155710. Leader: Sgt. Brewer.
Patrol left C Co OP at Voxhil at 1930 and proceeded to a point 772572, just west of the Wiljersche Baan, where 3 men were left to cover them as the leader and one man continued across the hwy. The two men made their way to the center house of the three in that vic and were able to determine that it was not occupied by cy, but that voices were heard among the trees at the back of the house. At 2340 they heard a vehicle, apparently a tracked one, moving slowly in the vic of Vossendaal; it turned SE on the NW-SE road North of Den Heuvel. MG at 77105690, which has previously been encountered by patrols, fired in a northerly direction. The listening post was maintained until 2400, at which time the men withdrew after deciding that there was too much activity in that sector to enter the houses. Shortly after 2400 the men withdrew and picked up the other 3 men who had been left as cover and returned to our lines.

Tech

Ron Patrol #1: Long Range patrol, consisting of Sgt Dube and 2 men from Co A, with mission of determining suitability of terrain for armor, observing vehicular and troop traffic between Kranenburg and Reichswald and determining location of cy arty.
Patrol left Co A OP at 1930 and proceeded Northeasterly in the direction of Den Heuvel. They reached a point 773566, about midway between Den Heuvel and the wooded area to the south when they were challenged. The patrol remained in position and observed 2 cy move from the NE corner of the woods (approx 77405645) to the SE corner of Den Heuvel. When the patrol attempted to move out a MG opened up from the corner of Den Heuvel, at the point where they had seen the 2 cy enter the woods. A second attempt to penetrate the cy positions was met with rifle fire from positions extending North from 77405645. The patrol took cover in shellholes around gliders in that vic and it was discovered that in the bottom of one shell hole a fox hole had been dug. Two more attempts to penetrate the line were made, one meeting fire from the edge of Den Heuvel (vic 77155670 to 77205675) and the other encountering rifle and MG fire from positions vic 77405645. Because it was getting late and our arty was falling on Den Heuvel and the woods to the south the patrol decided to return to the OP and await further instructions from Hq. At 0415 they reported in to Regtl Hq and were advised to await orders for another attempt tonight.

Combat Patrol: Combat patrol consisting of 14 men, commanded by Lt. Arthur Cole, of A Co, left our front lines at point 76185607 at 2000 hours, after contacting the 214 British Bde on our right. Patrol worked in V-formation with leader and msgr moving East on trail on mag az of 105. After carefully checking distance to limit of 1100 yards patrol swung SE for 250 yds on mag az of 165. Patrol encountered nothing up to this point. Patrol then turned East on mag az of 105 for approx 175 yds where patrol remained in position while ldr and 2 sqd ldrs contd recn. Lt. Cole, msgr, Sgt. Witson and Sgt Morton continued North for 50-75 yds with remainder of the patrol behind them, crawling toward cy positions estimated to be to their immediate front, very close by. Sgt. Witson then discovered the area to be the mine field, the definite presence of which was to be established.

From Sgt. Witson's description and facts confirmed by remarks of Sgt. Morton, both of whom were questioned individually, the following information was obtained: A single strand of wire about 6 to 8 inches off the ground is staked presumably around the limits of the mine field. The strand south of the area is staked at intervals of 8 to 10 feet. The ldr and squad ldrs crawled laterally between the mines through the entire width of the minefield, estimated to be at present a depth of 50 yds in a N-S direction through the point at 77335695. Rows of mines through this point run North and South, Reigel mines being the composite of the mine field at this point, which were observed as being square elongated objects placed on top of the ground between 3 and 4 yds apart with smooth wire attached. The presence of Teller mines was not established.

As Lt. Cole and his forward party had reached the trail at 77335695 an cy was heard to cough and there was a slight rustle. Immediately following the cough, MG and a rifle opened fire on the party, killing Lt. Cole as he raised to investigate on his elbows from a prone position. MG was less than 30 yds away. Patrol immediately returned fire by small arms and grenades. 2nd in command believes MG to have been silenced. Heavy small arms fire developed as patrol hand grenaded cy position at close contact on the right. Patrol continued their fire and was slowly forced to evacuate. In the course of leaving the area which was necessary to be done by crawling, one member of the patrol tripped an anti-personnel mine a short distance west of the line of Reigel mines, also becoming a casualty and had to be left.

(4239)

report of 325th Glider Inf patrols night of Oct. 24-25: (Contd)

Patrol returned to our outpost at 0230. A 3rd member of the patrol—Sgt. Witson reported killed, was only temporarily dazed by what he believed to be a concussion grenade. Sgt. Witson returned to our outpost at 0330. Our casualties: 2 killed; enemy casualties: unknown.

EXTRA COPY

325th Glider Inf. * BORDER BREEZE * Near Nijmegen, Holland

Vol. I, No. 14 October 24, 1944

The more you get around a sector in a combat zone the more you appreciate the work of the engineers. Their tasks are many and varied and in most cases they do a pretty darn good job. Our own engineers are no exception. One of their specialties is minefields; they not only lay our own, move them around when necessary and pick them up when the field is no longer needed; but they must be experts in all types of ey mines. Here their range of operations runs all the way from disarming and removing anti-tank and anti-personnel mines in rear areas to establishing the presence of such mines for operational reasons in forward areas. The other night we had a group go out and with them went a couple of engineers, their task to put a wire around one of our own minefields pretty far forward. Last night a patrol went out with the primary mission of securing a prisoner and a secondary mission of establishing the presence or absence of ey mines in a certain area to our front. Two engineers went along to do the job of the secondary mission. This morning we heard about one that's just a little bit different. One of our engineers is going on a long range reconnaissance in ey lines to determine the suitability of a certain zone for tank action. When the 504 Prcht Inf made their attack on the Nijmegen bridge it was necessary for a part of the attacking forces to cross the river and attack the ey forces holding the northern edge. This job was done by our engineers who took them across in rubber boats, under fire the whole time they were crossing. Heavy trucks and armored vehicles raise hell with those dirt roads around here, especially when they're wet. You don't have to travel very far to find a group of engineers fitting up holes or doing some other similar repair work. All this is mentioned, not because it's something no one knows but rather to give the engineers a boost for the fine work they've done in helping us so far.

One of our patrol leaders for tonight had an opportunity to increase his knowledge by other than the usual means of the terrain over which he will operate. This afternoon he went up in our arty cub plane and flew over part of his route. This will no doubt be a help to him.

Being anywhere along our front lines at night one of the things that is most striking is the tremendous amount of flares used by the Jerries. There are red ones, green ones, blue ones, every damn color; someone the other night even reported they saw a plain black flare. Then there are parachute flares, star clusters, plain star flares, etc. Glancing down in the British sector you can see just about the same thing, only here both the Jerries and the British are using them. Flares are used both as a means of signal communication and as a defensive measure and these two other armies, one our ey and one our ally, must consider them pretty important to use them in the quantity they do. We can vouch for the fact that they do a good job as a defensive weapon by remembering the patrols we have had report that they were held up, or even stopped in some cases, by flares and thus prevented from reaching their objective

Incidentally a few nights back one of the other outfits in our division got hold of a Jerry flare gun and a goodly supply of flares. That night when the Jerries were shooting up flares they also shot them up in all colors and types. Can you imagine what you'd feel like being out there near the front lines nervously awaiting that all important "red star cluster" as the signal to do something or other, when all of a suidon you see them coming from a different direction and at different times. Another example of "If you can't kill them, worry the hell out of them."

REENTHORED.

Operation Instructions to C O 1st and 2d Bns 325th,
and C O 2d Bn 401st Glider Inf.

1. 2d Bn 325th will relieve 1st Bn in their present sector beginning at 261900 Oct. 1st Bn 81mm Mort. Plat. will remain in present position and will be atchd. to 2d Bn 325th. Relief to be completed by 262400 Oct. 44.

2. For boundaries, contact points with adjacent units, MLR and RRL (See overlay)

3. 2d Bn will employ three companies on line for organization.

4. C O 2d Bn 325th will make necessary Ln and Recn with C O 1st Bn to facilitate and expedite the relief.

5. The 60mm Mortars of 2d Bn 325th will be employed either in Co. Btry. or Bn. Btry. where practicable and will fire a minimum of 20 rds per gun per 24 hrs.

6. 1st Bn will organize the RRL (See Overlay) with two companies and occupy MLR reserve position (See Overlay) with one company.

7. 2d Bn 401st on being relieved will go into assembly area (736604) and will be committed only on division order. After reaching rest area the Bn will prepare an Alert Plan for movement of the Bn. by motor to any threatened sector of the regtl. front. Six two and one half ton trks will be immediately available in the rest area. A training schedule for the period in the rest area will be prepared and submitted per Opns. Instructions, 15 Oct. 44.

8. All units will carry one basic load of ammunition with exception of 81mm ammunition which remains on position.

G-2 NEWS SUMMARY

This news is from LONDON BBC reports:

While one of the biggest naval battles in all history was taking place between the Americans and the Japanese in the PACIFIC, HOLLAND and BELGIUM were again the focal point in land warfare during the pas. 24 hours.

TILBURG, center for five main highways and four important railroads, is now the apparent next Allied objective in HOLLAND, along with BREDA. Supplies for BREDA are handled through TILBURG.

With all organized resistance ended in 's HERTOGENBOSCH, a pocketful of Germans were holding out in the SW part of the city. Pressing from the East, the British have cut the northern road to the MAAS and the southern route to EINDHOVEN, and are laying artillery fire on the 's HERTOGENBOSCH - TILBURG highway.

The Canadians have progressed more toward ROOSENDAAL and also have improved a thrust toward FLUSHING, vital port in the SCHELDT Estuary. The size of the German pocket in the SCHELDT is dwindling almost every hour.

In HOLLAND, aircraft have cut the German-held railroads in so many places that the enemy is resorting to almost complete use of road vehicles. Sixty-one of these vehicles have been shot up.

The Germans are holding out still in OOSTBURG but are apparently weakening.

Today Admiral NIMITZ revealed that since Monday what may be the biggest series of naval engagements in all history has been in progress near the PHILIPPINES and that the battles continue.

The Japs already have lost one aircraft carrier and sustained damage to two other similar carriers. Five or six of their battleships also have been damaged. 150 Nipponese planes were destroyed. The Americans lost the PRINCETON, a light carrier, but the captain and the 1,360 officers and men aboard have been saved. This is actually the first occasion on which the Japs have moved their fleet into the open in many weeks, although portions of it were seen recently off FORMOSA.

Reconnaissance showed that three formations of Japanese vessels approached the PHILIPPINES. One moved toward LUZON, one was sighted in the SULU Sea, and the third force was sighted moving in from Japanese home waters. Land-based aircraft are thought to have damaged the PRINCETON. One report stated that after this vessel had been damaged, its condition was such that the Americans sunk it.

4289

On LEYTE Island the Americans and Australians made their deepest penetration yet and captured a third airfield. Gen. MACARTHUR announced the destruction of 70 more enemy planes and there may have been on the newly-acquired airport.

Bulletins late tonight said that Marshal STALIN's troops had initiated a new drive on EAST PRUSSIA, from the South.

German broadcasts claimed today that the Nazis had regained some ground, but MOSCOW reported the Red Army was pressing forward on the original front and that more territory was conquered.

MOSCOW divulged that 180 tanks and 80 guns and 15 enemy strongpoints had been captured or knocked out and that 5,000 more Germans had been killed.

Prisoners of war on the East Prussian front said HITLER had issued new orders that they were to throw the Russians out of EAST PRUSSIA regardless of the number of their own casualties. HITLER has sent four fresh divisions to the East Prussian front to enforce this order, 2 SS divisions, the HERMAN GOERING division, and the GREAT GERMANY division.

German reports today admitted that the Russians moving west from PETSAMO had captured the vital Norwegian port of KIRKENES. As well as being the most important German supply point in a stretch of 250 miles, it was the last remaining route of German escape from FINLAND.

In CZECHOSLOVAKIA troops in the North and South are getting closer to each other. TRANSYLVANIA has now been liberated. The Soviets captured a major railroad junction 70 miles from BUDAPEST and Marshal TITO's men claimed another important town.

Allied bombers during the night laid sea mines and raided HANOVER.

1. [redacted]

a. [redacted]

b. [redacted]

(1) By [redacted] and [redacted] by Allied Artyl Nebelwerfers at [redacted] at 78385901, 77653984, 78505810 and [redacted].

(2) Mine [redacted] (328); MGs at 77805864, 7765-88, 777648, 774978, [redacted] 773573 (504); two MGs at 7[redacted] and [redacted] (505).

(3) By mines and AT [redacted] (504). Minefield of 21 mines on dyke road at [redacted].

(4) Minefield [redacted] and AP and AT mines via 773560. Only the South of trail [redacted] contained to cover minimum of 800 sq yds surrounded by [redacted] strung six to eight inches off the ground. Ringed mines [redacted] two members of patrol crawled between the mines through entire width of minefield, estimated to be 50 yds in N - S direction. Mines three and four yards apart with smooth wire attached (326).

(5) By defenses N of Wesly OP in factory at 785636, ammunition dump in house at 8[redacted], prepared posns along road from RJ 77356490 N to 782674, prepared posns on both sides of road from RJ 801794 E through DOORWERTH extending to RANDENSCHE KANAAL, SP guns at 88306695 and 8[redacted], ferry located via 823670 operated continuously (Civ report to 504).

c. Units in Contact:

(1) (a) A PW from G Company, 1052 Regiment, taken by 505 Parachute Infantry at 769618 on 13 October, had stated that some parachutist remnants of 3d Parachute Division were on his unit's left. Today's PW's were from 3d Company of a parachute battalion and were extracted from foxholes near the northeast end of the bridge at BAD WYLER. PW said his company was composed of remnants of 3 Parachute Division's Pioneer or Engineer Battalion. This confirmed the story of the PW taken 13 October.

SECRET

4290

(b) PW said his unit had been in the line for three weeks and that each company had about 150 men. PW stated also that his commander, a Captain ROTH, filled the dual role of Battalion Commander and Company Commander.

(c) Interrogators said PW was of the "HEIL HITLER" type and that his statements, although confirmed in part, could not be fully credited.

(2) A 505th Parachute patrol reports enemy troops in the ERLE-KOM area have more of a combative spirit than was evidenced a week ago resisting our patrol action sheutly and at one time demanding that the American patrol surrender. The 505 patrol leader expressed belief the enemy either has reinforced his troops in the area or has put tougher troops into the line at this point.

d. Artillery - Location and Caliber.

(1) From 4 to 21 Oct a total of 33 hostile btrys were located between Grid Lines 46 and 50 and west of CLEVE. However, 12, 15, and 18 Oct were the last dates on which some of these were known to be active. The breakdown of these btrys was one hvy, 12 med, nine light, six dual purpose, two hvy AA and four of unknown caliber. Ey's increased arty activity today and yesterday is possibly to cover relief of units or withdrawal of arty, or both (Div Arty).

(2) SP gun at 78906180 and gun of unknown caliber located at 78165743 today and engaged by Allied Arty (Div Arty).

e. Reserves and Other Forces Capable of Intervention: No change.

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary:

Strong resistance was offered to our patrol activity during the night of 25 - 26 October. In a fire fight in front of 325th Glider Infantry the enemy rushed up a platoon of reinforcements within 20 minutes.

The enemy resumed inquisitive patrol activity. An enemy patrol attempted unsuccessfully to penetrate the 505th Parachute Infantry lines about 0430.

There was increased artillery fire into our rear areas.

There was general sensitiveness along the enemy front in the QUER - DAMM - WYLER MEER areas, as evidenced by increased small arms and mortar fire, following Private First Class SIEMANEWICZ's feat in stealing two German parachutists from under the enemy's nose during the afternoon. Private SIEMANEWICZ, Hq Co, 505th Prcht Inf, observed enemy actions and habits from an observation post for ten days. About 1400 he crossed the bridge (believed mined) at BAD WYLER and, after going about one hundred yards, pulled away the camouflage on a foxhole. Seeing no enemy within, he ran around to the other side of the foxhole, ripped apart another covering, exchanged shots with the occupants and forced them to come out. He forced the less seriously

wounded prisoner to help the other back across the bridge and into our lines. The return trip was made under heavy small arms fire as other enemy troops hastily recovered from the surprise of the maneuver. (Pfc SIEMANOWICZ was decorated with the Silver Star by the Division Commander about 1800 hours.)

b. Operation of Component Elements.

(1) Artillery.

(a) Shelreps:

Unit Reporting	Time	Location of Observer	Direction (Azimuth)	No. of Rds	No. of Guns	Caliber	Interval
325	1815	76605732 (x)	108	15	?	Nblwfr	?
		757573 (x)	100				
325	1818	76605732	130	6	?	Nblwfr	?
325	1830	757575 (y)	120	18	1 - 2	Nblwfr	?
		76085735 (y)	90 - 110				
		75805635 (y)	120				
325	2055	75085735	50	2	?	?	?

(x) Same shelling observed from different locations.
(y) Same shelling observed from different locations.

(b) Ey arty action was moderate in front line areas but increased in back areas.

(2) Aviation, Combat: Ey plane dropped flares (on some of which prchts did not open) in front line area (325, 506).

3. MISCELLANEOUS:

a. Enemy Casualties:

(1) Estimated Killed: No estimate.

(2) Prisoners of War:

(a) Taken during period of report:

1. Reported by Provost Marshal: 0.
2. Reported thru Medical Channels: 2.
3. Total reported today: 2.

(b) Taken to Date:

1. Reported by Provost Marshal: 2,788.
2. Reported thru Medical Channels: 200.
3. Total reported to date: 2,988.

4290

b. Weather:

(1) During period: Generally clear, cool.

(2) Outlook for coming 24 hours: Foggy during first part of period, cloudy during latter part of period.

c. Other Intelligence:

(1) At 1005 conversation in Russian took place on 6425 megacycles. The phrase "Come over here" was repeated three times followed by the command: "Get off the air" spoken twice (80 AA).

(2) Reports have been received that cy is operating organized network of "stay-behind" pigeon services in liberated countries. Captured agents have stated that "pigeon agents are twice as numerous as wireless telography agents". (30 Corps).

4. ENEMY CAPABILITIES: No change.

INTERROGATION REPORT to accompany
S-2 Report No. 38:

1. Two PWs were captured by Pvt Bennie J. Siemanowicz, Regtl S-2 section, in mid-afternoon 25 Oct at approx 767601. Pvt Siemanowicz has been on duty in OP No 2 at 764596 for the past 10 days and therefore knew the habits and positions of the Germans along the Quer Damm. Pvt Siemanowicz acted on his own initiative to cross the Wyler Meer and bring back the two PWs. Both PWs were wounded - one being evacuated through 504 Medical channels, the other brought to 505th PWE for interrogation which revealed the following:

2. Jaeger Erich Hill, PW, belonged to the 3rd Co, 3rd Para Engr Bn, 3rd Para Div. Other PW was of same unit. PW joined his Bn about four weeks ago at ARNHEM and came into present position three weeks ago.

3. PW states that entire 3rd Bn is deployed along Quer Damm. 3rd Co is deployed along South slope Quer Damm from Wyler Meer to the NE. 4th Co is on right of 3rd Co but on North slope of Quer Damm. Disposition of other two Cos is not known. Co strength of 3rd Co is 150 men, the other Cos are the same.

4. Foxholes are about six feet in depth and ten yards apart. Each foxhole houses two men - one machine pistol, one rifle, one Faust Patronne (Bazooka). There are three squads per pltn and three pltns per Co. Each squad has 2 LMGs. 4th Co is armed with Hvy MGs and 81 mm mortars. Mortars are in field 775606.

5. PW states that bridge across Wyler Meer is mined on both ends and set for demolition. Mine fields are located along Wyler Meer both North and South of Quer Damm. T & S mines are used-the T mines set for either push or pull action.

6. Bn CP is in Zyfflich. Food is brought up at night from Zyfflich at no definite time. Supplies are also stored in Zyfflich. No exact locations obtained. Bn CO is Capt Roth - who also commands the 3rd Co. Morale is high. Unit is composed of men from 18 to 25 years of age and PW states that everyone there believes that Germany will win the war.

7. PW states that they haven't had any casualties from our arty, MG, or mortar fire. The range is all right but their holes are just too deep. The typhoon attack on the strongpoint proved unsuccessful due to the fact that they missed the target. PW said it would be impossible, even suicide, to attempt running our tanks through the strongpoint.

Interrogation by S/Sgt Burrer, IPW, 505.

Subject: Results of Patrol Activities.

To : A. C. of S., G-2, 82d A/B Division.

The following are the results of patrol activities conducted by units of this command during the night 25-26 October 1944.

"C" Co Rcn patrol consisting of six men left IMTHAL at 1930 with the mission of harrassing the Ey in the NW corner of GRENSKANTOOR. The patrol went to a house several hundred yds NW of the GRENSKANTOOR CR's and waited there for three and a half hours in an attempt to ambush a suspected Ey OP. No Ey troops came out to man the OP so the patrol started to return to our lines. On the way back a tank in WYLER fired at the patrol. No casualties, no PW's. Patrol in at 0100. Arty fire layed on tank.

"A" Co Rcn patrol consisting of six men left Co CP at 1930 with the mission to harrass the Ey at VOGELSANG & woods SE. The patrol moved out to secure the frontal area and found nothing there. The patrol then moved to the vic of the strongpoint in the woods near VOGELSANG. Ey movement of unknown strength was detected there. Ey movement was also heard around the minefield to the front of the strongpoint. The patrol remained in the vic to observe for one and one half hours. No casualties, No PWIs. The patrol returned at 2130.

"F" Co Combat Patrol consisting of fifty men left "D" Co OPLR at 2140 with the mission to neutralize VOSSENDAAL and get PW's. The patrol advanced on their objective and became engaged in a heavy exchange of MG, rifle fire, grenades, mortars and arty fire. Although it is known that the Ey sustained killed and wounded in this exchange we also suffered some 15-25 WIA's and KIA's. The patrol leader reported in to the Cider CP at 2350 with one PW from the 10th Co of the 5th Prcht Reg. (A more detailed report will be compilled and fwd from this headquarters).

"C" Co 307th Engr Rcn patrol consisting of three men were to have left at dusk for (783576) to gain terrain intelligence. A request was made to G-2 that this patrol be delayed 24 hrs as the Ey was apparently laying down an FPL using rifle and MG fire from acress WYLER MEER. The FPL appeared to be layed down firing N to QUEER DAM and S from QUEER DAM. The request was granted.

PATROL REPORT

1. Patrol #1 postponed, per telephone call from G-2.

2. Patrol #2:

Lt Jurist
Pvt McAdams

Patrol left contact point between British and Co A of 325th Inf (762561) at 2015, 25 Oct 44, proceded on azimuth of 105° following road for a distance of 1100 yards (paced) at which point went off on an azimuth of 165° for about 150 yards, ran into a German work party who from the digging and type of digging were (mine laying) ? (769558). Maintained this position for 1-1/2 hours trying to find a route around work party, met a German patrol (3 men) which went back into German lines directly to the North having come down same road. As the work party continued to work it was impossible to penetrate further.

The road from (762561) to (770560) is passable to heavy traffic in dry weather. There are some gliders on this road that can be by-passed or pushed off the road. The road is hardly more than two tracks, rutted but is hard ground.

The ground covered by this patrol and in the vicinity of (769558) is solid ground in dry weather, capable of supporting tanks. The ground was dry and covered with dry vegetation. There were no ditches to speak of and shell holes were dry. The ground had some sand but was more like "normal soil", apparently the area has good drainage.

German work party working from approximately (772557) to (765558). German flares (white) were shot from the VICINITY OF (769558) about every five minutes.

A dead British soldier on road at (765561).

Upon return at 0130 returned to Hq 1st Bn 325th Inf having missed Co A CP.

Artillery placed concentration on work party location.

For the Division Engineer:

PATROL AND ACTIVITY REPORT for night 25/26 Jan 44

1. The screening patrols of night of 24/25 got run into such alert and agressive enemy outposts that the Ird on 3-2 felt that that there must have been a shift of units to his front. Therefore it was decided to stop patrolling for a short period and let the enemy become lax once more. Neither of the two patrols planned for night 25/26 went out, but it is planned to continue them for 48 hrs.

2. Other enemy activity during the night was at a minimum. There was a little harassing MG fire in the early period of darkness, but the remainder of the night was very quiet.

REPORT OF PATROLS - NIGHT OF OCTOBER 25-26.

Patrol # 1: Co C, 8 men, with S/Sgt Koze as leader; mission— recn and ambush cy listening post. Patrol left Co C outpost at 2100 and proceeded toward the Wiljersche Bash, where a 2-man covering force was left. Balance of patrol continued to nock of Den Heuvel; encountered no mines. Proceeded to open field between Den Heuvel and first house at 77155710, then crawled North 150 yds where they had good view of burned out houses. Patrol leader crawled up to a point opposite first house; heard cy talking as he was lying in tank track. Fired on house in effort to locate MG. In return cy threw 6 grenades and flares went up in front of Den Heuvel. Patrol returned via same route used moving out. Arrived at 0440.

Patrol # 3: Recn Patrol of 4 men from Cos A and B, with Sgt Dube, as leader. Patrol left at 2000 thru A Co's outpost and proceeded to a point 77055620, where an ambush and listening post was established. Patrol remained in position until 2400 without observing any cy activity or contacting cy. They then returned to our lines.

Three contact patrols were operated by 3rd Bn during the night. Patrol No. 1 left Blue CP at 2000 and checked in at 2345 after contacting Regtl Fwd CP, OP, British, and front line positions. Patrols No. 2 and 3 left at 2400, No. 2 checking in at 0340 and No. 3 at 0350.

SECRET

Hq 504th Prcht Inf RC
Bergendal, Holland
260800 October 1944

Subject: "F" Co patrol report.

"F" Co patrol operating against Vossendaal on night of 25-26 October 44, consisted of six (6) Officers and ninty-seven (97) EM including one (1) forward arty observer.

One Platoon under Lt Harris stayed in reserve on both sides of road at RJ (773577). From this RJ one Platoon moved on each side of road toward VOSSENDAL and stopped within two hundred yards of objective and began the assault when the arty barrage lifted at 2130 hours.

Mortars began firing at 2100 hours and arty at 2120 hours and lifted at 2130 hours. Left Platoon cleared out houses and MG positions to left of RJ (776576). Encountered three (3) MG's, set up behind log positions, not dug in and all positions were knocked out and the two houses were demolished with Gammon Grenades and Bazeekas after receiving Panzerfaust fire from these houses.

One group of eighteen (18) Germans were killed in ditch across road while attempting to retreat. After Platoon had swept area, positions were taken in German holes and area was outposted, holes dug in were without covers and very poorly prepared, MG positions were definitely poor.

Platoon on right of road came in woods from right of woods, cleaned out houses with Gammon Grenades and Bazeekas, from which panzerfaust fire was coming. One MG position knocked out and some Germans in holes killed. Believe arty took its toll while Germans were retreating out of woods. In general positions were poorly prepared, holes had no covers and the one MG position was behind and not dug in, a log barracade.

About fifteen (15) Germans were found in this area which had been killed one or two days previous.

Right flank Platoon captured lone prisoner and noted destroyed truck in orchard.

Three (3) short rounds from our arty landed among our troops but caused no casualties. Most casualties were caused by mortars and one (1) SP gun in LAGEWALD and a howitzer from direction of LEUITH. While our arty was falling on VOSSENDAAL, the Germans threw this mortar and arty on our troops waiting for the assualt.

Arty support was very good.

Our casualties were:
Officers, 1 KIA
EM , 3 KIA and 20 wounded.

Estimated enemy losses were:
40 killed
1 captured.

For the Commanding Officer:

F. GORHAM
Capt., 504th Prcht Inf RCT

ANNEX #1 TO G-2 REPORT NO. 130

HQ 82D A/B DIV
APO 469, US ARMY
IN THE FIELD
26 OCT 44

INTERROGATION REPORT NO. 17

1. UNITS IDENTIFIED

	NO. PW	PLACE	BY
3/III Para Eng Bn	2	(766600)	505 Inf
10/5 Para Regt	1	(774576)	504 Inf

2. ORGANIZATION AND STRENGTH

DO NOT TYPE

a. The Para Eng Bn now consists of only one company. PW stated that after the abortive attack vicinity of BEEK on 18 Sept, the Bn was left with a total of 150 men. They were reorganized after that attack and recommitted in their present sector where they have been ever since. PW states that they have lost up to 50 men during the static period of the last few weeks and the remnants of the Bn now number about 100 men divided into 3 platoons. They are, however, well armed. PW claims 2 LMG per squad and where there is no LMG, they have an M.P. This seems like a great deal of firepower, but an examination of aerial photos of the QUER DAMM shows an almost unbroken line of foxholes and it may well be that the enemy has this amount of firepower in the area.

b. The 5th Para Regt was identified by one PW and several Soldbuchs, however, PW states that there are only 2 platoons of paratroopers from the 5th Regt plus 1 platoon from the 11th Para Flak Regt. This forms the Battle Group LORENZ. The LORENZ unit was identified only once before, on 22 Sept. At that time PW statements indicated that LORENZ had a command of approximately Bn size. The PW taken last night, however, stated that he had been with the group since it was formed in KLEVE on 17 Sept and that it was never larger than 150 men. Further, although we have not taken PW from the unit since 22 Sept, PW states that [redacted] they have been in the line continually in the same area since we landed here. Their present strength is estimated at 100 men.

3. ORDER OF BATTLE

The PW identifications of the last few days have added considerably to our knowledge about the enemy on our front. We have now identified the 5th and 9th Para Regts. and the 3rd Para Eng Bn, all units out of the 3rd Para Div in the WYLER area. The fact that these 3 units represent the major elements of the division is of no real significance inasmuch as each group consists of between 100 - 200 men with a total of 500 men. The fact that PW state that these units have all been in this area for at least a month puts a shadow of doubt on the SHAEF report of 22 Oct that the division is in GERMANY re-fitting. The question remains: In view of the small number of men in these units, is this THE 3rd Para Div or is it the remains while the division itself is being rejuvenated somewhere in GERMANY?

4. TROOP LOCATIONS AND INSTALLATIONS

a. It is now believed that the 15th Para Regt which a PW told us about

was really the 5th Regt and that it is in the area of the VOSSENDAAL woods (774576).

b. The 9th Para Regt battle group is on the right of the 5th Regt in the sector up to the WYLER MEER vicinity (778587).

c. The 3rd Para Eng Bn consisting of only 1 Co holds the QUER DAMM from (766600) to approximately (775610). From (768602) to (771605) there is a platoon holding each side of the dam.

d. It is believed that the NE end of the dam and the MOSTERD DIKE line is held by the II Bn 1052 Regt.

e. The E bank of the WYLER MEER, above and below the dam, is mined with S & T mines. Exact locations are unknown, although it is presumed that the Teller mines will be found on the roads emanating from BAD WYLER. PW stated that although the bank of WYLER MEER from (767598) to (774594) was mined, the troop positions were 50 - 100 yards from the water edge. However, the dike which runs from (775594) is outposted. No definite information regarding the troops on the far side of the WYLER MEER is at hand, however, PW heard that it was a WAFFEN SS unit.

5. MISCELLANEOUS

a. PW stated that Major BECKER of KAMPF GRUPPE BECKER fame earlier in this operation was formerly commander of the 5th Para Regt. (He is supposed to be enjoying a leave at the present time.)

b. A PW captured vicinity (775615) on 12 Oct from II Bn 1052 Regt told us that elements of 3rd Para Div were in the WYLER area.

G-2 NEWS SUMMARY

This news is from LONDON BBC reports:

BERLIN radio tonight told of an Allied invasion of the SCHELDT Islands from the sea and the Canadians meanwhile advanced six miles along the causeway separating the islands from the mainland. Other Allied forces reached the outskirts of TILBURG, vital communications center.

Although unconfirmed, news commentators gave credence to the story of the sea landings on the SCHELDT Islands and pointed out that removal of German batteries from FLUSHING would be a major step in making ANTWERP harbor available for our use.

Enemy batteries at FLUSHING virtually make impossible the use of the port in ANTWERP. The guns there have continued in operation since the Canadians yesterday took Fort Frederick Henry.

Although the Germans are keeping a "pocket" in the 's HERTOGENBOSCH and street fighting continued there tonight, Allied troops pushed to the outskirts of TILBURG, important highway and rail junction. TILBURG supplies BREDA for the Germans and BREDA is undoubtedly next on the list for British occupation. The English troops moved two miles toward BREDA today and were within 10 miles of the city tonight. The Germans are setting up an AT gun screen south of 's HERTOGENBOSCH.

With only partial reports available, the Americans and Australians are known to have sunk and damaged more than 20 vessels this week near the PHILIPPINES and with the Jap navy fleeing this great series of sea engagements continues.

Here is a summary given tonight of the damage to the Nipponese fleet: One battleship sunk, two aircraft carriers sunk, two cruisers sunk, a number of destroyers sunk, two other battleships probably sunk and seven other battleships damaged. Planes, submarines and surface craft are taking part in the battles. Reports held back for security reasons and overlapping accounts given by Gen. MACARTHUR and Admiral NIMITZ made definite figures on the sea casualties impossible.

The Japanese, it became known, were striving to attack the American ships while they were landing supplies and troops on LEYTE Island. One fleet also was approaching from near FORMOSA. In addition to the loss of the PRINCETON, a light U. S. aircraft carrier, the Australian flagship was damaged. Reports did not indicate, how-

-1-

(4390)

ever, that the flagship is out of action.

We now hold six airfields on LEYTE, three more than yesterday.

The Germans placed more resistance against the Third Army beyond NANCY. Enemy counterattacks were beaten off in the VOSGES Mountains.

More than 1200 Fortresses and Liberators today pasted MUENSTER and HANOVER and later in the day another Allied air fleet bombed chemical works in GERMANY.

On their far-flung battlefields the Russians pressed the Germans hard today and reported substantial gains. New fighting broke out in WEST LATVIA. The Russians and Polish patriots in POLAND captured several strongpoints. In EAST PRUSSIA the Reds moved forward for important gains. In addition to KIRKENES, NORWAY, the Soviets have taken 30 other Norwegian towns. An industrial center in the CARPATHIANS fell to the Russians.

Two prominent English residents died today. Princess BEATRICE, last surviving daughter of QUEEN VICTORIA, expired in her sleep at the age of 87 years. She was a great aunt of the King. Much of the time she spent on the ISLE OF WIGHT, which she once ruled. Dr. WILLIAM TEMPLE, the Archbishop of Canterbury, died unexpectedly of a heart attack. He had been ill several weeks from gout but was apparently recovering. Dr. TEMPLE was 65 years of age.

G-2 REPORT

NO. 150.
MAP: GSGS 4427, 1/25,000 Sheets 6 SW, 12 NW; GSGS 4414, 1/25,000, Sheets 4102, 4202.

1. ENEMY SITUATION AT [illegible] OF PERIOD:

a. Enemy Front Line: [illegible]

b. Defensive Tactics:

(1) By mortars in area may be engaged by our arty: Nebelwerfers at 796557, mortars at [illegible] VRONDOL, 78205008 (Div Arty).

(2) Digging at [illegible] (Air OP).

(3) Mortars in field at 778606 (PW to 505).

(4) See also Annex No. 1.

(5) OPs at 764590 and 761090 have never seen MG fire from OPs, especially while doing night firing. Therefore it is believed there are no MGs firing from QUEM - DAMM although they may be in position along it. PW states that there are at least ten (505).

(6) Fire received by our "P" Co patrol (VOSSENDAAL WOODS) during the hours of darkness indicates that the enemy has an OPLR, manned by riflemen and automatic weapon crews, and some distance to the rear a heavily defended MLR. Our combat patrol successed in breaking through the OPLR but were then fired upon from three sides by mortars, MG and rifle fire and also received long-range arty fire from LEUTH and KRANENBURG (504).

c. Units in Contact: See Annex No. 1.

d. Artillery - Location and Caliber.

(1) Ey arty located today and engaged by Allied Arty: Three guns at 79996175, gun at 80046200, 75mm gun at 77885597, undetermined No. guns at 79666223; and SP guns at 78005776, 77505700 and 78506135 (Div Arty).

(2) Four arty pieces vic LEUTH (Div Arty Air OP).

e. Reserves and Other Forces Capable of Intervention: No change.

SECRET

(4391)

2. ENEMY OPERATIONS DURING PERIOD.

a. General Summary:

The enemy suffered a severe blow from the raid made night 25 - 26 Oct. by "F" Co, 504th Proht Inf, on VOSSENDAAL WOODS. It is estimated that 40 to 50 enemy were killed in their holes or attempting to retreat during the assault by our troops. The usual quick counter action was taken by the enemy, and a vicious fight ensued before our raiding party returned to our lines.

During daylight there was small arms fire from the enemy in the flats north of the WYLER MEER.

Sporadic artillery and mortar fire continued through the period.

b. Operation of Component Elements.

(1) Artillery Shelreps:

Unit Reporting	Time	Location of Observer	Direction (Azimuth)	No. of Rds	No. of Guns	Cal.	Interval
504	1350	77 45868	70.5	?	1	170	?
325	1410	75 5564	79355570 (x)	18	1	Nblwfr	?
505	1500	75 5615 (y)	10 (z)	3	1	75	?
325	1530	75 5564	79355570 (x)	6	1	Nblwfr	?
505	1600	75 1617 (y)	85 (z)	12 - 15	1	Med.	5 Secs

(x) Est. location of Nblwfr.
(y) Location of impact.
(z) Azimuth from impact.

(2) Engineer: Ey work party at 769558 night 25 - 26 Oct believed, from type of digging observed, to have been mine laying party. Another party working from approx 772557 to 765558 (307 Engr).

(3) Tanks: Tracked vehicles heard in ZANDPOL night 25 - 26 Oct (505). Tracked vehicles heard at 767562 during past few nights (43d Br Div).

c. Miscellaneous: Increased vehicular movement vic DEN HEUVEL - VOSSENDAAL night 25 - 26 Oct (325). Unusual amount motor activity heard in VOSSENDAAL after Co F patrol had returned. Surmised that ey was reinforcing posns we had attacked and was evacuating and resupplying (504).

3. MISCELLANEOUS.

a. Enemy Casualties:

(1) Estimated Killed: 40 - 50.

(2) Prisoners of War:

(a) Taken during period of report: 1.
(b) Taken to date: 2,989.

b. Terrain Not Under Our Control.

(1) WAAL River has risen approx 36 inches in past week vic 785630 (505).

(2) Terrain in general area between VOSSENDAAL and WYLER consists of approx one foot layer of humus loam with layer of clay underneath. PW complained of foxholes caving in with every nearby arty or mortar hit. During early October attack Panther tks crossed this terrain w/o difficulty, although their exact routes are not known (PW to 504).

(3) Rd from 762561 to 770560 is passable to hvy traffic in dry weather. There are some gliders on the road that can be by-passed or pushed off road. Road is hardly more than two tracks and is rutted but on hard ground (307 Engr).

(4) Ground vic 739558 is solid ground in dry weather capable of supporting tks. Ground was dry and covered with dry vegetation. There were no ditches to speak of and shell holes were dry. The ground had some sand but was more like "normal soil". Apparently the area has good drainage (307 Engr patrol report).

c. Weather:

(1) During period: Misty during early morning. Clear later but with some ground haze.

(2) Outlook for coming 24 hours: Cloudy, with light rain in latter part of period.

4. ENEMY CAPABILITIES: No change.

ANNEX NO. 1 TO
G-2 REPORT NO. 130.

HQ 82D A/B DIV,
APO 469, US ARMY,
IN THE FIELD,
26 OCTOBER 1944

INTERROGATION REPORT NO. 17

1. UNITS IDENTIFIED	NO. PW	PLACE	BY
3/III Para Eng Bn	2	(766600)	505 Inf
10/5 Para Regt	1	(774576)	504 Inf

2. ORGANIZATION AND STRENGTH.

a. The Para Eng Bn now consists of only one company. PW states that after the abortive attack vicinity of BEEK on 20 Sept, the Bn was left with a total of 150 men. They were reorganized after that attack and recommitted in their present sector, where they have been every since. PW states that they have lost up to 50 men during the static period of the last few weeks and the remnants of the Bn now number about 100 men divided into 3 platoons. They are, however, well armed. PW claims 2 LMG per squad and where there is no LMG, they have an M. P. This seems like a great deal of firepower, but an examination of aerial photos of the QUER DAMM shows an almost unbroken line of foxholes and it may well be that the enemy has this amount of firepower in the area.

b. The 5th Para Regt was identified by one PW and several Soldbuchs. However, PW states that there are only 2 platoons of paratroopers from the 5th Regt plus 1 platoon from the 11th Para Flak Regt. This forms the Battle Group LORENZ. The LORENZ unit was identified only once before, on 22 Sept. At that time PW statements indicated that LORENZ had a command of approximately Bn size. The PW taken last night, however, stated that he had been with the group since it was formed in KLEVE on 17 Sept and that it was never larger than 150 men. Further, although we have not taken PW from the unit since 22 Sept, PW states that they have been in the line continually in the same area since we landed here. Their present strength is estimated at 100 men.

3. ORDER OF BATTLE.

The PW identifications of the last few days have added considerably to our knowledge about the enemy on our front. We have now identified the 5th and 9th Para Regts. and the 3rd Para Eng Bn, all units out of the 3rd Para Div in the WYLER area. The fact that these 3 units represent the major elements of the division is of no real significance inasmuch as each group consists of between 100 - 200 men with a total of 500 men. The fact that PW state that these units have all been in this area for at least a month puts a shadow of doubt on the SHAEF report of 22 Oct that the division is in GERMANY re-fitting. The question remains: In view of the small number of men in these units, is this THE 3rd Para Div or is it the remains while the division itself is being rejuvenated somewhere in GERMANY?

4391

SECRET

4. TROOP LOCATIONS AND INSTALLATIONS.

a. It is now believed that the 15th Para Regt which a PW told us about was really the 5th Regt and that it is in the area of the VOSSENDAAL WOODS (774576).

b. The 9th Para Regt battle group is on the right of the 5th Regt in the sector up to the WYLER MEER vicinity (776587).

c. The 3rd Para Eng Bn consisting of only 1 Co holds the QUER DAMM from (766600) to approximately (775610). From (768602) to (771605) there is a platoon holding each side of the dam.

d. It is believed that the NE end of the dam and the MOSTERD DIKE line is held by the II Bn 1052 Regt.

e. The E bank of the WYLER MEER, above and below the dam, is mined with S & T mines. Exact locations are unknown, although it is presumed that the Teller mines will be found on the roads emanating from BAD WYLER. PW stated that although the bank of WYLER MEER from (767598) to (774594) was mined, the troop positions were 50 - 100 yards from the water edge. However, the dike which runs from (775594) is outposted. No definite information regarding the troops on the far side of the WYLER MEER is at hand. However, PW heard that it was a WAFFEN SS unit.

5. MISCELLANEOUS.

a. PW stated that Major BECKER of KAMPF GRUPPE BECKER fame earlier in this operation was formerly commander of the 5th Para Regt (He is supposed to be enjoying a leave at the present time.)

b. A PW captured vicinity (775615) on 12 Oct from II Bn 1052 Regt told us that elements of 3rd Para Div were in the WYLER area.

Subject: Results of Patrol Activities for Night 26-27, 1944

To : A. C. of S., G-2, 82d A/B Division

1. The following are the results of patrol activities conducted by units of this command during the night 26-27 October 1944:

"A" Company Rcn Patrol consisting of six (6) men left Co CP at 1830 and proceeded down the VOGELSANG - YLER ROAD to within 75 yards of Road-Block at (776589). The patrol remained in position for two hours as a Listen-Post. While in this position they observed approx 2 enemy squads laying mines and wire and emplacing a MG. At approx 2155 the patrol saw a row boat on the YLER MEER moving SE. Patrol returned at 2200. No casualties, no PW's.

"C" Company RCN Patrol of six (6) men left EMTHAL at 170200 October 1944 for NW corner of GREENSKANTOOR to harass enemy. This patrol due back at 0630 and has not reported in as yet.

"C" Company, 307 Engr Bn consisting of three (3) men left "A" Co CP at Dusk for YLER - KRANENBURG HIGHWAY for Terrain Intelligence. That patrol due back at Dawn or Dusk. Patrol has not reported in as yet.

PATROL AND ACTIVITY REPORT for night 26/27 Oct:

1. Screening and lateral patrols only operated to the 3rd Bn front during the night 26/27 Oct. Only one incident concerning enemy activity was reported: At about 2200, two men of Bn S-2 section were at 775622 when a potato masher grenade was thrown at them. They answered by throwing a frag grenade and heard people scattering. Believed to be a small enemy patrol.

PATROL REPORT FOR NIGHT OF OCT. 26-27.

Patrol of 5 men from Co, E, with Sgt. Jensen as leader, moved out at 1900 and established a listening post at approx 770561. Remained in position until about 0300. Record of events observed:

1930: Heard horse leave Den Heuvel and turn North.
1945: Heard digging between Den Heuvel and woods to South.
2100: Heard truck move out from posn about 1/4 mile to rear of Den Heuvel; moved east and north.
0130: Heard tracked vehicle, believed to be tank, moving in vic 1/4 to 1/2 mile east of Den Heuvel.

Between 1930 and 0100 the outpost heard MG and S/A fire, followed by flares, seem to move progressively from vic of Vossendaal toward Den Heuvel; believed it to be operation of patrol.

Patrol of 5 men from Co F, 2nd Bn, with Sgt Kirby as leader, moved out at 1900 thru the OP and established a listening post at approx 771572. At 2130 they reported a tank at rear of Den Heuvel and at 0100 they reported the vehicle moved out of that area, going east. Patrol returned to our lines at 0300.

Two contact patrols also were operated during the night, completing their route without incident.

During the hours of darkness the 2nd Bn moved onto line, relieving the 1st Bn, which withdrew to Regtl Reserve line.
