COMMAND REPORT

for

MAY 1951

In sharp contrast with the last few days of April which were marked by numerous short moves rearward, the month of May was charaterized by a somewhat rapid movement forward. May also marked the advent of a new Division Quartermaster, It. Col. James E. Butler, who assumed his duties on 11 May. It. Col. Cocheu departed the same date for Division Rear and rotation to the Zone of the Interior.

All Class I and III operations, with the exception of a small railhead detachment at Ichon, were concentrated at Kyongan-ni.

Quartermaster trucks were assisted by IX Corps trucks throughout a large part of the month. ASP 26 at Osan was the railhead for POL while Class I and III supplies received were transported by Corps trucks. For the first time in ten months of combat operations, this released at one time every Quartermaster cargo vehicle for a complete maintenance check.

Shipments of POL items by narrow gauge railroad from Suwon to Ichon were started on 2 May and continued until that point was closed out on 25 May. In spite of the fact that the Ichon railhead handled nearly a million gallons of POL products during that period, it frequently became necessary to dispatch vehicles to Army Supply Points to pick up additional Class III requirements. Ichon was not opened as a Class I point other than for the issue of a few combat type rations. When the Ichon railhead closed the balance of gasoline on hand was turned over to Army representatives.

A forward supply point for the distribution of POL was established in the vicinity of Yangsu-ri on 11 May. Approximately 60,000 gallons of gasoline were trucked to that point for issue. Due to a change in the tactical situation, however, this point was closed out by issue on 13 May and the personnel returned to Kyongan-ni. Ten days later the point at Yangsu-ri was reopened but was very short lived. By this time the division was advancing so rapidly that even while the main body of the company was still closing in at Yangsu-ri plans were being made for another move forward. On

the 25 May Chongpyong-ni supply point opened and Yangsu-ri closed. The entire company, except for the Class II and IV section and a small railhead detachment at Yongdungpo, assembled at Chongpyong-ni. This point was still in operation at the end of the month with Class I and III supplies being shipped by ASP 10 to a railhead at Mang-wu. During these moves forward there was a period of three or four days when more than half of the organic cargo vehicles were committed to troop movements. This made necessary the constant shuttling of the remaining vehicles to insure a steady flow of supplies to the forward point.

A study of the figures for Class I and III supplies handled during the month of May reveals that some new highs were established. A total of 1,489,689 gallons of gasoline were received and issued at the various supply points. This represents a daily average of over 48,000 gallons. During the same period 937,212 rations were issued for a daily average of 30,232. It should be pointed out, however, that these large issues resulted partially from the numerous attachments to the division. During certain periods there were as many as 33 nondivisional units being supported logistically. Included in these were the 28th British Commonwealth Brigade and the 6th ROK Division, both of which received Class III support only. In addition, one RCT from the 3rd Infantry Division was furnished FOL for several days and the 7th Infantry Division made several large draws of Class III supplies. Also attributable to the large gasoline consumption figure was the fact that the division was advancing in the attack. This normally requires about double the gasoline needed in a static situation.

Laundry service was greatly improved during the month by the establishment of the IX Corps Service Center which provided a clothing exchange. Units would bring dirty clothing in on their ration trucks. A Quartermaster vehicle would then take this to the Service Center and exchange it for clean clothing on an item for item basis. As a result of this procedure units were able to have 24 hour service on Laundry. In addition, our own laundry unit at Ansong processed thousands of pieces of clothing and blankets turned in through salvage and returned them to II and IV stocks. The Laundry, in conjunction with a bath unit. commenced operating a clothing exchange during the latter part of the month and processed approximately 2,000 replacements and rotation personnel. The Army Quartermaster, when called about the availability of the second laundry unit which is part of the T/O & E equipment, advised that there were none presently available in the theater and that it was doubtful if any would be shipped from the Zone of the Interior in time for use this summer.

The Class II and IV supply point remained in operation at Ansong until the 29th of May at which time it started a rail and truck movement to Ascom City which was to open on 1 June. Several large shipments

of combat boots and HBT clothing received during the month virtually eliminated the critical shortage of those items. The repair of typewriters and fire units was greatly hampered by the lack of parts kits and spare parts. This was brought to the attention of the Army Quartermaster who advised sending emergency requisitions to the depot by air courier. This was accomplished on 13-14 May but the items were not available at that depot and an airlift from Japan was arranged. Just at that time, however, air priority was given to ammunition and certain other items and at the end of the month the spare parts had not been received.

The rotation plan produced a fairly large turnover in personnel during the month. Thirty-one enlisted men were returned to the Zone of the Interior for rotation. This did not in any way hamper operations, however, since a steady flow of replacements continued to keep the organization over strength. In addition, rotation claimed four officers, including both the Quartermaster, It. Col. S.D. Cocheu, and the Executive, Captain E.J. Overmyer. These latter positions were taken over by It. Col. James E. Butler and Captain David H. Smith. Two other Quartermaster officers, one from the replacement stream and one by transfer, joined the organization. One more officer was gained by the return of It. Zabilski after nearly four months' hospitalization in Japan.

All in all there were no serious operational difficulties encountered during the month. A few days of wet weather were a hindrance but not enough to disrupt the flow of supplies. Rail shipments frequently had to be augmented by truck hauls in order to have sufficient supplies on hand. Without the aid of rail shipments and the use of Corps vehicles, however, it probably would have been impossible for the Division Quartermaster to fully meet all commitments. The whole operation was fairly smooth and well coordinated and there were no unusual circumstances or conditions to alter the normal functions and responsibilities of the Quartermaster Corps.

JAMES E. BUTLER Lt. Col., QMC Division QM

MSG

TO: Capt with, OIC. II&IV Sect.

Rec'd your MSG by truck driver.

Send us 20 fire unit generators for issue to 21st Inf. Need the socks as quickly as possible for the line units.

Do not desire you return Korab and Boyeff until such time as backlog of fire units have been repaired and returned to units; When parts are such that we can repair immediately and not load ourselves down with unrepaired units we would like them back.

Would like to have you send to us the one man that was working with Korab on expendables. Will assign him to Class I section for expendables.

Have only seven cooks in the company besides the one at the Repl. Co. If you could get two men through the Repl that would make cooks, send us one and we will give you a competent first cook. Also let us know what you need in the way of utensils, etc.

The water trailer at the Repl Co is ours. Perhaps you could work a deal. Get the trailer and each time Repl Co wants water they would have to borrow it.

Unload only those items which are due out or liable to move quickly. Leave bulk items on train until situation clears or you are ordered to unload by RTO.

The 2 large wall tent's are to be sent to us for issue to 6-4 EUSAK, M, (Salvage Section) has no record of our having turned in any winter clothing. They want dates shipped and Car # S. You have the info with you. Send report direct and info. copy to us

Sending you 3 pr of size lOFEE boots rec'd through the mail with no papers. Do you have anything on file on these?

Retraction on ILCIV section we sent you. Send us all but fire unit repair section & Boyeff. We need Kor b & his people for salvage. Also the remainder of the expendables if truck space available

Overmyer

Return MSG for Journal

Capt Overmeyer,

Sir:

It is my understanding that, the POL received today by truck was drawn against tomorrows telegram. Is this correct? If not, do you want me to draw an additional 35,000 gal Mogas as requested by your telegram dated 30 Apr 51, for consumption 4 May

POL Received Today:

40,068 500 103 50	gal	Mogas OE 30 11CO Avoil #B-2	45,152 318 460 3,498 954 106	gal lb gal gal	Mogas OE-30 WB#2 Diesel Avgas GO-90
			53		OE-50

Note: There is no more Avgas at Oson. We must send to YongDongPo to receive this.

Sgt. Wm H. Johnson

Mesg.

TO: Lt Weinshelbaum, Railhead

Did not receive information with the 1st Convoy as was requested. I am going on the presumption that we are to unload the 33000 gal of Mogas today. Am turning around to you enough trucks to haul the gas and see if you can get the following extras.

2000	gal	8C Avgas2 Trks				
500	gal	OE 30(1)trk		*		
100	gal	1100 Avoil(1)trk (These	3 Items	on 1	truck)
50	#	WP 4(1)trk				01 4011)
33000	gal	Mogas35 trks				
		38 Trks T	otal			

We have 13 IN Corps trucks to help on this. Will send 25 Qm and 13 IN Corps which should be sufficient.

Telegram sent to you this morning for pickup 2 May 1951 is OK. Leave it stand. Will send telegram tomorrow A.M. for pickup 3 May, Consumption 5 May.

CLASS II & IV SUPPLY POINT Ansong, Korea

1 May 1951

Memorandum

TO: Capt. Overmor, Executive Officer, 24th Division M

Sending forward 20 generators for issue to 21st Inf, also sending along an issue slip to cover it.

Sending forward two large wall tents for 6-4 with an issue slip. I believe that one section of one of the ridge poles is missing and we do not have a replacement here.

Sending forward Korab and his salvage section plus as many of the expendables that can be loaded. Do you want the fly proof liners up there?

More replacements are due at the Repl. Co. in a couple of days. I've already spoken to Lt. Kauffman, AG, and told him that we needed a couple of cooks, or potential cooks. I will try and arrange for the return of the water trailer from the Repl. Company. At present they have two of the large truck mounted water tanks and should be able to spare the small trailer.

No socks have arrived yet. Five carloads of Special service supplies, including upwards of 10,000 cases of beer came in last night. According to the RTO we can expect the balance of our cars later this afternoon or evening. I've completely unloaded three of the four cars that arrived yesterday morning. Have one car 2/3 full of salvage and will complete loading that and will ship it. Yard space is somewhat critical since there were a total of 72 cars shipped from Ascom City to move the Rotation Center, Danger Rear, Special Service and M. I t ink, however, that I will be able to hold three or four cars here for the time being.

We will send EUSAK (M (Salvage Section) a complete listing of salvage shipped and send an info copy of the letter to you. Suggest a letter be sent to EUSAK (M telling them about the three pairs of 10EEE boots and how they arrived without any indication as to who they're for. Our requisitions for no-tariff boots are forwarded with complete mailing addresses of the individuals concerned. We don't know whether the men are getting them through the mail or not. Nor do we 'now whether or not we're duplicating an issue if we send these boots out to an individual.

A check of our oldest outstanding requisitions for size 10EEE combat boots indicate that three pairs should be issued as follows:

Req. No. 263, 30 Mar. 1951 -Cpl. James Osborn 24th Signal Co. 2 pair

Req. No. 293, 20 April 1951- Cpl. Herman Hall 24th Recon. Co. 1 pair

Feq. 293 was for 4 pair of size lotte, 2 for Hall and 2 for another man. If either Osborn or Hall receive their boots direct through the mail they will be that much better off. I'm sending back the 3 pairs for issue to the above mentioned men.

Do you have a file copy of the message or SOP published last winter that more or less outlined the requisitioning procedure for units drawing through our II and IV supply? If so, I would like a copy of it so that we can start reminding some of the units, especially the newly attached ones, of our requisitioning procedure. Some of the regs. coming in now are in pretty poor shape and it takes a lot of time to edit them.

The laundry is functioning but the cut-off valve on the wash trailer is not functioning. I've sent Sgt. Lane to Suwon to see what he can scrounge and have Brister on TDY orders to Fusan to go to the depot and see if he can pick up the parts if they're not obtainable at Suwon. Incidentally, couldn't Army be needled into exerting a little pressure in getting our other unit up here? (24-DM-227-51, dated 2 March 1951)

What is the present status of)3. The Col. instructed me to turn it over to It. Weinshelbaum. If he's sitting in Suwon with it, I feel that I could put it to such better use down here. Also, is it anticipated that I will be the liaison officer with Suwon when It. W. leaves?

We have no outside communication by telephone as yet. We're hooked in to Danger Rear and think that they will have a line through some switch in Pyongtek in another day or two.

Am sending up a statement to Capt. Devlin as to what I 'now about 33. Also getting Stavlo to write up a statement.

Capt. Mohnson, Repl. Co., just came in and said we'd have a line through EUSAK (Scotch) tenight.

David H. Smith Capt., MC

Report of Action for 24th Quartermaster Company 25 April 1951

At 251620 April 1951, a column of vehicles including thirteen (13) Quartermaster vehicles, transporting the first and second Battalions of the 5th Infantry Regiment, and A and B Batteries of the 555th AAA Battalion from their blocking position back to "fine Delta", was attacked from the east by an enemy force of unknown size. The whole length of the column was taken underfire by enemy small arms and mortars.

Eight (8) Quartermaster trucks were grouped in the middle of the second serial; two (2) trucks and a "jeep" (truck \(\frac{1}{4}\) ton 4x4) were trailing the second serial, and two (2) trucks were included in the first serial. Lt Coleman, Officer-in-Charge, was trailing the column in the jeep, just ahead of the covering force of tanks, and SFC Johnson, Platoon Sergeant, was riding in the first of the eight trucks grouped together.

When the column came under fire and halted, SFC Johnson dismounted and organized his drivers for defense against the ensuing assault. We then brought into action a .50 caliber machine gun mounted on the ring mount of a truck. The defense was effective. The fire from the machine gun neutralized some enemy positions and drew fire from others, aiding the infantry in their attempts to take cover and, later, withdraw.

Meanwhile, Lt Coleman organized a small group which had been cut off at the end of the column and set up a defense perimeter. The then initiated distribution of ammunition from an ammo truck within the perimeter, leading the carrying party across the interral separating the perimeter from the main body. On joining the main body, he went to eah truck, evaluating the damage and though instructed to abandon the vehicles, he ordered the drivers to stand by. Eventually, the way was cleared up to a sideroad and he ordered the drivers to mount their vehicles and SFC Johnson to lead them out.

At this time, the two (2) trucks in the first serial had been destroyed; the two (2) trucks and jeep were hopelessly trapped in the rear and were being destroyed to avoid captures, and one (1) of the eight (8) trucks in the middle of the road was destroyed.

As the trucks pulled out, a jeep, which preceded them, was hit by mortar fire, wounding the driver and again blocking the road. SFC Johnson, with the aid of Pvt-2 Zito, driver of the next truck in line, and an unknown infantry mm, removed the driver to the back of his truck and pushed the wreckage off the road, while under continueing mortar and machine gun fire. The trucks then proceeded to a point of semi-safety where they halted until they were fully loaded.

Report of Action, 24th QM Co, Cont'd

Lt Coleman stayed behind until he determined the road was impassable for those vehicles which were cut-off. He signalled for the men in the perimeter to follow him out, but they failed to respond. He, then withdrew on foot to a tank covering the withdrawal, where he requested to tank commander to relay the order, by radio, for the men to come out under cover of the tanks in the rear guard. Results were not forthcoming, so Lt Col Wilson, Commanding Officer of the 5th Infantry Regiment, was informed of the situation and Lt Coleman returned to resume command of the vehicles.

At 1930, the vehicles were loaded and the command was given to move out. At 2025, they came through the OPLR. The trucks were checked, serviced, and available for dispatch at 2400 hours

Report of Action for 24th Quartermaster Company 25 April 1951

At 251620 April 1951, a column of vehicles including thirteen (13) Quartermaster vehicles, transporting the first and second Battalions of the 5th Infantry Regiment, and A and B Batteries of the 555th AAA Battalion from their blocking position back to "Line Delta", was attacked from the east by an enemy force of unknown size. The whole length of the column was taken underfire by enemy small arms and mortars.

Eight (8) Quartermaster trucks were grouped in the middle of the second serial; two (2) trucks and a "jeep" (truck a ton 4x4) were trailing the second serial, and two (2) trucks were included in the first serial. Lt Coleman, Officer-in-Charge, was trailing the column in the jeep, just ahead of the covering force of tanks, and SEC Johnson, Platoon Sergeant, was riding in the first of the eight trucks grouped together.

When the column came under fire and halted, SFC Johnson dismounted and organized his drivers for defense against the ensuing assault. We then brough into action a .50 caliber machine gun mounted on the ring mount of a truck. The defense was effective. The fire from the machine gun neutralized some enemy positions and drew fire from others, aiding the infantry in their attempts to take cover and, later, withdraw.

Meanwhile, it Coleman organized a small group which had been cut off at the end of the column and set up a defense perimeter. We then initiated distribution of ammunition from an ammo truck within the perimeter, leading the carrying party across the interral separating the perimeter from the main body. HEADQUARTERS 24TH INFANTRY DIVISION Office of the Quartermaster AFO 24

2 May 1951

The Quartermester, EUSAK Headquarters, EUSAK, AFO # 301

Dear Colonel Lamont.

My executive officer and I went on a jeep trip today to the Suwon Railhead and to the I Corps Service Center. To be quite frank, a few things which we noticed seemed so out of place as to cause us first to feel upset, and then to feel that perhaps you could give us information of an explanatory nature.

First of all, we heard a rumor that the Service Center had an excess of officers, so you know us we decided to visit. The officer in charge was not present, so we left after looking around for a few minutes. The thing that struck us both, though, was the amount of equipment lying idle and not in use. Fersonnel there informed us that they had little laundry business to knop them occupied. and that (in spite of the fact they served I Corps and we were from IX Corps) they would welcome laundry from us. I'm going to take them up on that. However, we are unable to procure our T/O & E laundry equipment (having only one two-trailer unit) and it certainly looked odd to see the service center with laundry equipment that was set up not fully busy. Also, they had four two-trailer units parked in storage, all targed against the weather. It sure hart to see that. confirment not in use when we are aggressively trying to keep this clothing exchange going, utilizing native labor with scrub brushes and hand-laundering techniques to augment our own meager laundry machinery which is being over-worked to meet demands. Can we be issued, or allotted, one or more two-trailer launity units? The equipment appears to be available and not in use. We need it! Also, I could use three more shower units for my division. This same service center appears to have extra.

When we visited the railhead, we found the "A" rations were alleged to be a thing of the past. According to personnel there (who appeared to be acting in good faith) subsistence personnel of Army had questioned that forward units could use "A" rations, Please understand that even in the current tactical situation "A" rations can be used by us and they are desired. Troops fighting a delaying action such as this get a work-out and need all possible

nouriebment when they can get it. When troops retire to a new position, there is a gap of one to three days before the Chinese catch up to them. During this time, units can feed "A" rations; "C" ration demands drop, and "B" rations are not wanted. I have listened in on phone conversations between people who were discussing "B" rations, and the opinions expressed were profess. "C" rations are now so palatable that front line units which could serve "A" or "B" rations will take combat rations in preference to "B's". You can imagine the effect this will have on "C" ration consumption!

The "mon railhead can serve us "A" rations even in warm weather. They now have four refrigerator vans on hand, only one of which is being used (and that is for living quarters!) Whoever hold to the opinion in EUSAK that we cannot use "A" rations is wrong and I hope you have enlighten them. We want the railhead to follow our daily telegress which states our needs. If this is done, things can work out to everyones satisfaction.

Changing to another subject. I quote for your information from a letter from my Q450, Captain Smith (now in Ansong):

"We received some stove parts but no manifold tubes and no tubes, fuel, converted type. We're in dire need of these parts and have about 40 fire units in the shop that lack these parts."

Can this situation be corrected? My unfilled requisitions listed on my weekly shortage report, incorporated in my P/LR, cover our meeds.

You may be interested in a table of injuries, or wounds, and sickness casualties compiled by our surgeon. It emphasizes the need for a continuous flow of health items (listed in EUSAK Sanitary Order # 1) to units.

	Type of Casualty		April 19	51

	1.00	TOT		50 V 20 V	4	And the second	10 20	100		- 6	03	4.00	4.	32 91 73	1.0

From this table you can see that non-battle casualties closely approach battle casualties in member. Sickness casualties form an appreciable number of non-battle casualties. Adequate supply of such items as immersion heaters for sterilizing mess gear (with corrugated cans), scap, toilet paper, and all items that are asked for based on sanitary order # 1 (EUSAK) will help cut down our non-battle casualties. I hope these items won't run short.

This letter has turned into quite a lengthy report. I hope it is helpful, and I would certainly appreciate hearing from you.

Sincerely yours,

S. D. COCHEU Lt Col. MC Division Qu

OFFICIAL DESIGNATION OF SELECT

TIAL SIGNED .

SUGYATURE AND GRADE OF WRITER

Capt Overmeyer,

Sir:

Yesterday there was a shortage on frankfurters (fresh) of 1440 lbs. We have checked as much as possible and the shortage was, in our beleif a mis-count of the depot. They have no franks in stock so we are sending a substitute of Beef and Gravy. Quantity sent 1650%, on trk #0-17 in first convoy.

On the question of 100 bags of flour requested your note: There is no flour at this point. They have just enough on hand to balance their rations.

> Sgt. Wm. H. Johnson RA 44013088 24th M Company

022000 1887 1951

HERM

TO: Captain Smith OIC, II & IV Section

neceived items as per letter, except sock inventory was a total of 8525 pair instead of 8492 pair as manifested.

Require from 555th M En a Certificate on the typewriters and release them.

21st Infantry notified to pick up laundry.

Captain Carticar

c. Food Service Activities:

- (1) A survey was made by the Food Service Section this date of rations received 2 May 1951.
- (2) This ration consisted of 25,000 "B" rations based primarily on 8th ASP Menu #21.
- (3) The following components of the ration were not received and no substitutions were made:

ON Annex to PLR for Period 012400 to 022400 May 1951

- (a) Eggs, fromb
- (b) Onions, fresh
- (c) Oranges, fresh
- (4) The following items were issued short of matherised allowances:
 - (a) Beans, snap, No. 2, short 1416 came
 - (b) Potatoes, sweeth, No. 2 1/2, short 1656 cans
 - (e) Sansage, pork link, No. 2 1/2, short 198 cans
- (5) The following substitutions were made:
 - (a) Corned beef for 1/3 of luncheon meat issue.
 - (b) Beef and gravy, Ham chunks, and Vienna sausage were issued for 1/2 of the ground beef issue. No substitution was made for remainder of ground beef issue.

		·		SUMMARY OF DAYS ACTIVITIES	
				Receiving transportation assistance from IX Corp truck companies IX vehicles being utilized in hauling ration s and Corps hauling FOL. Rec'd call from Danger. Corps & Army intending to ship Class I to Ichon, by narrow gauge. Requested this not be done due to pilferage and lack of time saved in turnaround for trucks from Ichon to present location. Received from II & IV Section additional Halaria control items. Capt lisiewicz departed 0830 for Ichon to take over oper tions of narrow gauge railway there.

TEL:

FROM: Capt Overmyer, Ex. 24 DQM 24 Div.

TO: Major Bettren, Trans Officer 24 Div.

Request information as to exact status of Rhd. at Ichon. to space available, is Corps able to establish a tonnage limit and maintain it? Do not desire shipment of Class I by rail due to pilferage. Request Corps be asked to notify Danger 4 as to rail situation rather than direct to CM.

C.E.O.

031115 May 51

TEL:

FROM: Maj. Lowe, Asst G-4, 24th Div.

TO: Capt Overmyer, Ex 24 DOM

17th Ord are clearing Ichon RTO area.

150 Tons class III due there today. 250 Tons class I & III due there 4 May 51

C.E.L.

MIMO

TO: M/Sgt. Carlin, Suwon Rhd.

Do not desire you ship class I items by rail to Ichon until further orders. It will require an armed guard on every car of rations and I do not believe we would save anything by doing it just now.

The Rhd at Ichon had been cleared and we can handle the POL very well.

It. Weinshelbaum says we are to get "A"s tomorrow, if so, all rations, less "6"s and assault's come here. If "B"s they go to Ichon. We have two days on the ground here as of tonight. If the pickup tomorrow is "B"s would like to have the bread. Also do not forget the 100 bags of flour for us at this point.

New Subject:

Understand we draw condements tomorrow. If so: load on one truck and finish the load with "C"s and send in here so we can make immediate issue. Anything not clear send return msg.

Capt Overmyer

Cancel "C"s & assault Rts for 4 May Pickup. (Extract and return for journal

1630 3 May 51

Capt. Overmeyer:

Would like to have 4 extra trucks, sent to the point here beside the ration truck tomorrow morning. We have a chance to pick up 4,000 gal of OE 30; ll miles from here. (OK for pickup by Capt Wil liams FOL officer)

Sgt Corbin

Lt Col S.D. Cocheu Quartermaster 24th Infantry Division APO 24

Dear Colonel Cocheu:

I appreciate your letter of 22 April, regarding the submission of issue slips covering organizational equipment for the Engineer Searchlight Company.

After checking with the Engineer Section, this headquarters it appears this searchlight unit was recently organized by the 2nd Logistical Command as a provisional unit. I have been unable to determine why it was not completely equipped upon arrival at the 24th.

The normal procedure requires that units moving forward be equipped with all items upon departure for the forward areas. In instances of units arriving without authorized equipment, I suggest that you determine the point of origin of the unit, and the command involved and submit an official report of the discrepancies through command channels, requesting corrective action.

ACTION :

HEADQUARTERS 2LTH INFANTRY DIVISION Office of the Quartermaster APO 2h

4 May 1951

The Quartermaster, EUSAK Headquarters, EUSAK, AFO # 301

Dear Colonel Lamont,

You may be interested in a table of injuries, or wounds, and sickness casualties compiled by our Surgeon. It emphasizes the need for a continuous flow of health items (listed in EUSAK Sanitary Order # 1) to units.

	Type of Casualty	Λp	ril 1951	
a.	Battle	1 - 7	8 - 14	15 - 21
	Shell fragment Small arms Mines and Booby traps Injuries Accidentally discharged	100 46 21 25	146 58 6 17	151 h9 0 27
b.	Non-battle	20 1	<u>10</u> 	-31 <u>1</u> -
	Malaria Repatitis Diarrhea Psychoneurotic Bad feet Colds Other	6 26 7 26 6 6 33 105	18 12 8 29 12 22 102	7 12 6 23 2 32 91 173

From this table you can see that non-battle casualties closely approach battle casualties in number. Sickness casualties form an appreciable number of non-battle casualties. Adequate supply of such items as immercian heaters and corrugated cans for sterilizing mess gear, soap, toilet paper, and all items requested based on Sanitary Order # 1 (EUSAK) will help cut down our non-battle casualties. I hope these items won't run short.

Sincerely yours,

Lt Col Que Division QM HFADQUARTERS 24TH INFANTRY DIVISION
Office of the Quartermsster
Class II & IV Supply Point
Ansong, Korea

4 May 1951

Memorandum

TO: Capt. Overmeyer, Excutive Officer, 24th Division 3M

Attached is copy of requisition 24-D2M-304-51 submitted to ASP #25 this date. These are the only items on Sanitary Order #1 and EUSAK SOP #2 that the ASP presently has in stock. I am sending a truck in tomorrow morning to pick up the following items to put in stock here: 24CO ea; complete. I estimate that it will take from 6 to 7 trucks to haul the balance from ASP #25 to Danger Forward supply point. Sgt. Corbin has the original and a couple of copies ofit is requisition at the supply point with him.

Am sending you one each twie manifold (Stock No. 65-J-2560) and one each tube, fuel, converted type (Stock No. 65-J-2538). These are the items that are needed rather than the tube air or fuel long that you mentioned in your memo. I picked up about 120 of the long tubes at Yong*dung*po about a week ago. It's the manifold tube and the tube, fuel, converted type that's holding up the works. We did come across about 30 odd manifold tubes yesterday and have used them all up (we sent 26 repaired uni s forward this morning and others have been picked up by units here).

Talked with Capt. Rae at 58th M Salvage Co. in Suwon this morning. He told me to ship the two cars of salvage presently awaiting shipment direct to Masan where the 55th M Base Depot Salvage Section is located. He's checking to find out the disposition of further accumulations of salvage and may mossibly send a section of 12 men down here to receive and ship the salvage for us. I hope that he is able to send the section out.

The Division Surgeon personally picked up a small wall tent this AM.

The large wall tent for OD M is loaded on the truck that brought Davis down but the truck is broken down with a busted motor mount and can't move under it's own power and is sitting next to our mess hall. I'M waiting for one of the laundry trucks to return from forward so that I can transfer the load and send it forward. I don't know if Div. Rear motor pool will be able to fix the truck or not. It. Lambert, in my absence, sent Skinner with a truckload of laundry to Yoju so I don't know when I'LL be able to get this message, off to you.

On the requisition for tentage and typewriters that you sent down for re-working, did you notice the 1st indordement? Quoting from par. c. "If requisition is not in excess of established allowances resubmit direct to the 55th Quartermaster Base Depot. The only requisitions for Quartermaster II & IV supplies that require approval of this headquarters are those for supplies in excess of established allowances." Since that is in conflict with your instructions to address it to "The Quartermaster, EUSAK, Headquarters EUSAK, AFO 301," I well await further clarification on this before sending it in.

Sgt. Wagner is bringing up this note.

DAVID H. SMITH Capt. THE Supply Officer

HEADQUARTERS EIGHTH UNITED STATES ARMY KOREA (EUSAK) Office of the Quartermaster APO 301

KQM 400

4 May 1951

Lt Col S. D. Cocheu 24th Infantry Division APO 24

Dear Col Cocheu:

In reply to your letter of 30 April pertaining to daily telegrams, the request for transmission of daily telegrams by radio originated in the office of the G-4, this headquarters. Transmission of daily telegrams by radio is necessary because of the need for immediate information on which to base our requests for shipment of supplies from the depote

The five copies of the telegram prepared by you for submission with the PIR are not required since copies are being received by radic. Supply points require only one copy. The copy furnished Eighth Army by mail is no longer required.

The information pertaining to M/R strength of the division and attached units is required in order that we may exercise some control of over-issues. The present percentage of over-issues in EUSAK is abnormally high and CINCFE requires justification for these over-issues.

Hope your man gets his DSC. He seems to be a real "fighting Quartermaster".

Sincerely,

Harles Ledman, JV.

Report on IX Corp OM Service Center Support:

Lt. Lambert contacted OIC of the IX Corp M Service Center at Yoju who advised him that the center is presently capable of supporting the 24th Div. with approx. 1000 clean uniforms per day on a clothing exchange (garment for garment, size by size) basis.

This number may increase with an expected addition of equipment to the center within a few days. It may also decrease with any unexpected major breakdown of laundry equipment; however, the center is authorized to keep 8000 clean uniforms on and.

Div. units may henceforth turn laundry in to the ration issue point where it will be sorted into sizes by item, shipped by first available transportation to the M Service Center and exchanged (within one hour) for clean clothing, and returned to the same point for return to the unit within a 24 hour period.

This operation will leave the one 24th M Co. Ldry. unit on hand at present to support the Div. Replacement and Rotation Center and will be adequate support for the Div. under present conditions.

C. F. O.

Office of the Division Quartermaster, 24th Infantry Division 4 May 1951

TO: Commanding General, 24th Infantry Division, APO 24 ATTN: A C of S G-4

For your information.

CHESTER E OVERMYER Capt MC Executive Officer

HEADQUARTERS 24TH INFANTRY DIVISION Office of the Quartermaster APO 24

2 May 1951

SUBJECT: Food Service Activities

TO : Division Quartermaster 24th Infantry Division AFO 24

- 1. The Food Service Section visited several units of the Division, this date, to determine what use has been made of the liner, tent, insect proof.
- 2. The S-4 of the 5th infantry Regiment indicated that he had received six liners, and has issued two to each of the battalions. Battalion S-4's, as yet, have not made further distribution.
- 3. The 24th Medical Battalion has received six liners and have distributed one to each of four clearing platoons, one to Beadquarters Company, and one to Ambulance Company. These units have not put the liners to use, as yet, but intend to use them in sleeping quarters.
- 4. The 19th Infantry Regiment has received ten liners, of which four are still in stock. Six have been distributed, two to H dquarters and Headquarters Company, two to Medical Company, one to Heavy Mortar Company, and one to Service Company. As yet, none of the liners are in use.
- 5. The 13th Field Artillery Battalion has received three liners and they have benn distributed, one to Service Battery, one to Headquarters Battery and one to "A" Battery. Service Battery is the only unit that has put the liner to use and they are using it to fly-proof the kitchen.
- 6. All units visited, claim that they do not have tents available for dining purposes.

Capt. Overmeyer;

We are sending the 5,000 "C" Rations requested on tomorrow's pickup and 16,000 FX, by truck this evening, we had 5 empty trucks over today

Sgt. Corbin

Capt Overmeyer:

Lt. Adams would like for you to return 252 bottles of Yot Sauce 2 oz. bottles that we sent Class I this morning.

Sgt Corbin

It. Adams said no availabe flour yet.

Sending 2502 extra "C" ration today, beside what was on telegram.

at Corbin

ACTION

Memo

TO: Captain Smith, OIC, Class II & IV Section

- 1. I asked Sgt Uhl to try to get 4 folding tables made for us. Did he say anything to you about it? Also requested 12 folding chairs. Do you have them?
- 2. The tent liners are to be held until we can indoctrinate the people into the correct use of those already issued.
- 3. Colonel Cocheu will talk to you on the requisition for the items to go to EUSAK \mathfrak{M} for OK.
- 4. Typing in your office is becoming rather sloppy. Please check into it.
- 5. Request you send 8 reams of mimeograph paper $8 \times 10^{\frac{1}{2}}$ for us to hold here. Have issued all we had on hand to G-4 for ration request forms and new SOP they are writing.
- 6. The laundry tables you received are for the ${\mathfrak M}$ laundry. Issue and send slip to company.
- 7. Received items on Sanitary Order #1 from Suwon. Making breakdown on them today.
- g. Returning 1 small wall tent to you that were sent in lieu of Tent, wall, large.

6 l'ay 1951 1900 hours

Memorandum

TO: Ca t. Overmyer, Executive Officer, 24th Division Quartermaster

- 1. Sgt. Uhl gave me your message about mess tables. As vet, I have a backlog of work for the parpenters such as building tables for shipping typewriters, preparing screening, etc. for the mess hall, and other projects. In addition I don't know what size tables you want. Lumber is also scarce here.
- 2. The typing in my office may be a little sloppy since I've been doing most of the typing of the memo's I've sent to you. Adamson is away on R & R and mannin has been a little bit rushed at times. I've told him to be more careful about it.
- 3. Am releasing 9 (possibly more) of the new laborers in the morning. They claim that the work is too hard for them and that they don't like it. Threatening them won't do them any good as I think they're all draft exempt, at least they look it. Will make some arrangements with Lambert about labor.
- 4. The 20 replacements were dropped off here be mistake. We give them chow and there's a truck from HQ Rear bringing them up and will arrive before this message.
- 5. About the 12 folding chairs. We'll send you 12 of them although they are due out to other units. We didn't receive enough to make our commitments.
- 6. We received an air shipment of some parts for the N-3V field range this afternoon. Will send a complete report by our regular receipt form. The critical items such as tube, fuel converted type did not come in on this shipment. Also, in the same air shipment, were some overshoes for the division air section.
- 7. It. Lambert is bringing up some spare parts for sh wer units.

G. Food Service Activities:

- (1) A survey was made by the Food Service Section this date of rations received 6 May 1951.
- (2) This ration consisted of 30,000 "A" rations.
- (3) A check of the rations received against the manifest showed a shortage of 54 lbs of bacon. This caused the 24th Div Supply Foint to cut the issue factor from 24 to 22-1/2 lbs.
- (h) The rice lesus for Korean Indorers is still being packed in inferior quality bags, cousing a high percentage of waste.

Annex to Plat for Period 052400 to 062400 May 1951

(5) Salt tablets were marked WIS on this issue.

Capt. Overmyer:
As of 1200 we are down to approx. 19,000 Mogas. We rec'd one train last
night at 2230 consisting of - 18,232 Mogas, 1,007 Diesel and 53 gal.

OE 50. The Lt. at the R.T.C. tells me a train is leaving SUWON at 1100
hrs. Don't expect many more issues for we have issued over 15,000 Mogas
locally already. Might be a good idea to senfi about 30 Corps trucks for
Mogas to Army for I'M afraid we won't have enough gas here for to-morrows

(9th) issues. See you to-night

V J Misiewicz Capt. MC

c. Food Service Activities:

- (1) A survey was made this date by the Food Service Section of rations received 8 May 1951. This issue consisted of 25,000 "A" rations based on menu # 1.
- (2) A check of rations received against the manifest showed a shortege of 5,100 boxes of cereal. This forced the 2 th (# to cut the issue factor from 60 boxes per 100 to 10 boxes per 100.
- (3) Carrots were deleted from this issue.

(N Annex to FLN for Feriod 072400 to 082400 May 1951

- (4) Peas, # 2 can, were manifested and received at 3,0%. A check of the manu shows that the issue should have been 5,000 cans to meet the manu requirement of 20 cans per 100 can. The actual issue factor had to be set at only 15 cans per 100.
- (5) Scap was marked HIS on this issue.

HEADQUARTERS 24TH INFANTRY DIVISION APO 24

9 May 1951

The following message was received 092205 May 51:

FROM: GG, BUSAK

TO: CG, 24th Inf Div

Reference my letter dated 13 February 51, AG 422 KCM, "Turning in of Winter Clothing and Equipment" and letter dated 26 March 51, AG 460.701 KCM, "Excess and Unserviceable CM Property" - Records this headquarters indicate no items of winter clothing turned in to s lyage points by your command during period 1 thru 30 April 51. A one time report will be submitted sconest, reporting total number of each of the 31 items listed in inclosure 1 to my letter "Turn in of Winter Clothing" and indicate point where turn-in was made. Excess and unserviceable property will not be shipped direct to 55 CM Depot but will be turned in to nearest CM Salvage Collecting Point.

TO : Capt Smith OIC. II & IV SECTION

Enclosed radio is self explanatory. Prepare report of 24th DM giving complete information as requested in subject "Radio" for the month of April. Also DM desires a like report on same items prior to 1 April and after 30 April. These to be a separate report for each period. A total of three(3) reports.

"Items reported as Turn-in-of-Winter Clothing" during this period will be as shown in enclosed ltr. EUSAK A6 422 KOM dated 15 Beb.

Am unable to locate ltr dated 26 March 51. You may have a copy. If so please forward copy to us.

Reports required.

- a. Winter clothing turned in prior to 1 April 1951.
- b. Winter clothing turned in since 30 April 1951.
- c. Winter clothing turned in since 1 April through30 April Inclusive.

Consolidate by items showing total of each for entire period a, b, or c, and consignee, (55 MBD or 58 M Salv. Coll. Co). No Suspense date. Prepare as present workload will permit.

File#1

HEADQUARTERS 20TH INFANTHY DIVISION Office of the Quarternaster APO 24

10 May 1951

The quarternaster, EUSAR APO # 301

Dear Colonel Lamont.

The radio, a copy of which is attached, from your office stating there was no record of turn-in of winter clothing by our division during April, was received today. I frankly admit that subject radio was a bit startling.

As you know, from personal perusal with me, we prepare a daily periodic logistical report which covers our day's activities rather fully. Your office receives a copy of this report. In subject daily report we list all items turned in as excess, all items reclaimed from salvage, as well as other pertinent data covering our activities. We have also furnished your office with information regarding car numbers of carload lots of whiter clothing returned as well as dates of shipment and destination. That list was rather imposing, even to me, knowing the situation as I do.

My office staff is being directed to compile the report your office has requested. However, I would like to point out that in making the detailed record and daily report of our activities as we do, using as small an office force as we have, to recompile information from data already furnished, requires that what appears to be unnecessary work be loaded onto clerks who are already overloaded. On the other hand, since our previous reports of winter clothing turning appear to have been lost or mislaid, your office will receive the report requested as soon as it can be compiled. In order that the report will be complete, I am having it divided into three parts as follows:

- a. Winter clothing turned in before 1 April 1951.
- b. Winter clothing turned in during April 1951.
- c. Winter clothing turned in since April 1951.

My successor, Lt Col James E. Butler, will undoubtedly sign the report. Future correspondence to me should be addressed as follows:

> Lt. Col. Stephen D. Cocheu 3806 Swarthmore Houston, 5, Texas

My very best wishes for the future,

Sincerely,

S. D. COCHEU Lt Col. QNC Division QN

SUBJECT: Food Service Activities

TO

: Division Quartermaster 24th Infantry Division APO 24

- l. A routine visit to HQ., "A", "B", "C" and Service Batteries of the 52nd Field Artillery Battalion, was made this date by the Food Service Section.
- 2. These messes were found in a very satisfactory condition. Being present at HQ. Battery during the noon meal it was noted that a very appetizing, and well prepared meal was served.
- 3. The only apparent shortage on mess equipment in these messes were, Egg whips, Steels and Steel wool.
- 4. All the kitchens in the Battalion complained that to much Yeast and Baking powder were being issued and not enough condiments.
- 5. The water trailers in "A", "C" and Service Batteries are very rusted and have been condemned by Medical Officers.

HEADQUARTERS 24TH INFANTRY DIVISION Office Of The Quartermaster APO 24

11 May 1951

SUBJECT: Ration Survey

TO : Division Quartermaster 24th Infantry Division

APO 24

- 1. A survey was made this date by the Food Service Section of rations received 10 May 1951. This issue consisted of 30,000 "A" rations.
- 2. A thorough inventory by the Food Service Section revealed no discrepencies.
 - 3. Flour was marked NIS on this issue.

ROBERT LOCKHART JR
Captain QMC
Food Service Supervisor

HEADQUARTERS 20TH INFAVERY DIVISION Office of the Quartermaster APO 24

11 May 1951

SUBJECT: Request for PCL Products

TO : OIC. ASP # 26

Request PCI, requirements as follows be issued to Danger Quartermaster from your Supply Point;

	and the second second			
80	Mogas		gal	30,000
GO	90		gal	500

Momo:

To : Capt Smith; OIC, II & IV Supply point.

Have some information for you and desire some from you.

- 1. Engineers are attempting to obtain for us thru EUSAK Engineers, 6 walk-in resfers. The 24th Ord Co are to haul them to Ansong for us, Maintain contact with them.
- 2. Have you per chance received 10,000 whose repair tags shipped to us by Army. They were to come to us through Class I channels but have not received as yet.
- 3. The APO is in dire need of the safes you requisitioned for them. Can anything be done to expedite.
- 4. Requisition Ice Gream machines and 25 cubic foot portable refrigerator as indicated in CH Info Ltr #2 dated 2 May 51, a copy of which you have.
- 5. You will receive requisitions for CTC and indigenous clothing. You will have to consolidate and place requisition on CH EUDAK through technical channels. Be sure to specify, and require same from units, as to requirements for CTC and indegenous laborers separately.
- 6. Can you call Army on above subject and get some idea as to what the items are and whether they will be requested by sizes or will they issue on sems tariff basis?

7. Reeded at this office, envelopes 8010; (100).

- 8. Sand report to this office on amount of desictance rendered your typewriter repair section by the II Corps Service Center Team. This report to be rendered upon completion of their mission.
- 9. Send to us the fly proof liners. Issue what you does necessary to Replacement Commany and Danger Resr. They are not, repeat hot, for cooking tents.

OFFICIAL DESIGNATION OF SELDER

TILL SIGNED

P.F.C. J.S. VOU CLEF SIGNATURE AND GRADE OF WRITER Memo:

To : Capt Smith; OIC, II & IV Supply point.

Have some information for you and desire some from you.

- 1. Engineers are attempting to obtain for us thru

 EUSAK Engineers, 6 walk-in reefers. The 24th Ord Co are to
 haul them to Ansong for us, Maintain contact with them.
- 2. Mave you per chance received 10,000 shoe repair tags shipped to us by Army. They were to come to us through Class I channels but have not received as yet.
- 3. The AFO is in dire need of the safes you requisitioned for them. Can anything be done to expedite.
- 4. Remuisition Ice Cream machines and 25 cubic goot portable refrigerator as indicated in QM Info Ltr #2 dated 2 May 51, a copy of which you have.
- 5. You will receive requisitions for CTC and indigenous clothing. You will have to consolidate and place requisition on ON EUSAK through technical channels. Be sure to specify, and require same from units, as to requirements for CTC and indegenous laborers separately.
- 6. Can you call Army on above subject and get some idea as to what the items are and whether they will be requested by sizes or will they issue on some tariff basis?

- 7. Needed at this office, envelopes 8X10.5, (100).
- 8. Send report to this office on amount of assistance rendered your typewriter repair section by the IX Corps Service Center Team. This report to be rendered upon completion of their mission.
- 9. Send to us the fly proof liners. Issue what you deem necessary to Replacement Company and Danger Rear. They are not, repeat not, for cooking tents.

CHESTER E. OVERMYER
Captain QMC
Executive Officer

HEADQUARTERS 24TH INFANTRY DIVISION Office of the Quartermaster Class II & IV Supply Point Ansong, Korea

12 May 1951

Memorandum

TO: Capt. Overmyer, Executive O fficer, 24th Division CM

- 1. Your info about the 6 walk-in reefers was news to me. I called Capt. Brown, CO of 3th Ordnance Depot Co., and he knows nothing about hauling them to Ansong for us. Request further information as to ETA and location of the reefers.
- 2. Capt. Giguerre at Scotch CM says that the shoe repair tags were sent up to the Corps Service Center and that there should be 10,000 of them there for us.
- 3. Our requisition for field safes was cancelled by the Depot. We have requested them again on 24DQM-309-51 dated 10 May. I saw the AFO officers at Danger Rear this evening and told them about this. We are going to try and fix them up temporarily with footlockers.
- 4. Talked with Capt. Giguerre this afternoon about the ice cream machines. He's going to get some further information about this and I will call him again tomorrow afternoon. Will requisition as soon as I get further information as to spare parts and the containers.
- 5. Talked with Lt. Col. Oliver who is the OIC in charge of civil requirements a Scotch CM. He stated that requisitions for clothing for indigenous personnel should be placed on the Civil Assistance Section, HQ EUSAK. He does not know exactly what is available in the way of clothing since it is relief clothing. He gave me the names of Maj. Rively and Maj. Grant at Scotch 162 but I have been unable to contact them. Will try and get in touch with them temorrow about this.
- 6. Col. Oliver said that the following items are or will be available as replacement supplies for the CTC:

Rice bowls, small
A-frames
Cookpot, small, with lid
Shoes, canvas, rubber sole
Caps
Trousers
Jackets

Above items for CTC personnel will be requisitioned on the Civil Transport Corps Section, HQ EUSAK. Clothing sizes will probably be small, medium and large. Will get further information tomorrow by contacting the CTC Section by telephone (Taegu Switch 2255).

- 7. Envelopes were forwarded via Col. Butler.
- 8. Corps Service Center Team has not arrived as yet. Will give

you the info on assistance received after they arrive and finish the job.

9. Twenty fly proof liners were forwarded this morning.

1t. Lambert:

Send courier to I and IX Corps Service Centers to check on shoe tags; (10,000 ea. 4-way).

Have (request) Col Butler call IX Corps CM on typewriter repair team.

Have not arrived Anson as yet.

C.E.O.

131100 May 51

Captain Lockhart:

Sir:

I am sending one truck partially loaded with "A" Rations. This completes the ration of 30,000 "A" and 5,000 "B". We have eight trucks left over so Lt. Adams is going to issue the extra 5,000 requested by note from Captain Overmyer to build up "B" Ration authorized level. I will send complete manifest with last trucks this afternoon. Also included is the Korean ration for tomorrows draw.

Sgt. William H. Johnson 24th QM Co. Liaison Suwon

1430 13 May 1951

IX Corps QM Office

ColonelEdwards stated he had heard we had been issued ice cream powder. He said we need not take it if we had no machines in which to use it.

I asked when the ice cream machine could be drawn and he said they were available in Pusan. Colonel Edwards stated he had no Knowledge of plan for their use, or in what basis authorization for three to Division had been made.

1450 13 May 51

TO: Colonel Butler

Call from Major Lowe to Colonel Butler to dispatch 10 trucks to Captain Ball or Lt. Greebley at II & IV point at Ansong to have Engineer Wire Trucks dispatched at 1515

HEADQUARTERS 24TH INFANTRY DIVISION Office Of The Quartermaster APO 24

13 May 1951

SUBJECT: Ration Survey

TO

Division Quartermaster 24th Infantry Division

APO 24

l. A survey was made this date by the Food Service Section of Rations received 12 May 1951. This issue consisted of 25,000 "A" rations based on menu # 4.

- 2. Mixed Nuts were short 5200, $6\ 3/4$ oz. cans ,This forced the 24th QM to cut the issue factor from 100 cans to 79 cans per hundred men.
 - 3. Carrots were marked NIS on this issue.

ANNEX A

Ą

HEADQUARTERS 2LTH INFANTRY DIVISION Office of the Quartermaster Class II & IV Supply Point Ansong, Korea

14 May 1951 1200 Hours

Memorandum

TO: Capt. Overmyer, Executive Officer, 24th Division QM

- 1. Relative to clothing for indigenous labor, I contacted Maj. Grant, Civil Assistance Section, EUSAK, by telephone yesterday afternoon. He advised me that the clothing for these personnel should be handled by the Division CAO through Corps CAO. This clothing is relief clothing and is not to be handled through QM channels. Some of the clothing is 'semi-military' but I couldn't get too good a description of exactly what is available except that there are canvas shoes with rubber soles. Recommend that the Division CAO be advised to contact IX Corps CAO relative to clothing for the indigenous labor.
- 2. Cpl. Stavlo arrived at QM EUSAK last evening and presented the emergency requisitions for the stove parts and typewriter repair kits. Talked with the QM office there this morning (they called me first) and they questioned our request for 150 ea. tubes, fuel, converted type and 75 ea. tubes manifold. I explained that these items were necessary to put back into operation approximately 35 fire units now sitting idle. Also told them that there are approx. 600-700 fire units within the division and attached units. Also that we hadn't received any of the fuel tubes for quite sometime and would like enough to keep us in the repair business bor about 30 days. I believe that my explanation to them was satisfactory and that we will get them. Col. Shields was going to call the depot about the two requests. His office advised that some of the typewriter repair kits are at the depot and that others are expected in around the 16th of the month. Evidently we will get results from these two requisitions.
- 3. Am sending 736 wool blankets to the Corps Service Center at Yoju for laundering. Sent a little note along asking pick-up date and whether they will be able to handle another batch. Ellenberg is taking the blankets up and will have him contact you as to what he finds out at the Service Center.
- 4. Am sending up a pair of 7½ E russet boots for Col. Dixon. They were 'discovered' during inventory this morning.
- 5. We're going to be able to get quite a bit of stuff out of salwage to set up the clothing exchange. Will furnish more details on this project later.

File#1

6. Requisition 2hDQM-312-51 is being forwarded today for the 3 ice cream machines and one 25 cubic ft. refrigerator. Capt. Giguerre of EUSAK QM is forwarding us a TM on the ice cream equipment which will give us a listing of the spare parts for the machinery. Upon receipt of that we will requisition spare parts. He advised that the cardboard containers will be issued at the Class I supply points along with the ice cream mix.

- 7. Still have not received the information on the Class II & IV items that we get from the Class I point.
 - 8. Did the trucks get up there with the barbed wire?

David N. Smith

Capt., QMC Supply Officer

HEADQUARTERS 2ATH INFANTEY DIVISION APO 2A

9 May 1951

The following message was received 092205 lay 51s

ROUTINE

RESTRICTED

FROM: CG. HUSAK

TO: CO, 24th Inf Div

Reference my letter dated 13 February 51, AG 422 KCM, "Turning in of Winter Clothing and Equipment" and letter dated 26 March 51, AG 400.701 KCM, "Excess and Unserviseable CM Property" - Records this headquarters indicate no items of winter clothing turned in to salvage points by your command during period 1 thru 30 April 51. A one time report will be submitted soonest, reporting total number of each of the 31 items listed in inclosure 1 to my letter "Turn in of Winter Clothing" and indicate point where turn-in was made. Excess and unserviceable property will not be shipped direct to 55 QM Depot but will be turned in to nearest QM Salvage Collecting Point.

CITE: CX-5-1473 KQM.

DTG: 091835/K

M/C NR: 85A

ACTION :

1430 May 14, 1951

Colonel Edwards called Colonel Butler in reference to typewriters transferred to Ansong. They need parts.

14 1530 May 51

Captain Overmyer:

Sir:

On the question of trucks for rations: There is no possible way as I can see of determining the correct number of trucks needed for example on 12 May 51 - 30,000 "A" rations used 32 trucks - 13 May 51 30,000 "A"; \$0,000 "FX"; 10,000 "B"; 3,600 "C"; 5,000 ASSLT; and Korean rations for two days used 37 trucks. Today 14 May 51 30,000 "A" and "FX" for 32,000 used 36 trucks.

Is it permisseble to use excess trucks for hauling gascline either from here (Suwon) or Ichon.

If we receive everything requested for pickup 15 May 51 trucks needed approximately $^{14}\mathrm{O}_{\circ}$

Sergeant Johnson

141600 Ма у 1951

Memorandum

TO: Capt. Overmyer, Executive Officer, 24th Division QM

- 1. We do not need any of the shoes listed on the message from Lightning G-4. nowever, we can use 2,283 of the cargo packs or any up to that amount. Let me know where to pick them up.
- 2. We have 8 lister bags in stock at present. Estimate that we can use about 100 and carry them in stock. The demand will get heavier for them and some that we have issued were not in very good shape and we may have to make replacements.
 - 3. we have no typewriter oil at this point.
- 4. I sent the poop on clothing for indigenous personnel to you in an earlier message today. Believe that I covered everything on CTC clothing in message to you on 12 May. We will requisition CTC clothing from the CTC Section, EUSAK, based on unit requirements. Indigenous clothing to be handled through the Division CAO.
- 5. Capt. Cote and I haven't worked out the SOP on Flochily supply as yet but will have a draft worked up by tomorrow.
- 6. Will call Army this evening about the status of the other laundry unit and see if they can give us something as to ETA.
- 7. Sending up the stenciled forms on Shoe Repair Procedure. There are about 220 of them. I've kept about 50 additional copies here for any local use that might arise.
- 8. We have 1,600 (eighteen hundred) bottles of water purification tablets that have not been condemned and they will be loaded on Sollich's truck. Will prepare a letter to DQM this evening with complete details on number of condemned tablets, date received, supply point from which received and requisition number received against.
- 9. Sgt. Havens will have the extract of the breakdown for expendables tomorrow morning. He's busy at the moment working on inventory figures.

DAVID H. SMITH Capt., QMC Supply Officer

Jail N. Smith

File #

MENO:

- TO : Captain Smith, OIC II & IV Section, Ansong, Korea.
- 1. Request enclosed stencil be run off (200 copies) and returned to us today. Imperative.
- 2. Screen Water Purification Tablets, remove condemned cases and forward balance to us for distribution. Send letter to the 24th DQN on the condemned tablets stating amount, date received, supply point from which received and requisition number received against.
- 3. Check with Sgt Havens for the extract of breakdown of expendable items taken from TA 10/100.
- 4. Enclosed message from G-4 self explanatory. Must have answer tonight on items and amounts of each desired transferred to us.
- 5. Call Army again on our other laundry. We have personnel to operate it and need it very badly with the forward section.
- 6. Send any other information you have obtained as to CTC and Indigenous Laborers clothing and equipment supply. Desire to put poop sheet out to units on this.
- 7. Request draft copy of SOP on II & IV be forwarded for Col Butler's approval prior to distribution.
 - S. Request one (1) can of typewriter oil for this office.

CHESTER E. OVERMYER Captain QMC Executive Officer TELEPHONE MESSAGE FROM: Lt. Finnegan G-4 Office TIME: 141000 May 51.

TO: Division Q ua rtermaster, 24th Infantry Division, APO 24

Reference instructions of Capt. Overmyer the following information pertaining to water purification tablets is furnished. A shipment of 24,900 bottles of purification tablets was received on 1 April 1951 from the 55th Quartermaster Base Depot, Pusan. This shipment applied against Requisition 2hDQM-236-51 dated 8 March 1951. Inventory made this date showed that there a re 21,500 bottles of these tablets packed in cases marked "Condemned." In addition there were 1,800 bottles packed in cases which were not marked in this manner. The latter were shipped forward at approximately 1845 hours this date.

David M. Swith DAVID H. SMITH Capt., QMC Supply Officer

141925 May 1951

MENO:

TO : Sgt W. H. Johnson, MCOIC, 24th Div Liasion Det, Suron Rhd

Sending to you forty (40) trucks for Class I. If any trucks extra, load them first with the following items if available.

1,000 gal OE 30 200 lbs CG # 0 500 lbs CG # 1 100 lbs WB # 2 200 gal OE 10 200 gal 1100 Avoil 200 gal 1120 Avoil 1,000 gal 80 oct Avgas

Load balance of trucks with 80 oct Mogas if any available.

Be sure to date and time any messages you send to us.

ANNEX A

151410 May 51

Captain Overmyer,

Sir:

Please notice pick-up and consumption dates on telegram sent down today. I made changes on my copies to read: consumption date 18 May, to be picked up 16 May. Today I received rations for consumption 17 May. I had some trucks left over so I sent them for POL.

Sgt. William H. Johnson 24th QM Co. Liaison N.C.O. Suwon

151645 May 1951

MEMO):				
TO	:	Supply	Officer		

Take no action on turn in of combat boots or shoes for repair until further clarification from this office. Request return of Shoe Repair Tags and letters of instructions through Class I Distribution point.

CHESTER E. OVERMYER
Captain QMC
Executive Officer

151900 May 1951

MEMO:

Captain Misiewicz

Why are your reports not getting to us on time. It was established that during your time in Ichon, you would report to this point personally by 1815 hours daily with your report.

	MMA.	ex a		Secret	

Captain Overmyer:

Received 2 cars prior to 2400 with Mogas. Could not call you as Danger lines were out. Rec'd one train this morning. Since my visit last night we rec'd around 27,000 Mogas, so we are 0.K. again. Only 15 Corps trucks arrived so far. If the 15 others show up we will load the rest of your requirements for the forward supply point. Leaving for Suwon immediately

V.J.M. Captain OMC 160930

Captain Cvermyer:

Check your truckhead signs. I believe convoy got lost last night (15 Trucks) because M.P.'s at PABALMAK rerouted traffic and made it one way just before turning in road to your dump.

V.J.M. Captain QM

Message

TO: OIC, Class III Supply Point, Osan.

Desire to draw 20 trucks loads of 80 Hogas from your point due to unexpected heavy issues on 15 May 51. This 80 Megas to be charged to Danger.

CHESTER E. OVERMYER
Captain QMC
Executive Officer

HEADQUARTERS 2LTH INFANTRY DIVISION Office of the Quartermaster Class II & IV Supply Point Ansong, Korea

161700 May 1951

Memorandum

To: Capt. Overmyer, Executive Officer, 24th Division QM

A check of our stock of Calcium Hypochlorite Tubes and Water Purification Powder Chlorine Tubes shows that these items are not fit for issue.

Stock No. 51-C-445, Calcium Hypochlorite Tubes, 4,100 ea., expired in October 1947 according to information on packing case,

Stock No. 51-W-123, Water Purification Powder Chlorine Tubes, 2,400 ea., expired in July 1947 according to information on packing case.

Haven't been able to contact Army or the Depot this afternoon to get information on hospital tents. Have received no further word from them on the Ice Cream Plants. Will try and contact them this evening.

Do you have any information on the truckload of blankets that we sent from here to the Corps Service Center on 15 May?

Anything further on promotions? In the event that Haven gets his would it be possible to have Lemoine promoted to fill the rating vacated?

DAVID H. SMITH Capt., QMC Supply Officer

Arrived Ansong. Called EUSAK RE/o : Ice Cream machine 0715 stating current available notsuitable. EUSAK (Capt. Giguere) said they were trying to issue a suitable generator with each 3 machines.

Talked Re/o 6 walk-in refragerators. EUSAK stated we could take or not as we desired & that the purpose was for use at railhead, No extra transportation will be allotted .

Following is data from Major Parsons., EUSAK Engineer Supply Suwon: 6 each(stock # unknown): Refrigerator, Walk-in Portable, net volume 150 cubic feet, gasoline-engine powered, shipping whight 5400#, net weight 3900#, dimensions 105 inches X 71 inches X 82 inches. I asked that they be shipped via rail to Ansong. Inspected all aetrocites at ansong

Left Ansong.

1000 to 1800

ANNEX A

Captain Overmyer:

The ROT that you have been issuing C1 III to has received orders to move out at once. They will no longer have to draw POL from you.

Thanks very much for your co-operation in this matter.

Captain Field 3rd QM

Captain Overmyer:

Sending up one truck with grease and oils. Have over 60,000 gal mogas on hand. Have received 3 trains in since 161600. Danger lines out as of OSLO.

V. J. M. Captain CMC

HEATOURTERS 24TH INFANTRY DIFFISION Office of the Quartermaster AFO 24

171000 May 51

MEMO:

TO : Captain Smith, OTC, TT & TV Section, Ansong.

Results of conversation with c=4, 24th Infantry Division on 16 May 1951.

- 1. The Sop for logistics from Division dated 4 May 51 will be complied with and 4 will back technical services. However technical services must use extreme caution particularly during the initial phase of the combat accountability which is now required by higher echelon. Do not return incorrect requisitions on items which will effect the combat efficiency of the units. Recommend a check list of normal discrepancies found in unit requisitions be mimeographed and attached to a units action copy of requisition. This will act as a a instruction guide, particularly to new un-trained personnel and will in time show results in requisitioning procedures request comments on this suggestion.
- 2. Action will be taken immediately to establish a salvage collecting point at the forward Class I distribution point. Request either Capt Smith or Capt Cote take steps on this as soon as possible. It will require the complete salvage section to be placed at this point, less laborers. There is plenty of labor here. All records of turn-in, reclamation of property and physical turn-in of salvage to Army Collecting points will be accomplished at this point.
- 3. Typewriters turned in for repair which show indications of gross negligence are to be accompanied by a statement of facts and circumstances as to reason for condition.
- 4. Repair and maintenance: Items turned in for repair and maintenance to be accompanied by turn-in slip which can be used as a work order, or if disired by the IV & IV officer, a work order form can be distributed from your point.
- 5. Authorized representative to sign for property: See Sec II of the SOP.
 - 6. Requisitioning: Sectt, Par 6, SOP
- 7. Items over and above T/O & E: If items are requested on a replacement basis for items turned in through FWT or accompanied by a combat loss certificate, G-4 does not desire processing through his office before being submitted to the tech service. However if items are ever and above T/O & E and are on initial issue comply with Sec TY Par 5 (c).

- 8. Tech service cannot return requistions for S/C or reports of survey. Only for the certificates as required by SecII Par 6, a(2), whichever is applicable.
- 9. Read the Division SCP and be sure our operations are following the established pattern before cracking down on the units.

Other items:

- 1. Enclosed letter concerning operations of Class II & IV points is in reference to the Army Points being established at Army railheads. This is our interpretation, as indicated in par 1 (a).
- 2. Hold condemned water purification items until reply from Army. Sending letter to QM EUSAK, Today.
- 3. Enclosed certificate on Hospital tents for your files. Attach to file copy of Medics requisition.
- 4. Hold hospital tentage received over and above outstanding requisitions.
 - 5. It Lambert is taking care of the blankets.
- 6. Promotion for Havens Lemoine: Read T/O & E 10-17. Check your ranks on hand against authorized. If we are able to promote Havens it is against ranks authorized for another section.

CHESTER E. OVERMYER
Captain QMC
Executive Officer

of survey. Only for the cortificates as required by Sec II. Far 6, a (2) d or Sec II rar 10, s (2), whichever is applicable.

2. Road the Division SOP and be sure our operations are collowing the established pattern before cracking down on the units.

Other Items:

- 1. Enclosed letter concerning operations of Class II & IV points is in reference to the Army Points being established at Army railheads. This is our interpretation, as indicated in par 1 (a).
- For any, bonding letter to (M EUSAR, today.
- 3. Enclosed certificate on Hospital tents for your files. Attach to file copy of Hedica regulation.
- a. Hold hospital tentage received over and above outstanding requisitions.
 - 5. It lambort is taking care of the blankets.
- 6. Promotion for Havens Lemoine: Head T/O & E 10-17. Check your renks on hard against authorized. If we are able to promote Havens it is against ranks authorized for another section.

CHS.TLE R. JVEANTE QUC Executive Officer

Captain Overmyer

Sir:

You will find inclosed a copy of items of PCL shipped from here on 16 May 51. Due to lack of transportation on the part of Army the PCL products could not be trans-loaded to the narrow gage track. The last train load was sent out about 1700 hours; therefore not arriving in Inchon in time to be listed as received on daily report. The Lt. in charge here says he is doing everything he can to speed up operations.

We had to send eight trucks back empty. The class I dump will not issue any items ahead. There is no POL in the yard at this time.

Sergeant William H Johnson Liaison NCO Suwon

Capt. Overmyer

Received one (1) train consisting of 19,928 mogas, 2,862 diesel and \$53 gal. Avoil 1100. I have around 36,000 gal of mogas on the ground so that will be enough for my issues at this point. Recommend, if possible, keep sending for gas to Osan as I don't believe railroad will come there with much to-day. Will go to Suwon this afternoon and check again. Sending up one truck of diesel.

V. .T. w. Capt. QuC

HEADQUARTERS 24TH INFANTRY DIVISION Office of the Quartermaster Class II & IV Supply Point Ansong, Aorea 180900 May 1951 Memorandum To: Capt. Overmyer, Executive Officer, 24th Division QM

- Sending Crunk and two other men forward to handle the sal-vage from that point. Typed turn-in slips should be made up there to cover everything sent to Suwon. Sufficient copies should be made so that a complete record of everything turned in may be kept on file at this office. I suggest 5 copies. Three to accompany salvage to Suwon, one to retain there and one to forward to this point. The 58th Salvage Co. at Suwon should sign and return one copy. They will probably want one man to go with the load to check it in with them there! I will instruct Crunk as to what items to segregate to send back here either for stock or clothing exchange.
- 2. No answer to your query on boots yet. Reports being sent forward today show that 3, 123 pairs of boots in E and EE widths were received on the last shipment from the depot and this should take care of all of our requirements except for 12EE.
- 3. Skinner's truck is to go to Suwon and pick up cargo packs from Lightning II & IV after dropping Crunk and the men there.
- 4. T/O & E shows the following personnel authorized for ODQM: 2 M/Sgt, 1 SFC, 3 Sgt, 4 Cpl. and 2 PFC. Presently there are no M/Sgt assigned to ODQM are there. If M/Sgt Boucher is carried as ODQM and Schubert is promoted to M/Sgt that should leave a SFC open. Also, Class II & IV calls for one SFC and there is none assigned. at present. If there is such a squeeze for ratings it appears to me that personnel from other sections are holding the ratings that are meant for ODQM and the Class II & IV section. I would like to talk to you further about this.
- 5. Rough draft of SOP for II & IV has been made. Am expecting either you or Col. Butler here today or tomorrow to discuss it.
- 6. would like the medics to earmark any good pieces of hospital tentage that they turn in here or up there after they receive the new tentage. ..e can use a hospital tent (with some holes) for our shower and clothing exchange here.

David H. Smith Capt., QMC

094518 "ay 1951

Captain Overmer:

Sir:

Another supply train reached here last nibht so we are receiving "A" rations instead of "R"s as they told me yesterday. Due to this we need 19 more trucks for rations. A told of 39 trucks at this time 2 have received 20 trucks.

POL - Last night the train was derailed so they cannot send the allocation today. They have plenty of POL here so if you can send the trucks to Suwon they will be loaded.

> Sgt. Wm H. Tohnson 24th QM Co Liaison NCO Suwon

HEADQUARTERS 1ST BATTALION 5TH INFANTRY BEGIMENT APO # 301

18 May 1951

CERTIFICATE

I certify that 1st Battalion 5th Inf Reg't did lose 570 type "A" rations on 17 May 1951. This loss occurred when the rations after being taken forward feeding points could not be fed due to enemy action.

s/ Howard W. Stephenson t/ HOWARD W. STEPHENSON lst Lt Inf Ass't S-l4 SECOND BATTALION FIFTH INFANTRY APO 301

18 May 1951

CERTIFICATE

I certify that this battalion lost one-hundred (100) cases of "C" Rations on the morning of 17 May 1951 in the vicinity of Masan-ni, Korea; due to enemy action.

SUBJECT: Certificates of Receipt

TO s Commanding Officer 6th ROK Division ATTN: 0-4 Advisor

- 1. Attached hereto a Consolidated Certificate of Receipt for FOL products received from 24th Mivision Quarternaster. It is requested by 24th Infantry Division C-4, and this office that all future issues be signed for, over typewritten signature, on forms prescribed. They will be signed for in 3 copies, one of which to be retained by your office. Forms are awailsble at Class I and III distribution points.
- 2. For reference, see Annex E (QM), par h,a (1) to SOF for Administration, Hqs EUSAK, dated 21 March 1951.
- 3. Two copies of the Certificate of Receipt will be returned to this office for further processing thru channels to Hqs, EUSAK, APO 301.

CHESTER E. OVEREYER
Captain QEC
Secutive Officer

18-1725 May 1951

Captain Overmyer,

Sir:

Tomorrow the ration will be 5-IN-1 - I guess you have been notified by Army of this. If there is to be any change on the number requested, please send me information. We will draw daily 2 & 14 items and hydroponic rations in addition to the 5-IN-1.

Trucks needed: 19 + 1 + 2 + 1 + 5 = 28. Total 28

Item : 5-IN-1, 2 & 4, Korean rations, (radish)Hydreponic ration, C ration.

Sgt. Johnson

18-2130 May 1951

Captain Overmeyer

Sir

Your message of 18 1945 received and complied with - one man went to Osan with Lt. Coleman on 24th CM Co - convoy. I am sending one more man down with courier to supervise the loading of trucks mentioned. I am forwarding message to Lt. Coleman at Osan.

The rails were repaired today and two trains have left for Ichon. 57,000 gal - mogas sent on train and four trucks today - report will be sent in with last convoy of total receipts tonight.

Sgt. Wm H. Johnson Liaison NCO Suwon

Ichon 18 May 1951

Received from 213th AFA 465 "C" rations. These rations were returned due to change in tactical situation. Do not pick up as a receipt

SUBJECT: Water Purification Items

TO : The Quartermaster EUSAK

Headquarters EUSAK APO 301

- 1. On 1 April 1951 a shipment of 24,900 bottles of water purification tablets was received from the 55th Quartermaster Base Depot, Pusan, Korea. This shipment was against Requisition 24 DQM-236-51 dated 8 March 1951. An inventory of this shipment shows 21,500 bottles of this shipment is marked condemmed.
- 2. The Calcium Hypochloicte Tubes, 4,100 ea, received with this shipment expired in October 1947.
- 3. The Water Purification Powder Chlorine Tubes, 2,400 ea, received at the same time expired in July $19^{4}7$.
- 4. Request authority for destruction of these items and information as to the condition of expected shipments of water Purification Items.

CHESTER E OVERMYER Captain QMC Excutive Officer

The following message was received 201445 May 51:

From: CG, EUSAK

To : CG, 24th Inf Div

Containers, food, insulated, M-194 may be requisitioned up to 48 per regiment in excess of T/O & E if required. Suggested distribution as follows: Hq and Hq Co Inf En, 2 each; Rifle Co, 3 each; Heavy Weapons Co, 5 each. Requisitions will be submitted direct to 55 QM base depote.

CITE: HX-5-3429 KQM

DTG: 201025K

M/C NR: 45A

ACTION:

19 May 51 Time: 1915

MEMO:

TO: Sgt Johnson NCO IC, Lisison Det Suwon Rhd

Our trucks are all committed for troop hauling tomorrow early A.M. Am trying to get 40 Corps trucks to start reporting to you at 0800.

If the ration tomorrow is an "A" ration fill the telegram less "C" rations.

we are receiving 16,000 "B" rations and 11,000 "C" rations on transfer from the 3rd Division.

If tomorrows pick-up is "B" rations see if you can send us only the Korean ration, and II & IV and PX rations which were on telegram for Pickup. Commit balance of trucks for P.O.L.

If you send "A"s tomorrow try and let us know when toexpect a "B" issue so it can be deleted with the exception of the Korean Ration, II & IV, and PX. Any questions you have send message back for clarification. With this "B" pickup it will give us 2 days "B" on hand also 1½ "C"s and 1 day 5-1. That is the reason we want to delete one day's "B" pickup without missing an "A".

Sgt Corbin will be over tomorrow to releive you as he has returned from R & R.

HEADQUARTERS 24TH INFANTRY DIVISION Office of the Quartermaster APO-24

201010 May 51

MESSAGE:

TO: Captain Misiewiez, Ichon Rhd

Anticipate establishing a forward Class III and combat ration distributing point at either CS 5254 (Just south of the Han) or if the attack which jumped off at 0500 this morning progresses satisfactorily it will go into same place as before CS 5155.

Expect to put personnel and supplies (1 day) in the selected point starting 210800_{\circ}

Desire you report this point with personal equipment by 1430 hours today prepared to take over this operation. Area will be posted as reserved by 1200 hours today.

Thoroughly brief Senior NCO remaining in charge of Ichen Rhd.

Will send courier from here for daily report, your point.

CHESTER E. OVERHIER Captain QMC Executive Officer

1000 Left for Ansong

1200 Arrived Ansong and inspected II & IV, Laundry. Conferred with AG in replacement office

1500 Left Ansong

1700 Arrived CP

James E. Butler

MEMO:

TO : Sgt Corbin, Suwon ASP

What so we draw tomorrow? "A" or "B". How many trucks for rations?

If "B", desire only telegram P.X., Korean Ration, and II & IV.

CHESTER E. OVERMYER
Captain
CMC
Executive Officer

20 May 1951 Time: 1935

"B" rations are being issued to-morrow 21 May 51, they will not be picked up. It will only require 6 trucks for to-morrows pick-up.

Sgt. Corbin

Captain Overmyer:

Sir;

Received message. We are receiving an "A" ration tomorrow.

I have deleted the "C" ration as per your request. I will return on ration convoy tomorrow if Sgt. Corbin releives me. The depot doesn't know at this time when we will get a "B" ration.

SGT. WILLIAM H. JOHNSON 24th QM Co Liaison NCO Suwon HEADQUARTERS 24TH INFANTRY DIVISION Office of the Division Quartermaster APO 24

211030 May 1951

MEMORANDUM:

TO

: Captain Cote, OIC, II & IV

Ansong, Korea

Enclosed work order and turn in slip from 955 FA Rn are for two typewriters turned in for repair on dates indicated. Maintenance and repair section have no records of receipt at their shop although they were logged out at the Forward Foint as having been sent to II & IV for repair.

I have signed turn-ins for the 955 FA En for these typewriters and received them as salvage. If you find evidence of these typewriters having been repaired and returned, please notify us.

CHESTER E. OVERHYER Captain MC Executive

HEADQUARTERS 24TH INFANTRY DIVISION Office of the Quartermaster AP) 24

SUBJECT: Ration Survey

TO : Division Quartermaster

24th Infantry Division

AFO 24

1. A survey was made this date by the Food Service Section of rations received 20 may 1951. This issue consisted of 30,000 "A" rations.

2. A thorough inventory by the Food Service Section revealed no discrepencies.

Robert Schent

noBerT LOCKHART JR Captain QMC Food Service Supervisor

Memo:

To : M/Sgt Corbin, NCOIC, Suwon Liasion Det.

We have a balance of 2,135 5-1 rations on hand here. On the day you ship 5-1's for this week deduct this amount from the telegram if possible so we won't get an average of them here.

HEADQUARTERS 24TH INFANTRY DIVISION Office Of The Quartermaster APO 24

22 May 51

A test was made of a vial of "Calcium Hypochlorite", Grade A. Contents of one (1) tube sufficient for one lyster bag (30-35-gallons). Two (2) year expitation date August 1947, Sunlight Chemical Corporation, Phippipsdale R.I.

This test was completed on above date at 1300 hours.

Korean well water (33 gallons) was used to one vial of
Calcium Hypochlorite. The color test proved perfect.

Above was made by Captain Robert Lockhart Jr, 24th Quartermaster Company.

EADQUARTERS 2LTH INFANTRY DIVISION Office of the Division Quartermaster Class II & IV Section

22 May 1951

MEMORANDUM

TO

Captain Overmyer, Executive Officer. Office of the Division Quartermaster.

APO 2L

Motor, water pump, which draws water for the ldry unit went on the fritz this AM. Am sending it up with Cpl Gibson. Can you direct him to one of the Engineer units which may have an electrician who can examine and determine whether it can be repaired, and if possible repair same? There are no units in the vicinity here who have personnel who might be able to repair the motor.

In the event that none of the units forward have trained electricians or mechanics available, I have given Cpl Gibson a letter to the OIC of the Quartermaster Service Center at Yoju. Recommend sending him there with the motor as a last resort as they have very good mechanics and electricians there and the OIC, a good friend of mine, may see fit to repair it for us if he has the necessary parts. Otherwise it will possibly mean a trip either to Taegu or Pusan either to have the motor repaired or to obtain a replacement.

Request that truck making run be loaded with CS clothing and equip, which may have been picked up by the Salvage Section in the past three

days, on the return trip to Ansong.

OIC CL II & IV

Lt. Col. Butler

From Division Rear

Daily Activities Report. Issued 2 truck loads of Class II & IV. Process 784 pieces laundry. No change in HBTs or boots. Time: 211830

HEADQUARTERS 24TH INFANTRY DIVISION
Office of the Division Quartermaster
Class II & IV Section
Ansong, Korea

22 May 1951

SUBJECT: Requisition Submitted by 5th Infantry Regiment for Jackets and Trousers, HBT.

TO: DOM, 24th Infantry Division

Compliance with instructions received from Col. Butler, no Jackets or Trousers, HBT, are being issued to the 5th Infantry Regiment until release is received from DCM office.

Supply representatives from the 5th Infantry Regiment have been here to obtain supplies and have stated that above items are urgently needed in 5th Regiment.

We have sufficient stock on hand to cover the majority of their requirements in Jackets and Trousers, HBT. Shall we issue same to cover their requirements?

LEO J. COTE Capt AMC Supply Officer

HEADQUARTERS 20TH INFANTRY DIVISION Office of the Quartermeater ANO 24

23 May 1951

SUBJECT: Clothing for Indigenous Personnel.

TO : Class II & IV Supply Point

Ansong, Korea ATTN: Captain Cote

- 1. 6-4 today received clarification from GM MBAM on the procedure for requisitioning clothing and equipment for indigenous personnel. Clothing and equipment for all indigenous laborers, including CTC personnel, will be consolidated into one requisition and submitted direct to M MBAM as required. Requisitions must show how many of each item in being requested for CTC and how many for other indigenous personnel. Items available for CTC and as listed in one of my notes on file at the II & IV office. Exact normaliture of clothing for other indigenous personnel is not known but assume that shoes, trausers, and jackets would be sufficient. Our new SOP on Class II & IV supely will be revised accordingly. If you have any questions on this, please let me know.
- 2. This week's requisition for II 9 IV expendables, due 24 May, may be drawn from AST \$ 10 rather than ASP \$ 25. Will let you know tomorrow night if there is a change.
 - 3. Forward one mair size 9 E russet boots for Capt. Overmyer.

Captain 340

232305 May 1951

PRIORITY

Captain Cote, II & IV Supply Point, Ansong

Check with ASP 26 tomorrow morning on POL shipment by corps trucks to this point, and sign for same.

Captain Smith

MEMORANDEM:

OT

- : Gaptain Cote Class II & IV Supply Point Ansong, Korea
- 1. Your message on power plants and refrigerators received. We have received information copy of message sent by CG, EUSAK to CG. 2d Log Command, directing that six 150 on ft portable refrigerators be emergency loaded and shipped to our railhead at Ansong. This was in confirmation of our requisition 24 DQN 317-51. Above message sent on 21 May, so the refrigerators should arrive soon. Radio us when they arrive.
- 2. On the II & IV expendables, I will try and find out something from MUSAK QH, and see if we can get some action.
- 3. Thanks for the stove pipe. The tentage was evidently delivered to Danger Forward Hqs. part of which moved today. You got a receipt for the tentage, didn't you?
- 14. On the recommendations for change in requisition schedule, Captain Overmyer and I will go over your suggestions and forward comments tomorrow. Also, there has been another change in clothing for indigenous personnel and that part of the SOP is still "fluid." We have been busy as hell moved in here yesterday and will be moved out again to our old spot by the dam by noon tomorrow.
- 5. Would like the names of the three Koreans turned over to National Folice. I imagine that you have fired them and dropped them from the time sheet. I believe I know who the three are.

DAVID H. SMITH Captain QMC

HEADQUARTERS 24TH INFANTRY DIVISION Office of The Quartermaster APO 24

22 May 1951

SUBJECT: Ration Survey

TO : D

Division Quartermaster 24th Infantry Division

APO 24

1. A seven day condiment issue was received for thirty thousand rations. An inventory against the manifest disclosed the following discrepencies.

a. Salt, table 16 lb.bag short 198 b. Powder, chili 4 oz cont. short 111 c. Powder, baking 1 lb. cont. short 1850

The ASP gave all they had in stock.

- 2. The following was marked NIS on this issue.
 - a. Cornmeal
 - b. Horseradish
 - c. Molasses
 - d. Raisins
 - e. Hot Sauce
 - f. Sauce worestershire
 - g. Soda baking
 - h. Maple flavoring
 - 1. Tablets, vanilla
 - J. Tea
 - k. Sauce steak
 - 1. Cranberries, dehy.

APO 24 23 May 1951

SUBJECT: Power plants and Refrigerators

TO : DIVISION QUARTERMASTER

- 1. Phoned QM EUSAK (Class II & IV-Capt. Pursley) reference obtaining power plants for the ice cream plants. He stated that the Engineers are procuring same and will have them in short time. No date of availability given. Will continue to check on this.
- 2. Contacted Engineer EUSAK (Supply -415) and was Mformed that requisition for refrigerators were submitted to Pusan a week ago. I was informed that due to terrific backlog of cars there may be a short delay in the shipment.
 - 3. Sending truck load of salvage to Suwon this AM.

I. J. Cote

Capt., QMC Supply Officer

HEADQUARTERS 24TH INFAMIRY DIVISION Office of the Division Quartermaster Class II & IV Section

24 May 1951

Subject: Cl X& & IV Requisition

To: DOM

- 1. Submitted requisition for Class II & IV expendables to SP 25 yesterday 23 May 1951. Class I at Suwon no longer handles same, only issues Powder, louse, Candles, Toilet paper, Soap, ord. issue, and writing stationary as automatic issue with rations. 758th Sales Company is in charge of SP 25 Cl II & IV.
- 2. 758th has no stock on hand, must send requisitions to Pusan for supply action before we can obtain our expendables. Discussed situation with Sgt Johnson, 24th QM Liaison. He is to maintain close contact with 758th and notify either my of fice at Ansong or yours in the event that supplies do come in. Consequently, no requirements for trucks to haul Cl II & IV for a few days.
- 3. Had no transportation yesterday to send Tentage you had called for (total of 3 small walls, 2 End sections for hosp. tent). Being sent with 3/4 ton truck. Also sending Pipe elbow, pipe and burner which driver of 2½ ton had forgotten to drop off at company when he went up with ldry pump 22 May.
- 4. Three Koreans, two of them our laborers, and one a laborer from the company forward (Kim identified him, several of the GI's did also) were caught attempting to steal some salvage clothing. Turned them over to the National Police.

Recommendations for Change in Schedules

To:

DOM

- 1. Inasmuch as our requisition schedule is now changed to twice a month recommend the following schedule be followed for our operations:
 - a. Units to submit requests on second and fourth Fridays of each month.
- b. Our inventories to be taken twice monthly on think and fourth monday of each month.
- c. Our requisitions to be prepared twice monthly on second and fourth Wednesdays of each month (Wednesday following date requisitions are submitted to us).
- d. That we carry a 30-day control level of common items of Clothing and Equipment, not to include items which are controlled or that are not normally stocked by units at station level.
 - 2. Request comments on above soonest.

130 J. CCTE Capt QMC Supply Officer

NOTE: Just received approx 18,000 pr Socks, wool cush sole, and other misc supplies including expendables.

Operational Pointers

Class I

Level authorized by Army 2 D/S of which one (1) is to be combats. This will not suffice due to the many unexpected moves by ASP's and on Division Supply Points. Retain on hand one (1) day combat, and one (1) day Baker (as a reserve) and one (1) day "A" or "B" being issued at the same time one day is being picked up as a replacement.

It is necessary to replace combat ration level daily based on amount of issues.

On establishment of a forward supply point, place one day "A" or "B" for issue on opening day as well as one day's normal consumption of "C"s based on tactical situation and average of normal issues. Always over estimate "C"s for opening of Fwd Point.

Close supply points by issue if jossible, if not will require trucking as chimation charifies and trucks are available.

Class III

Level authorized by Army, 2/DS. This should be retained at a strong two (2) days and if possible 2½ days. In a stalemate situation it is desirable to retain a back-up point of one (1) day in case of a tactical reverse or back of transportation due to troop commitments.

Base two (2) day requirements on issue average. Can retain on hand without any strain the following critical items.

Missel - Serving Division only 3,000 gallons Attached Corps Engineer troops 5,000 gallons

OE-30 Keep if possible 2,500 to 3,000 sallons. This can be reduced to 1,500 to 2,000 if replacement is effected daily.

80 Avgas Serving Division only 1,500 to 2,000 gallons Attached Corps Arty and (6) Eng Groups 2,500 to 4,000 gallons.

66 #1 - 2,000 #8

118 #2 - 2,000 #S

WP #4 - 200 #5

OE-10 Cold Weather Oil. Suggest use in oil and air filters and tank starting motors. 500 gallons sufficient in warm weather. 60-90-1,500 gallons - Gear Case Lubrication

OE-50 - 1,000 gallons used only in tanks
80 Mogas - In a fast moving situation it will require on an approximate average of two (2) gallons of 80 Mogas per day for each man being served (attached and assigned).
Ex. 21,000 assigned / 30,000 x 2 equals 60,000
9,000 attached / gallons of 80 mogas per day.
Slow moving situation - One (1) gallon per man per day or slightly over.

HEADQUARTERS 24TH INFANTRY DIVISION Office of the Division Quartermaster Class II & IV Section

25 May 1951

SUBJECT: Excess Boots, combat.

To: DOM

1. Have any disposition instructions been received on the surplus Boots, combat which we have on hand here (Widths A, B, C, D in all sizes)? If you need quantity of pairs in excess of our requirements please advise.

2. Reference issue of Jackets and Trousers, HBT, which the 5th RCT were in <u>dire</u> need of, on 22 May we issued the following quantities:

Jackets, HBT ea 3568 Trousers, HBT pr 3491

On 24 May the 5th RCT turned in the following items:

Jackets, HBT ea 1372 Trousers, HBT pr 985

Basis for turn-in was that they had overdrawn on their requirements. Property was new as we had issued it. Judging from this one example it is evident that the RCT's are not estimating their requirements within reason. Thought that DQM office would like to reaeive such information when it occurs.

LEO J. COTE Capt QMC Supply Officer HEADQUARTERS 24TH INFANTRY DIVISION Office of the Quartermaster Class II & IV, Ansong, Korea

> APO 24. 25 May 1951

MEMORANDUM:

TO: Division Quartermast.

- 1. Have any disposition instructions been received from EUSAK reference disposal of the "condemned" Tablets, water purification, and the expired-1947 Coleium hypo tubes?
- 2. We have 10,000 bottles of repellent, insecticide 2oz. bottle in stock. Do you want it forwarded to Class I Point?
- 3. Has any decision been reached RE the "draft" Quartermaster S.O.P.?
- 4. Have sent query to 55th asking for ETA of type-writer repair kits and spare parts for burners. Will notify upon recept of answer from depot.

L.J. Cote;

Capt. QMC Supply Officer

25 May 51 Time: 1130

Captain Smith

Lt. Adams of 19th Quarter Master will not accept our telegram for to-morrows pick up of rations, he says we draw from Young-dong-po. So, I am trying to contact ASP #10 to call in the telegram (By Phone).

Sgt Corbin

Still need two more trucks to pick up 203 c/s Hydro-Lettuce, if you want it. Sgt Corbin

HEADQUARTERS 24TH INTENTITY DIVISION Office of the Quartermaster APO 24

252000 May 1951

Memorandua

TO: Capt. Cote, Class II & IV Supply Point, Ansong

- 1. Send all human remain pouches up on first available transportation. Charge them to 24th QN Co (GR Section).
- 2. Also send Pvt. Steele up on same transportation. He will stay up here for another duty assignment.
- 3. We start drawing Class I from Yongdung-po starting tomorrow. 26 May. Next request for II & IV expendables should be put in on ASP #10.
- it will be all right to have the units submit their requisitioning schedules, it will be all right to have the units submit their requisitions on a regular schedule every second and fourth Friday, but it should not be made a strict schedule. There should be something to the effect that the requisitions should be submitted on the second and fourth Fridays or as close as practicable. In situations like the one at present the units probably could not meet a schedule. When the units can't meet the regular schedule we could submit our requisitions to the depots on the first and third Wednesdays if necessary, depending on the need. Inventories should continue to be made weekly. The new requisition schedule will have to tie in with the SOP and I believe that Col. Butler will want to discuss all of this with you. As yet he hean't been able to go over the SOF in detail. WE're still waiting for an answer from Army on their "Dues Out" policy and until we get that clarified we won't be able to publish a SCP.
- 5. Draw up a list of items of clothing and equipment that you want to put on a 30-day control level and have it for the Colonel the next time he comes down which will probably be the 27th or 28th.

HEADQUARTERS 24TH INFANTRY DIVISION Office Of The Quartermaster APO 24

26 May 1951

SUBJECT: Food Service Activities

TO : Division Quartermaster

24th Infantry Division

APO 24

- 1. A visit was made by the Food Service Section this date th the Service Companies of the 5th,19th and 21st Infantry Regiments.
- 2. The object of this visit was to determine the shortage in the new combat ration Charlie dash seven.
- 3. The S-4 of the 5th and 21st Infantry Regiments stated that no complaints of shortage had been received by their office.
- 4. Mr Asher, the breakdown officer for the 19th Infantry Regiment stated that no complaints of shortage had been received by him.
- 5. Several messes were visited and it was learned that when the line Companies are drawing Charlie rations the cases are sent forward and issued to the men. The S-4 Officers stated that a survey would be made by the Company Commanders to determine the shortage in the Charlie dash seven ration and would forward the information to this office.

SUBJECT: Ration Survey

TO

Division Quartermaster 24th Infantry Division

APO 24

- 1. A survey was made this date by the Food Service Section of Rations received 25 May 1951 . This issue consisted of 22,000 "A" rations based on menu # 14
- 2. A inventory by the Food Service Section revealed no discrepancies.
 - 3. Soap was marked NIS on this issue.

ROBERT LOURHART JR

Captain QMC
Food Service Supervisor

26 May 1951

Phone call from Lt Oldsman 8th Army OIC at Ichon SP

They have 50,000 gallons of Mogas at that point consigned to Danger QM. This Mogas at Ichon supply point. Colonel Butler called for clarification from G-4 and told Lt Oldsman that corps trucks are hauling gas for us and they are told by corps where to get the gas. Pickup of gas in not coordinated by this office. At time of call a report from Class Three showed that 27 corps trucks just arrived with gas from Osan SP

SUBJECT: Food Service Activities

TO : Division Quartermaster

24th Infantry Division

APO 24

- 1. A visit was made by the Food Service Section this date to the Service Batteries of the 13th., and 52nd. Field Artillery Battalions.
- 2. The object of this visit was to determine the shortage in the new combat ration Charlie dash seven.
- 3. The S-4 of the 13th and 52nd Field Artillery Battalions stated that no complanints of shortage had been received by their office.
- 4. The S-4 Officers stated that a survey would be made by the Battery Commanders to determine the shortage in the Charlie dash seven ration, and forward the information to this Office.

RUBERT LOCKHART JR Captain QMC

Food service Supervisor

HEADQUARTERS 24TH INVANTRY DIVISION Office of the Quartermaster APO 24

27 May 1951

SUBJECT: Issue of Class I & III Supplies

TO : OIC, ASP # 25

It is requested that Division Rear, 24th Infantry Division and 24th Replacement Company, 24th Infantry Division, draw Class I and III supplies from ASP # 25.

FOR THE DIVISION QUARTEEMASTER:

DAVID H. SMITH Captain CMC Executive

HEADQUARTERS 24TH INFANTRY DIVISION Office of the Quartermenter AFO 24

27 May 1951

SUBJECT: Non-Tariff Clothing Records

TO : Commanding General

EUSAK APO 301

ATTN: Quartermaster

- l. Under the present method of supplying non-tariff clothing, our Class II & IV section is unable to maintain records as to action taken by the issuing agency. This is due to the depot's failure to forward shipping documents to this office when non-tariff boots and other clothing items are mailed direct to individuals. As a result, dues out remain posted and are not cleared from our records even though the request may have been filled.
- 2. Request that depots be advised to forward to this office a copy of the shipping documents covering all non-tariff clothing mailed direct to individuals of the 24th Infantry Division. This will enable our supply section to keep issues posted and to take whatever follow-up action necessary to expedite delivery of non-tariff items.

JAMES E. BUTLER Lt Gol. CMC Division CM

point we have been directed to receive Class I & III on 28 May. Station had not been cleared of wreckage and debris and cannot be used.

1345: Call Lt Colonel Blasella G-4 and told him all of above requested to get approval from Army for ten rail cars to move II & IV from Ansong to Ascom City. He will call. I requested thirty unit trucks to make two trips to YongDongPo to haul P.O.L. on 28 May.

1130: Inspected MangWu CS 3263 at which

1600: At this time obtained clearance from Major Lowe at G-4 to furnish P.O.L. to 72nd Tank Bn.
1645: G-4 advised that 40 unit trucks would be available for hauling Class I and III supplies on 29 May.

HEADQUARTERS 2WIE INFANTRY DIVISION Office of the Quartermester APO 24

28 May 1951

SUBJECT: Gasoline Dispenser

THRU : Commanding Officer 55th Truck Bn.

TO : Commanding Officer
25th Transportation Truck Co.

- 1. Reference letter this office dated 7 April 1951, copy of which is attached, request that immediate action be taken either to return the borrowed gasoline dispenser or to supply this organization with a suitable substitute in good operating condition.
- 2. The gasoline dispenser was loaned in good faith to the 25th Transportation Truck Company to facilitate their operations and it was understood that it would be returned when the unit was supporting the 24th Division Quartermaster.
- 3. Request that a report of action taken to expedite the return of this item be forwarded to this office as soon as possible.

FOR THE DIVISION QUARTERMASTER:

DAVID H. SMITH Captain QMO Executive

HEADQUARTERS 24TH INFANTRY DIVISION Office of the Quartermaster APO 24

28 May 1951

SUBJECT: Memorandum

TO : Captain Smith

Class I train arrived at 0200 hours 27 May 51 at Chanyangni. There was a train wreck but our train got through. Loading first five trucks and they should leave by 1000. As of 0945, we have fifteen trucks in. Am going back to Yongdong-po again and check on to-morrow's train. It. Coleman just came in (1010) with empty drums for off loading and pick up rations.

Victor J. Misiewicz Captain QMC

281400 May 51

0800: Left for railhead at Changpyang

1030: Arrived railhead. Train of Class I being unloaded. It had arrived at 0200. We had been told by G-4 that it would arrive at 1700.

Directed Captain Misiewicz to arrange for pick-up of Class I & III at YongDongPo on 28 May, since wreck made arrival at railhead doubtful.

- 1130: Inspected MangWu CS 3263 at which point we have been directed to receive Class I & III on 23 May. Station had not been cleared of wreckage and debris and cannot be used.
- 1345: Call Lt Colonel Biasella G-4 and told him all of above.

 Requested to get approval from Army for ten rail cars to
 move II & IV from Ansong to Ascom City. He will call. I
 requested thirty unit trucks to make two trips to YongDong
 Po to haul P.O.L. on 28 May.
- 1645: At this time obtained clearance from Major Lowe at G-4 to furnish P.O.L. to 72nd Tank Bn.

JAMES E. BUTLER Lt Col QMC Division QM Colonel Butler D.Q.M.

Captain Smith:

Ration train all unloaded. Picking up 350 cases of lettuce which will be the last of ration haul. 25 trucks rations - 2 trucks lettuce-4 diverted to P.O.L.

Escorted first 6 trucks to P.O.L. (6th Tank trucks etc. Division units) at 1100.

Talked to Colonel Jordan at 1120. Colonel Jordan claims he will have wreck cleard off tracks and can put Class I & III into Mangwoo by 1200 tomorrow 29 May 51.

Ration and P.O.L. train being loaded at 1300 to be shipped to Mang woo for tomorrow's pick-up. I will remain here until 1830 and will check again on rail situation with Colonel Jordan to be sure that shipment can be made to Mang-woo to-morrow. I will return by 2100 to the company with any additional information. Will check Mang-woo on my return to see of any activity there.

Victor J. Miserwicz Captain QMC

Tin		Serial Number	Time Dated		Action Taken
	1030	1.	1030	MSG: To Capt Cote, Notify this office date and time when rail cars are ready for shipment.	Captain Smith
1040		2.	1040	MSG: To Col Butler, Msg on movement not clear. Shall we move to new railhead	Captain Cote
2020		3.	2020	MSG: The Purchasing & Contracting Officer of each addressee will attend conference on new procurement procedure on 020800 June to extend through 3 June.	Captain Smith
				SUMMARY OF DAILY ACTIVITIES Lt Col Butler and Capt Smith started for staff briefing but could not get through because of congested traffic. Class I & III railhead opened at Mangwu at 0900 with the arrival of 5 carloads of rations. Capt. Miscewicz made liaison trip to ASP #10 to coordinate rail shipments of Class I & III supplies. Lt. Col. Butler and Capt. Smith inspected Mangwu railhead. Also visited Yongdong-po and talked with Lt. Turner at ASP #10 and RTO people.: Relative to getting daily train to Mangwu at an earlier hour. Inspected Class II and IV location at Ascom City. Maj. E.W. Sims, 54th QM Bn, 2nd Log. Command, arrived approx. 1200 to visit front line units to determine their supply problems and needs.

0800	1.	0800	Subj: Movement of Class II & IV by rail or truck if rail cars are not available	Captain	Cote
1815	2.	1815	MSG: To G-4 MSR opposite Class I pt. impassable. Alternate Route by Ford south of CS 601765		

SUMMARY OF DAILY ACTIVITIES Capt. Misewicz departed at 0700 for Yongdung-po to check on rail shipment of POL to Mangwu. Lt. Col. Butler and Capt. Smith attended staff briefing. CG interested in return of empty POL drums to our Class III point. Asked G-4 for 40 unit vehicles for 31 May. Later advised by G-4 that the trucks would not be available. Lt. Lambert visited Ansong to coordinate the move of the laundry and shower unit to Ascom City. First rail shipment of POL arrived at Mangwu at approx. 1600;. Class II & IV started move to Ascom City to-day

HEADQUARTERS 24TH INFANTRY DIVISION
Office of the Division Quartermaster
Class II & IV Supply Point
Ansong, Korea

30 May 1951
Subject: Movement of Class II & IV

To : DOM

(ATTN:) Capt Smith)

- 1. Five (5) boxcars loaded and being shipped north to new location this afternoon. Should have entirely moved out by tomorrow evening if we obtain the other five (5) boxcars today.
- 2. Contacted RTO at Chonan and he stated that he would give me cars as soon as requirements to move ASP were filled. Said that there should not be too little delay as the ASP's requirements were nearly filled already.
- 3. In the event that cars are not available, will commence to shuttle tomorrow morning with the two trucks that I have presently available. Also will be able to obtain sufficient trucks from Division Rear about 1 June (they are still moving and can't release any trucks yet), if boxcars are not available.
- 4. Information received was that I would be ready to operate Friday. Will be able to do so if the remaining boxcars are available and if the rail movement is not sidetracked or delayed enroute. However, there will be a slight delay of possibly 24 hours on a few of the items if we have to shuttle by truck. Most of the clothing and expendables are on the first five (5) boxcars.
- 5. Am sending Gibson and Johnson with Prichard to the company (R&R). Also sending Steele up on first available transportation. No room in Prichard's jeep as he is giving Capt Overmeyer transportation to Ascom on his way North.
- 6. Chonan RTO has been notified to reroute all cars for II & IV to Ascom Rhd.

LEO J. COTE Capt., QMC Supply Officer

1830	4.	1830	Subj: Cancellation of Class I & III chipments to Army Supply Point. #10 Yong-dong-Po	Captain Smith
2020	5.	2020	To G-4: Supply Point. Status report as of 1600.	Col. Riasella
			SUMMARY OF DAYS ACTIVITIES Capt. Misiewicz departed 0830 for MANGWU where he will remain as liaison and coordinating officer for Class I and III. Lt. Lambert departed 0930 for 5 days TDY at Pusan and Taegu to attend con- ferences on Purchasing & Contracting & Graves Registration. Lt. Col. Entler and Capt. Smith in- spected rail yard at Chyongpyong-ni on advice from G-4 that this may be our new reilhead. Rail yard presently un- usable because of wreckage and mines. G-4 later told Col. Butler that our Class I & III railhead is to be Masogu- ri, effective I June. As of 2000 today no supply train had arrived but a work train had passed through there.	

- 1. Answer to 2a of your note is attached on regular report form.
- 2. Trucks left at 0730 to pick-up I and III at Mang-Wu. First Class III arrived at Mang-Wu at about 1600 30 May 51. Part of the trucks had already gone on to the Supply Point.
- 3. MSR is passable, but as of late (2300) last night Lt. Cupp reported that road between MasoguzRi and Kumgong-ni (that is, between 5068 and 4266) is steadily getting worse-- corners are breaking down under traffic; However, since our trucks did not return after leaving, inform that it is passable. The road along the mountain just across from our area is passable at present; the bridge just outside of Chong Pyong (here) is still out, and the ford is not passable for jeeps and 2½ ton 6x6 trucks--Brockaways are towing ration trucks across at present, so units will get their supplies today.
- 4. 16 unit trucks reported (8 from 6th Tank, and 8 from 5th RCT), and have been convoyed to Mang-Wu.
- 5. Attached is copy of memo received from our II & IV set-up which indicates status of move.
- 6. Attached is pencilled memo as to drums turned in compared to drums issued, by unit -- they just aren't bringing theem back. One day is not, of course, very indicative, particularly in view of the weather yesterday -- I will keep you posted daily on this.
- 7. Request you check to see if RTO at Chong-Pyong has been cleared of mines as Captain Smith says last time we were here there were many duds, etc. in the area. Please let me know if you can get the information through.

Butler Lt. Col.--QM The following memorandum from Lt Col Biacelli was received in CDCH 311115 May 1951

"TO: DOM

- 1. Corps G_4 informs that Ol I & III train will arrive in Chongpyong (CS601766) late this afternoon. Chongpyong will be our ralhead.
 - 2. Request answer to following:
 - a. Quantities of Cl I & III on hand 2400 hrs 30 May.
 - b. Did you send trucks out this morning for I & III? Where to?
 - c. Condition of roads (MSR)?
 - d. Did 16 unit trucks report to you to assist in CI I & III haul?

s/Lt Col Biasella

Captain Smith:

- 1. Send Lt. Coleman to Ansong for payroll.
- 2. Two flat cars containing six refrigerators arrived Mang-wu with ration train. Contacted R.T.O. Yongdong-Fo and they will pull them to Ascom City as requested. Engine has them now.
 - 3. Will load perishables on last four trucks. (meats) (ham and diced)
 - 4. Received the following by rail.

2 cars derailed in yard on Track #1. R.T.C. will take care of it. We still can receive supplies with this derailment. Tracks spread. Will try and contact Capt. Cody 1 June and inform him about the six refrigerators.

Beleive I can use about fifty trucks for P.O.L. Send to-night on to-morrow as you desire but send them in early for this yard is getting quite congested with P.O.L.

> Victor J. Mislewicz Captain OMC

Sent mail.

HEADQUARTERS 24TH INFANTRY DIV.

APO 24 31 May 1951

SUBJECT: Cancellation Of Class I and II Shipments

TO : Army Supply Point #10, Yongdong-po

- 1. Request that the 22,000 Able Rations requested in our daily telegram for consumption 4 May be cancelled. Ship balance of Class I items on this telegram.
- 2. Request that all FOL scheduled for rail shipment 1 June for our telegram for 3 June consumption be cancelled. Trucks will be dispatched to pick up certain items of oils and greases.
- 3. Changes in tactical situation and number of attached units plus some over-shipments by the supply point make the above cancellations necessary.

FOR THE DIVISION QUARTERMASTER:

DAVID H. SMITH Capt., QMC Exec Officer

2020, 31 May 51 Col. Biasella: Attached is status report as of 1600. Capt. Smith is out making a complete recon on the train situation -- I just got back from Masogu-ri; there will be no train to Chang-pyang or to Kapyong tonight, nor to the trestle here. There is a work train which left Masogu-ri at about 1900 bringing up new ties. There is an RTO in Masogu-ri (Lt. Col. Cstrum) who said that a train was coming into that point for Bayonet sometime tonight-probably late-the station needs much work even after all this time -- the work engine derailed when it went through on the mainline track. They have to replace some rails to have any more than the He are cancelling one day's ration (the delivery of the 2nd) and one track. one day's FOL (there is still 25000 gal. at the raillead at Mang-wu). You will note that we have two days of A (less perhaps a thousand rations), and a day of B, with almost a day of C. This has resulted from the overshipment plus the lowering of overall strength, plus the consistent issue of A, with no B to take up the slack. Please let me know when the Area at Chang-pyang has been cleared of mines so we can start to set up-provided that 1s to be the railhead: Capt. Mislewicz is starting to Mong-dong-Po to effect the cancellations noted above.

> JAMES E. BUTLER Lt. Col. DQM Division QM

Col. Blasella called at 2200 and approved above.

Command Report No 6.

From: 0100011 may 1951 to : 3124006 may 1951

COMMAND REPORT

The Division Command Post and major unit Command Posts remained in the same locations for the first nineteen days of May. Over three hundred and sixty (360) miles of field wire lines were constructed in the defensive installation by the signal Company. Most trunk lines were from four to eight miles in length out complete lateral wire installations accounted for the large quantity of field wire installed by the signal Company. To assure that none of the lines composing the defensive wire installation were damaged or removed by wire recovery teams instructions were issued that wire would not be recovered between the 40 and 70 northings in the Division zone. Var circuits served four of the five major units during the defensive installation period. Thus, it was possible to contact all major units by telephone through multiple routings at all times during this period.

An alternate of signal installation was maintained about one mile north of Konjiam-ni until the 10th of May when it was removed because the equipment was required for a proposed forward the location in conjunction with plans for the Division to launch an attack, when those plans were postponed, and the enemy attacked, another alternate of site was selected at Konjiam-ni, communications planned, and initial preparations made for future use of the area.

On 22nd May a Switch was installed as all the major units except the 28th now had moved north and three of them were within a half mile of that location. The next day another installation was made at 0.0618780 as the Division The was to move to that location on the 24th, Difficulty was experienced in establishing the Vir circuit back down the river to Division of and a relay had to be installed. The moved to this new location on the 24th and reconnaissance was made the same day for another The or switch position at 0.009-4905. The next day a switch was established at the selected location with The moving thereto the following day. The main up closed out south of the han giver on the 27th and moved to The position. On the 29th a switch was established at 0.0810080 and Division The moved to that location on 30 May. The 5th neglment was served out of Main by vir and the 21st and Div arty by wire out of The source it was impossible to establish a Vir circuit directly from that area to the 19th field wire was used to a location two miles from The and the circuit from that more favorable position to the 19th CP.

voice an radio was used to an increasingly greater extent and it became necessary to establish two voice nets, one operational and the other administrative. The operations memote Net includes the division NGS, an DGG-399, and the three regiments, each using an DGG-193 furnished by the Dignal Company. All are remoted into switchboards. The administrative memote Net includes division NGS and division near, both DGG-399's, and various administrative units and liaison teams.

A second class was started at the Division hadio school at Division hear. The school started two shifts to accomplish the training of two classes concurrently, using the same equipment and personnel as were used for one class.

A total of oblimites of field wire were recovered in Division during May

Following is a summary of signal activities of the 24th signal company:

HEADWINTERS BIGHTH UNITED STATES ARMY AUREM (BUSAK) Office of the Signal Officer APO 301

320.3 KSIX

18 April 1951

SUBJECT: Recommended Revisions to T/O & # 11-7N

D:

Signal Officer 24th Infantry Division APO 24

- 1. Action is presently being taken by this headquarters to secure authority for an equipment augmentation as a result of replies to letter this office, subject Augmentation of T/O & E 11-7M, dated 7 March 1951, which was initiated to standardize the additional signal equipment required for operation in korea.
- 2. Experience gained from operation in this theater can now be utilized toward making recommendations to the pepartment of the army for warranted revisions of the pivision Signal Company T/O & E.
- 3. nequest recommendations for changes in organization and equipment be forwarded to this office to reflect operating requirements as follows:
- a. Statement of unusual conditions in Korea which make the present organization and equipment unsuitable.
- b. Proper organization to meet command and administrative problems encountered in the present unit organization.
- c. Grade and MOS structure of operating teams within the company and platoons as required for operations (at 615-25-15 and at 615-25-20).
- d. Shortages and excesses of personnel by MOS for providing the required communication services. The policy established in MA Gircular 10, 1951, must be considered in cases of increased personnel requirements.
- e. Shortages and excesses of T/O & E equipment to include suitability for operating both in morea and under more favorable terrain conditions.

320.3 KSIX SUBJECT: Recommended Revisions to T/O & £ 1127N

18 April 1951

- f. Type and quantity of new equipment which can be used to conserve personnel and still provide adequate communications. Employment of mobile ATT, facsimile, automatic cryptographic facilities, etc.
- 4. It is desired that recommendations reflect the knowledge and experience of on-the-spot operating personnel as tempered and consolicated at section, platoon, company, and division level.
- 5. Request recommendations be forwarded so as to reach this office by 10 may 1951. If it is deemed ressible, recommendations can be referenced to replies mentioned in paragraph 1, which are on file at this office.

olonel, Signal Corps

1st Ind

he 24th Inf biv, office of the signal Officer, and 24

7 May 1951

10: Signal Officer, Hq EUJAK, APU 301

- 1. Recommendations for changes in organisation and equipment of T/O & E 11-72 follow, with substantiating information to reflect operation requirements and conditions.
- 2. It is recommended that the additional equipment and personnel as indicated in reply of this office, dated 16 kerch 1951, to letter your office, subject augmentation of T/O a B 11-7N, dated 7 March 1951, be added to I/O a B 11-7N as well as the following personnel and equipment:
 - a. One (1)Lieutement EUO 0210
 One (1) #arrant Officer EUO 2600 or 2200
 One (1) E-5 Personnel admin Glerk EUO 3816
 Two (2) E-3 Light Truck Driver EUO 4345
 - b. Two van-type vehicles similar to signal corps negatr Truck, m-30
- 3. Unusual conditions in Korea which require changes in the present organization and equipment are:

- a. The mountainous and channelized terrain of Korea which results in:
 - (1) Extended distances to Supply and service installations.
 - (2) Extended distances between Division Main and Rear schelon.
 - (3) The extended distances and nature of terrain requiring greater utilization of VHF terminal and relay equipment.
 Use of field wire is frequently impossible due to circuit length requirements being beyond the capabilities.
- b. Normal attachment of UN units of regiment or brigade size requires added wire, radio, and VHF facilities.
- c. Requirement exists for close lateral coordination between various Un units, requiring sdued communications facilities.
- 4. Changes in organization to solve commend and administrative problems:
 - a. The large size of the Infantry Division Signal Company is incompatible with the Personnel Administration and Management provision there for, A Warrant Officer should be authorized as Unit Personnel Officer. An additional personnel clerk is required to adequately handle the large volume of personnel work.
 - b. The Photographic Section should be separated from the Division Signal Supply and Signal Repair and Maintenance Sections and placed in the Operations Platoon on a level with the other Operational Sections, reporting directly to the Division Signal Officer for operations and training.
 - c. An additional officer in the grade of Lieutenant and MOS 0210 be provided to supervise the Hear Achelon. The varied and large signal activities thereat require officer direction, supervision, and coordination.
 - d. Two (2) additional Light Truck privers are required for the Division Signal Supply Section. The authorized personnel are very inadequate for continuous operation of Signal Supply operations.
- 5. The grade and MOS structure of operating teams is adequate with these exceptions:
 - a. An adequate number of cryptographic technicians is provided but the grade structure is not commensurate with the training and responsibilities involved. It is strongly recommended that the grade structure be:

1 - E-6 (SFC) - 1805 2 - E-5 (SGT) - 1805 4 - E-4 (GFL) - 4805 2 - E-3 (PFC) - 4805

- b. One Personnel Administration Clerk (803 3816) should be rated as 5-5 (30T) with the additional clerk, recommended in Per 4, in grade 5-4 (CPL).
- 6. The following additional equipment is required for operating under most all terrain conditions.
 - a. Reference as in Par 2.
 - b. One additional van-type vehicle similiar to Signal Corps Repair Truck, M-30, is required for the installation and operation of Classified Cryptographic Equipment.
 - c. One additional van-type vehicle is required for installation and operation of the Photographic Laboratory.
- 7. New equipment can be used to conserve personnel and provide improved communication:
 - a. Mobile ATT (such as the AE/AEC-26) would be a definite asset at Division level. Two Att Circuits would be desirable (3 AEC-26 terminals required), one to higher headquarters, and one from Division Forward to Division Near, to the large volume of administrative traffic.
 - b. The present volume of encrypted traffic at this level does not justify automatic cryptographic equipment. If the volume of such traffic increased appreciably, some automatic system (such as width) would be feasible, but would require special housing and transport, such as the m-30 or m-7 vans.
 - c. There is a pressing need for some device to replace the converter, M-M9, down to regimental level. This replacement device should be compact, light in weight, capable of operation at speeds of 35 to 50 groups per minute and secure enough to handle Top Secret Traffic.
 - d. at present, there is no justification for facsimile equipment at Division.

attities in index Jr. Lt Col, signal Corps Division Signal Officer

HEADQUARTERS 24TH INFANTALY DIVISION Office of the Signal Officer

APO 24 7 May 1951

SUBJECT: Report on Enemy Wire

D signal Officer Signth Army 40 301

- 1. Enclosed is a sample of wire used by the Cor. This particular wire was picked up north of the 36th parallel along road running North north east from CT 569100 to CT 583120.
 - 2. The following information on this wire is forwarded:
 - a. It was apparently all overhead construction. Such Items as telephone poles, trees, bushes, buildings, etc., were used for supports.
 - b. There was no specific insulating asterial used or provided. Pieces of rubber inner tube, rubber soles from shoes, rubber bands or any rubberized material that they could find was used. There was a very each amount (about 5% of total) of friction tape used.
 - c. Splices are of various types. Some are well made, but others are merely twists. At various intervals along the line there is some type of smaller guage wire wound around the main conductor. These wires seemed to be used for drop wires.
 - d. In the specific area where this wire was recovered there were two conductors running parallel. It was not possible to determine whether they were two ground return circuits or if this was one complete two wire circuits, as have received reports that single wire circuits have been observed.
 - e. Tests were made on short sections of wire to determine talking quality. This wire (over a very short circuit) talked up well, using a telephone 22-6, on both a two wire circuit and ground return.
- 3. Specific samples were recovered but lost before we had a chance to send them in.
- 4. A larger sample was given to M/ogt neits, oignal intelligence Team, 8243 army Unit.

Whilms is made dit. It tol, dignal corps Division Dignal Officer

			Arrangements being completed to open second class, operating two shifts, at the Division Redio School at Division Rear with	

second class, operating two shifts, at the Division Redio School at Division Rear with target date of 14 May. Danger Switch was closed in order to free the signal equipment and personnel for use as a jump team forward as tentative plans now indicate possibility of forward movement. A direct wire line was constructed to Task Force Plumley, with over five miles of the circuit going across country over Hill 389, being hand carried. Request submitted for transfer to the Signal Company of AM, MOS 4805, who, altho crypto school trained, had seen assigned to a rifle company.

Headquarters SUJAK
APO 301
ATM: Photo Officer

In compliance with Headquarters alliah, memo #8620, dated 3 may 1951, the enclosed serial photographs are submitted. Information requested pertaining to photographs is as follows.

- a. The photos were requested by G-3 and interpreted by P.I. section of G-2.
- b. Previous reports indicated enemy movement and possible camouflaged supplies on the north alopes of these hills. However, the Photo Interpreter G-2, could find no evidence of supplies and no enemy were observed in the area. As a result patrols were sent forward with no enemy contact in this area.
- c. Many for holes were observed along ridgelines and evidence of previous vehicle movement slong stream bed in this general area, Along west side of road (Photo ST1-1) there are many positions, tank and vehicle tracks but these proved to be made by former friendly elements.

OLYMPUS (M-209) CRYPTOSYSTEM VIOLATIONS.

FIELD PRODUCED CRYPTOMATERIAL: DETAILS OF KNOWN OR SUSPECTED PHYSICAL COMPROMISE AND CRYPTOGRAPHIC COMPROMISE OF CRYPTOMATERIAL PRODUCED IN THE FIELD SHALL BE REPORTED TO THE SIGNAL OFFICER OF THE HEADQUARTERS RESPONSIBLE FOR THE PRODUCTION AND DISTRIBUTION OR THE CRYPTOMATERIAL.

THE VIOLATIONS LISTED BELOW ARE CONSIDERED POSSIBLE COMPROMISES AND SHALL BE REPORTED

1. USE OF THE SAME MESSAGE INDICATOR FOR TWO OR MORE MSGS ENCIPH-ERED BY THE SAME PIN AND LUG SETTING.

2. MSG OR PORTIONS THEREOF TRANSMITTED IN THE CLEAR AND IN CIPHER.

3. LOSS OF TRANSMISSION IN THE CLEAR OF THE 26- OR 30- LETTER CHECK. 4. LOSS OF CLASSIFIED CLEAR-TEXT COPY OF DECLASSIFICATION WITHOU. PARAPHRASING.

5. REENCRYFTION IN ANY COMPROMISED SYSTEM.

6. FAILURE TO PARAPHRASE WHEN RECUIRED.

7. MESSAGE OR PART EXCEEDING 200 GRPS.

8. ANSWER OR RELATING MESSAGE TRANSMITTED IN THE CLEAR WHICH CONT-AINED A CONSIDERABLE AMOUNT OF THE PLAIN TEXT EQUIVALENT TO THE ENCRYP-TED TEXT OR WHICH CONTAINED CONSIDERABLE INFORMATION REGARDING THE CONTENTS OF THE ENCRYPTED WSG. INDICATE IN THE REPORT MSG THE EXTENT TO WHICH THE TEXT IN THE CLEAR MSG IS IDENTICAL WITH THAT IN THE CIPHER MSG. THE VIOLATIONS LISTED BELOW ARE CONSIDERED PRACTICES TANGEROUS TO SECURITY ANI SHALL BE REPORTED

1. USE AS MSG INDICATOR OF THE MSG ROTOR ALIGNMENT OF THE MSG OR

PART PREVIOUSLY ENCIPHERED OR DECIPHERED ON THE MACHINE.

2. USE AS MSG INDICATOR OF THE ALIGNMENT REACHED AT THE END OF THE 26- OR 30- LETTER CHECK.

3. USE OF INDICATORS OBVIOUSLY NOT SELECTED AT RANDOM, FOR EXAMPLE,

BONA FIRE WORDS OR ABBREVIATIONS.

4. TRANSMISSION OF A MSG OR MSG PART WHICH EXCEEDS 100 GRPS BUT IS LESS THAN 200 GRPS.

5. MSG ROTOR ALIGNMENT TRANSMITTED IN THE CLEAR.

6. ENCRYPTION OF A MSG WHEREIN TITHER VARIABLE SPACING OR BISECTION IS NOT USED AS PRESCRIBED. THE VIOLATIONS LISTED BELOW ARE CONSIDERED PROCEDURAL ERRORS AND SHALL BE REPORTED.

1. PIN AND/OR LUG SETTINGS NOT SET ACCORDING TO DAY+S KEY AS

INDICATED BY DIG.

2. SYSTEM INDICATOR TRANSMITTED LIB NOT INDICATE THE LETTER ENCIP. EPED TO DETERMINE THE MSG ROTOR ALIGNMENT.

3. ROTORS NOT ALIGNED ACCORDING TH MSG ROTOR ALIGNMENT.

4. LETTERS OF MSG ROTOR ALLIANMENT TRANSPOSED IN THE ALIGNMENT OF ROTORS.

5. KEY-EIST INDICATOR TRANSMITTED DID NOT INDICATE THE PIN AND LUG SETTING USED IN ENCIPHERMENT.

6. FIVE-LETTER BILECTION GRP NOT INSERTED BETWEEN SEGMENTS IN THE BISECTION PROCESS.

7. LETTER E OR Z SELECTED FOR FIVE-LETTER BISECTION GRP.

8. INCORRECT COMPLETION OF FINAL GIPHER GRP.

HEADQUARTERS I CORPS Office of the Signal Officer APO 358

10 May 1951

SUBJECT: Letter of Appreciation

TO : LtCol William E. Breen, Jr., 0-452864
Division Signal Officer
24th Infantry Division
AFO 24

On the occasion of my departure from Morea, I wish to express my sincere appreciation to you and your staff for the loyal support you have given to the Signal Section, I Corps, and to this command during such time as you were under its control.

During these troubled times your struggle for life has been a difficult one. So much - so awfully much - depends upon good signal communications. In spite of poor roads, hasardous terrain, adverse weather conditions, freezing temperatures and a shortage of personnel, supplies and equipment, you installed, operated and maintained the signal communications wital to the success of this command. Your task has been neither easy nor simple, yet you never failed.

From my observation I know the Signal Company of the 24th Infantry Division is a well trained, closely knitted organization. It is prepared to operate anywhere under any conditions.

I am glad for the priviledge of having worked with you. I sincerely hope it will be my priviledge to do so again.

THOMAS J CODY Colonel, SigC Signal Officer

HEADQUARTERS 24TH INFANTRY DIVISION Office of the Signal Officer

APO 24 19 May 1951

SUBJECT: Replacement Training Questionnaire

D : Headquarters 24th Infantry Division APO 24 Attn: AC of S, G-3

Following herewith are answers required by your questionnaire on Replacement Training, dated 11 kay 1951.

- 1. The 24th Signal Company is operating a madio school at Division Rear to train 5% radio operators for the Division.
- 2. No other schools are contemplated.
- 3. Sixty percent of personnel of 24th Signal Company are being or will be trained on the job.
- Approximately thirty percent of specialist requirements are being filled from pipeline replacements.
- 5. 4740 Hadio Operator 9
 4805 Crypto Technician 1
 3648 Hadio Repairman 3
 3660 Cook 2
 4014 Wheel Vehicle Mach 2
 3152 Still Photographer 1
 2187 Repeaterman 2
- 6. A leadership school in Japan would not be necessary as far as the requirements of the 24th signal company are concerned in that the communications NCO's must also be technical specialists and a fairly adequate number are being received.

Headquarters 24th in Panthy Division Office of the Signal Officer

APO 24, 28 May 1951

SUBJECT: Radio School

- TO : Signal Officer 24th Infentry Division (Rear) APO 24
- 1. I lost. If Division Rear moves you must move the school to same place.
- 2. The Chief of Staff did approve of us asking for enough transportation to have the tables and necessary equipment from there to establish a new school at old (Ascom) location.
- 3. Make your plans immediately and give Col Chaddan estimate of transportation requirements.

1400	5	291400	Ltr fm Hqs IX Corps relative to change in time zone suffic for message preparation. Change effective June 011001a.	
			SUMMANY OF LAY'S ACTION	
			A Division Switch was established at CT-810088 at 1300 hours with Vir circuit back to Danger CP being the one taken over from 21st. Lend lines were installed to 21st and Division artillery with a land line lateral to 19th. It was found very diricult to show the to the 19th from Switch location so the terminal already at 21st was changed to pick up the shot from the 19th providing lateral and combination land line-Var circuits Switch 19th.	<u> </u>

29 May 1951

SUBJECT: Change in Time Zone Suffix for Message Preparation

TO: See Distribution

1. EUSAK Hessage GR-5-5102 KSIX, dated 28 May 1951, is quoted for the information and compliance by all concorned:

"IN ACCORDANCE WITH CINCTE DIRECTIVE, EFFECTIVE O10001Z JUNE (011001K) FIRE ZOOD SUFFIX 5 UTLUED USED TO INDICATE DUG AND ROUTHING TYPE OF ALL COMM PARTITUD WITHIN FERON. THIS WILL INCLUDE ALL MESS HAUTHED WITHIN KOTHA AND SERVENT MORDA AND JAPAN. USE OF LOCAL THE ZOOF SOFFIX (I) WILL CONTINUE IN EFFECT OPERATIONALLY AND WHEN REFERRING TO COPDUCT OF OPERATIONS IN MSG TEXT."

- 2. The Date-Time Group is that Date-Time assigned by the originator of the message; the filing time is that time the message was filed with the Communications Center and is placed on the message by Communication Center personnel.
- 3. Messages filed with the Signal Communication Center will be assigned a Date-Time Group by the originator using Greenwich Civil Time with the Zone designation letter "Z".
- 4. Date-Time Groups and/or filing times of incoming message processed for delivery through the Signal Communications Contor will be indicated in Greenwich Civil Time with the Zone designation letter "Id.
- 5. Time Conversion Charts which have recently been distributed may be used when necessary to convert King to Zebra Time locally, or Zebra Time may be ascertained by subtracting ton (10) hours from King Time. i.oi:

091350K----290350Z

290920K----282320Z

 $6\, \bullet$ Attached is an additional Conversion Chart for converting King Time to Zebra Time.

SIGNAL OF ENATION INSTRUCTIONS

Copy No. Z Effective: 191899K hay 51 2 May 1951

SOI Item No. 20-14 nadio Frequencies
(This item supersedes Item No. 20-12, on effective date.)

- 1. The various radio nets and the frequencies assigned to those are indicated below. The statement herein of the specific assignment of units to any particular net does not preclude the possibility of other units operating in the net when the situation so requires. The facts pertaining to such cases will be coordinated with the 24th Infantry Division Signal Officer.
- 2. Only the frequencies authorized herein will be used. Situations wherein these frequencies do not meet the requirements will be brought to the attention of the Division Signal Officer. For jamming and interference reports see SSI Item No. 20-(), this headquarters.

b. Units having requirments in addition to those included in this code will submit same to Division Signal Officer, 24th Iniantry Division, AFO 24, to be incorported in a later edition of this code.

6. HELICOPTER PICKER OF CASUALTIES

a. Two red panels in the form of a cross will be used to indicate the site of helicopter pickup of casulties.

7. SOUND SIGN IS

a. For air or mechanized attack, three long blasts of a whistle, vehicle horn, siren, or klaxonn repeated several times, or three equally spaced shots of a rifle or pistol, or three short bursts of fire from a machine gun will be make. In daylight, the individual giving the warning will point in the direction of the attack. At night the direction will be indicated by voice.

b. For airborne attack, seven long blasts of a whistle, vehicle horn siren or klakon repeated several times, or seven equally spaced shots of a rifle, of a pistol, or seven short bursts of fire from a machine gun will be made. In daylight, the individual giving the varning will point in the direction of the attack. At night the direction will be indicated by voice.

- c. For dirplane spray attack, warning will be given by the cry of "Spray". This warning will be given only when enemy direcraft begin a spray attack or when vestcant detector paint, who, or vasicant detector paper, A6, gives indication that spray attack has been made. When the cry of "spray" has been made, the standard percussion has alarm will not be sounded.
- d. For ans attack other than spray, warning will be given by the cry of "as" accompanied by percussions sounds, such as those produced when bells, triangles, iron rails, or empty cartridges are struck rapidly and continuusly.
 - e. To sound the all clear, one audible warming signal of 15 seconds duration will be made. This may be repeated after one minute has lapsed.

8. AIR-GROUND IDENTIFICATION FOR WHELL AND TRACK VEHICLES.

a. A-50 Famels will be used, as prescribed in Item 45-().

9. FLASHLIGHT SIGNALS

a. The purpose of this item is to designate a visual signal for identification of friendly troops during darkness.

b. During agraness a flashlight may be used for identification. However, the agnger inherent in the use of lights in forward areas must be thoroughly considered. The filter, M-384, should be utilized when practicable.

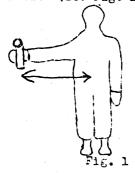

Visual & Sound Recognition Sign 18 combidential Fage 5 of 6 rages

SOI Item No. 40-1 (Cont'a) Contidental

- c. Flashlight identification signals will not be considered as final identification. Many personnel may not have flashlights available so that other means of identification must be used concurrently.
 - ā. The initial flashlight identification signals will be:

CHALLENGE

Horizontal movement of the flashlight repeated several times. (See Fig. 1)

REFLY

Circular movement of the flashlight, facing the challenger. (See Fig. 2)

10. UNIT IDENIFICATION

Confidential SIGNAL OF ERATION INSTRUCTIONS

Copy No

SOI I tem No. 17.1

Lffective:

160001K hay ol

hy 24th Inf Liv 24 10 1951

Operations voke

1. Army Security Apency "OFCODE"s will be used within this Division.

2. Distribution will be made through signal unannels to sucordinate units of the Division.

5. Lifective Cates of "OFCODES" are as icllows:

"AFBAL" No. oldo effective lopefik to lowaysk kay 1951

"AFSAL" no. 5257 effectly: 1909/4th to 2124/04 Aay 1951

"AFSAL" No. 8258 effective 220091k to 242499% May 1951

"AFSAL" ho. 0259 effective 250001k to 270400 hay 1951

"AFSAL" No. 5269 effective 289991h to 392499K hay 1951

4. "OFCODE" No. 515 will continue to be held in reserve until otified by this headquerters.

BY COMMAND OF MAJOR GENERAL BRYMI.

FFICIAL:

STANDING SHOWAL INSTRUCTIONS

Hq 24th Inf Div AFO 24 Copy No. Effective: Upon Receipt 15 May 1951

SSI Item No. 11-1 Olympus (No. 209) Cryptcayatem Violations

- 1. Details of known or suspected physical compromise and cryptographic compromise of cryptomaterial produced in the field shall be reported to the Signal Officer, 24th Infantry Division, AFO 24.
- 2. The violations listed below are considered possible compromises and shall be reported:
- a. Use of the same message indicator for two or more messages encyphered by the same pin and lug setting.
- b. Messages or portions thereof transmitted in the clear and in cipher.
- c. Loss or transmission in the clear of the 26 letter check.
- d. Loss of classified clear-text copy of declassification without paraphrasing.
 - e. Re-encryption in any compromised system.
 - f. Failure to paraphrase when required.
 - g. Message or part exceeding 200 groups.
- h. Answer or relating message transmitted in the clear which contained a considerable amount of the plain text equivalent to the encrypted text or which contained considerable information regarding the contents of the encrypted message. Indicate in the report message the extent to which the text in the clear message is identical with that in the cipher message.
- 3. The violations risted below are considered practices dangerous to security and shall be reported:
- a. Use as message indicator of the message rotor alignment of the message or part previously enciphered or deciphered on the machine.
- b. Use as message indicator of the alignment reached at the end of the 26 letter check.
- c. Use of indicators obviourly not selected at random, for example, bona fide words or abbreviations.

Olympus (M-209) Cryptosystem Violations
(or fidential

SSI Item No. 11-1 Page 1 of 2 Pages Canhidential

SSI Item No 11-1 (Contid)

- d. Transmission of a message or message part which exceeds 100 groups but is less than 200 groups.
 - e. Message rotor alignment transmitted in the clear.
- f. Encryption of a message wherein either variable spacing or bisection is not used as prescribed.
- 4. The violations listed below are considered procedural errors and shall be reported:
- a. Fin and/or Lug Settings not set according to day's key as indicated by DTG.
- b. System indicator transmitted did not indicate the letter enciphered to determine the mag rotor alignment.
 - c. Rotors not aligned according to message rotor alignment.
- d. Letters of message rotor alignment transposed in the alianuant of rotors.
- e. Key-list indicator transmitted did not indicate the pin and lug setting used in encipherment.
- f. Five-letter bisection group not inserted between segments in the bisection process.
- g. Letter "E" or "Z" selected for five-letter bisection group.
 - h. Incorrect completion of final cipher group.

COMMAND REPORT

Our immunization program got off to a good start around the 15th of the month. All units had received the vaccines necessary to comply with the directive sent down from Arry. Our Headquarters and various Service Units were immunized by teams which were organized by our Glearing Company. We find that this system of sending immunization teams to the unit works very well. A schedule for this visit is arranged beforehand; therefore, attendance is usually pretty close to 100% on the initial run.

Capt. Hendricks joined the Surgeon's Office right after the first of the month to fill the vacancy of Medical Inspector. His duties have been many and his goal is to bring the Sanitary conditions within the Division to the highest level possible. We have finally received color discs for water testing, which will enable us to maintain water chlorination to the directed level of 5 parts per million.

Our Medical Officer strength has been reduced during the period. Nine of our thirteen Navy officers have left to rejoin the Navy. To replace them, we have received to date six Army Medical Officers. It is our desire to keep the Regimental Medical Companies as near up to strength as possible, therefore, these new officers have been utilized throughout the three regiments.

To comply with current directives our 207th Malaria Survey Detachment has initiated schedules classes of instruction so that each unit will be able to eventually have a non-commissioned officer responsible for Malaria control. Our Malaria Control program is in full swing. All the necessary preventive measures are being adhered to.

The IX Corps Surgeon made a visit to one of our forward Aid Stations recently and personally directed the Helicopter evacuation of two wounded patients. This operation was a perfect example of the necessity for top-notch Communications. There was a long delay in getting the Helicopter request through due primarily to the number of switch boards through which it must pass. A great deal of effort is being applied to try to simplify the communication arrangement between Division Surgeon's Office and the supporting MASH UNIT.

BASIC: Command Report, Cont'd

The Collecting Company of the 21st Regiment was hit very hard by the enemy early one morning, recently. It is worthy of mention here that they acted in an exemplary manner which resulted in the capturing of many prisoners and inflicting a great number of casualties. The Collecting Company sustained a few casualties also, one being a Navy Medical Officer who was evacuated but is expected back soon.

Samuel W Caldwell

Lt Col

Surgeon

HX -4-5050- MATR Subject is immunization program, My-June 1951. This message in 14 parts.

Part 1. References:

- a. AR 40-215
- b. TE IED 11% and C-1 thereto
- c. Somitary Order Number 1, Hq EUSAK, dated 13 March 1951
- d. ENSING to accept 156-3-6530 KIDR dated 7 Morch 1951

Part 2. During the period 15 May to 15 June 1951 the following immunizations will be performed on all personnel of this command with the exceptions noted:

2. Smallpon Vaccination:

Small(the verification for all parsons without a record of successful (properly read and recorded) small(ex vaccination subscipant to 1 January 1951.

b. Japanese A Escephilitie Immusization:

Initial airia or aticulating does of Japanese P Encophalitie vaccine for all personnel execut RCKA and KETUSA.

c. Cholern Immunization:

UNCLATCIFTED

7

A stimulating dose of cholera vaccine for all persons whose last cholera immunization was prior to 15 Fabruary 1951.

d. Typheid-paratypheid Immunication:

A stimulating dame of typhoid-paratyphoid vaccine for all persons whose last immunization was rior to 15 June 195%.

e. Tetanus Immunization:

A stimulating dose of tetamus tomoid, alum precipitated as required by reference c, part 1, this message (see part 8 below).

Part 3. A bongser done of typhus vaccine will not be required at this time.

Fort 4. Attention is invited to the following special requirements in connection with smallpox vaccine:

- n. Small p(x vaccine must be shipped, stored, and distributed under refrigeration (below 5 °C. or:1 °F.) until the hour of use.
- t. The multiple-pressure technique described in per 5 TB 1TD 114 will be uniforely used. All concerned are raminded that smallpux vaccination is not successful and complete until an immune, associated a rescribin reaction has been read, recorded and authorizated by a media 1 efficer.
- c. Attention is directed to the resultement of reference d., part 1, this mesons to the normal departing from Morea have a record of successful smallper vescin tion within a period of not 10ss than 2 weeks nor more than six menths prior to departule.

UNCLICATIFIED

7

Part 5. Japanese B Encephalitis Vaccine:

- a. The supply of Japanese B encephalitis (JBE) vaccine is definitely limited. The greatest precautions for conservation will be effected including:
 - (1) Careful attention to refrigeration to maintain temperatures below 5 degrees centigrade (41 degrees Februheit).
 - (2) Utilization of total desage in each ampule by arranging to vaccinate in groups of 20 whonever possible. After adding diluent the vaccine is very unstable and should be used as soon as possible. Diluted vaccine is not usable after the end of the day in which the vial is opened.
- b. The basic series of JPD vaccine is 3 substitutions doses of lec. The second dose is given one week after the first; the third dose one month after the first. Persons requiring basic certies should have the first injection on or about 15 May, those requiring only a basic scalar should receive it on or about 15 June 1951.
- c. Personnel arriving from the ZI and Japan from May to September will usually have received one or more doses of this vectine enroute. Such individuals will have series completed here according to the schedule set forth in par b above except that if arrival is after 15 June the 3rd dose may be administered as soon as one week after the second.
- d. Regardless of the interval since the previous dose, the remaining dose or doses of a series will be administered and the entire series will not be repeated.

- e. Personnel arriving in Korea after 15 June without having started a series will receive a full source of 3 doses of the vaccine at intervals of 2 to 4 days.
- f. Individuals who have received two or more doses of JEE vaccine during a previous season will receive only one stimulating description of the vaccine.
- 6. Immunication series begun prior to 15 3eptember will be completed. No JBE vaccination will be initiated after that data.
 - h. The following personnel are not required to take JBE vaccine:
 - (1) Transients, including cross of ships and sireraft.
 - (2) Persons departing from Koren prior to 1 July 1951.
- i. JBE vaccine is proposed by cultivation in eggs. Any persons giving a history of sensitivity to eggs or chicken most chiuld be exempted from vaccination at the discretion of the medical officer.
- Part 5. The initial stries of typheid-paratypheid vacable consists of three 0.5cc doses of the triple vaccine administrated at intervals of 7 to 29 days. The stimulating dose is 0.5cc salautaleauty, or 0.1cc intracutencously. Care will be taken to deposit the 0.5cc dose in the superficial subcutaneous tigsue, not in the number.

Part 7. The initial series of cholory vaccine consists of two subcut nesus injections of vaccine at an interval of 7 to 10 days. The first data is 0.5cc, the second 1.0cc. The stimulating dose is 1.0cc. It is recommended that this immunization be administrated as an about 15 June.

Part 8. The initial period of termina toxed alim pricipit to densi to of the introduceular injections of 0.5cc each at an interval of 4 to 8 week. A single stimulating descent 0.5cc is given appreximately one year after the initial series, every 4 years thereafter and on the commence of weaks or severe burne.

Part 9. If an initial derivation of the above immunizations has been administered it will not be reported. Under such conditions attimulating decesionly will be similatered as required.

Part 10. (It is recommended that unit modical officers propose and submit to unit commenders rejected sea dalk for the a ministration of the above immunizations. In scheduling an lapex vaccination arrangement must be made for a reading at 2 to 4 days.

Part 11. g. Of the vaccines of scribed in part 2 of this message, only smallpox and Japanese because little vaccines may critic interperture requirements. It is of the above imperiouse that these tomations be refriger ted until the hear of administration. Temperatures show [degrees contigued (41 degrees Februaria) in the refriction control to what of precess of immigration. The potency of typheid-partypheid, smaller and typher vaccine is not corresply iffected by atomic for a feet day, at make a parature. Con equality shore refrigeration of see in limited, smallpox and Japanese E encephalitis vaccine will be given refrigeration priority in the order named.

b. Refrigeration with dry ice in the range minus 10 degrees to minus [7] degrees Centigrads is the informal author for the incorration in chipment of smallest vaccine and Japanese B encephalitic vaccine. Impulse and bottles of limid vaccine (except smallest) ampulse and bottles of limid vaccine (except smallest) ampulse radiate temperatures of 35 degrees to 10 degrees Franciscit. Freezing result: in brooking of the container. Where mechanical refrigeration is available, an illow vaccine should be kept in the freezing compartment.

Port 12. Supply:

- no. All weedings mentioned herein will be obtained from the same supply point as are obtained in mediant supplies.
- b. Wet ice and dry ice for preserv tion of viceins of prescribed temper tures till be vil bloom to the National Reposes and the advence plateens of the Army Medical Repose.
- c. But the containers will be furnished and it is of the utmost importance that, it containers to returned promptly in conviceably condition, in order, that they may be examined for subsequent ships into
- That 13. The attract ears about to oxe reject that all immunications of ministered to properly recorded on the individual and record copy of the Immunication Register (WI 100 Form F-117) in described of the providence of IR 40-215. The atotas of all required immunications in each USA unit will be determined monthly by actual review of record on its of Irrunization Registers. The result of this review will be entered in the mentally conitary report of the unit.

UNCLASSIFIED

Fart 14. This directive is intended for one time application and does not supercode the recurring immunitation requirements set forth in par 10. Sanitary or or No. 1, Ng EUSAK, dated 18 Forch 1951.

SUBJECT: Letter of Commendation

GUMÉRAI, HEADQUIRTERS FAR LLIST COMMAND APO 500

AG 201.22 (10 Apr 51)MD-A

10 April 1951

SUBJECT: Commendation by the Surgeon General, U.S. Army

TC:

Commanding General, Fighth Army, APO 301 Commanding General, Japan Logistical Command, APO 342 Commanding General, Headquarters and Service Command, General Mocadquarters, Far Last Command, ALO 500

1. Prior to his Coperture for Washington on 8 April 1951, The Surgeon General delivered the following letter to the Chief Surgeon, For Last Cormand, and eshed that it be brought to the attention of Medical Department personnel in Kerea and Japan:

Tolyro, Japan & April 1951

Moj. Jen. Lägar byskine Hune Chief Sungeon, Far Last Countain APO 500

Door General Hune:

with you I have just completed a nother extensive visit about Japan and Names. During thus tour, I have had a comprehensive view of all matters and confinities in which the hedical Department has an interest.

On a similar trip during last 3-ptember and Geteber I was pressly depressed with the excellence of the functioning of the Redic Respectment. It is more than a pleasure to due that this excellence has continued and has progressively improved.

The wellth of the troops is remarkably joed. The sid rate companies favorably with the best rates in the entire Area. This is here remarkable with ois considers all of the adverse health conditions existing in Korca.

The good health of our troops demonstrates the outstanding success of the Ample efforts in preventive medicine.

The sick and wounded of this command are popedily and efficiently treated. The spirit of good will which provails in all of the Lospitals come hand and hand with superior professional care.

solfless effort on the part of all of the Medical Department personnel is evident and impressive.

AG 201.22 (10 Apr 51)MD-A, subj: Gommendation by the Surgeon General, U.S. Army, 10 April 51 (continued)

In my position in the Army I view this great medical achievement with the deepest humility. I offer my sincerest congratulations to all connected with the medical service in their efforts to helpfulness to others.

Sincerely.

s/R. W. Bliss R. W. BLISS Maj. Gen. (NC) USA The Surgeon General

2. It is requested that copies be distributed to medical installations in Eighth Arap, the Japan Logistical Command, and the Headquarters and service Command FTG.

COLLENTS:

Elemen of the SIW's occurred on the t 28th & 29th of the month

of the month

For a period of 2 or 3 days, from 27 April, the 19th

Infantry Regiment evacuated through 25th Div ision

Clearing channels

The Chinese Offensive, and strategic withdrawals of UN
forces began on 22 April 1951, and pressure was continuous

until about 28 April. During that period the Clearing.

Platoons were moving frequently, so that an increased
proportion of N-P Cases had to be evacuated.

Instructions for Use of Eighth Army Form No*53

- 1. Report will be submitted as a supplement to WD AGO Form No. 8-122, "Statistical Health Report" (Reports Control Symbol MED-11). Sections, columns, and lines of WD AGO Form No. 8-122.
- 2. Reports, except division consolidated reports, will list all units provided primary (Non-hospital) medical care and the mean strength, direct admissions, and cases of each. Units will be listed under the appropriate command to which assigned or attached as defined in Section IV, Circular 20, this headquarter 1949, subject "Eighth Army Report of Selected Diseases (Reports Control Symbol N-31). A unit is defined as any organization having a separate Morning Report and Sick Book.
- 3. Division consolidated reports will list all regiments, separate battalions, and separate units provided primary (Nonhospital) medical care and the mean strength, direct admissions, and cases of each.
- 4. Mean strength will be computed in accordance with the provisions of paragraph 20, Army Regulations 40-1080, 28 August 1945.
- 5. Hean strength, direct admissions, and cases will be totalled for each command represented and aggregate will be entered at bottom of form.
- 6. When patients are admitted directly to a hospital or dispensary from units which are not provided primary (Nonhospital) medical care by the hospital or dispensary concerned, the unit to which the patient is assigned or attached will be entered under the appropriate command. The direct admissions and the cases will be reported but the mean strengths of the units will not be reported. Wean strengths in these cases will be reported by the medical installation providing primary (Nonhospital) medical care for the patient's units.
- 7. Current "Status of Units and Station List" will be consulted to determine commands to which units are assigned or attached.

CO.L.NTS:

- 1. The period covered in this report was marked by an almost complete lack of contact with the enemy, and only action was by patrols.
- 2. During this period the Neuropsychiatrist visited the Commanding General of the 24th Division and the Commanding Gefficer and Executive Officer of the 13th Infuntry Regiment, plus all the battalion surgeons and cortain other officers in that Regiment. The evisits were made in the organity of a Division Staff Office and were intended to present to these officers figures on neuropsychiatric casualties in their commands. Individual discussions were held with the officers in an attempt to ascertain nears of lowering the NP rate inthe different units of this command.

HEADQUARTERS 207th Malaria Survey Dotochmunt APO 24

26 May 1951

SUBJECT: Marthly Report of Astivition

- TO : Commending General
 24th Infantry Division
 APO 24
 Attn: Surgeon
 - 1. This detachment rejoined 24th Infantry Division 18 May 1951.
 - 2. LARVAL MOSQUITO COLLECTIONS:

a. Larval collections were unde during the period 16 May to 25 May 1951 each day meather permitted. Seven mosquite species were represented in these collections as follows:

Coographical Logation		o Species.	Yester of
Kyongan-ni	Ditch. Readside	Anopheles simensis	Malaria
Kyengan-ni	Ditch. Readside	Amepheles simeroides	e e e e e e e e e e e e e e e e e e e
Kyongan-ni	Streem (Slew)	Acdes versus	
Kyongan-ni	Rice paddy	Julex mimetious	
Kyongan-ni	Ditch. Readelde	Oulex orientalis	
Kyongan-ni	pitch. Roedside	Culex tritaeniorhynchus	Jap B enceph.
Kyongan-ni	Stream (Slew)	Culex pipiess pallens	Jap B enceph.

9. TRAINING

a. A two hour class of instruction was presented by members of this detachment as a part of training for unit malaris control supervisors in the 24th Infantry Division Artillery. Thirty seven battery representatives of the following battaliens were present:

Subjects Monthly Report of Activities

(1) Artillery Enttalions,

11. F A Bn 12. F A Bn 555 F A Bn 21.st AAA Bn 26th AAA Bn 52nd AAA Bn

b. On the job training was given by members of this detachment to sanitary technicians within the companies and plateons of the 24th Medical Battalien were treated with an initial application of DDT residual spray.

4. STATUS OF INSECT CONTROL EQUIPMENT AND SUPPLIES.

a. A conference with 24th Division Engineer Supply Officer rewealed that seventy engineer 3-gallen sprayers had been received by him and that of this number, thirty two had been issued as of 17 May 1951. The balance were in the process of being issued.

b. A conference with 24th Division Quartermaster Supply Officer on 17 May 1951 revealed that some one hundred fifty gallons of DDT (5% residual spray) had been received by him at that time. Another small shipment of 5% residual DDT was received subsequent to 17 May 1951; the exact quantity could not be ascertained. Investigation is presently being unde to determine wherein lay the obstruction in the supply channel.

5. RECOMMENDATIONS

a. The amount of mosquito breeding since 1 May 1951 has been small due to the low average daily temperature. Since 15 May 1951, the rate of breeding has increased both as to variety of species and as to numbers within species. It is anticipated that the increase will be accelerated to such a point within the first two weeks in June that insect note will become a necessity for all troops who, the testical situation permitting, can utilize them.
