FARFWFII FROM GENERAL COLLIER

To All Military and Civilian Personnel and Dependents

Fort Knox, Kentucky

As I depart "The Home of Armor," I wish to express to each of you my sincere personal appreciation for your exceptional performance of duty, outstanding loyalty, and the high espirt de corps which has made Fort Knox one of the foremost installations of the United States Army.

It is well to remember that this position can be main-It is well to remember that this position can be main-tained only by a continuation of the wholehearted, inte-grated effort of all concerned, working with a selfless de-votion to duty dedicated to developing the finest military units in the Armored Forces of our nation.

You have met successfully the demands of an everchanging situation and you may point with pride to your accomplishments. Every member of this command plays an important part on The Armored Center team.

I bid you good-bye with reluctance, and I shall always cherish the memories garnered during the period that I have been permitted to serve with vou.

May God Bless You

J. H. COLLIER, Major General, U. S. Army, Commanding.

5000 Men. Provisional Tank Bn & Six Light Aircraft Participate

The men of the Armored Center voiced an official farewell to Maj. Gen. John H. Collier Wednesday morning as they paraded their armed might before him in a colorful they paraded their armed might before him in a color review before thousands of spectators on Brooks Field.

Taking the salute in the official review marked the last such act by Gen. Collier before he turns over the reins of Commanding General of The Armored Center to the man who stood next to him in the reviewing stand, Maj. Gen. George W. Read, Jr.

An estimated 5000 officers and men, representing every major command at Ft. Knox including the Combat Commands of the Third Armored Division, marched past the reviewing stand to salute Gen. Collier who had been commander here since August 7, 1952.

Following the troops was a provisional battalion of M-41, M.47 and M.48 tanks from School Troops that swept by in a rumbling tribute to one of the leading generals of Armor. As the tanks rolled by, six light L-19 army aircraft flew low over Brooks Field trailing yellow and green smoke, the traditional colors of Armor.

The men, practically all of whom are veterans of World War II, were airlifted of World War II, were airlitted here from Philadelphia with much publicity and fanfare. They were the first such unit to be flown from the City of Friends to a summer encampment, thereby saving precious hours of training time

The 1st Battalion of the 11th Armd. Cav. Regt. tutored the Pennsylvania tankers through their field and classroom lessons on the M-48. Actual instruction was under the direction of The Armored School faculty. During their training they were inspected by the 79th Division Commander, Brig. Gen. Albert Stackpole.

The Pennsylvanians left The Armored Center last Sunday.

The Role of Armor In Modern Warfare Available on Film

Armor and its role in modern day warfare have been put on film and given Army-wide distribution, according to The Fort Knox Film Library.

Though neither of the films have been authorized for use in have been authorized for use in public gatherings, they are avail-able now for use by regular ar-my and reserve units. "Orienta-tion on Armor" is a 12 minute film that provides a general "tun-down" on tanks and tank warfare and tells something about the role of Armor in combat. Much of this film was made at Ft. Knox.

Dear Mr. Bean

During the course of a year our office reviews many publications from military and naval posts and stations. It is indeed gratifying to see the manner in which "Inside The Turret" has publicized and promoted American Red Cross services, thereby helping us better to serve the men and women of the Armed Forces.

As an expression of our appreciation for your consistent cooperation in publishing stories and pictures about Red Cross programs at Fort Knox, we are enclosing a special citation. In particular, this citation recognizes the public service you have performed during the Red Cross' 1954 Campaign for Members and Funds, but with it go our thanks for your support all through the year.

Spearhead Review

Spearheaders Take First German Town

3d Armored Division flushed with the success of its recent victories, continued to roll towards the heart of Germany. At 1451 hours on 12 September, 1944, Task - Forces Lovelady of CCA, rolled across the border into the town of Roetgen.

After a short skirmish with emplaced machinegun positions the Spearheaders secured the town. It was the first German town to fall to an invader since the wars of Napoleon.

Now the Allies were ready to crack the famed Siegfried Line. Infantry, supported by tankdestroyers, tanks and engineers blasted their way through "dragon's teeth" and enemy pillboxes. Bitter fighting marked the trail of the Spearheaders as they knifed the "impenetrable" Siegfried Line.

Individual accounts of heroism and gallantry were too numerous to recount. The once green Spearhead Division was now one of entire 3d Armored Division with the most feared striking units in cakes and pies for all its mess practical marvels of the machine the entire United States Army, halls.

Spearheaders Forge Ahead

After breeching the initial line. Spearheaders bored through the secondary line of defense. Despite the fierce resistance by members of the Wermacht, the tankers forged ahead. By September 23rd, the important city of Stolberg was in American hands and half held by German

The 3rd Armored Division and the veteran 1st Infantry Division found themselves well into Germany while the rest of the First Army was poised on the German borders. The point was forced to grind to a temporary halt in the Stolberg - Mausbach Breinig area until the remainder of the First Army could secure the flanks and protect the supply lines.

At Aachen, First Army plans called for a bypassing of the city. However, this decision had to be changed and units of the 3rd Ar-mored Division, and the 1st and 30th Infantry Divisions surrounded the city.

An ultimatum from the Allie commander, demanding a sur-render, was ignored by the en-Attacking from all ap proaches and supported by VII Corps artillery which fired 169 of ammunition, the com bined armor and infantry teams poured into Aachen and systematically began to wipe out the dugin fanatical enemy.

Prior to the opening of the Central Pastry Kitchen last January, the individual mess halls were required to bake their own cakes and pies. Now with centralized production some excellent results, both gastronomical and economical, have been seen.

Besides a marked improvement in the quality of the pastries fed to Spearheaders, the mass production achieved through this centralized kitchen saves the government over \$12,000 a month.

The Central Pastry Kitchen, located on Knox Street, near the main post, is a quiet, orderly place and the ten-story pie and cake racks give it the impression of a huge pastry library. An observer wonders at first look where

10-Day Supply Basis

The Kitchen operates on a tenday supply basis, and that sup ply if seen as a mountain would make 'Misery' and 'Agony' hills here at Fort Knox look like places ants dwell in. Every ten days huge Army trucks, compar able to the civilian moving vans unload the ingredients needed for ten day's cakes and pies. They are 34,600 pounds of flour, 8000 pounds of sugar, 21,000 pounds of powdered sugar, 6600 pounds of shortening, 1590 pounds of frozen eggs, and loads of miscellaneous This does not include the gallons upon gallons of fruit filling. That is another mountain in itself.

It's a long pull from Canton, China, to Ft. Knox, Ky., and an intriguing one when in involves a narrow shave with the Com nist Chinese. But that's the story of one Benny Wong (formerly Bing Poy Wong), now U. S. citizen and soldier studying at the 3d QM Bn. Wire School.

Benny's sudden and precarious spare time as a photographer's trip began in 1949 as the Com-munists were overrunning China This February, when Benny from the north. Benny's father discovered his name was close to had been in the U.S. since 1923 the top for the sall to service, he trying to scrape together enough volunteered for the draft and in a restaurant business to bring his family over with him. nny had applied for a passport in 1947 and was still waiting for it when the Communists started their push southward. Always Children

One of the most popular games of childhood is Follow My Leader. One child, you may recall, goes before the others and strikes poses, goes places, and does things (if there is a tinge of danger in the activities, so much the better).

The others are to follow the leader and do what the leader does. The game affords an op-portunity for the leader to exercise his ingenuity and daring. It gives the followers a chance to display their courage and ability to keep up with him.

The boy or the girl who balks or plays the game only up to a certain point and then drops out is scorned as a sissy or a quitter. Thenceforth that boy or girl leads but a miserable existence until he or she wipes out the blot by some worthy deed that dis-proves the epithet or until the in-

signed as new Field First Serigeant.

Mother, Sister in China

Interestingly enough, Benny is not the only member of his family to escape from Communist control. His mother and sister have a story like his own. Canton was securely in Communist hands by this time; so the two

women requested a 10-day pass to Hong Kong.

When they arrived, they en-rolled for a school as an excuse for overstaying the pass, sent the pass back, and have been in Hong Kong ever since, Mr. Wong now hopes to raise enough money to bring them to the U.S. too.

Meanwhile, Benny Wong is putting in his two years with Uncle Sam and anticipates a career in business when he gets out of service. "The restaurant business with your father?" he was asked. "No," says Benny, "That's one thing I can't stand cooking.

U. S. Army's Nike Nursemaids Need Noodleful of Knowledge: On-The-Job Training Molds Skilled Guided Missile Technicians

per on the conversation of some of the Army's soldier-technicians might thing he was tuned in to Buck Rogers, judging by the tongue-twisting lingo.

Accelerometers, multivibrators and oscilloscopes are common place tools of the trade, for example, to men in the Ordnance guided missile or integrated fire control electronics repair courses (The phrase "integrated fire con-trol system" is an all-inclusive one, meaning tracking, computing and aiming an anti-aircraft weapon at a target.)

Highly skilled technicians are produced by practical training and study programs conducted on electronically controlled anti-aircraft weapons, radar and computing units, or guided missiles.

Voung men with an eye to future in these specialized fields get Army training at the Signal School, Fort Monmouth, N.J. Advanced study is either at the Ordnance School, Aberdeen Proving Ground, Md., or the Guided Mis-Redstone Arsenal, eile School Huntsville, Ala.

Graduates of these courses make up the first-aid crew, so to speak, for the latest guided missiles, such as the famed Nike. Precision maintenance is their specialty; trouble-shooting their cup of tea.

All those trained for this exacting and exciting job take regular Army basic training before being sent to the Fort Monmouth course. There they receive 24 weeks of schooling in fundamentals of electricity, electronics, and radar. In the last six weeks of the course, however, students of integrated fire control systems concentrate on specific fire control and electronic equipment, while guided missile systems students get their introduction to hydraulics, pneumatics and missile component equipment.

At this point some men go to the field as repairman helpers. Others get advanced training in repair and depot maintenance on-missile (internal) guidance systems. Another advanced cours graduates men capable of isolating and repairing any malfunction on the external guidance systems in a field or depot maintenance unit.

Another training course in this program turns out specialists in guided missile propellants and explosives. These men are quilified to supervise handling of propellants, boosters, warheads and

Nineteen of the questions deal with driving ex-perience, 20 cover maintenance experience and 120 are designed to reveal personality traits.

The personality items never

ask a direct question. They are worded so that a 'yes' or 'no' answer to a positive statement— "I am good at bluffing"—will be-

tray an accident-prone personality.
What is this personality?
He has had frequent exposure
to accidents and probably broke a bone or two in childhood. He likes to be the center of attraction, dislikes routine and wants to be his own boss. However, he usually is content to stay in the job that offers the least line of resistance.

He has many acquaintances, few friends, shuns children and, few friends, snuns children and, if married, has no strong feeling of family responsibility. He has little interest in intellectual con-versation, shows no concern over personal problems. He is self-re-liant, impulsive and dislikes authority. He's a good conversation-

Two Doctors Locate In Elizabethtown

Dr. Oris Aeron has opened his office for the practice of general surgery in the clinic building he recently constructed on Woodland Drive, across from Hardin Memorial Hospital in Elizabethtown.

Associated with Dr. Aaron is Dr. Arthur S. Holmes, who will practice general medicine and occupy offices in the same building.

Dr. Aaron served as resident surgeon at C&O Rwy Hospital in Huntington, W. Va.; chief resident in surgery, Knoxville General Hospital, and has had two years training in Philadelphia where he was graduated from the University of Pennsylvania Graduate School of Medicine. He graduated from the University School of Medicine in 1939.

Dr. Holmes was graduated from the University of Louisville School of Medicine in 1951. He had a year of internship and a year of surgical residency in Good Samaritan Hospital, Lexington. For the past two years he has been on the staff of the Hurst-Snyder Hospital in Hazard, Ky.

Major Heriot New Food Advisor for TAC

Maj. Julian C. Heriot, a veteran of 12 years active service, is the new food service advisor for The Armored Center.

Maj. Heriot came to Ft. Knox from Korea, where he was stationed for 16 months with the Quartermaster Corps. During World War II he served in the European Theater of Operations and the Pacific. After the war he was stationed in the Pacific areas and in Japan. He was separated from active duty in 1946 and recalled in 1948.

The major, who began his new duties here June 1, is from Savannah, Ga. The Heriot family lives on Bullion Blvd.

U. S. Army Gives Wig Wag Signals Back To Indians

WASHINGTON-The Army Signal Corps' use of flags as a communications system was "borrowed" from the Indians in the middle of the 19th century.

Brigadier General Albert J Brigadier General Albert J. Myer-the Army's first Signal of-ficer--got the flag-signal idea when he saw a Comanche Indian warrior warn his party of the ap-proach of American troops. The Indian signaled his men with a gaily - colored, feather - bedecked lance.

The general patented his flag signal system in 1856, and for many years after that flag signals played an important role in military communications.

By the end of the Spanish-American War, however, the Sig-nal Corps' use of telegraph and telephone had become so wide-spread that flags began to "wave" out of the communications pic-

It seemed high time to "give the system back to the Indians."

Cubs Return From Camp Tired But Happy Boys

Ninety two tired but happy little boys returned home from Camp Patton last week full of memories and enthusiasm for a week spent at Cub Camp, and full of anticipation for a week of fur nevt summer

The pictures at the left show the boys in various activities en-

One of the most popular pro-jects at the Camp was the Zooa cage constructed by the Cubs, and inhabited by animals caught in traps that the boys faithfully set each night. In the top photo, Ronnie Jolliff, and Larry Conway watch the antics of turtles, a frog and a field mouse in their zoo.

With no less enthusiasm for woods and irons than that shown by their elders at Lindsey and Anderson, the Cubs built a "minniture golf course" (as the hand lettered sign denoted). Tim-my Tilton, left, sinks a putt as his two pals Terry Harvey and John Asarian watch with admiration.

The week wasn't spent entirely at play. The boys were taught to revere "Old Glory", and their retreat ceremonies rivaled a formal post retreat in impressiveness. shows Jimmy Snead, Craig Waltz, and Joey Snyder how to fold a flag after retreat.

As if learning the names of ninety two boys of identical ages weren't confusing enough for the counsellors, they had to distinguish between a set of twins. A solution for this problem was found by having one of the Sanford twins wear his tee shirt back-wards. In the bottom picture, Counsellor Tom Strang helps four of his Cubs from the "Little In-dians" tent paint their tent standard. Left to right, Dickie Ulmschneider, Terry Strang, Capt. Soldier of the Month Division Association To Hold Convention At Reading, 22-24

More than 1000 wartime Spearheaders from three-fourths of the states in the country are expected to attend the Seventh Annual Convention of the 3d Armored Division Association later this month in Reading, Pa.

The association seeks to pre serve the traditions and honored wartime record of the Division. Each year, Spearheaders throughout the United States meet convention to rededicate themselves to preserve and maintain the memory of buddies who gave their lives in combat,

This year's meeting will be

This year's meeting will be held July 22, 23 and 24.

Included in the plans for the 3-day session are two general meetings, an 8-block parade, a memorial service, banquet, dance and several tours for Spearheadand their wives.

The association issues a monthly news-letter, which outlines the activities of the organization and lists the location and assignment of members, both in and out of active military service.

It seems that Sfc. Brakebill of M. Company, Instr. Bn., was wounded in action. The wound was received in a battle with a golf ball.

Capl. Lee Kaplan, CO. L. Co., has taken his last turn in the field; he took a group out to range for firing the earbine. Capt. Kaplan is due for separation in August. He hasn't been with the Battalion for very long time, but his jovial and friendly spiring to Capt. Kaplan's trademark, has certainly put him over in a big way with everyone who has come in corract with him. We will all miles him.

The Instr. Bn. bowling team icked up four games last Tues-lay. Seems that the competition was very light—none. Games vere won by forfeit. Don't get he wrong idea of the team, they re holding their own in the control. the

From Reveille To Taps, Sixty Nine Girl Scouts Enjoy Weeks Stay at Camp Patton

-Photos by Sgt. Leroy Schult: the lashed bulletin board.

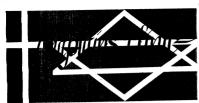

Months of planning and preparation, excitement and anticipation, culminated in a dream-come-true week for sixty nine girls last week at Camp Patton.

The planning and preparation was done by the mothers and counsellors—it entailed a series of meetings for formulation of plans, endless telephone calls to solicit help, and attention to the infinite details that go into the planning for care of 69 girlsaway-from home.

The excitement and anticipation department was well taken care of by the 69 girls-at pajama parties to discuss camp secrets amidst giggles and pillow fights), planning to "short sheet" best friends, eagerness to learn arch-ery, go swimming and boating, and just plain live in the wide open spaces.

A staff of eighteen volunteers, headed by Camp Director Mrs. Jean Perks, spent the week at camp with an eye on the health, welfare, and recreation of the girls.

In Genesis 12:4, it says, "And Abram was seventy and five year old when he departed out of Haran." Seventy-five years old? seventy-five. At this age most people are comfortably settled in their They have lived their lives, have experienced everything that life has for them

They have made their place in business and society, are retired and trying to enjoy what time remains to them. Actually, they are just waiting for the old man with the scythe to come and get them. For them to move out into another country would be impossible.

But Abram belonged to God, and was in His plans. This makes all the difference in the world. The person who will yield to God continually is experiencing the thrill of the unexpected. Abram had been called out of the Chaldees into another country which God would show him. Possibly this was the end of the road. But not with God Although comfortably settled with his wife and his flocks and herds he was told by God to pull up his tent stakes and move out again. He did. No doubt this cost him some effort and some comforts. There were many barriers and there may have been some misgivings and hesitation in his heart, but he complied with God's wishes. moved, at seventy-five years of age.

He sent Abram to a new country, to new experiences, to raise a new family, to live vigorously 100 more years. Life gone and opportunities gone at seventy-five? Not with God. It is never too late with God. It is never too late with God. Tomorrow with Him, we may be led out to fulfil those desires in our hearts that have been denied us all our lives, and which we now count as impossible. We are too old, circumstances are all against it, too many barriers. True, with us and with men, but never with God.

THE WONDERS OF THE ARMORED CENTER were unveiled this week for three distinguished visitors from Iraq. Maj. Gen. Muhammed Rafiq Arif, Chief of Staff of the Iraq Armed Forces, is shown as he steps briskly through the door at Yeoman Hall followed by his host, Maj. Gen. George W. Read, Jr., Commanding General, TAC. In Gen. Arif's party were Brig. Gen. Abbass Ali Ghalib and Col. Musfafa.

A single Army Quartermaster subsistence supply company of 190 men can receive, break down and issue all food items required for approximately 100,000 soldiers.

The Army streamlined its service school structure by shorten-ing 68 courses, eliminating 29, and consolidating 28 into 14 courses during fiscal 1953.

CUB SCOUTS VIE FOR DISTRICT Local Radar Station Challenges SOAP BOX DERBY HONORS HERE

With lots of support from "aunts and uncles and double fourteen youngsters gave their all last Sunday first cousins. to piloting their fourteen homer ade W-8 limou to the finish line in the first District Cub Scout Soap Box Derby

ver held at Fort Knox. The speedway on Dixie Street was lined with cheering relatives and friends of drivers from West Point, Vine Grove, Muldraugh, Elizabethtown, Hodgenville, Brandenburg and Fort Knox.

The winner of the Derby was Garnett Rogers of Elizabethtown, who finished the 975 foot raceway in a flat forty-eight seconds. The Rogers youngster was ac-claimed the victor when 9-yearold Ben Wilds, the Fort Knox entry, was disqualified in the race because it was claimed that had oversized wheels, The wheels on Wilds' car were twelve inches in diameter; the specifica-tions read no more than ten inches. Ben had burned up the raceway in forty seconds

Thank you Sincerely yours JOHN GARDINER.

The gist of philosophy, or wisdom, said Scardes, is "Know thyself." It is the key to the solution of the riddle of life. Out of the
attempt of men to know themselves came the "school," the "coilege,"
the "seminary." These instutions were originally groups of kindred
minds, separated from the distractions of everyday life, to contemplate the things of the soul under the guadance of trusted teachers.
They were places of retreat from the distractions of the world. In
some s-hools and colleges, the practice of a "quiet hour" is still obseved. At the beginning and the close of every day there is a briefly
period when every student is in his room. There is no prescribed
period when very student is meaning to the maintenance of silence. The
oulet hour is an invitation to introspection, that each student
might learn to know himself.

One of the great needs of our time is a silent time amid the noise and bustle of motorm life, an hour when the busy activities of all other hours shall cease, when we shall withdraw our souls into the inner court of scil-romnunion. "In our crowded world," and the inner court of scil-romnunion. "In our crowded world," as the state of the scillar of t

Herndon, who was named trainee of the cycle, substantiated Sgt. Jelinske's observations when he said, "The cadre had a great deal to do with our learning, spirit and drive."

The test is based on the ad vanced trainee's knowledge of weapons, tactics and general information taught him during the 8-week cycle. It helps the instructors evaluate their work by showing in what areas the men are strong or weak.

There are 24 stations in the exam, and each station tests a certain area of the soldier's training. Out of a possible 310 points, a traince needs at least 70 per cent (217 points) to pass,

The 3d Armored Division's Training Committee ducts the test on Camby Hill.

The following letter, sent to Maj. Gen. Gordon B. Rogers, 36 Armored Division Commander, by Maj. Gen. J. H. Collier, Command-

ing General, The Armored Center, at the time of his departure for the Far East, together with Gen. Rogers' letter, should be a source of pride and gratification to every member of the Spearhead Division.
TO: Major General Gordon B. Rogers Major General Gordon B. Rogers

Commanding General, 3d Armored Division Fort Knox, Kentucky

1. Upon the eve of my departure from Fort Knox I would like to take this opportunity to express my appreciation to you and all members of your command for the outstanding manner in which out a mark of 93.13 percent set you have accomplished your mission

> 2. Although faced with an acute shortage of officers and experienced cadre, you have consistently improved the quality of training. I am especially appreciative of the high standards of Armor training that you have set and accomplished. The packet platoons that you have trained in the 3d Armored Division commendations from commanders throughout our Army.

3 The splendid showing that your command has made in the Red Cross, Savings Bond and Community Chest drives are indicative of the high esprit and morale of all ranks as well as the leadership of your officers and noncommissioned officers. I am especially pleased to note that the recent Community Chest per capita donation for your Division was \$3.64. This is a record for which all may be justificably proud.

4. The superior rating received by the 3d Armored Division on the recent Second Army Ordnance Inspection is another achievement which points up the great progress you have made since assuming

5. It is my sincere hope that I may have the privilege of scrving with you and the officers and men of your Division again.

Now that motorists are taking a closer look at value, there's a strong, new surge to Pontiac. Here's why:

Pontiac is the only car in its field with the solid feel and quality appearance of fine-car length and weight. Its luxury is just as impressively regal. And performance is simply wonderful-smooth and quiet at all speeds . . . eager and spirited in fine-car fashion . . . and reliable and economical in the famous Pontiac way.

That's a fast look at what you get. What you pay is the smallest price ever placed on a big, luxurious car-within a few dollars of the lowest! Come in, and find out how our liberal deal whittles even that low figure down to everybody's size!

The Least You'll Ever Pay for Big Car Performance and Luxury!

do more work per day . . . more work per dollar!

You save on operating costs. The "Thriftmaster 235" engine, the "Loadmaster 235," and the "Jobmaster 261" (optional on 2-ton models at extra cost), deliver greater horsepower plus increased operating economy.

You save extra trips. That's because of extra load space. New pickup bodies are deeper . . . new stake and platform bodies are wider and longer.

You save time on deliveries. New truck Hydra-Matic transmission saves time and effort at every stop. Optional at extra cost on ½-, ¾- and 1-ton models. You save with lower upkeep, too. There are heavier axle shafts in two-ton models, bigger clutches in light-and heavy-duty models, stronger frames in all models.

You save hours on the road. Thanks to new highcompression engine power, you can maintain faster schedules without driving at higher maximum road

And your savings start the day you buy. Chevrolet, you know, is America's lowest-priced line of trucks.

Come in and see all the wonderful new things you get in America's number one truck.

Now's the time to buy! Get our BIG DEAL! Save with a New Chevrolet!

AVE you been thinking you can't Hafford a new Buick? Listen:

If you can afford any new car, you can afford a Buick - and we boldly show our price here to prove it.

Look again, and you'll see that this is the local delivered price of the new Buick Special 2-door, 6-passenger Sedan. Compare, and you'll learn that this price is just a few dollars away from those of the socalled "low-price three."

But - dig a little deeper if you want the real clincher. That's when you find that those few dollars more you pay for a Buick buy you a lot more automobile.

'An Inspector Calls' To Be Presented By Pioneer Playhouse

What could be one of the finest productions that has ever been seen at Ft. Knox, will be presented at Nininger Park, Sunday, July 18, At 8:30 p.m., on that day, Pioneer Playhouse will present "An Inspector Calls."

Inspector Calls," writ-"An Inspector Calls," writ-ten by J. B. Priestly, was first produced in 1947. It is set in England in the year 1912, a time when World War I was threatening, and a time when British labor was beginning to awaken to a new sense nower

power
It is a tragedy. It is a comment
on the lives of the people of the
nanufacturing class of England
in 1912, and perhaps it is a comment on the power of rationalization and self-justification in today's world.
It is the study of the investigathe power of the power
lived in the one suicide by five
different people, all closely related.

This is the third in a series of This is the hird in a series of shows presented at Nininger Park this summer by Pioneer Playhouse. There will be plays on each Sunday for three more weeks. The previous shows have played to capacity crowds. There will be more seats at this show, but you are urged to come early free to all Fit. Knox personnel and their guests. In case of inclement weather, the play will be presented in Service Club 1.

Water Conservation Stressed Here

Center this week as Armored Center Headquarters issued a warning to all Ft. Knox personnel that "It is essential that water consumption be drastically reduced immediately."

water consumption to cross-really requeed immediately. Water crossumption at Ft. Knox has reached an all time high, the Headquarters ennouncement said, far exceeding the capacity of present water sources. The result has been a critical reduction in reserve supply.

Post authorities responsible for water supply have stressed the importance of each individual and each unit taking an active inter est in conserving water, since a lack of adequate conservation could result in water rationing.

As it is, Armored Center Headquarters has issued a list of preventive steps individuals and units here must follow to help keep the reserve water supply at "safe" level.

Washing cars, watering lawns and such activities have been restricted to certain times of the day. The use of showers in barracks will be regulated so that water will be used to the maxi-

At five minutes before midnight August 6, Signal Corps technicians will begin a ten-minute operation that is the culmination of two years effort in a major change that will affect every one who uses a telephone at The Armored Center

At about 12:05 a.m. August 7, if all goes well, the cut-off and change over will be com-plete and Ft. Knox will have a completely new set of tele-phone numbers and a new dialing system that will send telephone users scrambling for their new directories.

Lt. Col Howard Collins Armored Center Signal Officer, to-day announced the cut-over date as he detailed the story of this latest development in Signal Corps

progress at Ft. Knox.

The plan to simplify the Ft.
Knox telephone system, he said,
originated in 1952. It was approved for installation in January, 1953 and work started last July. However, certain difficul-ties set in and work on the job came to a halt last August. It reumed in February and is now about ready for completion.

All Central Office equipment

will now be housed in the new Signal Corps building at Seventh Avenue and Old Ironsides. The equipment and switchboards were formerly quartered in the Chemical Office building.
Biggest effect of the change-

over on Armored Center person-nel will be the complete change of all telephone numbers. Only (Continued on page 8)

Violent death struck three times in as many different forms late last week claiming the lives of three Armored Center enlisted

Pvt. Willie C. Williams of Ser vice Battery, 67th AFA Bn., was dead on arrival at the U. S. Ar-my Hospital here July 16 from a heart wound he sustained when a rifle accidentally discharged in a range area. The bullet that killed Williams went on to hit Pvt. Billy R. Lovett of the Food Service School. Lovett has been reported in good condition with a shoulder wound. He is a stu-dent cook and was on bivouac with the unit. Williams was from Cleveland, Ohio.

An auto accident at 9 p.m. July 17 claimed the life of Pvt. Ray E. Hutchison, Tank Co., 1st Bn., 11th Armd. Cav. Regt. The accident occurred on Highway 41-A. one half mile north of Nebo, Ky. Hutchison was from Morganfield,

Ky. Pvt. Clarence E. Moody, Co. A, 367th AIB, CCR, 3rd Armored Division, died from a wound selfinflicted with an M-1 rifle at 6 p.m. July 18 in his company area. He was dead on arrival at the U. S. Army Hospital here. Moody was from Columbus Ohio

TO THE FORT KNOX EXCHANGE

On the 59th Anniversary of the

Army & Air Force Exchanges

Like its parent organization, the Fort Knox Exchange has kept pace with the needs of today's military per-sonnel. In fifty-nine years, the Army and Air Force exchanges have progressed to become modern merchandising outlets, providing military personnel with "ar-ticles of ordinary use, wear, and consumption not supplied by the Government and to afford them means of rational recreation and amusement" as set out in the order establishing exchanges in 1895.

For this extensive and constantly improving service to the defenders of our nation, we salute the Fort Knox exchange.

On July 25, 1895 Secretary of War Daniel S. Lamont established the Exchange system in General Order No. 46. Their mission, as defined in that regulation, is almost identical with the mission of Army and Air Force exchanges of today.

Throughout our thirty years at Fort Knox, we have participated in the growth of the local exchange and the post as a whole. It has been a pleasure through the years for us to have had a part in important development of this service to the military personnel of Fort Knox.

FORT KNOX EXCHANGE

On July 25th the Army and Air Force exchanges will have served military personnel for 59 years. The exchange system was established in 1895 to "combine the features of reading and recreation rooms, a cooperative store, and a restaurant. Its primary purpose is to supply the troops at reasonable prices, with the articles of ordinary use, wear, and consumption not supplied by the Government and to afford them means of rational recreation and amusement."

How well exchanges have met and maintained this goal of 1895 is shown in the record of growth and service during the past 59 years.

Congratulations

To The Fort Knox Exchange

As the 59th Anniversary of the founding of the Amry and Air Force exchanges arrives, West Point Lumber Company is happy to extend congratulations for a job well-done.

The Fort Knox exchange has participated in the general growth and development of the exchange system and has provided needed goods and services for hundreds of thousands of military men and women down through the years.

It has kept pace with development of the exchanges by bringing many merchandising inovations to this area. Its role in maintaining the high morale of military personnel has been and continues to be an important one.

Major Change

(Continued from Page 1) the Range phones and the individual numbers assigned at the Wherry Housing areas will not be affected. All other numbers will change.

The new system eliminates any prefix numbers, such as the "2" that now precedes many numbers here. It also will do away with the "Star" exchange now used for all numbers east of Wilson Road, which included practically all the Third Armored Division area.

"All numbers under the new set up," Col. Collins explained, "will have just four digits. They will start with 2000 and run consecutively to 6999." Simple arithmetic will tell you then, that only one less than 5000 numbers will have to be changed.

The only change relating to Rose Terrace exchange numbers will be the prefix number used to dial that exchange from Ft. Knox. The present "92" prefix will be simplified down to "9". Long Distance, now reached by dialing "0", will be changed to "8". The operator's familiar "0" signal will remain the same, as will the present "17" for the Ft. Knox Fire Dept. Information will change from the present "15" to "13".

Col. Collins cited the new system for the simplicity it affords in dialing and the centralization of equipment it makes possible.

"Also," he noted, "it allows for a 15 per cent growth over and above the present telephone network we have here now," A greater accuracy in numbers dialed and a speed up in completed calls by elimination of complicated dialing equipment are two sterling features of the new system, Col. Collins added.

The equipment used in the new installation is the latest available, the colonel said. It is a Stromberg-Carlson type XY consisting of 5000 lines with a nine-position switchboard and a two-position information switchboard.

According to Col. Collins, Ft. Knox is the second Army installation in the country to be converted to this telephone equipment. New directories, he said, will be distributed prior to August 8

in the 3d Armored Division as a wholesale reorganization got underway after months of careful preparation.

L1. Col. VanDuyn
Named Division 6-3

The biggest single change in the Division's new set-up is the elimination of advanced infantry training and the placing of additional emphasis on Armor as the number of men receiving Armor training is markedly increased.

> Two combat commands, CCA and CCB, will consist only of tank companies and will give nothing but Armored training. In the Division's old roster (and here's the reason for the big nere's the reason for the big shake-up), there were some tank training outfits and some units giving armored and infantry training within the same combat command. Now, this is done away with as each Combat Command will be giving only one kind of training.

Basic combat training will be the assignment of two major commands, DivArty and Combat Command C, which is the tentative name for the old Reserve Command. No longer will Spearhead Division.

Div Trains Elevated

Prominent among the many changes which took place is the elevation of Division Trains to a elevation of Division Trains to a major command level. It will as-sume almost entirely the previous functions of the 3d QM Bn. by housing the common specialists schools

Another eminent change is the assignment of the 122nd Armored Ordnance Maintenance Battalion as the support group for both of the Armored training commands. A-122 will support CCA and B-122, CCB. C-122 will be resting on a zero strength status assigned to Hq., 3d Armored Division. Each battalion's Headquarters

and Service Company and Medical Detachment have been placed on a zero strength status, and a few companies in various com-mands have also been placed on the inoperative list. Other units which have been placed on the zero strength roster and assigned to Hq., 3d Armored Division, are the 503d Replacement Co., 83d Reconnaissance Battalion, Hq. and Hq. TOU can see for yourself the gay and Y gorgeous styling that's sure to be the fresh note next year, too.

And you can easily learn that here is power a-plenty-the highest V8 power, Series for Series, in the annals of Buick

But what you can never know, till you try it yourself, is the feel of a Buick in motion

It's a ride as precision-soft and firm as only coiled steel can make it.

Yes, coil springs on all four wheels. And a full-length torque-tube drive for true tracking. And a massive X-braced frame for solid steadiness. And specially calibrated shock absorbers, V-braced struts, wide-rim wheels, a unique front-end geometry-plus a host of other betterments too numerous to mention.

You feel the result of this advanced engineering every mile you drive - in what is literally and figuratively a Million Dollar Ride.

You feel it in the superb and buoyant cradling. You feel it in the serene levelness of your going over ruts and ridges. You feel it in the precise snubbing of jars and jounces. You teel it in a new kind of steadiness, handling ease, curve control.

Only thing for you to do, we believe, is to come try this miracle of motion-and we'll be glad to oblige.

That way you'll also learn firsthand about

the style, the power, and the value that have made Buick such a best-selling success this year. For Buick today is outselling all other cars in America except two of the so-called "low-price three."

(Smart tip: With Buick such a beautiful buy this year, think what a winner it's bound to be at trade-in time! Come see us this week!)

ers liberated some 430 Englishmen, many of whom has been confined since Dunkirk. The tra ditionally reserved English offi cers and enlisted men broke down and cheered as the battle group thundered into sight.

Last Battles Begin On April 15th, Task Force Welreached the Mulde River south of Dessau, and the last fur ious battles began. Here they met the last of Hitler's once great Army. Units made up of officer candidates, naval personnel and veteran frontline soldiers were met in a last ditch battle.

Elements of this "bottom of the barrel" group formed pockets of resistance in every village, fight-ing grimly to the end. German troops who had been by-passed, struck at the Spearheaders at

Bitter fighting broke out at Thurland, Bobbau - Steinfurth (called Bobby Sox by the 3d tankers), Wolfen, Greppin and Bitter-field. At Zohepkau, Lt. Col. Prentice E. Yeomans, commander of the 83rd Reconnaissance Battalion, was killed in action while leading his battle group into the attack.

Spearheaders attack Dessau on April 21st; by the 23rd, the enemy had been cleared out. On the 25th, the 9th Infantry Division relieved the 3rd, on the now sta-ble front. Thirteen days later, it was all over.

Division Inactivated

In a formal ceremony in the caserne in Aalen, Germany, on November 9th, 1945, the Division's standards were cased, and the Di-vision and its component units were inactivated effective the next

The Spearhead which led the tack throughout the bitterest fighting in Europe, has not become just a memory, for on July 15th, 1947, the 3d Armored Divi-"Spearhead in the West" reactivated as a training division at Fort Knox, Kentucky. Surely, this was a just reward for the division which had cracked the famous German West Wall.

We are passing through one of the most fateful turning points in the most rateful forning points in human history. On the men and women of this generation has fallen the ordeal of saving the future of mankind. It is costing and it will continue to cost sacri-fice in which all will have to share. and it will continue to cost sacrifice in which all will have to share. In the terrific struggle to save and the same of the save and the same of the save and the save and the save and now during the attempt to build now during the attempt to build mightly, was and still is challenging good. We are forced to recognize the fact that this world must be ruled either by Satan or during the war and is the ultimate issue today. If God's right to rule this own world be ignored, then all will reed to those. It is only we have any assurance of the real meaning of life.

When the war clouds broke over us one Sunday morning we had a grim awakening; but are we awake today? It was not enough that we overcame the menace of Nazism in Germany. Hitlerism is only an example of what twen-tieth-century humanity without God is capable of doing, and will continue to do. If we want to save ourselves and our future we must awaken to the fact that sinister and evil forces are still aboard in the land relemitessly seeking to overthrow all that is good and lovable in humanity

This shaken world cannot be re-constructed safely or permanently on any basis or foundation save that foundation which is laid in Christ. His alone is the secret, the power, the victory. The only hope for the future of the world is to grasp and to live out that convic-tion.

Chivalry Shown

The greatest surprise was the appearance of a soldier carrying hat boxes and an oversized laven der pin cushion down the stairs of a barracks. But he wasn't the only gentleman lucky enough to assist the femmes.

When word got around that the Wacs were in need of help, men from the 503rd MP, 143rd Signal Company, 3rd QM Hq. Co., inductees from 2048 and the 3d Armored Division's Ground Main tenance Section arrived in the true spirit of chivalry

To help speed the move, one semi-trailer, 2½ and 1½ ton trucks were used; also a bus, private automobiles - even a push cart! Had an Army mule been on post, undoubtedly he would have peen pressed into service.

One 51/2 lb. fowl, cut in pieces

- 1 stalk of celery 1 carrot
- 1 small onion
- 1 bay leaf
- 6 cups boiling water
- 1 tbs salt 1 cup mayonnaise or salad dressing

Boil fowl in 5 or 6 quart kettle. Add celery, carrot, onion, and bay leaf. Simmer for about 3 hours or until tender. Add the salt during the last hour of cooking. Remove chicken from sauce, cool stock, skim off fat, and strain. Pour one cup of cold stock into onequart bowl; sprinkle gelatin over surface and let stand five minutes. Meanwhile bring two cups of stock to boil, pour over gelatin and stir until gelatin dissolves; add lemon juice. Chill. Meanwhile, take the meat from the bone, cut meat into small

pieces; and aimonds, parsley, curry powder, and mix well. When I and what about his charming the gelatin is thick and syrupy, stir in the chicken mixture and mayonnaise. Blend well. Pour into large loaf pan (two-quart) and chill several hours or overnight. Unmold on platter with lettuce. I frying in 01? These questions, of Serves 8 to 12.

Man's "Skin of Teeth" Survival Hailed By Little Theater Group

By Don Salper

Better scrounge around in your closets for overshoes, gloves, and galoshes. Latest reports are that an unheard of cold wave is due at Ft. Knox in mid-August. These reports, based on the careful observations of the Ft Know Little Theater group, are believed to be true.

The wacky, glacial production of 'Skin of Our Teeth', is inching its way Knox-wards and is due in all its iciness and turbulence on 12, 13, and 14 August at The-

Though the Little Theate Group's predictions are based primarily on the events of the play and the happenings to a Mr. and Mrs. George Antrobus, their family and friends, the Group informs us that some of the frosty atmosphere will assuredly be trans-ferred to all those who view the production, and a welcome cool-ing-off it will be too for those hot August nights.

Poor Mr. and Mrs. average couple of the pre-ice age. must face that incomparable problem, will man survive the coming of the glacier? A casual state-ment of the problem cannot hint at the hilarity of Thornton Wild-er's story of Man's survival through the ages by the skin of

Nor can it begin to tell the ntics on stage when a baby dinosaur and mammoth take the snotlight to wail and dance, or when one of the actresses comes down to the footlights and tells the audience she hates the play --wouldn't have taken the part if she hadn't been starving, or when audience starts handing up its chairs on stage for the fire to

keep civilization from freezing. Would it be revealing the plot to tell you that the Antrobuses their friends escape the colossal glacier to live on for the second, act? No, I guess not. For more trials and tribulations are in order for the poor family with the coming of the great flood and the great war. Will Mr. George Antrobus, inventor of the wheel, the alphabet, and the multiplication table, be able to see it through? the hem, the gore, the gusset, and frying in oil? These questions, of

Our 26th Anniversary

AND A WORD OF APPRECIATION

Twenty-six years ago, on July 16, 1928, R. Lee Dixon and L. T. Dixon bought the funeral director's establishment in Elizabethtown of T. C. Crawford. Out of that purchase the present firm of Dixon & Atwood soon developed.

This advertisement is in appreciation of those twenty-six years of the friendships we believe we have formed, of the graciousness with which we have been received in Elizabethtown and Hardin County, and of the many courtesies that have been shown us by countless persons. For all of them we are deeply

OUR IMPROVEMENTS

Twenty-six years is a long time, and in it much has occurred in our business. There has been expansion by us in many ways. and throughout that entire period we have endeavored to keep in step with the march of progress in our profession adding every refinement and improvement which we believed would make a good service better.

OUR POLICY

Our policy has always been that the wishes of the bereaved family are first and paramount. We feel that you are the one to be served, and that in every way possible each detail of the final rites of your loved one should conform to your desires and to your wishes

And so, on this twenty-sixth anniversary of ours, let us again express to you our appreciation for your many kindnesses to us.

THE MEDICAL SERVICE CORPS

By Robert L. Black. Colonel, MSC. USA

It is a common misconception that the Medical Service Corps
is the youngest branch of the Army. This is far from true. The
present-day Medical Service Corps was organized in 1947 when present day Medical Service Corps was organized in 1947 when the Medical Administration Corps, the Pharmacy Corps, and several other corps of the medical service were merged but, if the background of the merged corps is considered, the Medical Service Corps ates back to World War I.

Today, the Medical Service Corps ras about 5,000 officers or Today, the Medical Service Corps ras about 5,000 officers on active duty and has an authorized Regular Army complement of 800. Excluding Infantry and Artillery, there are more Medical Service Corps officers than officers of any other branch in a combat division. They serve in every capacity which does not require the services of a medical or dental officer. Medical Service Corps officers are found in the Battalion Aid Station and on the staff of all echelons up to the Department of the Army in the Pentagon.

Another popular misconception is that most Medical Service Another popular misconception is that most avenue service Corps officers are assigned to duties in hospitals. Only 30 percent of the corps is so assigned. The rest are found in tactical units, staff and command assignments, medical supply depots, medical materiel procurement, research and testing laboratories, training commands, and as instructors at technical service schools.

The Medical Replacemen Training Center, formerly at Camp than 250 Medical Service Corps officers assigned to staff three regiments of trainees. At the Medical Field Service School, Ft. Sam Houston, many positions are staffed by Medical Service Corps officers.

On the professional and subprofessional sides of the corps three other sections are established by law—Medical Allied Sciences, Sanitary Engineering, and Optometry. The Medical Allied Sciences embraces several professional and subprofessional areas.

The Medical Service Corps is not a temporary expedient developed to alleviate the shortage of physicians and dentists, Indirectly the growth and development of he corps has materially lessened the number of civilian physicians who would have been called to duty.

The heat which descended upon the camp the earlier part of ths week failed to deter the men of Company C from performing a variety of useful services for both the reserves and themselves.

When speaking of the men from Company C, it would be well to mention new men who have joined our ranks this past week. They include: Sgt.'s Henry Taylor, Ronald Ridenour, Herbert Neal; Col.'s Chester Abbott, Leroy Wheat: Pyt.'s Albert Cunningham. Trov Wilbanks, Norman Hansen, Cecil Oswalt, Ralph Pohlers, James Pomroy, Charles Starvansnik and Robert Yingling. One of our oldtimers, Cpl. John D. Young, was again chosen as DDrver of The Week. Good Work John, and keep up the good showing.

Work on the new superhighway system connecting the Company C Barracks, the Company C Supply room and the new Battalion Headquarters with the sidewalk progressed quite rapidly during the week, and with the construction of a stairway and several walks this work will be

a matter of fact, all else has failed.

But love, genuine compassionate love that portrays true concern for every man, will break down unjust barriers of race, class and creed. Indeed there are no barriers where there is understanding love, and when there is genuine concern in your life and mine for our fellowmen. It is hatred, selfishness, injustice and intolerance that tear down right relations—the very reverse of love. But love—the spirit of unselfishness, of justice, or true merey and rightousness cements humanity into a forward moving unit, and provides

ness cements humanity into a forward moving unit, and provides for the welfare of all mankind.

Another basic virtue is the spirit of self-denial. One writer has said that religious people are "too soft." What a tragic indictment! And yet it is true. In these tremendous days in which we living, nothing will do but a self-renunciation type of faith. That, my friends, is the need of the hour. The fleshy warfare gets many of us down. But we imperatively need to grasp the deeper urge and stride steadily toward the greater goal. In days like these, you and I will not be much of an immact of an interest. and I will not be much of an impact upon our generation unless we tap the resources of divine power.

The imperative present any need is God in human life.

CCA WILL CONDUCT REFRESHER COURSE FOR PACKET SGTS.

Between 30 and 35 Armored Division packet platoon sergeants will assemble in CC'A' class-rooms Monday for another of the condensed Armor training courses currently being given by the CC'A' Instructor Group.

The refresher-type schooling is The refresher-type schooling is designed to provide Spearhead packet NCO's with the armor "know-how" they need in their jobs. The idea for the 2-week course was conceived shortly after the first Armor packet companies began training.

It soon became apparent that many platoon sergeants were struggling along on insufficient backgrounds in Armor. To remedy this situation an Armor refreshe course was initiated at The Armor School.

Administration of the course was soon handed down through the 3d Armored Division to CC'A', where it came under the exper-ienced direction of Capt. DeFor-est Ballou. Capt. Ballou is assist-ed by his own CC'A' instructors and by personnel from CC'R'

NAKE a look, if you please, at the car and the styling that are changing historic sales standings.

Take a look at the beauty and the buy called Buick - the car that is forging ahead to new sales heights in the 1954 market.

Take a look at the new hest seller that has moved into the "Big Three" of the nation's top sales leaders into that very exclusive circle that for two decades has held only the so-called "low-price three."

For today, as national sales figures for the first five months reveal. Buick is outselling all other cars in America except two of these "low-price three." And each new

month firms Buick's new position.

It takes solid worth to bring this about - a lot more automobile per dollar in Buick than in other cars.

But it also takes the glamorous new tomorrow styling that is Buick today. It takes the highest V8 horsepowers, Series for Series, in all Buick history. It takes the room and comfort and ride and handling that are Buick's proud tradition.

And it takes a range of cars to satisfy a wide range of people-with prices that most people can well afford. So you find the low-priced SPECIAL, the high-powered CENTURY, the extra-spacious SUPER, and the custom-built ROADMASTER-the four big reasons for Buick's tremendous sales

Come in for a demonstration and you'll see what we mean.

With the years-away styling of this glamor car, you'll be way ahead at resale time. And right now you're money ahead with the big trade-in allowance our volume sales can bring you. Drop in this week.

throughout the training cycle. One of the crew members, the tank commander, is a trained tanker. The other four are recruits who stay together throughout training.

Before the introduction of the packet system, tankers were trained either as driving and maintenance or gunnery specialists. Packet companies produce well-rounded tankers who are interchangeable members of a tank crew

Besides having the morale-posting advantages of a definite buddy-system, the packet set-up turns out more versatile tankers than the old system. Each man, in turn, serves on his M-37 tank as a driver, gunner, loader and assistant driver (sometimes called bow machine gunner).

Armor packet trainees receive both classroom and practical training during their cycle. In addition to company eadre, specially-assigned teams from the regimental Instructor Group work with each packet unit.

When training is completed, the packet platons are shipped in tact. The integrity of these pla-toons is guaranteed as far as the first overseas station.

One man from each tank crew stays behind to train a new cy-cle. Therefore, a normal packet platoon leaving the Division consists of five 4-man crews and a platoon leader.

A few are selected to at-either turret mechanics tond school or amphibious track-vehi cle school. Since the beginning of the packet system in February, 149 advanced Armor graduates have gone to turret mechanics school and 168 have left for "amtrack training.

The success of any training ven ture such as the packet training system can only be judged in the field. The reports coming back from every corner of the world indicate—without exception — tha Spearhead Division has achieved nother outstanding "first" with its Armor packet platoons

A BAD DISPOSITION By Capt, John D. Roth, CCB Chaplain

Unselfishness is often spoiled by the spirit in which it is manifested. The scriptural phrase, "Love—seeketh not her own" is followed immediately by the words: "is not easily provoked."

Perhaps we look upon ill tem-

Even unselfishness, with a bad disposition, betrays a lack of love. No matter how virtuous a man is, if he does not love, he is not keeping God's Law.

Perhaps we look upon ill tem-per as a harmless human weak-ness, but the Bible again and again condems ill temper as one of the most destructive elements in human nature. into the floor as is the case on The peculiarity of ill temper is that it is the vice of the virtuous. It is often the one blot on an otherwise noble character. We all know men and women who are almost perfect, except for an easily ruffled, quick-tempered or touchy disposition. an ordinary stage. A couple of sturdy 2-by-4's give a solid base to each of the flats.

All constructed and standing around the workshop were scenery pieces that looked like large empty picture frames. These frames placed side by side would be the walls of an interior setting for the first and last acts. Bu instead of giving them the usual canvas cover and paint for a "wall" appearance, these pieces, Harv told me, would be completed with strings running side by side from bottom to top of the frame. They'd look like walls, but would have that ethereal unreal fefect

Thornton Wilder's comedy "Skin of Our Teeth", was a popular play a few years back on Broadway. One reviewer referred to it as "rare and electrifying . . . daffy and illuminating". It has been performed often since by amateur and professional groups.

From the looks of the scenery preparations, this production coming on August 12th, 13th and 14th may be a "rare" one too. Performances will be at Theater in the open air.

Israelian General's Visit Here Is Realization of Long - Held Hope

The commander of the first known "armored column" to split Arab defenses in the windswept sand dunes of Palestine, thereby creating the youngest member of the United Nations, visited the Home of Armer last week on a three-day inspection tour.

Major General Moshe Dayan, Chief of Staff of the Israelian Major General Moshe Dayan, Chief of Staff of the Israelian Army, here to see the develop-ment of armored warfare in the United States, visited different departments of The Armored departments School, 3d Armored Division, and witnessed an exhibition of tank firing on July 29, 30 and 31.

Accompanying the General were Col. Yitzchak Rabin, Director of Training, Israel Defense Force; Lt. Col. Matitiahu Peled, Asst. Director of Training; and Col. C. Herzog, Military, Naval and Air Attache at the Israelian Embassy in Washington.
A native-born Israeli, the 38-

vear-old Army Chief of Staff has year-old Army Chief of Staff has at last realized the hope he made known when he was an Israelian delegate to the United Nations: to tour U. S. Military installations and gather information fo his country's defense. Israel's ar-mistice with Jordan was brought about while Gen, Dayan was a member of the U. N. delegation.

Fought Marauders As A Boy Born in Dagania, south of the Sea of Galilee, Gen. Dayan re-ceived his baptism of fire almost at birth as marauding Bedouin tribes struck at the little village and defenders withstood the a saults by utilizing men, women and children in the fighting When he was old enough to earry a weapon, Gen. POST GETS 5000 NEW NUMBERS BY PULLING DIAL PLATE TABS

Cut-over hour is 11:55 p.m. tonight, August 6.

Everything is all set. The installation has been completed and double checked. Then tonight, while most of Ft. Knox sleeps, while the guards march their posts, while the Military Police pursue their constant vigil, while the sleepless emergency crews stand alert as always, the cut-over

Buving Starts Soon For New Army Green the vital rooms of the Signal

Procurement of the new Army green uniform has been authorized and will be started soon, the Department of the Army announced this week.

No effective date has been set

for the issuance of the new uni-form to Army troops. It is esti-mated that at least 18 months will be needed before the first uniforms are available.

changeover will not be initiated until existing stock OD (olive drab) uniforms, which have been worn for a number of have been worn for a number of years by Army personnel, fall be-low \$5,000,000 in value. Past ex-perience in uniform changeovers indicates that it will be at least several years before the entire Army is clad exclusively in the

new Army green.

Five months are required for the production of the cloth and about 13 months for the clothing industry to manufacture the industry to manufacture the clothing under cut, make and trim contracts and to distribute the new uniform. Initially some 6,000,000 yards of cloth will be on post du purchased by the Army, resulting in the manufacture of 1,400,000 emergency." of the new uniforms

The procurement action follows indications by the interested committees of Congress that they have no objection to the design and color of the new uniform. The uniform will be known as

Army Green, Shade 44.

In a matter of ten minutesfrom 11:55 p.m. Aug. 6 to 12:05 a.m. Aug. 7 - installer-repair crews, working quickly deep in Building housing the dial equipment for The Armored Center, will cut the necessary cables. make the required connections and throw the appropriate switches.

When they finish, Ft. Knox will have a **new telephone dial** system. An entire new set of numbers for the 5000 telephones on post and a new telephone direct-ory to go along with it.

Your new telephone book should Your new telephone book should be in your hands by the time you read this. Also your new telephone number should be on the dial plate on your phone by now. However, the Signal Offcer, Lt. Col. Howard Collins, cautions telephone users not to remove the dial plate cover with the old phone numbers too soon before the cut-over

"Another thing," Col. Collins said. "We'd like subscribers to re-frain from using their telephones on post during the ten minutes of the cut-over unless it's an

Col. Collins issued another cauton. Don't depend on memory for dialing numbers after the cutover, he said. Every number on post will be changed and only the new directory can be your guide.

Pull Tab On Dial

He stressed the importance of pulling the tabs on dial plates when the new system becomes ef-fective so the old number won't be around to confuse anyone. If a subscriber doesn't receive a new directory or their new number is not on the dial plate, they should call the Signal Office.

Rose Terrace phones are not affected by the cut-over except for the prefix number now used to dial that exchange. It will be "9" now instead of "92". The Fire Dept. number, remains the same. Information can now be reached by dialing "13" and Long Distance available by dialing

If, after the cutover, your phone gives you trouble, the colonel said, dial 3338. Personnel will be on duty Saturday and Sunday to handle any calls for assistance.

One of the big features of the new system, the colonel explained, is the elimination of overloaded equipment, a present difficulty that has stalked the telephone system at Ft. Knox for many months. The new system of 5000 numbers can easily be expanded to 7000 without any changes being made, the colonel said

HAPPY BIRTHDAY SURPRISE was in store for Maj. Gen. George W. Read, Jr., Commanding General The Armored Center, when he was invited to lunch at the Company E mess hall at the 11th Armd. Cav. Regt. July 29. The dessert turned out to be a huge birthday cake that reflected the birthday greeting, the 11th Cav's motto and the general's two stars. At left is Cpl. Martin F. Govan, who baked the cake. Smiling his approval at right is Col. B. W. Heckemeyer, incoming commanding officer of the 11th Cav. "Well, this IS a surprise," said the general as he cut the first piece of cake. It was Gen. Read's 54th birthday. (Photo by Clarence Collins)

any serious resistance could oc cur. It was in this encounter that Gen. Dayan was wounded and sacrificed an eye.

During the war with Jordan nd neighborng Arab states, Gen. Davan became the unofficial sume Israelian Army Commander. Israeli Embassy officials credit him with leading the first ar-mored "spearhead" group during this period. With only half-tracks and armored cars, Gen. Dayan smashed through the town of Ly-dda and this swift acton broke the Arab defense ring of the neighboring town of Ramle. His military leadership ultimately cleared the way for an armistice to be signed.

Gen. Dayan rose rapidly in Israelian Defense Force ranks and last year was appointed Chief of staff of Israel's Army.

The General and his party also visited the Pentagon, Fort George G. Meade, Md., Fort Bragg, N. C., Fort Benning, Ga., and the Air Force Center at Eglin Field, Fla. Upon completion of the specialized tour throughout the Armored Center, the Israelian group left for Fort Sill, Okla.

Look at the 3-way bonus you get in the car that's sweeping the nation!

1. You get the car that's styled for tomorrow -

and for

delivered

In Buick today you find the fresh modern beauty that will pattern the styling of other cars yet to come. That's a major reason for Buick's soaring success this year. But note the low delivered price shown here-that's the clincher. No other car at so low a price gives you this advanced styling - plus Buick's great room, comfort, ride and V8 power.

2. You get the car that's a sure high resale value

Of this you can be sure: the new Buick you buy today will look modern next year, too-because that broad panoramic windshield will be appearing on other cars as a 1955 feature. So with the new Buick you buy now, you'll stay right up in the style parade for years to come and command a higher resale price when you trade it in.

3. You get a bigger allowance from our volume business

Regardless of price class, Buick today is outselling all other cars in America except two of the "low-price three." That's fact. So with this tremendous sales volume, we can offer you a higher trade-in allowance when you buy a new Buick. Come in, see and drive Buick the beautiful buy. Then see for yourself how our volume business means a far bigger allowance for you.

"Willing And Able" HEADQUARTERS: Capt. Peter HEADQUARTERS: Capt. Peter Grasser, S-2, has been detailed as OIC on a movie project which will require one month to produce. True to our motto, Willing and Able, is ever ready to tackle and complete any duties assigned.

The battalion softball team won their fourth straight game by defeating Inst. Bn. by the score of 13 to 3. This was the final league game of the season, and our record was 4 wins and 3 losses.

HEADQUARTERS COMPANY:
We all welcome our new Supply
Sgt, Sfc. Bill Anderson, who is
doing a swell job of shaping up
the supply room. Bill says its
sure a big job, what with the
changing of Company Commanders and inventory.

Congratulations to our new Sgts. Charles Beckham and Jim Redden. Beckham work in the company shop and Redden is one of our new cooks.

We also wish to congratulate Cpls. Charles Sewell, Frank Mc-Carty, Jim Gwynne, Tom Lane, Ken Walters, Jerry Bodhaine and Will Warmath on the new promotion. Last but not least we wish to congratulate Jim Hervey on his promotion to Pfc.

In the Company we have on the most of the Markov of the Ma

Congratulations are in order for Cpis. Richard U. Clouser, E. L. Cooper, Merlin J. Frum, David M. Poindexter, Samuel A. Morrow and Franklin D. Quigley on their recent promotions. We also wish to congratulate Pfcs. Howard and Franklin D. Quigley on their recent promotions. We also wish to congratulate Pfcs. Howard Deck, George C. Hogg, Eugene T. Campbell, James M. Barber and Wilbert J. Enderle on receiving their Private First Class Stripe.

COMPANY B: As a result of the superior performance of Com-pany "B" in producing the high-est number of superior troops recar number or superior troops re-quirements, this company was given an Administrative Holiday, Monday the 26th of July. The men of Company "B" are proud of this achievement and will strive to better their record during the next six months

Several of the men from Company "B" are participating in a movie which is being produced here at Fort Knox. The movie, when finished, will be used by the Army as a Training Film to teach various combat tactical situations and conditions.

COMPANY C: Congratulations to Pfc. Thomas Dolan on being selected as Colonel's Orderly dur-ing the School Troops Guard, July 19th. Keep up the good work,

We want to welcome to the company Sfc. Iceman. Glad to have you as a member of Charlie Company. We also want to welcome back to the company after a 12 day leave, Pfc. Brown, our company clerk.

Congratulations to M/Sgt.s. Stan Wyrwas and Hemphill, and all personnel on Troop Requirements on the 19th and 22nd of July, for receiving a superior. Keep up the tood work troopers.

Congratulations to Pfcs. eries and Anderson on their protions to Cpl.

Sgt. Albanese and Sgt. Wamsley are doing a very fine job remodeling the day room, especially the f&E Board. It's going to be one of the best.

New Reenlistment Interview Plan Paying Off at Separation Center

A recently-begun Second Army plan designed to increase the number of reenlistments is paying off at Ft. Knox — and right where you'd least expect it to: at the separation point where the Army turns soldiers into civilians.

The reenlistment plan, which went into effect last March, created a reenlistment office right right in the heart of the 2048th Separation Center. The office is called the 2121st Interview and Assignment Section ASU Detachment No. Two. It is housed in a comfortably made-over barracks comedy, at Nininger Park, Sunbuilding where the business of day, Aug. 15, at 8:30 p.m. talking soldiers who have come to The Pioneer theatre group pick up their discharge papers which wound up its regular Ft back into the Army goes on every Knox season last Sunday at the day.

Inductees Expensive

It has been pointed out that every potential reenlistee who has to be replaced by a two-year in-ductee costs the government at least \$5,375 in basic processing. equipping and training costs. And that is considered a conservative estimate. Therefore, from a purely dollar and cents viewpoint, the government cannot afford to lose any potential enlistees. This, of course, does not take into con-sideration the more tangible arguments for reenlistments which based on specialized and onthe-job training, the value of the cancer soldier, increased pipe-line and training personnel and facilities required because of short term enlistments.

This "last stand" reenlisting of potential enlistables is the job handed the small crew at the 2121st. In addition the office also performs the mechanics of all re enlistments on post, although there are other recruiting offices

Historic Central Guest

(Continued from Page 1) But in 1934 it gave way to pro gress and was relegated to the sition of a guest house for officers visitors and transient of-ficers. In its stead the Army opened the building now com-monly known as the Officers monly known as the Officers Brick Club on Chaffee Avenue.

Rich in Tradition

It served in the capacity of a guest house for the Officers Mess until about a year ago when the PX system took it over as part of its post-wide guest house operation. A few months ago the old building's age caught up with it and it was condemned for further use.

When the Central Guest House as it has been known in recent was converted from original status as an officers club back in 1934, it drew headlines in the Louisville papers. The old and now defunct Herald-Post, fore-runner of the modern day Louisrunner or the modern day Louis-ville Times, ran a story on the Ft. Knox landmark noting, even then, that in was "rich in tradi-tion."

The building was built by and dedicated to the Louisville Execu-tive Board of the War Camp Committee of World War I and presented to the officers of the post at the formal opening Deer 6, 1919. A large group of prominent Louisvillians turned out for the dedication.

Given Job of Choice

One of the biggest selling points the plan has is assign-ment. A list showing the vacancies that exist within the Second Ar-my area which could be filled reenlistees is furnished the office. Also a direct telephone liason'is maintained with the Military Procurement Division, Headquarters, Second Army, to confirm that vacancies are available.

A liason is also maintained with headquarters of other Army areas and often a twx to another Army area can get an enlistee assigned

High Percentage

The plan is turning out to be the biggest boon to reenlistments since the fat bonus, judging by the way the 2121st is signing of 6.8 was reported this week by Second Army for the Ft. That honor went to the man who has had more Army service to his credit than any other man now stationed at Ft. Knox. He was M/Sgt. Henry L. Swift who retires next month after more than 36 years in the Army.

After exchanging a few words with Gen. Read, the sergeant with Gen. Read, dialed his own home phone on post. Mrs. Swift was there waiting for the eventful call and they spoke briefly.

Prior to the ribbon cutting, Col. C. M. Baer, Signal Officer of Second Army, traced the his-tory of the Ft. Knox telephone system. He recalled the days when the way the zizist is signing system. The hit that's changing the sales standings puts you

way ahead 3 ways

THIS year Buick has done what no other car has done in more than a generation.

This year Buick has moved into the lofty circle of America's three top sales leaders - a circle once dominated only by the so-called "low-price three." For today, Buick is outselling all other cars in the nation except two of these "low-price three." And each new month's sales figures strengthen Buick's new sales leadership.

You can't do better - if you want the best buy for your new-car money - than to look into the soaring success that is Buick today. You'll find this glamorous new-day beauty puts you way ahead in three important ways-that's for sure, So drop in on us-tomorrow at the latest-and see for yourself that Buick is the buy of the year, hands down.

1. More new car for your money

Buick prices start close to the lowest-just 'low-price three," But those few more dollars for a Buick get you a lot more autoW8 power, more room, more comror, more volid durability—plus the advanced "tomorrow" styling that has taken the country by storm.

2. More money for your present car

With our great and growing sales volume. we can offer you a bigger trade-in allow ance on your present car when you buy a new Buick. After all, the more new cars we

sell, the better deal we can make with you. So you get the benefit of our great success in the form of a higher trade-in allowance.

3. More dollars when you trade

Because Buick's broad panoramic wind-shield has started a whole new styling trend, you can be sure that today's Buick

will keep its modern look for years to come. So you are assured of a higher resale figure when you trade it in later on.

can unite a community and bind together a people in a common cause.

Work is a real blessing, for out of it comes a self-respect. There is no satisfaction so great as the consciousness of having done well that which we have undertaken to do. I think Paul, the apostle, must have had this fact in mind when he wrote, "Study to be quiet, and to do your own business, and io work with your own hands." I Thessalonians 5:11. No man is so miserable as the one with nothing to do, with no job to challenge him to put forth the best that is in him.

Out of our work comes our faith, for all belief in the laws comes from the decrs. Human blessedness is not found in success, but in effort, not in arriving but in traveling, not in the wages of work, but in work itself.

Col. Daniel, former Executive Col. Daniel, former Executive Officer of Army Field Forces Board 2, will make his new home in the "Sumy South", namely Marietta of the "Peach State." He will now have the opportunity to bask in the sun and try to hit the low 80's on the llinks.

Indicated to the low 80% on the links.

The general orders, issued by command of Maj. Gen. George W. Read, Jr., Commanding General, The Arnored Center, proment expresses a narling tribute in stating. "Col. Daniel's career is one of marked achievement throughout long years of faithful and meritorious service throughout long years of faithful and meritorious service the His professional accomplishments, leadership and devotion to duty have been an inspiration to

ments, leadership and devotion to duty have been an inspiration to those who have served with him." Col. Daniel was with the AFF Board here since March, 1951. The colonel has received the Legion of Merit and Army Com-mendation Ribbon in addition to r decorations and medmany other decorations and als for outstanding service.

on the 16th hole of the final
round.

Sports Sidelines

FT. KNOX SHOULD BE BURSTING WITH PRIDE over the feat of the tennis squad in bringing home the bacon from Second Army Competition. They certainly weren't considered the favorites as they headed for Ft. Holabird. The team had just lost the services of Bob Malaga, the 1954 Armored Center Singles Champ, to Ft. Ben. Harrison

MAJ. WERNER PREUSKER WHIPPED-UP A POTENT SQUAD and they came through with flying colors at Holabird. He attributes much of their success to Ft. Knox's participation in the Louisville Public Parks Tennis League. This put the men in excellent shape and Maj. Preusker was aware of the calibre of his men.

IT TAKES A GOOD SPORT TO BE GOOD LOSER, but it feels mighty fine to have a winner again. A toast from The Armored Center to the scrappy Second Army Champions.

Trivia: BUDDY BAARCKE of Ft. Knox won three straight victories in the first annual Ohio Valley Swimming Championships. He won the 100-yd. butterfly, in which he holds the world's record, the open 100-meter freestyle and the 100-meter backstroke. He is from Clearwater, Fla., and has been stationed here since July 16. Buddy's ambition is to win the Olympics . . . Two former Knox tennis stalwarts, DON KAISER and DON EADES, reached the finals of First Army Tennis Competition. The two Dons are assigned to Ft. Devens, Mass.

Team Victorious Although No Members Of Squad Reached Finals

The Ft. Knox Tennis Team won the Second Army Title Ft. Holabird, Md., last week without having any members the squad reach the finals in either singles or doubles.

The Armored Center netters racked-up an 18 point total for top honors, followed by the host Ft. Holabird entry with

Squads Undefeated In Final Round Play

Action in the second round of both 3rd Armored Division leagues ended last week and the favorites still held the lead. Hq. Co. 3AD walloped the 122nd 15-0, with Jerry Schmidt pitching a no-hitter. The 45th AMB skipped past seemed to be a second by the 13th in a nine-inning thriller, 5-4. The 54th drew a bye.

With the results in, it'll be Hq. Co. 3AD. 122nd, and the 13th representing the National League in the Division Double Elimination Tournament. For the American League, the 54th, 45th and DivArty will hold the limelight.

The playoffs will be completed this week and the top four teams will then proceed to the Post Championship Playoffs which will begin August 30th.

If the man needs money to get home, the Red Cross is ready to provide it.

Family Problems

Family problems form another large segment of Red Cross operations. These obstacles can be financial or otherwise. Requests for hardship discharges are ex-amples of such problems. The Red Cross first sees what can be worked out to give a serviceman's family proper treatment without having to discharge him altogether from the service. If nothing can be done other than discharge, the Red Cross helps the man prepare the facts to present in evidence to justify his need.

Many a soldier finds the girl of his dreams in Germany or Japan or any other foreign land where he may be stationed. Some times there are difficulties-legal as well as financial—in bringing his bride back to the States. Red Cross assistance in such cases has been cited by the families in-volved as "invaluable." Some-times the Red Cross finds a soldier's needs out of its scope of activity. But it will always refer him to the proper agency.

If a soldier's dependents fail to recive the monthly allotment check and the necessities of life are curtailed because of it, the Red Cross will come to the rescue with emergency loans.

A-36 Wins Plague For Best Mess

Maj. Gen. George W. Read, Commanding General, The Armored Center, awarded the muchcoveted plaque for Post Best Mess last week to Company A, 36th Armored Infantry Battalion. This was the sixth time that a 3d Armored Division unit has captured the award since its incep-tion in 1951. In April of this year it was won by Hq. Svc. Co., 84th Med. Tk. Bn.

Sgt. Richard C. King, A-36 Mess Steward for the past six months, has had a consistent average of from 93 to 96% on all recent Mess inspections. The company has received nothing but superior ratings since Sgt. King has been with it.

3AD July Ratings Given in 13 Fields

The July ratings of 3d Armored Division major and separate com-mands in 13 fields were recently released by the Office of the Commanding General. The average standing for the past several months was also given at that time.

According to the announce, ment, these ratings on the admin-ing stand. As each tank rolled by istration, morale, training and discipline of a unit reflect the sharply to the right in a smart quality of that unit's leadership.

Small Arms

In small arms ratings, the report reveals that only 117 deficiencies were detected after 2,024 weapons were inspected. This is .023 percent better than the vision's six month average, CCA had the best rating with .011 percent deficiencies, with CCB, CCC. Div. Tns. and DivArty following in that order.

The Army Field Forces stan-ard is .08, which is four and one alf points above any score registered by any unit in this department.

However, the division didn't fare that well in the maintenance of general purpose vehicles, al-though the record was still favorable. The AFF standard in this category is 3.50 and the highest number of deficiencies recorded for July was 2.88. The Spearhead Division's final tally is a 2 37 aver age for the month which is 0.02 below the six-month average.

DivArty led in this field and Div. Tns., CCC, CCA, and CCB followed in that order.

Combat Vehicles Under the new division organ-zational set up, the race for the better record in the maintenance of combat vehicles is solely between CCA and CCB, 76 vehicles were inspected with an average were inspected with an average deficiency of 0.84 which is 2.04 less than the division's six month standing. CCA topped CCB by having 6 fewer deficiencies in July.

The hot weather of last month might have had something to do with the jump in the AWOL rate for last month. The six month average is 1.12 but for last month it jumped up to 1.46. Hq. 3d Armored Division had AWOL's at all, while the second place 45th medics had 4.1. Div-Arty was third with 20.8, CCA fourth with 25.6, CCB had 26.6 Div. CHEVROLET

Take a look at what you pay and what you get. You'll see that Chevrolet has more for you and asks less from you. It's priced below all other lines of cars. That's possible because Chevrolet builds the most cars—and can build them better to sell for less!

economy

What's it going to cost to keep that new car in gasoline? In oil? What about service and repairs? Check into it and you'll find that Chevrolet has the greatest name of all for keeping upkeep costs down over all the miles you drive!

performance

Do you want livelier, smoother performance on less gas? Then be sure your new car has modern high-compression power. That's just what Chevrolet gives you-the highest-compression power of any leading low-priced car. Come in for a demonstration ride!

appearance

You, of course, are the only one who can decide which car looks the best to you. But you might well consider this: Chevrolet's the only one in the low-price field with the smooth lines and graceful beauty of Body by Fisher. It's the look America likes best!

3AD July Ratings

(Continued from Page 1) given is the standing for the six month average as well.

Thirty cases of venereal disease were reported last month which actly one sixth of the six month average. Vet this figure is higher percentage-wise than the six month percentage, Hq.-3AD had no cases of VD last month, Div. Ths., CCB, and the 45th had one case each, CCA had five cases reported, DivArty had 7 cases and CCC reported 11.

The delinquency reports jumped last month. 497 were issued with Hq.-3AD getting the least. But it isn't significant to compare company to other units of major command strength. Percentages reveal that DivArty had the best command record with 1.455 percent, 45th AMB had 1.939, and third place Div. This had 2.575. CCB, CCA, CCC, and Hq.-3AD followed in that order.

Courts Martial

Division had 173 sum mary, 39 special, and 4 general courts-martial during July. This represents a slight increase over the figure for six month average; however, it it less than a one tenth of 1 percent change.

Fifteen permanent party mem-ers reenlisted last month. Five bers reenlisted last month. Five were from DivArty, 4 from CCB and in third place is Div. Ths. with 2. Everybody else had 1 retment last month. There enlistment last in July but civilian life held too much appeal, evidently, for 85 of them. That figure represents a full 4.2 percent drop from the division's six month record.

There were 423 men participat nth. The total was \$5,095.00 and the biggest part of it was depos-ited by those thrifty lads up at ited by those thrifty lads up at CCA. There, 393 men are investing in soldi rs deposits, and they ing in soldiers deposits, and they banked \$3,970.00. CCB was next highest, and third highest was Hq.-3AD. The average percentile figure for the division last month which is under the six month average of 3.02.
IG Complaints

Only one justifiable complaint was recorded in July, although there were 6 complaints found to be unjustified. Four of the complaints came from CCB. from Div. Tns. and 1 from CCC. ese figures do not include the 21 informal complaints which were handled. During the past six months, 79 complaints were handled informally, and 26 were formally registered, only 13 of were found to be justified

The number of beltline discrepincles dropped last month when ancies dropped last month when-compared to the six month aver-age. There were 33.1 in July, and for the longer period, 34.9. 52328 men passed through the division last month and 1,735 discrepancies were noted. 45th AMB, Hq.-3AD. and CCB had the best records in beltlining during July, although we must give credit to DivArty which was a very close fourth.

Volunteer Nurses Are Recruited To Teach Mother and Baby Care Classes

Mrs. Harold Knapp, Home Nursing Chairman, American Red Cross, has announced an expanded Mother and Baby Care program for the future, and has begun recruiting volunteer registered nurses to assist in teaching the twelve-hour courses

The Mother and Baby Course is nothing new to Fort Knox. It has been in effect here for several years, but on a moderately small scale. However, according to Col. A. L. Tynes, Post Surgeon, and Lt. Col. Morris Brackett, Chief of the Obstetrical and Gynecological sections, there is very vital need for the expansion of the classes.

Col. Types pointed out that there is an average of 190 children born at the Hospital here each month. Naturally, with the shortage of trained personnel, it is impossible to thoroughly indoctrinate ex-

nectant mothers in pre-natal care. labor, and in the handling of her new haby. Therefore the proposed classes, if attended by all expectant mothers on post, would admirably serve their purpose.

Both Col. Tynes and Col. Brack ett noted that training isn't restricted to prospective mothers. In the past, fathers, grandmothers and other members of the family who will come in contact with the new baby have attended

A brief training session for the registered nurses who volunteer to devote their services to this most worthwhile cause will be conducted, stressing uniform teaching procedures. Further information on the program may be obtained from Mrs. Knapp at Rose Terrace 32017.

Col. Brackett issued the follow ing statement concerning the pro-

Music Guild Begins Rehearsals Soon: Chorus Plans Guest Appearances

By Emma H. Goggin
The Music Guild, one of the most active of the Special Interest Groups of the Women's Club of the Fort Knox Officers' Mess, is making extensive preparations for new programs for the 1954-55

The Chorus is open to all members of the Women's Club and new members are cordially welcomed. There are no try-outs.

The Chorus has an excellent selection of Christmas music on hand with plans for an early December program, so rehearsals will begin before the opening meeting of the Women's Club on September

Another enjoyable phase of the Guild is the Music Appreciation Program, which is held one evening each month when vocal and instrumental soloists perform. The program is followed by a social hour during which refreshments are served. A special invitation has been issued by the Guild to all ladies who play an instrument or sing, to take part in these programs. The evening programs are enjoyable, too, for those who like to listen.

Last year the Chorus, with Mrs Richard Abel as Director and Mrs. Cheney Bertholf as Pianist, held weekly rehearsals and made numerous appearances singing at Coffees and Luncheons here at Ft. Knox, for the Hospital Christmas Party, the Women's Club Style Show, the Spring Recital, and for the Elizabethtown Women's Club.

The Guild also furnished soloists for Departmental Luncheons and club meetings on several occasions. They will welcome similar invitations to sing this year

The first Music Appreciation neeting will be held in October Announcements concerning the date and place will be published well beforehand. The Guild is looking forward to seeing all old members and welcoming all new members at that meeting.

Members of the Chorus Jeannine Abel, Margaret Andrewsen, Alice Bertholf, Helen De Forest, Vier Goeth, Roni Hewitt. Betty Johnson, Margaret Kracht, Norma Kulhanek, Ruby Ann Liebig, Carolyn Micelli and Betty Moffett.

Also, Betty Nordholm, Mildred Van Cura, Mary E. Walker, Mary G. Walker, and Ruth Weiss

Those who joined the group for he evening meetings are Bobby Brown, Virginia Geery, Marguerite Gelling, Betty Miller, Dorothy Reardon, Joan Carter, Celia Boone, Nessa MacLaverty, Jimmie Ripple, Evelyn Boal, Diane Nordholm, Jean Pejovic and Mary Holland,

For information concerning the Chorus, please call Mrs. Abel, Rose Terrace 3-33374 before September 8th. After that date, please call Mrs. Walker, 2971.

Clara Ann Archer Weds Sergeant Clifton Cooke

Miss Clara Ann Archer, daughter of Mr. and Mrs. Frank P. Archer of Lincoln Center, Maine, became the bride of Sergeant Clifton Cooke, Jr., son of Mr. and Mrs. Clifton Cooke, Sr., of Cincinnati, Ohio, at candlelight ceremonies in Park Chapel last Friday evening.

Chaplain (Lieutenant Colonel) Henry L. Gillenwaters united the couple in marriage.

The bride chose a white nylon street length dress for her wedding. Her illusion noseveil fell from a white embroidered headband. She carried a white bible on which was placed a white orchid.

Her maid of honor, Miss Wanda Boyer, wore an aqua street length dress similar to the bride's. Miss Boyer carried an old fashioned bouquet.

Best man was Private First Class John Reed. Following a wedding trip to

Michigan, the newlyweds will reside at West Point, Kentucky Both Sergeant and Mrs. Cooke work in the Classification and Assignment office, Headquarters, 3rd

Katharen Houck was the winner of the Blind Hole Tournament played last Thursday at Lindsey Golf Course by the Ladies Golf Group.

Marion Haycraft was runner up, while Bunky Withers received low putt honors.

The Music Guild Chorus of the Fort Knox Women's Club will meet for their first rehearsal of the season on Tuesday, August 31st.

The meeting is scheduled for 1:15 p.m. at the home of Mrs. V. G. Walker, 1443-B, Fifth

Col. Smith Leaves 11th Cav For European Assignment

Col. Carl Smith, departing comnanding officer of the 11th Cavalry Regiment, was guest of honor at a surprise farewell party given August 7th by officers of the regiment and their wives.

DON'T BE FOOLED BY WILD OFFERS

Don't be fooled by wild offers on your car or cars with no or little down payment. We can sell you a car for little down payment and will be glad to explain the full details to you. But, remember, we sell on today's market and in volume and here are four more reasons it pays to deal with us

- (1) OUR OVERHEAD IS LOW. You realize lower prices from our lower operating costs!
- (2) WE ARE FRANCHISED FORD DEALERS. We do not have to pay over cost to buy new Fords for resale to you.
- (3) OUR LOT ISN'T EXTRA LARGE or full of big bright neon signs and lights, therefore our expenses are lower and we pass the savings on to you.
- (4) WE DON'T HAVE HIDDEN FINANCE CHARGES. In fact, the car is the same price whether you pay cash or finance if you buy from us.

Armored Center Plays Host To More Than 800 Members

Fort Knox and Louisville laid out the welcome mat today for more than 800 members of the 1st Armored Division Association and its women's auxiliary who are having their seventh annual convention today and Saturday. The 1st Armored Division, now located at Fort Hood, Texas, was activated at Fort Knox in July, 1940, when an armored division was still an experiment and a great dream of our

progressive military leaders. The convention will attract members from all parts of world

According to WOJG Andrew Kiddey, convention chairman, members of the association will journey from Louisville today for activities planned for them at The Armored Center.

Maj. Gen. William S. Biddle, present Commanding General of the 1st Armored Division, will arrive here by plane today to attend the convention.

Following a welcoming address by Maj. Gen. George W. Read, Jr., Commanding General of The Armored Center, at Area 3:30 this afternoon, Fort Knox's guests will have the opportunity to take a ten-minute tank ride Arrangements have been for the gentlemen, as well as the ladies, ladies, to have fatigue clothing tanks

Also at Area 17 will be a static display of World War II equip-

aids used at The Armored School, including a tank instrument panel

A BIG CHOICE

In a world like ours, still reeling from the shocks of war, and fearful of the uncertainties of the future, it is often difficult to chart a moral course. But now and again there is an issue that is so big and so definite that we find one and only one course forced upon us. Several such issues are before the American people today. One is the world food situation. Shall we feed the world and bring people out of the state of hunger and disillusionment, or shall we see them go down before their problems? The issue is starkly simple. If we do not do all that we can, we shall see the peoples of the world. who fought for the same freedoms that we enjoy, go down to defeat before their problems.

Another of the world's great problems is what we do about minorities. And again this problem leaves us no choice. On such an issue was our country built, and without the many heterogeneous groups it would be impossible to have the present ideology

But more important than these great problems of the nation are those that resolve to the individual rather than to any group. Some of these are so important that the entire history of our country may be changed by the answers we give personally to these

so-called little things.

One such problem is, "Shall I as an individual have the right to go down town and raise much disturbance, causing other people trouble, or must I control myself for the sake of others?" If we are thinking people, the answer is a simple one. For the men on this are thinking people, the answer is a simple one. For the men on this Post there is another problem. That is, shall we lay, down on the job because we think that some men and some officers are not do-ing their job as we think it should be done? What do you think? The answer is easy. No, we are responsible only to ourself for the way we do our own job. There is a tremendous responsibility rest-ing on every one of us here to see to it that we do our own job with-out any chance for criticism. The individual, if he lays down on the job, could be the starting point for trouble that may be felt all second the world Are you willing to take that kind of responsibility. around the world. Are you willing to take that kind of responsibility on yourself?

In the spirit of Brotherhood we ask, "Am I my brother's keeper? No, you are not your brother's keeper, you are more than that,

The choice in these personal matters rests with you, not with some other man or some other officer. The question then comes up, are you making the right choice as an American?

MAJ. CECIL MILLER, IS THE NEW ATHLETIC OFFICER at TAC Special Services. He has a fine record in sports organizing and officiating. Maj. Miller helped set the Fort Belvoir athletic program on its that a few years ago. They now have one of the most formida ble terms in service football.

IN AN INTERVIEW WITH THE MAJOR he expressed many ideas for improving the Knox athletic program. Needless to say, we need a shot in the arm and I sincerely hope that Maj. Miller is the man to perform the task.

"PROFANITY" .

Chaplain (1st Lt.) Hubert B. Bentley, USA

Not long ago a friend handed me a little pamphlet entitled "Ten Reasons Why I Swear." Here they are: (1) It pleases mother so much. (2) It is a fine mark of manliness. (3) It proves I have self control. (4) It indicates how clearly my mind operates. (5) It makes my conversation so pleasing to everybody. (6) It leaves no doubt in anyone's mind as to my good breeding. (7) It impresses people that I have more than ordinary education. (8) It is an unmistakable sign of culture. (9) It makes me a very desirable personality among women and children in respectable society. (10) It is my way of honoring God who said, "Thou shalt not take the name of the Lord thy God in vain."

Daily the ears of sensitive people are assaulted with a barrage of profanity vitriolic enough to turn to flight ten legions of angels. George Washington considered this problem grave enough that he published Orders Against Profanity is the Army in which he called cursing "That unmeaning and abominable custom." When Sir Christopher Wren designed the magnificent St. Paul's Cathedral, the following notice to the workmen was posted: "Whereas, among labourers and others that ungodly custom of swearing is too frequently heard, to the dishonour of God and contempt of authority; and to the end that such impiety may be utterly banished and to the end that such impiety may be utterly banished from these works, which are intended for the service of God and the honour of religion, it is ordered that profane swearing shall be a sufficient crime to dismise any labourer."

Maybe the fighting men with Washington refrained from swearing in the great general's presence, and possibly the laborers in London bridled their tongues when there were fellow-workers around, but no doubt many an oath passed unheard in either case. The fact of the matter is no amount of legislation can keep what's in from coming out. "For out of the abundance of the heart the mouth speaketh." (Matt. 12:34b). Swearing is a problem of the heart, not one of the tongue.

Buick's biggest hit brings you a 3-way bonus

1. You get the ear that's in step with temorrow

From stem to stern, Buick today is styled a year ahead - with long, low glamor lines, with the very look of tomorrow, and with that broad panoramic windshield that many other cars won't have till 1955. Equally important, you get in Buick advanced V8 power, big room, luxurious comfort, the famed Million Dollar Ride-and all for prices that start just a few dollars above those of the so-called "low-price three." Is it any wonder, then, that Buick today is outselling all other cars in America except two of these "lowprice three"?

2. You get the car that's a sure high resale value

Buicks have always had a high trade-in value. But the 1954 Buick has an extra advantage in its yearahead styling. That means your Buick will stay well up in the style parade for years to come - will stay fresh and new-looking well into the future. So you're bound to be way ahead in actual dollars when trade-in time comes.

Come see for yourself why —

3. You get a bigger allowance from our volume business

Every month's sales figures this year have firmed this fact: Buick sales are soaring: Buick is outselling all other cars in the nation. regardless of price range, except two of the "low-price three." So with this tremendous volume, we can-and do-offer higher trade-in allowances. Come in, see and drive a new Buick-then check for yourself that our volume business really does mean a far bigger allowance for you.

If C 709 should lay claim to the title of being the best marching training company in the Spearhead Division, it'll be due mainly to this inspired drummer.

Pvt. Tepper was born in Weisbaden, Germany, in 1931 and remained in that city until his entry into this country in 1949. During his childhood he lived through the danger of the Allied air raids, and the destruction of World War II which followed.

At the age if 10 he became a member of the compulsory German Youth Movement which was an organization under the direct supervision of the Nazi regime. Although it did not bear arms, it was a quasi-military unit engaged in extensive drill and discipline.

While in his middle teens, Wil-helm's sister married an Ameri-can soldier and she later entered the United States as a war bride in 1947. She later made it possi-ble for Pvt. "Nothing happened for three weeks," said Don, "then the record hit number 6 in the country." The Hilltoppers were born. That was 21/2 years ago.

Three months after the smash hit, the vocal quartet landed in New York on Ed Sullivans' "Toast of the Town" TV show. "We were really green for the first TV show," said Don, "We did not have a stage wardrobe or any professional showmanship," he added.

The Hilltopper's agent rushed them to the tailor and soon their wardrobe was complete. Then the boys went to Jon Gregory, a choreographer who taught them how to add movement and poise to their singing. Gregory has worked with Patti Page, the Four Aces and others.

"Finally we were ready for the TV show," explained Don, "but when those lights hit us, we almost wilted on the stage."

Since then they have appeared on the Perry Como Show, Kate Smith's Program, the Milton Berle Show and others. Because the Hilltoppers were still going to college, personal appearances were hard to make. Nevertheless, they have played the Chicago Theater, Cincinnati's "Castle Farms," Cleveland's "Skyway Lounge" and "Child's Paramount Restaurant" in New York.

Mrs. C. Craig, Louisville Council Field Director, will be present at the first Girl Scout Neigh borhood Meeting of the season. The meeting will take place August 30th at 7:30 p. m. at the Girl Scout Lodge in the Girls Dorm

Scout officials have stressed the importance of this meeting, and have requested committee members, leaders, mothers with Girl Scout daughters, and anyone in-terested in aiding the Girl Scout

program to attend.

Due to the transfer of many of the leaders who attended the Leaders' Course last year, many Troop Leader vacancies now exist. This problem will be one of the matters taken up at the meeting.

Further information on Scouting program here may obtained from Mrs. J. Vin Vince. Rose Terrace 32821 or Mrs. W. C. Gogel at Rose Terrace 3-2655. Representatives of the Pan Hellenic Society, sponsors of the Girl Scouts, will be present at the meeting. Retirement Honors Held for Three Here

Three Fort Knox officers, with combined total of more than 96 of active service, retired last Tuesday.

A 13-gun salute and marching troops honored the distinguished service careers of Col. Hugh C. Parker, Col. Harrison H. D. Heiberg and Maj. John F. Kerins. Men of the 11th Cavalry Regi-ment passed in review at Brooks Field in their honor.

Col. Parker has been on active duty over 37 years. He culminated his military career as Senior Army Advisor to the Kentucky National Guard, a position he has held since May, 1952. He and Mrs. Parker now plan to re tire in Frankfort, Ky.

Col. Heiberg, one-time aide-de camp to the late Gen. Adna R. Chaffee, is a 1918 graduate of West Point. He has held many important positions in the United States and overseas, and has con tributed much to the develop-ment of Armor since its establishment as a branch of service

Maj. Kerins, with 24 years service, is holder of the Bronze Star and Purple Heart, among other decorations. In addition to much service with armor units here in U. S., he also served for eral months as advisor to the 1st Division, Republic of Korea Ar my.

The military salute dates back to prehistoric times when men of arms used the salute, not only as a mark of greeting, but to express mutual trust and respect.

Saluting has always been a privilege enjoyed only by soldiers in honorable standing. Centuries ago, slaves were considered unworthy of bearing arms and were forbidden to salute freemen Today military prisoners are denied the privilege of saluting.

"THE VALUE OF THE INSIGNIFICANT"

Chaplain (Lt. Col.) George W. Almond Deputy Armored Center Chaplain

From childhood there is instilled in us a passion for big things. It becomes second nature. We think in terms of the longest river, the highest mountain, the biggest building, the largest corporation.

Great things are not to be despised, but if we would see the basis of things, we must look through a microscope instead of a telescope. There we will discover that life is made up of little, seemingly insignificant things. We are in danger of ignoring this fact of life.

The big things of life are all made up of small things. Saha are only an accumulation of grains of sand. It is important that realize the preciousness of the seemingly insignificant. Unless save the minutes and the hours, we cannot hope to save the displacements.

save the minutes and the flower, and the months and years.

Life resembles the clock which ticks each second and strikes each hour. Were it not for the thirty-six hundred insignificant ticks there would be no ringing stroke.

Few of us can do great things, but all can obey the Apostles' Command, "As we have opportunity let us do good unto all men." We may not be able to build a Brooklyn bridge, over which thousands pass each day, but we can lay submit over a narrow stream to shorten the way for a weary traveles with the properties of the

Better be small and shine than be big and cast a shadow. We live strongly when we live steadily. There are many lives, not one deed of which seems to count for much, yet as a whole they are irresistable forces for good. It is these insignificant lives in the multitude which are an unanswerable argument for God.

12th Finance Section

To Move to 3d Armored

The 12th Finance Disbursing Section, located at The Armored Center Finance and Accounting Office, will move to the 3d Ar-mored Division on Sept. 15.

The move was made to establish a Class B Agent Finance Office for the purpose of providing financial service to the 3d Armored Division. The 3d Armored Division has been receiving financial service from the post finance office.

The 12th Finance's primary mission of giving on the job training to finance personnel has not been changed.

The 12th Finance will be re-lieved from attachment to Head-quarters Bn. 2128th ASU. It has been attached to the 2128th since from the U. S. Army Finance Center located then in St. Louis. It has been serving as a support unit for past finance, preparing payrolis, allotments and pay doc-uments, in addition to its training work.

New location for the 32-man strong 12th Finance will be the old G-4 building, located off North Seminole Street, in the 3d Armored Division area.

GIVE-IN OR GIVE-UP

There is nothing that determines the success or failure of an individual as much as his own attitude. One's attitude is the manner in which he himself has decided to accept life. I do not believe at utitude is inherited but they are often imitated; but even so, the individual decides what attitude he is going to imitate. This decision may well be made in the realm of the subsconscious, but it is made nevertheless.

Experience often proves the error of an accepted attitude, which may well have occurred in the subsconscious. When the conscious may change the attitude. Nothing can change the attitude of a person who is not willing to accept a change. Such a person continues his life, dissipating the resources of his own personality, flighting against his own erroneous attitude. Such a person sets for himself the impossible task of changing life to meet his fancles (attitudes) to a more satisfactory adjustment to life. As such a venture assumes the aspect of the impossible, the individual concludes life is against him: everybody and everything is against him: the dice are loaded and the cards are stacked. He comes to the place where he hemst "give up" due to the sheer futility of carrying on.

As a matter of fact, the larger portion of all human problems would be solved if people would only learn to "give in" to the realities of life; accepting what is as it is, and adjusting timenselves to the problems with the probl

4 Important Reasons why you should buy a PONTIAC RIGHT NOV

Pontiac is One of the Greatest Cars Ever Built!

Match today's Pontiac with America's finest cars and you'll get a dramatic picture of Pontiac value. First of all, Pontiac is bigbigger, in fact, than many cars costing hundreds of dollars more Pontiac is beautiful-with its distinctive Silver Streak styling. Inside, you'll find genuine fine-car luxury and appointmentsalong with the roominess and comfort that come only with a long wheelbase. But the big surprise comes when you test Pontiac's performance. See how alert it is to every demand in traffic, how it handles and corners almost without effort, how it takes to the open road with plenty of power to spare and saves money every mile.

Pontiac has the Best Resale Value in its Price Class!

Along with all its fine-car size, luxury and performance, Pontiac has a very special attribute no car at any price can beat-its unsurpassed reputation for year-in, year-out dependability. Pontiac's carefree, economical long life and its proved record of amazingly low maintenance expense are so widely known and acknowledged that it commands the highest resale value in its price class. Because Pontiac is America's most desirable used car, your original investment comes back in greater measure when you trade.

Pontiac is Priced Just Above the Lowest!

After you've convinced yourself of Pontiac's value, after you've considered all the good things you've heard about its depend-ability-see how it compares dollar-wise. Despite the fact that it's a fine car in every sense of the term, Pontiac is priced so near the lowest that if you can afford any new car you can afford a Pontiac.

We'll Make You a Deal You Can't Afford to Miss!

Right now we're making such liberal trade-in allowances that you just can't afford to pass up the greatest opportunity you ever had to become a fine-car owner. Come in and get the facts.

BOLLAR FOR BOLLAR YOU CAN'T BEAT A PONTIAC!

Sqt. Adkins of CCB Gets \$1,119 for Re-up

Sgt. James A. Adkins, Hq. Co., Combat Command "B", earned himself the sum of 1,119 dollars last week and barely raised a finger doing it.

The first member of CC"B" to re-up under the new Army re-enlistment bonus plan, Sgt. Advolunteered his services for another six years and was automatically entitled to the money that is now his.

Under the new bonus plan, when a man re-ups for the first time, he is immediately paid a sum of money equal to his base pay per month multiplied by the number of years he enlists for. He may have reenlisted before that, but if it happens to be his first time under the new provisions, the money is his.

Back in 1951 when Sgt. Adkins re-enlisted for three years while serving in Europe, the financial reward was quite a bit less. At that time he received only \$150.00.

The Passing Scene

An Article In The Interest Of Your Life

(Second in a Series) (Second in a Series)

Each year, we stand at a milestone of the passing scene and total the grim score. We have seen dirt roads become roaring super-highways; automobiles grow from one-lunged toys to giants of more than 200 horsepower. We have seen the safety a few slogans of admonition to a mighty outpouring of warning facts and figures, pictures and articles, slogans and speeches

But each year, we have seen the careless and the heedless rush by to destruction; the family outing turn into a mass tragedy; the speeding tourist taking a trip to nowhere; the party-goer dashing home to a life of pain; or perhaps even yourself making a quick trip home over a short vacation.

Out of the cold record of statistics we have tried to recreate the human beings whose last look at the passing scene was one of ultimate terror. The head-on collision, the curve missed, the blinding glare of undimmed headlights, the scream of brakes at an inter-section, the helpless skid on wet pavement.

Section, the neigness skill on we pavement.

Over the years a thousands plans and panaceas have been developed. Highway construction is the answer. Safety belts are the cure-all; padded instrument panels; speed governors, electronic policemen; higher licensing requirements. All these and many more are advanced as the one final answer to the problem of highway accidents. Putting all thousand into effect would undoubtedly help. But it is neither science nor engineering, no matter how wisely or widely applied, can provide a permanent solution. This problem has its roots in the minds of men, and it is there we must look for the answer.

Gleemen Make Debut

(Continued from Page 1) were initially laid on June 10th but the story goes back much farther than that. It goes back to a meeting of 9 men who gathered with Bruce Lunkley, then a private, to form a singing group to be known as the Gleemen. That was on May 8, 1953.

It was difficult at first to arrange a time to rehearse or to get sheet music, but their desire and enthusiasm to sing seemed to spread, and soon the group reached a strength of 36 mem-

The Gleemen have appeared at most of the Service Clubs, the outdoor theater, with the 3d Armored Division Band at theater number 3, at the Old Cantonement Hospital, on the Herbie Koch Show over WHAS-TV with the Division Honor Guard, and also on the "Songs of Faith" program over WHAS-TV.

They have appeared in the "Follies of '54" which was sponsored by Special Services at Sadowski Field House; they presenta concert of classical choral works at theater number 1, members of the group have performed for the internes at the Louisville Veteran's Hospital, and many other performances have been made by the Gleemen for various Knox organizations. Their most recent appearance was at General John R. Beishline's farewell reception Saturday, Aug. 20, where they were cheered and applauded.

The Gleemen will compete in the 'All Army Sing Contest on September 15, and the very next evening are scheduled to perform a live radio broadcast over WHAS from the Kentucky State Fair. CCA Pugilists Win Trophy Possession

Punch Bowl Season Closes With Eight All-Star Bouts

CCA's pugnacious pugilists have done it again.

For the third consecutive year they've punched their way to the 3d Armored Division Boxing Championship. This time the trophy is theirs to keen.

In the rock 'em - sock 'em petition that began June 16 and ended in a gala slug-fest for top honors on Wednesday. Aug. 25. the boys from CCA racked up winning total of 226 points. CCB finished second with 212 points. CCC (formerly CCR) came in third with a 149 point total, and DivArty took it on the chin with 141 points.

The 110 Punch Bowl classics that made up this year's agenda attracted a total attendance of 23.400 boxing fans. On a weekly basis that means an average Wednesday night crowd of about 2,000 people.

In the eight all-star bouts that wound up the season on Wednesday. Aug. 25, Ken DeArmod, C-709, CCB, knocked out Cliff of the second round; Vernon Lee, B-32, CCB, took a three-round decision over Richard Fryman, D-37, CCC; Ray Thompson, C-709, CCB, was defeated on a TKO by Cardell Dixon, C-761, CCA, in two minutes, 10 seconds of the third round.

Air Show Spectacle **Due Here Next Month**

A spectacular air show, the likes of which is rarely seen anywhere in the nation, will be the feature attraction at the Annual Convention of the Armed Services Advisory Committees of Kentucky month at The Armored Center

The convention, which is ex pected to draw about 350 civic, military, political and religious leaders from all over the state, opens Friday, Oct. 8. The air show is scheduled for Saturday Oct. 9.

The Armored Center will be the host for the meeting, a unique demonstration of the year-round labors of coordination and cooperation that operate between the various services and civilian leaders through the Office of the Secretary of Defense.

The opening day of the conven-tion will be taken up with registration, billeting, luncheon, reception, dinner, business meet-ing and dance. In addition, the Committees' members will view the now famous CS-5 Demonstration-the action-packed display of Armor in the Attack with jetfighter-bomber support.

Special Armor Display

There will be a special display f Armor equipment used in an attack against an imaginary enemy dug in on a hill within sight of the spectators. After an ar-tillery barrage, the tanks will move in, blasting at strategic enemy positions. Behind them the Infantry, moving quickly through the bursting shells, thanks to the new Armored Personnel Carrier, new Armored Personnel Carrier, ence will be held at The Ar-will swing into position, dismount mored School Sept. 13 through and clean-up what's left of the 17. Gen. George W. Read, Jr., commanding general of The Armored Center.

Short of Schedule

It's auto registration time again at Fort Knox with all officers, enlisted men and civilian workers who drive civilian cars on the military reservation due in at the special auto inspection point set up on 11th Avenue, just east of Gold Vault Road.

The MPs are checking brakes, horns, lights, tailpipes, mufflers and other important items on their list of things to look for.

A special schedule, published day in the Armored Center Daily Bulletin, carries the num-bers of licenses to be inspected on certain days and the make-up periods for those numbers. But the Provost Marshal's Office here notes that the rate of autos being brought in for inspection is fall-ing short of the schedule. As a result, if such a practice con-tinues, unnecessary delays may "jam up" the inspection process

Inspections began Sept. 1. By oon, Sept. 4, 1500 autos SHOULD have been inspected according to the schedule. But only 900 actually had been. Why? The owners out OD uniforms from their moth-didn't bring their cars in on balled months of summer storage. chedulo

Chaplain (Col.) H. F. Donovan

You have been training at your Army job for some time now and frankly sometimes you are quite fed up with it. It gets monotonous, I know. You think you have your job down pat and monotonous, I know You make your job down pat and that you are trained to handle your equipment under any given situation. You may know all the techniques and yet when you are quite ready to stop the order is "Do It Again!"

Why this endless repetition. The reason is simple. You're de-

while the three street in the tension is simple. Our ex-veloping a habit of doing things the right way. It has to be a habit, because when there's an emergency you won't have time to think about what you're going to do. You've got to do the right thing AUTOMATICALLY. So, do it again and again!

The doctor can't sit down and review his notes on typhoid when

he is standing over a stricken soldier who may die at any instant.

The soldier can't take time out to go over the steps for throwing hand grenade when he is face to face with the enemy. He's got to act automatically. He must have the RIGHT HABIT.

I am thinking of a habit which may some day mean heaven or hell to us. It is talking with God. We must form the habit of eping up a sort of running conversation with God. We talk to keeping up a sort of running conversation with God. We talk to Him instinctively when we pray and we must learn to talk with Him throughout the entire day.

And then, we'll speak to Him automatically when faced with a split second decision involving a command of God. And speaking to Him, then, we'll do the right thing.

At first it will take practice vandition come offers but which the speaking to the speaking that the speaking the speaking the speaking that the speaking the speaking that the speaking the speaking that the speaking that the speaking that the speaking the speaking that the speaking

At first, it will take practice, repetition, some effort, but when we've done it enough, it will become second nature, just like typing that letter, or shooting that rifle, or driving that tank. When you have a habit of speaking with God it will be one habit you'll keep for eternity.

The Eagles received the kick-off and the touchdown came three plays later. The extra point astempt was wide and the contest door to a knock-down-drag-out affair.

drag-out affair.

Several opportunities to score were blown by the Knox squad, but Coach George Bertram expressed satisfaction with the team's opening performance. He stated that many mistakes must be corrected in the daily practice sessions, but the boys showed fine play was excellent for this point in the season.

Knox completely overshadowed Shelbyville in first down totals with the losers getting but three and the Eagles chalking up ten In pass completions, the victor were successful in two out of size attempts and Shelbyville hat four in 11 heaves.

The contest featured but one interception. Shelbyville stopped a Knox drive deep in their own territory with that device.

Tonight, the Eagles travel to Fern Creek for the second game of the season. The Fern Creekers were undefeated last year, so the Knox squad faces a real test this week.

"Nothing to Live For"

"Tim Checking out. There is nothing to live for, and so—here goes!" Thus read the note that was wormed out of the clutched hand of the young suicide. Barely twently, to any one else he would have seemed to have the whole or life ahead of him and everything in pleasures and had tasted of its heady wine of ribald amusements—and suddenly life had gone stale. To end it all seemed the logical answer—and a bullet was the answer. Poor young pagan! Like many another he had found that the dregs of life's cup are always near the brim and are very sour, to diversify the seemed to have a simple that the dregs of life's cup are always near the brim and are very sour, to dive when the world. Temptations may pound head on, and so when the only life along the world. Temptations may pound literally nothing to live for. Thanks be to God, to us who know Him and know His mercy in this life and the marvelous unending yoys He has stored up for us in heaven, there never can be to fight a moment longer. But the world in the world the world to fight a moment longer. I would not some a day when there will be fight a moment longer. It may be poverty is my lot, though I struggle hard to better my condition. It is not easy to want to buy food or clothing; it is not pleasant to live in cramped and sordiid surroundings because crist sleewhere are't to high. But rents elsewhere are too high. But I know that one day I shall be rich with all the riches of God and that, too, unendingly; and isn't it worthwhile to put up with want for a few years when I know I am to be rich forever?

Friends may forsake me and nay even stab me in the back, and I may find myself alone in the world. Temptations may pound against my soul, and all the victous pleasures of life may call to me so enticingly that I seem unable to fight a moment longer. Kindergarten Enrollment Shows Increase This Year

The Kindergarten rolls at Ft. Knox this year bear the names of 326 youngsters, only twelve more than were registered last year, according to an announcement by Mr. William Kingsolver, Superintendent of Dependent Schools.

Registrations on Aug. 31st and Sept. 1st showed that there has

been a locale shift in Kindergartenage children since last year, with Jewish Group To Meet a notable increase in the number living in Gaffey Heights and Prichard Place, and fewer living in the Old Cantonment area. Therefore, all Gaffey and Prichard children will attend Stevens School this year and all other Kindergarten pupils will attend Crittenberger School.

Six Kindergarten teachers have been engaged to instruct in a o'clock. double session day, with an average of 26 students in each class. vited to attend the meeting.

A Kodachrome Jamboree has been planned for the next meeting of the Jewish Group of Fort Knox. Choice pictures of near and far, taken by members of the group, will be shown.

The group will meet at the Out-Patient Clinic of the Old Can-tonment Hospital on Wednesday evening, September 15th at 8:00

Fall Community Chest Drive Goal: Break the Record

SAFETY DIRECTOR LEAVES FOR FAR EAST ASSIGNMENT

Lee C. King, a man whose business is safety, left Fort Knox last week after nearly six years of making his business

everybody's business.
Mr. King, Safety Director Fort Knox since January, 1949, is now on his way to the Far E for a key position in safety-his trade, hobby and passion

Affectionately regarded by his associates as the "Dean" of the Army's accident prevention spec Army's accident prevention spec-ialists, Mr. King has been on the civilian rolls of the Army for over thirty years. His service has been marked by many outstanding accomplishments in the accident prevention field which have received recognition from the Army and the National Safety Council

He has held safety positions in many parts of the United States and overseas. Before he came to in the tropics and as the result of his instituting an accident pre vention program for the natives of one country the fatality rate was reduced eighty-five percent.

Tibbits Is Successor Succeeding Mr. King here is Harold P. Tibbits who has been employed as a training officer with the Civilian Personnel Of fice at Fort Knox for the past three years.

Safety work is not a new field for Mr. Tibbits. In 1943 he took a course in Industrial Accident sity before being assigned to the Fort Knox Ordnance Safety Ofin New York University.

THOUGHT OF GCD IN OUR HISTORY

Faith is the substance of things hoped for, the evidence of things need. For by it the fathers obtained a good report. Columbus sailed through unknown seeds for many days, mid perils of wind and the sailed through through the sailed through the sailed through the sailed through through the sailed through through the sailed through the sailed through the sailed through the sailed through through

By faith, Samuel Adams refused to admit bondance, and was not By faith, Samuel Adams refused to admit bondance, and was not adraid of the King's commandment. By faith Washinston drew his sword, and Jefferson saw that which was invisible, By faith the farmers stood at Bunker Hill, by faith they endured at Valley Forge, by faith they conquered at Yorkdown.

by lath they conquered at Yorktown.

And what shall I say more? For the time fail me to speak of Lafayette and the faith that worked mightily for us in other lands; of Franklin and Madison and Hamilton who by faith brought us out of confusinon into order; of Lincoln, also and the noble army of those the newspaper, of Phillips on the shaltoner and Barker in the public the newspaper, of Phillips on the shaltoner and Barker in the public and Whittier with the song; and Sumner in the senate, and John Brown on the scaffold... And some had had trails of bonds and imprisonment, being destitute, affliced and turmented. These all, having obtained a good report through faith, labored for our welfare and to safeguard democracy throughout the world; and posterity has entered into the fruits of their shore.

Wherefore seeing we are compassed about with so great a cloud of witnesses, and that with great a price freedom has been purchased, let us lay aside every weight of selfishness and sloth, and the sins of partisanship and pride, which so easily beset us, let us talk worthy of our great inheritance, let us be creditors of the future even as we are debtors to the past; and let us know that the spirit of history is the God of nations, whose other name is Justice.

Sportsmanlike DRIVING

LET'S END JAYWALKING

Jaywalker! Even the name is ugly. Named for the jayhid—a saucy-chatterer, an impudent, discourteous fellow. Potential of turn or out of place. Jaywalkers are the chief cause of pedestrian accidents, says the AAA driver Driving. "Sportmanille Driving."

A very few bad things that pedestrian deaths or injuries predictions do cause most of the pedestrian deaths or injuries are jaywalking acts — both illegal and unsportsmanlike.

Of every 100 pedestrians killed or hurt in traffic, almost half of them were crossing the street in mid-block, away from a crossing was a crossing against the signal lights. Or they were darting out from between parked cars. Or they were walking or playing in the street.

Avoid these few jaywalking practices, and more than double your chance for safety on the

your chance for smoot, street.

Don't be a pedestrian casualty.

Avoid the practices which spot you as a traffic jay!

WHAT THEY SAY ABOUT NEW BALL-JOINT SUSPENSION: "Its ease of handling, cruising, riding—excellent . . Its ride is stable and comfortable . . . pays little heed to cross winds . . . On normal turns the passenger isn't pressed against the driver or the door."

WHAT THEY SAY ABOUT MERCURY'S ADVANCED STYLING: Mercury stepped away out front in the wide-open spaces of automotive evolution when it came up this year with the Sun Valley—a handsome hardtop coupe with half the top in tinted plexiglas."

ONE MAGAZINE after another in the automotive field has come out with a rave review on the 1954 Mercury. And these reports are based on actual road tests of the roughest, toughest type. For these auto experts try to duplicate the worst driving conditions you might encounter as an owner.

There has been unanimous praise for Mercury's entirely new, even more efficient

161-horsepower V-8 engine-one of the most advanced available today at any price. There have been glowing reports about the driving ease of new ball-joint front suspension-the greatest chassis improvement in many years.

And there have been constant reminders of the money-saving advantages of Mercury's value-consistently the highest in its resale class. Why not trial drive a Mercury today?

Bonus Plan Ups Reenlistments

The 3d Armored Division set itself a new record for permanent party recellistments last month as the total Division percentage sourced from only 15 percent in July to a startling 47.5 percent in August

The sudden increase may be way: attributed to the Army's new bonus plan which took effect July 16.

Captain Joseph H. Owen, Armored Division Recruiting Officer and M/Sgt. M. L. Christian, Recruiting Division Sergeant. stated that the percentage of enlistments among 3d Armored Division permanent party personnel has never been as high.

The top percentage mark for any one command in the month of July was 33.3. That same fig-

month of August more permanure was the low mark for the entrary men reentised to fill month of August.

According to the August rat- the majority of those reensings, the commands lined up this listing had applied for transfer.

LIVE AMMO ADDS . REALISM TO CCA'S ATTACK PROBLEM

Live ammunition was used last Wednesday at Dorrets range number four when CCA's Instructor Group per-formed a tank platoon in at-tack demonstration for the trainees of Co. A, 761st Medium Tank Battalion, Combat Command A.

The purpose of the demonstration was to stress the teamwork between different sections in using the age old principle of fire and maneuver.

A base of fire was laid down by the first platoon using live rounds of 90-mm. high explosive and .30 cal. machine gun fire. The second platoon then moved ahead by bounds to assault and secure a

simulated enemy stronghold.

The entire exercise was under the direction of Lt. Charles Madsen, operations officer of the CCA Instructor Group. Also present fo. the performance were maj. Gen. Gordon B. Rogers, com-manding general of the 3d Ar-mored Division, Col. William M. Fondren, CCA commander and Lt. Col. Earle O. Thornton, commander of CCB

This was reported to be the first tank platoon in attack dem-onstration in which live ammunition was used this year.

AWOL Ratings

Here's the way the AWOL ratings looked for each command in the 3d Armored Divifor the week of Sept. 5-11. CCC led the way last week with seven companies chalking up a no AWOL report. These companies were A-13, C-13, A-36, D-36, A-37, C-37, B-367.

Second place for the week went to CCB as it reported six of its companies with an AWOL record of zero. The top companies were B-122nd, D-32, Able, Baker and Charlie 33 and A-709.

In third place was DivArty's B-54 with no AWOLs reported. and tied for fourth were Div. Trains with only one AWOL in Hq. Co., and CCA with one AWOL in A-761.

Division Gleemen Sing On Radio at Ky. Fair

The 3d Armored Division Glee The 3d Armored Division Greemen performed a live radio broadcast from the WHAS "Big Top" at the Kentucky State Fair on Thursday evening, Sept. 16. The program featured Jerome Kern's most popular ballads and a novelty number, "Brush Up Your ty number, Shakespeare."

This appearance was in addi-tion to their weekly radio broad-cast heard every Wednesday night at 9:15 p.m. over WHAS.

Tomorrow night the Gleemen will perform at the 3d Armored Division's officers party which will be held at the Officers Brick Club.

Spearhead Spirit Stays High In Peace As Well As War

During World War II, the Spearhead Division led the way across Europe. The 3d Armored Division's mission during peace time is one of training, a much milder assignment than fighting engaged in during the Battle of the Bulge and the hedgerows of Normandy, but the spirit of the men hasn't

Eighty-five M-47 tanks rolled past the reviewing stand at Area 205 in a tribute to the former executive officer of CC"A". Lt. Col. Bishop leaves Fort Knox with his wife and three sons on September 15 to embark on U. S. Military Mission to Iran.

Col. Bishop came to the 3d Armored Division in November, 1951. He had been serving with the 9th Infantry Regiment of the 2d Division in Korea since December, 1950, Upon his arrival here he became executive officer of CC"B".

Two months later, Col. Bishop attended the Associate Advance Course at The Armored School. Shortly after that he was assigned to CC"A" as commander of the 83d Recon. Bn.

In July of 1952, Col. Bishop organized the 84th Med. Tank Bn. He remained with it for one month and then left for Command and General Staff College, (Continued on Page 8)

DID YOU LIKE THE SERMON?

By Chaplain Darrell C. Richardson CCA Chaplain, Tower Chapel

"How did you like the sermon?" This is a common question asked when discussing a worship service. It is perhaps a natural question in attempting to reveal a person's impression of the service. The "likes" of individual listeners vary amazingly. It is good

vice. The "likes" of individual listeners vary amazingly. It is good to "like" the sermon, but is that the important thing?

Sermons are preached, not to be liked, but to be lived. Suppose you did not like the sermon. What of it? It might have even made you mad. Quite possibly it hurt your conscierce. Maybe it filled your heart with remorse. Incidently, it is possible that the sermon even stimulated your thinking! The worst possible reception of a sermon is an attitude of indifference.

The crucial question is not: "Did you LIKE the sermon?"

BUT—Did it help you?
Did it comfort you?

Did it inspire you?

Did it give you a new vision for duty?

Did it bring you closer to the Lord?
THE SERMON MAY BE MEASURED NOT NECESSARILY BY YOUR ENJOYMENT OR ENTHUSIASM BUT BY YOUR RESPONSE IN EFFECTIVE CHRISTIAN LIVING

Pvt. Evans, it seems, is a trampoline artist. To be more explicit, he is an acrobat who specializes in the art of bouncing, flipping and twisting on a large piece of canvas stretched tightly across a rectangular frame.

Before entering the Army, Harry held third place in the Big Ten and NCAA for his gymnastic feats on the trampoline. How-ever, his talents were not con-fund entirely to collegiate com-petition. He performed profes-sionally for conventions, circuses and television programs.

Pvt. Evans' interest in this sel-dom publicized athletic event be-gan in high school on the gym team. But his opportunity to really specialize came much later at the University of Minnesota. It was his final year in collegiate com-petition that paid off both on the regional and national level.

There are many varied to the second of the second

When preparing for a contest, a great deal of practice is required to build up endurance and perfect the new routine. Good wind and bodily coordination are probably two of the most important requirements for trampoline artistry.

After his release from service, Pvt. Evans plans to complete his degree in physical education at the University of Michigan. Then,

After serving his tour of active duty, PFC Lasko intends to get his masters degree somewhere abroad. He has not yet decided

where.

In civilian life, Tom had quite a lot of fun following his hobby of sailing either on Lake Erie or on the Maumee River, near Toledo, Ohio.

He won the Soldier of the Week The won the Soldier of the Week contest the second week in Au-gust and as a reward for win-ning the monthly competition he is excused from company duty for 30 days and also receives a three

day pass.

PFC Lasko scored 382 points
out of a possible 400 in the contest for the month's best soldier.
His closest competitor was PFC

THE PASSING SCENE

An Article in the Interest of Your Life (3d in a series)

The annual studies of highway accidents have shown that more than 90 percent of the vehicles involved were in good condition and the highways were adequate if used at the speeds for which they were designed. We found the weather to be a negligible factor, and that cuved roads were no mere dangerous than straight ones wheap properly used. Over the whole span of the passing scene, we have found that these were the variables in the equation of high safety. The constant, unchanging factor was the man, woman, or tenager servant to a protectile of destruction; or who, as a pedistrian, walked carelessly into the path of danger.

Fall Community Chest Drive Starts Monday Fort Knox Military Police Celebrate

Their 13th Anniversary This Sunday

white-gloved hand today leads a little child safely across 2 busy street may easily be one that not many months earlier pressed the trigger on a carbine in Korea. The man who held that carbine was the rear guard on a column that was moving on to a new position.

The snappy - looking, white-capped soldier with the MP arm-band who this evening stands at a well-traveled intersection at Fort Knox studiously controlling the stream of outbound automobiles, may easily be the man who not long ago performed a similar duty in a faraway land. Only then he was wearing a steel helmet, and the traffic he signaled on its way was not composed of home-going soldiers. The men who passed him were on their way to a fight in the Korean hills. They rode in fast tanks, trucks and jeeps. His was a heavy responsibility—to keep the traffic moving smoothly and safely; to maintain the security of his post. maintain the security of his post.
And he performed that duty with
full knowledge of the sign that
faced the approaching convoys
not 50 feet from him:
Keep moving! This intersection
is under enemy observation and
subject to enemy artillery fire!

That military policeman and thousands of his fellow Corps members in all parts of the world are celebrating this weekend. Sunday, Sept. 26, marks the 13th anniversary of the Military Police

And the officers and men of the Military Police Corps at The Armored Center are not going to let that date go unnoticed.

Plans for observing the MPC anniversary at Fort Knox were announced today by Lt. Col. Henry C. Leach, Armored Center Pro-vost Marshal.

Anniversary Dinner

At noon Sunday, Military Police personnel stationed at Fort Knox will be host to representatives of federal, state, county and city law enforcement agencies; mem-bers of the Brewers' Foundation; civic groups and distinguished members of the garrison at an anniversary dinner in the Headquarters dining hall of the 701st MP Bn. Brig. Gen. William H. Wood, deputy commanding general, The Armored Center, will be the principal speaker.

That evening, a tradition as old as the Corps itself will be cele-brated as officers of the Corps and their guests get together for a reception at the Officers Coun-

Displays and demonstrations conducted at the luncheon and reception will emphasize equipment available to the Military Police in performance of their varied duties.

AN OPEN LETTER

The Military Police Corps celebrates its 13th anniversary on 26 September 1954. From founding as a separate branch in 1941, shortly before this nation's entry into World War II, up to the present, its principal guide has been Servicc. It has proven time and time again, in peace and in war, that it is an indispensible branch of the Army.

Mottoes often bespeak the nature and character of an organization. The motto of the Mi'itary Police Corps is "Of the Troops and For the Troops;" the motto of the 701st Military Police Battalion stationed at The Armored Center is "Assist by Example." Certainly, the Military Police Corps and the Military Police of The Armored Center in particular are the personification of these mottoes.

We are proud of our Military Police at Fort Knox. They are constant guardians of our security and welfare. Their cour-tesy, their appearance, and their conduct have been worthy of high praise.

It is my pleasure to convey heartiest congratulations to them and the Corps on behalf of the garrison and the Command.

Fort Knox, Louisville and Elizabethtown will revert to CST simultaneously.

Officers Now Get Tuition Assistance

Field grade officers and cap-tains who do not have a college degree may now receive the same tuition assistance in the Army's college program as personnel of lower rank.

Until recently, only enlisted men and officers below the rank of captain received a maximum of 75 percent and 50 percent tuition assistance, respectively, in the college program. But DA Circular 87, dated August 4, 1954 states that now officers of all ranks who do not have a college degree may receive the same percent tuition assistance, up to \$7.50 per semester hour.

A letter from the Department of the Army states that the Army recognizes that voluntary par-ticipation by officers in off-duty academic study under the Troop Education Program represents a commendable effort on the part of officers. Such study is, in eral, over and above normal mil

itary requirements. The letter further states tha officers making efficiency reports upon officers who have under

3 New Automobiles Are Drawing Prizes

Tickets for the Fort Knox Community Chest Drive have been distributed to the unit chairman and everything is set for the Fall campaign kickoff this Monday, Sept. 27.

Three new automobiles are the main prizes. A sleek Oldsmobile "98" air - conditioned four-door sedan, valued at \$4650, is the first prize. A Pontiac Star Chief four-door sedan, valued at \$2770, is the second prize and a Ford Station Wagon worth \$2,694 is

Station Wagon worth \$2,694 is the third prize. There are 22 other valuable prizes for the holders of the lucky one dollar tickets. Weekly incentive prizes of clock-radios will be awarded during the drive which will end Nov. 11. Prizes will be awarded on that date.

Lt. Col. Edmond J. Padgett,

Special Services Officer and chairman of the drive, announced last week that the Fall drive's objectives is to break the record set in last Spring's Chest Drive. A total of \$100,676 was collected then from Fort Knox. Money collected from the drive goes to the Fort Knox Community Chest Fund.

Ticket sellers are required to turn in only nine dollars for every book of ten tickets. The seller is given the extra ticket as an incentive to increase the num-ber of books sold.

Col. Padgett cautioned unit chairmen that no tickets may be sold by mail. Sales may only be made at Fort Knox, but individuals having addresses outside Fort Knox are eligible to receive prizes. Attendance at the draw-ings on Nov. 11 is not necessary.

Ft. Knox Military Police (Continued from Page 1) This reservation, which they guard by foot and in patrol cars,

is never without their protection. But that's part of the proud tradition that dates back beyond the official founding date of the Military Police Corps to the earliest days of the War for Inde-pendence when the Colonial Army counterpart of the modern MP was the combat commander's right hand in keeping disci-pline in the ranks. That tradition

has become a heritage and is as true today as it was 180 years MPs Are Hand Picked

"Soldier's Today's MP is a "Soldier's Soldier." He has at least two years prior service before entering the selct ranks of the Mili-tary Police. He is hand-picked on the basis of his appearance, his good record, his maturity and good common sense.

In World War II and in Korea

MPs acted as infantrymen, as lit-ter bearers, as security guards, handled prisoner of war control and directed foot and motorized units to and from the front lines. And when a unit moved from one part of the front to another, the MPs provided the "locomotive" and the "caboose" in a train of troops and vehicles. An MP led the column and guided it to its destination while another brought up the rear — the last man to

annals of the Corps are embellished with the combat record its men have compiled-often at the cost of their lives. Many of its members are proud wear-ers of some of the nation's high-er military honors.

On the home front, MPs are kept up to date and well trained for their strictly police functions in the Provost Marshal General School at Camp Gordon, Ga. And this institution has been com-pared with some of the finest police academies in the nation today.

So in the last analysis the MF is a product of his training. And the Army sees to it that he gets the best. Yet, like all of us, he also is a product of the world in which he lives. And often that world demands the best in him. It may call for him to stand at an intersection and calmly guide others on to safety when he knows that at any moment he could be killed by an enemy shell.

Months later and thousands of

He has as much in common with the infantryman and the tanker as he has with the big city po-liceman. He is many things to many people. But above all he is a soldier "Of the Troops and For the Troops" and his duty is his mission in life.

Gen. Havashi holds a position in the Joint Staff Council which could be compared with the United States' Joint Chief of Staff.
The purpose of his visit to our country is to promote mutual understanding and friendship between the military of the two na-tions and to permit the general to familiarize himself with hand information on the US Army's organization, how it operates and its training methods.

Gov't Guest

Secretary of Defense, Charles Wilson invited Gen. Hayashi and his party to tour the United States military installations. The trip will last four weeks and will include Scott Air Force Base, include Scott Air Force Base, Fort Sill, Luke Field, Ariz., the Naval Air Station at San Diego, McClaren Air Force Base in Sacramento, Fort Benning, the US Military Academy at West Point, and the US Naval Academy at

The foreign dignitaries began their tour of the Spearhead Di-vision with a briefing by Lt. Col. Roger C. VanDuyn, assistant chief of staff, G-3. The Colonel explained the division's organiza-tion, its methods and procedures in training recruits. He gave brief mention of the common specialist schools and also explained TTU

and the packet platoon system.

Army terms and American slang proved a slight difficulty for Gen Hayashi and the orientation would pause occasionally while Capt. Stanley T. Fukuchi, 2d Army tour director translated the phrasings which the General couldn't com prehend.

Under his coaching two of the school's baseball teams won the interscholastic championship the interschola in '37 and '38.

Col. Stufflebeam entered the Army in January of 1941. He has served as editor of Development, and New Material, War Dept. classified magazines, both with very restricted distribution.

During 1948 he was adjutant general of the Ryukyus command in Okinawa. Following that, he held the position of G-1, northern command, at Sendai, Japan.

At present, as Director of the of the Armored TL&R Dept. of the Armored School, Col. Stufflebeam has not relaxed in his pursuit of new and varied cultural interests.

Mrs. Carl Umstead, the prestreasurer of the Fort Knox PTA, holds claim to an outstanding record of 35 years' association with the PTA, in the capacities of both teacher and parent.

She has, as a result of her work and interest in this organization, been awarded a life membership in the PTA She was the first member of the Fort Knox chapter to be made a State chairman serving on both the 4th District and State committees. In this and State committees. In this role she has, among other accomplishments, already outlined a plan of work for the State PTA covering the next three years. Mrs. Umstead's specific position in this plan is that of chairman of the standing committee on Radio, Television, Visual Educa-tion, and Motion Pictures. A more enthusiastic and constructively imaginative person would be hard to find for the extra-curricular guidance of our rampant young

As vice-president of this year's PTA, Mrs. Glenn Pillsbury fits into the picture like a welcome hand in a kid glove. Born in Van-couver, British Columbia, Canada, and raised in California and Iowa, she launched her creative ability and worldly interests as a reporter of the Grennell Col-lege publication in Grennell,

Not one to be tied down to small town garnerings Mrs. Pillsbury thereupon set forth to see the world and glean for herself. Her travels have taken her to Japan and through a vast portion of the U.S.A., invariably boomeranging back to Fort Knox . . . this being fourth tour here

During her peregrinations her husband, Lt. Col. Pillsbury, TAC G-1, the has managed to mingle a finger in numerous community pies of predominantly educational savor.

An example might be her stints as Den Mother in Fort Knox, Hollywood and Tokyo. Her present plums are: Secretary of the Golf Committee, Publicity Chairman of the Thrift Shop, Chairman of the Special Interest Group for the Women's Club, and, as I've already mentioned, vice-president of the PTA. With two stalwart children of her own Mrs. Pillsbury is well experienced in the ways and creative needs of children between the ages of three and thirty.

The new secretary of the PTA The new secretary of the PTA is the very capable M/Sat. William F. Meadows. A native Kentuckian, Sgt. Meadows has been in the Army for almost twelve years and is presently stationed with the AG C & A Section of the 3d Armored Division.

With all of, these inpentives

The 25 gals and the fellow who supervise activities at the service clubs, the libraries and the hobby shop, have found, to their amazement, that many beautiful items can be created from the empty containers, with a few wellapplied moments. (Incidentally, the lucky male at the constructive sessions was M/Sgt. Carl Coppersmith, NCO in charge of the hobby shop.)

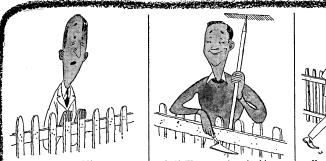

Miss Elizabeth Marshall, Staff Service Director of Second Army, and Mrs. Eugenia C. Nowlin, Crafts Advisor, Special Services Staff of the Adjutant General, Department of the Army, visited Fort Knox last week to conduct a workshop in handicrafts. This is an integrated part of an established training program for Special Services personnel.

Instruction and practical work were conducted in ceramics, mobiles, finger painting and other related subjects that will promote interest and greater participation in service club and hobby shop activities.

Large investments are not necessary for the eye-catching creations as scrap and other salvaged materials are used. Creation of useful as well as decorative objects are encouraged instead of mere dust catchers.

Mrs. Nowlin, the lady with all the creative genius, has been a part of the Army's recreation organization for eight years. Before she began working with serviceshe began working with service-men, she taught in the public schools of Dalias, Tex., and Texas State College for Women. She was at the Helm of the crafts program in Europe from 1945 to

Entertainment NCO Receives Discharge

Sgt. Jack Gilardi, entertainment NCO for The Armored Center Special Services, was discharged this week. He was with the en-tertainment section since April 27, 1953.

As entertainment NCO, Sgt Gilardi handled booking of enter-tainment shows on post. His ci-vilian plans include working for an entertainment agency in Chi

cago.
Succeeding Sgt. Gilardi is Cpl.
Pete Schnabl who worked for an
entertainment agency before entering the service.

THE 11TH CAVALRY REGIMENT QUARTET took two first places and one second place in the Fort Knox Finals of the All Army Singing Contest. They are (left to right) PFC Jerry Bloom, Pvt. Stanley Butensky, PFC Charles Knowles and Cpl. Tom Ashbacher. Stanley Buttensky, Pr C charles knowles and opin from Asimbachier.
They took first in the Spiritual Group with "My Lord What A

The Armored School Begins 15th Year

"College of Armor" Dedicated To U. S. Supremacy in Armor

The Armored School-the College of Armor-will be 15 years old

Dedicated to the purpose of assuring armored supremacy for the United States in any future war, The Armored School's history and tradition are still in the making

The establishment and growth of the Armored School closely follows the development of the Armored Force in America.

The Armored Force School and Replacement Training Center were activated at Fort Knox on Oct. 1, 1940. With the organization of the Armored Force that year, came the immediate problem of training the great number of specialists required to conduct and support mechanized warfare.

To meet this requirement. The Armored Force School was established at Fort Knox by directive of Maj. Gen. Adna R. Chaffee, Chief of the Armored Force, Gen. Chaffee is considered the Father

and stretching to make maximum use of inadequate facilities. Be cause of the lack of appropriate Army schools, many classes were taught by civilian instructors.

The first students arrived Nov. 4, 1940 in the midst of construc-tion work. They found classrooms without heat or windows. As facilities were increased, training loads were increased and in one year's time a total of 1440 officers and 22,500 enlisted men were graduated.

At the end of World War II there was a decline in enrollment. The resulting lull permitted the start of improvements in instruction facilities and techniques. The emphasis was switched from highly specialized instruction to the well-rounded background type educa-tion in Armor, since the demand for specialists had dropped off. Courses were lengthened to give more practical work.

The mission of The Armored School is to develop and to teach the tactics and technique of Armor Units, to include units of the armored division, tank and reconnaissance units of infantry and air-borne divisions, the armored cavalry regiment, the armored cavalry group, and armored amphibious units.

The Armored School operates under the direct command of the

The School is organized into six instructional departments and si (Continued on Page 6)

As the 15th Year Begins

The Armored School, since its inception, has graduated approximately 132,000 officer and enlisted students. This number includes students from most of the nations allied with us in World War II and under the North Atlantic Treaty Organization.

In the Armor Advanced Course now in session, there are officers enrolled from 14 allied countries. By instructing officers of allied countries the learned arm of The Armored School reaches around the globe.

The flexibility and capacity of the School were clearly demonstrated upon the outbreak of hostilities in Korea, In January 1950 there were 925 students enrolled; in January 1950 Officer candidate courses were discontinued May 12, 1953.

Should the need arise, however, the School is prepared to reinstate the Officer Candidate Program on short notice.

The School has 20 conference-type classrooms, 20 shop-type classrooms, 20 classrooms suitable for conference or shop, 2 amphitheaters, and 1 large auditorium. Other facilities, such as theaters, ranges, and driving courses are available.

To prepare training aids and materials the School has a printing plant and a training aids shop. Any type of printing desired may be produced as well as charts, slides, posters, maps, and overlays. Training aids may be made from wood, metal, or plastic.

The greatest number of these facilities are in temporary

buildings; however a long range program of construction of permanent-type buildings is being carried out. The first of these buildings to be completed was the School headquarters building; expected to be completed in 1954 are classroom-type buildings for the Command and Staff and Communications Departments.

Treop Information and Education Is a Year-Round Job

The Why of Troop Information

There are many individuals both in and out of the military service who question the of even the mandatory one hour a week on the training schedule known as the "Command Confer-

Perhaps there is no better way of explaining the importance of troop information than by stating a few of the salient points of a Department of the Army letter to regimental and lower command-

There is a tendency, carried over from the early days of World War II to look upon troop information as an innovation, something unknown to the armies in the past. In reality, it is simply the application of sound is simply the application or sound old principles of leadership. It is not a special activity for which a certain amount of time is set aside each week. It is an aspect of leadership which requires at-tention every hour of the day.

In the Army of pre-World War days, composed of volunteers, where organizations remained relatively intact over long periods of time and when no national emergency existed, the objectives of troop information then necessary could be attained without a formalized program. The situation today is not the same. the long emergency period which lies before the Army, without the stimulus of war, with a million man Army dependent upon Selective Service for at least half of its men, and with organizations continually in a state of flux, troop information must take on additional objectives. Furthermere, reliance cannot be placed upon the unorganized methods of

The troop information program started in World War II because it became evident to top leaders that many men in the Army felt they were serv ing no useful purpose. Although there was certainly no question that a war had to be fought and that men had to be trained to do it, many soldiers did not underd why they personally had to be in service. A somewhat similar situation exists in the Army today. Hence it is incumbent up-11 commanders, at whatever level, to derive the maximum advantage from this aspect of lead-

The broad aims of troop infor mation are to develop in the soldier an understanding of why he is in the Army, the mission of the Army and the role of the individual, by keeping him in formed of the events, conditions olicies, and official actions which affect him as an individual; and by having an understanding of loviet communism, against v he is defending America, to in-clude its meaning, its objectives and its threat to the free world and to our form of government.

Troop information is a continuing process. It is not limited to a prescribed period of time at stated intervals. Every action a commander, as well as his daily attitude toward his men, reflects on his troop infor-mation program. The Command Conference is simply the group instruction phase of troop information. It is frequently and er-roneously considered to be the entire process. A commander entire process. A commander lional level. The leader of any segment of the Armed Forces, be it large or small, must give his personal and continuing attention to developing this essential element of efficiency.

TROOP EDUCATION

The Troop Education program is that part of the Army's edu-cational system which provides instruction in academic and vo-cational courses of the type normally taught in civilian educa tional institutions. The objectives of the program is "to increase the ncy of the Army by raising the educational level of its per sonnel." Troop Education sup-ports training in military specialties by giving the soldiers background knowledge which they must have in order to learn their military jobs.

Troop Education, like Troop Information is a command responsidibity . . . it is a training function, not a welfare or service function

TROOP EDUCATION TASKS

Here at Fort Knox there are four educational tasks in the program, each geared to the needs of the military whose previous educational experience places them within one or another of four educational categories. These are basic, intermediate, high school, and college undergraduate.

Basic education is for soldiers have not completed who have not completed the fourth grade. This also includes foreign born or foreign speaking soldiers whose ability to read, write, and speak the English language is below that expected of adults of fourth grade educa-tional level. This level is the de-

mission. One of the greatest assets of any enterprise is the employee Yes. according to census reports translating routine orders to the second of the control of the contr

To assist the draft boards in meeting the quotas needed, Congress passed a law to reduce entrance standards to the score of 10 on the AFQT (about 3rd grade level). Hence an increase into the Army of marginal personnel was assured

The Army Education Center here at Fort Knox has for the past few years conducted basic education classes for soldiers in this category. However, as late as Jan. 30, 1954, Assistant Secreas Jan. 30, 1994, Assistant Secre-tary of the Army, Hugh Milton, stated that 10 per cent of the Army's draftees are so unedu-cated they cannot understand military training.

To overcome this serious problem the Department of the Army launched a plan to give Basic Education as a part of basic mili tary training. On March 22, 1954 a Transitional Training Unit for the 2d Army Area was estab-lished within the 3d Armored lished within the 3d Armored Division at Fort Knox. This replaced the basic education pro gram conducted at the Army Education Center. Under this program, all inductees who admi less then fourth grade level or who fail to meet the 4th grade level through Army testing are schooled within the Transitional Training Unit prior to basic training. Since its inception the TTU has graduated 571 men with a fourth or higher grade level Many of these men have been made acting non-commissioned officers within the basic training init to which they were signed, testifying the value of the

ENGLISH FLUENCY PROGRAM

During the past few years there had been little or no need for an English Fluency Program at Fort Knox. However, during the month of June over two hundred non-English speaking Puerto Ricans were transferred to this

What's the Pitch on TI&E?

For the soldier there can be no understanding without knowledge upon which to base it, nor can there be mental growth if he is cut off from the institution and activities that stimulate this growth; hence, the importtance of the Troop Information and Education as an essential part of training.

Army regulations state, "Commanders are responsible for the effective conduct of trop information and education within their commands." Nothing could be more explicit. Here at Fort Knox, the TikeE program is the responsibility of the Commanding General. As part of The Armored Center G-3 function it comes within the jurisdiction of Col. Welborn G. Dolvin, who s responsible for its staffing functions and its general supervision. The implementation of the program is delegated to Capt. John A. Quigley who heads the TI&E

The Armored Center T I & E Section's task of assuring that the program is effectively being administered is not an easy one. A list of only a few of the duties of the section would include training command con-ference leaders, supplying units with information ma-terial, providing a civilian type education program for military personnel on active duty and testing services offered by the United States Armed Forces Institute.

Now, let's take a closer look at the "why" and the "how" of the Troop Information and Education program. TI&E is a year-round job. And it's everybody's job.

organizations. There was the ad- area. ditional problem of not being able to use these soldiers for guard duty.

The Armored Center TI&E Section immediately came to the assistance of the commanders by forming two English Fluency classes with 12 to 15 men enrolled in each class. After receiving intensive schooling for five weeks 24 soldiers of Puerto Rican descent were returned to their organizations with a better than basic knowledge of our language, able to serve to the best of their ability.

To date 42 men have been graduated and it is contemplated that English Fluency classes will continued until such time as all non-English speaking soldiers at Fort Knox have obtained a basic knowledge of our language

Today the Army Education Center is operating 4 classes concurrently in Intermediate Education. To date 201 non-commis sioned officers have graduated from the program and 76 of this number have continued their studies to successfully pass the high school GED Test. Looking at the Intermediate Program in respect to interest shown by commanders, the 8578th AAU (Army Field Forces Board No. 2) far outshines all other units.
Ninety-two of its noncoms have successfully completed intermedi ate schooling and fifty per cent of this number have continued studies to successfully pass the High School GED Test.

There is a constant turnover f military personnel at Fort Knox. Therefore, the attainment of the objective (8th grade completion for all non-coms) is still far in the future. The Army Education Center will continue to onsider this area as one of its primary functions.

Biblical Angel Saluted

Christian Scripture presents no less than a messenger of God using the salute for a greeting. In St. Luke, (Chapter 1, 28) the Angel Gabriel, Announcing the In-carnation to the Virgin Mary, says "Hail, Mary," Latter day painters frequently depict the right hand of the angel raised and extended in the Israelite kind of salute.

Saluting as rendered today among powers of Western Culture today originates from the medieval knight who raised the visor of his steel helmet with his right hand to identify himself in a gesture of friendliness. His swashbuckling successor saluted by flinging his long cloak over his right sho thus exposing his hand away from

Gesture of Recognition

In the present day, the Amerian salute has been perfected as a formal gesture of recognition between comrades who are memof the military profession. A smartly-executed salute distinguishes the courteous, well-trained, disciplined soldier. A careless, half-hearted salute is not only dis-courteous but reflects discredit of the man and on his organization.

Tank's Evolution: Fire Power, Mobility, Shock Action

JUDAH AND PATTON HAD THE SAME IDEA

Vol. VI

"And the Lord was with Judah, and he drove out the inhabitants of the mountains, but could not drive out the inhabitants of the valley because they had chariots of iron." -Judges 1:19

It's a far cry from the "charjots of iron" of the ancient Israelites

to the steel-muscled M-48's of today's Armored Force.

But the principle is the same. Though they lived thousands of years apart, Judah and Patton had the same idea. Though one used horses and bows and spears and the other used powerful motors, machine guns and cannon, they both were looking for the three elements of success in battle no matter what the century or era: Fire ver . . . Mobility . . . Shock Action.

History is full of details of the use of weapons that we can

justifiably call the foreruners of modern Armor. The Chinese who lived centuries before the birth of Christ used chariots. So did the Romans and other ancient peoples. The north European tribes employed towers on wheels and later, with the advent of guns and owder, cannon mounted on wagons.

MOBILE ARTILLERY

And, of course, one thing led to another. In the early 15th Century, in the Bohemian Wars, the wagon-borne cannon led to a new weapon: mobile artillery.

Leonardo da Vinci, the great Italian painter-inventor, not only drew plans for an armor-plated vehicle with mounted cannon, but also spelled out tactical used of his strange "covered chariot" in terms that are surprisingly modern

But the chariots became useless as better guns were developed. And the creations of the da Vincis fell by the wayside for lack of the means of mobility, i.e. an internal combustion engine, and for lack of enthusiasm on the part of the militarists, as well.

The result was what the French would call "La Guerre d'Im-mobilisme." World War I shuffled to a stelemate. The machine gun drove the soldier to the trenches. And for the most part, that's where the war ended—in the trenches. These glorified ditches stretched in

a crazy, drunken pattern up the eastern end of France.

Neither side had an armored vehicle. But the British, pushed by a man who had faith in a new idea, Winston Churchill, built the first practical tank for combat. In November, 1917, it got its baptism under fire. And it proved a success

U. S. TANK CORPS BORN
In January, 1918, the U. S. Army Tank Corps was born, fought on to the end of World War I proving that Armor could be an alive and vital force in winning battles.

Then come the turbulent post-war years. The Great War, the War to End All Wars, as the multitudes called it, had turned the stomachs and needled bitter aches and pains into all civilized men. The diplomats signed a piece of paper and called it a Peace Treaty But it didn't work.

The victors looked to luxury and excessive indulgences that led to the "Roaring Twenties" and finally to the "Crashing Thirties". But the vanquished sought a way out, too. And for this they turned to revenge, to hate and to a madman named Adolph Hitler.

In this kind of atmosphere, the soldier was relegated to the background. And the tank disappeared from the headlines. But the work went on. Reluctant to relinquish any power, the Infantry leaders, especially those of the European armies, sought to put the tank in a position where it would support rather than lead the foot

The British had been doing a great deal of work with the tank and other armored equipment. They were sold on mechanization, The U. S. Army had been experimenting, too. But the separate comare u. 5. Army had been experimenting, too. But the separate combat arms were doing their own mechanization. There was no central authority. In the early '30s all this changed as the Armored Force gradually came into being in a permanent form and at a permanent home—FI. Knox.

NAZI BLITZKRIEG

And with this establishment came a new doctrine. It was mer Van Voorhis, Chaffee and Patton who saw Armor as a force unto itself. They visualized a compact, highly mobile, self-sustaining dynamo that could operate with deadly effect in a wide radius that combined speed with fire-power. All this amounted to a shock-action concept that only a few years later was to manifest itself in Central Europe. Only there, it was spoken of in the dreaded rasp of a word that made headlines. The Nazis called it Blitzkrieg.

of a word that made headlines. The Nazis called it Blitzkrieg.

The Poles, the Czechs, the Norwegians, the French, the Dutch,
the Belgians, the Grecks, the Albanians, the Yugoslavs, the Lithuanians, the Estonians, the Latvians, the Bulgarians . . . these felt
and fell under the fast moving, hard hitting armor units Hitler sent
against them. The pictures of Poland's Army, armed with horsedrawn artillery and led by sabre-wielding cavalry officers, drew
tears and laughter from the free world. The tank was winning. And the Allies realized the best way to fight armor was with Armor.

ARM OF DECISION

In the North African campaigns massed armor of two opposing armies took to the field against each other for the first time in history. As many as 500 tanks on each side would join battle Highly mobile, flat trajectory artillery and specially designed tank destroyers joined in, too. It was a vicious struggle, but when it was over armor had indeed proved that it was "The Arm of Decision!"

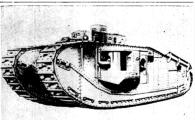

"I am building secure and covered chariots, which are invulnerable, and when they advance with their guns into the midst of the foe even the largest enemy masses must retreat, and behind them the infantry can follow in safety and without apposition." What shines this day as the pride of the Armored Force may be of little use on a battlefield five or ten years from now. But principle of victory—that combination of armored, mobile men and guns— shall always remain the same until War and physical combat come to be extinct forms of settling differences between men and nations.

Until that Utopian Paradise on Earth becomes a reality, men and guns will have to stand in readi-ness against other men and other guns . And in this conglemerate world of deserts, fields, hills, mountains, rivers and oceans, Armor will have decisive place. For the standards of Armor today are the standards by which Judah, Ceasar and Alexander the Great fought thousands of years ago. They are the standards of Chaffee,

Riding a horse along a scenic bridle path is one of the finest ways to observe the colorful foliage of the countryside. At the Fort Knox Riding Stables across from the Motor Pool on Gold Vault Road are eighteen horses of different speed and gaits. The rider may choose his own mount, renting it for 75-cents an hour.

For those who are a bit concerned lest they won't be able to sit quite as comfortably after decorating a horse's back, many other recreation possibilities have been made available. Now that the torrid summer is but a memory, indoor activities are again increasing in popularity.

An opportunity to give expression to your individual creative talents awaits you on a visit to the Hobby Shop. There you can design and build a sleek new coffee table for your living room or other articles of furniture to which you can point with pride when you have visitors. Another popular attraction is ceramics. Many wives have pitched in with their husbands to manufacture various eye-catching knick-knacks for the home.

Model cars and planes are not just for children. Many mature young men have constructed masterpieces with a few well-applied hours at the Hobby Shop. Whether the subject is a model car or a new book case, tools for all types of woodcraft are available there.

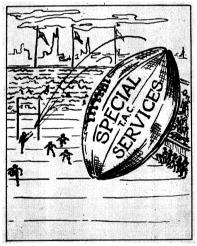

In addition to ceramics, woodworking and model building, facilities are present for leather and photography work in The Armored Center and Gold Vault Road. It is open evenings, Saturdays, Sundays and holidays,

In the fall, many servicemen fondly recall their high school and college days. School and fraternity dances ring a nostalgic note as we now look back on them. The four Knox service clubs are giving you the opportunity to relive those moments as they embark on an autumn dance pro-gram. At least 26 evenings a month will be devoted to giving you the opportunity to step out on the floor and get in a rhythmic mood.

The clubs are always decorated so as to create an enjoyable and unique atmosphere for each dance. Besides the weekly dances, the clubs offer many other forms of entertainment. There are bridge other forms of entertainment. There are pringle fournaments and pool matches. Dancing lessons are also given in the clubs to make the boys feel a bit more at ease out on the floor. While you are going over to the club you can take along any uniforms that might require some needle and thread attention, as free sewing service is another function of the service clubs.

A well-known project of Special Services has been to bring in many of the top name bands in the country for the pleasure of Knox personnel. The big fall band season has just gotten underway. Ralph Marterie has just completed an enway, Raiph Marterie has just completed an en-gagement at Nininger Park and Woody Herman will be moving in on Oct. 17 for two shows at Sadowski Field House. The fall and winter months will feature the appearance of many of the famous groups in the popular music field.

Nearly everybody has a motto these days. Just about every club, society, organization or fraternity has one. So do most Army units. But how many groups actually live up to their slogans?

How about our own 3d Armored Division? How well does our parent unit exemplify its motto, "The Spearhead in Peace As in War?"

Let's take that motto apart and see.

"spearhead." as "the foremost point, person or body in an attack, drive, enter-prise, or the like."

Well then, was the 3d Armored Division a "spearhead" in World War II? According to the record books, the Division led the American First Army all the way from the hedgerows of Normandy to the heart of Nazi Germany.

At this point, one-half the Division's motto certainly applied -it had been a spearhead in time of war. Now, the peacetime peacetime Spearheaders set about making their Division a leader in the field of training.

How successful have they been? The elaborate montage above shows some of the headlines war time Spearheaders made. An equally impressive layout could be made to demonstrate that

Only 70 Fires in 2d Army

Mr. Smith this week pointed out that during the fiscal year of 1954 only 70 fires with damage amounting to \$25 or more each were reported in the entire Second Army area Tied for first place as causes of these fires are cigarette smoking and heating of buildings, with 12 each, he said.

\$28,489 Fire Damage

The Fort Knox fire department answered 365 fire alarms in the past fiscal year with 73 percent of these alarms being actual fires. Damage done by fire to govern-ment property amounted to \$28,-489 and there was no loss of life because of fire, reports the fire

Many Post Organizations Depend On Community Chest Contributions

The Fall Community Chest Drive at Fort Knox is completing its first week.

Many non-profit organizations

are depending on your contribu-tions to the Chest. The largest single distribution of the money you give goes to the Army Emergency Relief Fund to be used for the help of financially distressed

Youth of the country also benfit from your contributions. Funds from the Chest support the Scout program and the Teen Age here at The Armored Center. The Chaplain Section receives aid too for its many charitable Among the national and state

organizations that receive funds from the local Chest are the Salvation Army, the Crusade for Freedom, the American Korean Fund, the Kentucky Cancer Cru-sade, Kentucky Tuberculosis Association, Kentucky Heart Associ-ation, Cerebral Palsy Fund, Muscular Dystrophy, and the Louis-ville Community Chest to help support the Louisville Service

Commissary Installs New Checkout Stands

The Armored Center Commisary has installed five new ingenious checkout stands to help ex pedite the flow of customers, Col. Frederic A. Maples, Quartermaster announced this week

The conveyor belt-type stands are expected to increase the ef-ficiency of the checkers, baggers and the carry-out boys who han-dle the groceries. Maj. H. E. Poteet, Commissary Officer, to emphasize, however, that the essary for effective checkout stands.

Grocery articles should be set in a line, not piled on the stand. Meat items should flow through separately from produce items Canned goods and bulk items should come through first for bagging. This will greatly assist the checker who records the items on different code keys. The checker now will also weigh and The Fort Knox campaign will price produce items at the check-(Continued on Page 4) out stands.

784th AC&W Nine Defeated In Air Force Competition

The "Hilltoppers" softball team representing the 784th Aircraft Control and Warning Squadron Air Force radar station at Fort returned from the 4706th Air Defense Wing 1954 Softball Tournament Friday, after having been both vanquished (collective ly) and feted (individually)

Eleven teams, all from the De-fense Wing's far-flung units, participated in the tournament, which was hosted by the 782nd AC&W Squadron at Rockville, Ind.

The "Hilltoppers" played only two games in the week-long series two games in the week-long series of ball games. On Monday, September 20th, they downed the 97th Flighter - Interceptor Squadron team from Wright-Patterson AFB, Ohio, by the wide margin of 11-6. The following day the "Hill-toppers" were treated in a similar fashion by the 664th AC&W Squadron team from Bellefontaine, Ohio, which dealt them a 14-13 deteat.

Despite the failure of the "Hill-toppers" to come in "in the money," two team members received high includual honors, and Joe Camacho, second-baseman, were elected to berths on the Wing-wide All-Star team. The two outstanding players were the recipients of watch-fob medias at a VFW Post on Thursday, September 23rd.

Fifteen men comprised the local radar squadron's team. They were: A/2c Frank Drain, A/3c Ismes Golightly, and LL. Smere Golightly, and LL. Smere Golightly, and LL. Smere Golightly, and LL. Smere Golightly, and L. Smere Golightly, and A/1c Carleen Alderson.

Notably missing from the team oster was S/Sgt. Dick Johnston, Notably missing from the team roster was S/Sgt. Dick Johnston, who was discharged earlier last week. Johnston was well-known to Fort Knox sports enthusiasts. He piloted all of the 784th AC&W teams for the past

Sports **Personalities** Jerry Purdy

dy is a broad-shouldered, moor faced winsome guy, who became interested in the game of golf when he did some caddying as a third-grader back in his native Cincinnati, Ohio. He quickly mastered the knack of walloping a golf ball 275 yards and today stands as one of the country's fin-est young amateur golfers.

Since his arrival at Fort Kno Since his arrival at Fort Knox in June, Purdy, a member of AOB 10, The Armored School, has displayed eye-opening golf during his outings at Lindsey. The sandy-haired 23-year-old combines a power game with finesse and deft putting.

At 15 "Jasper" entered the Me-tropolitan Caddy Championship, shot a sizzling 69, and won the tournament. He succeeded Ton Nieporte, a highly rated player who captured the 1953 All-Army Golf Title. Purdy duplicated his victory in the caddy event.

In his high school days, he wor most of the Cincinnati area junior links tourneys. The championship play of Purdy attracted thattention of Sam Snead, the king of the pros, who observed him or one occasion during his last year of prep school.

"Wanna job?" Snead asked the stunned youth at the story book neeting Speechless, Purdy nodded yes. For the next three summers, Purdy was Snead's protege at the Greenbrier Hotel in White Sul-pher Springs, W. Va., where Sammy is the traveling pro.

"Jasper" has served Snead as combination caddy, valet de cham-bre, alarm clock, range finder, wit, bodyguard and fly swatter in many of the blue-chip golf

Following his high school days, Purdy was offered a handsome scholarship by the University of Arizona. He accepted the opportunity and proceeded to annex countless honors in collegiate links competition.

In 1952, while attending summer ROTC camp at The Armored Center, he won the National ROTC Championship with a final dramatic blazing round. He resistered birdies in five of the last

Purdy credits Snead with much of his success, stating, "He is patient, kind and a great teacher. I think he is the greatest tee-to-green player of the modern golf age." After his Army stint, Purdy hopes to turn professional and possibly follow in the footsteps of the fabulous "Slammin" Sam.

U. S. Army Hospital Here Expands X-Ray Examination Facilities

Recent instillation of two general-purpose X-Ray machines, valued at \$18.000 each, enables the Radiology Service of the U. S. Army Hosoltah here to process almost any type of X-Ray examination required for diagnosis.

Due to a greatly increased demand for all types of X-Ray service which, according to Lt. col. If X-A. Vinson, Chief of Radiology Service, has made X-Ray one of the busiest sputs on the post," two other machines have been installed this year—another general purpose X-Ray, and a photofluorographic device for chest X-Rays.

Chest X-Rays, Col. Vinson stated, outnumber all other kinds of examination requested, but necessary to the control of the cont

conditions.

X-Rays at the hospital are used only as an aid to diagnosis; no radiator therapy is employed. Herapy is employed, therapy is employed thents were X-Rayed, and a total of 118,459 exposures were made. Specialized fluoroscopic procedures have to be scheduled in advance. Appi intensit for 1,899 fluoroscopies were made last year.

WANTED

THOUGHT FOR TODAY

Chaplain (Capt.) Charles C. Prince

I have always been interested in what puts the tick in a watch. When I observe people in action I am equally concerned about what makes them behave as they do. In the event of any sort of malfurction on the part of a watch, it can be corrected only by someone who knows something about what makes it tick. The same is equally true in the realm of personality. There is all too much malfunction in our day on the part of personalities. To correct that malfunction there must be some understanding about what makes the person concerned tick.

This is only an approach by analogy to a study of motivation. When a person is observed to be following any given line of procedure, there must be some reason for his behavior or he should be considered entirely without reason.

We are concerned with the normally reasonable people because they are the ones among whom we live and with whom we have to do. Why do the people with whom we associate every day behave as they do? Since they are reasonable people, there must be some reason for their behavior.

Why then do we find some people going out into society and doing some things which are below the moral dignity of a human personality? Unless there is within a man that which is above him he will yield to that which is below him. That is why it is of such continuous importance that proper attention be given to our own religious life, whatever form that may take, It is through our religious experiences that we so relate ourselves to reality that we may receive into ourselves that which is above us as a controlling factor that we may not yield to that which is beneath us. We cannot afford to take the chance created by the neglect of our religious life.

. . . . The Passing Scene

An Article in the Interest of Your Life (Fourth in a Series)

We are not psychologists. We cannot attempt to analyze the modives or impulses by which rational human beings become automotive killers. We know that some of these are too complex to understand. But some are so obvious that they sound a steady them derstand. But some are so obvious that they sound a steady theme throughout our statistical surveys. Excessive speed is a killer; so is driving while intoxicated, weary or ill. Violation of the rules of the road is a prelude to disaster; so are gross carelessness and the willful abuse of highway etiquette. Although it is not our function to analyze or moralize, the conclusion is obvious. In most accidents, the guilty party is man and not machine, mind and not motor, reflex and not roadway.

If the passing scene is to grow more peaceful and less deadly, the great change will have to come from the drivers and pedestrians who are now causing fatal accidents at the rate of more than ninety per day. Today, the automobile is a mixed blessing. Only by personal commitment to care, caution and control can we restore it to the role of useful servant and end the reign of terror on which we ourselves have started it.

Days of Occurrence of Accidents - 1953

Week-end wreckers were responsible for more than 15.800 deaths and almost three-quarters of a million injuries in 1953. Is leisure a license for manslaughter? The next trip you take, be certain you allow enough time for safe travel. This is especially true for servicemen who travel mostly on weekends when traffic is heaviest. Be SAFE and you'll be SURE to get there.

This new ration is a far cry from the World War II offering. It includes such stomach satisflers as chicken and gravy, canned shoestring potatoes, canned peran roll and, for the first time in any ration, canned bread.

Other new components of the rations are canned applesauce, pears, two kinds of pork and beans, ham and gravy, vegetable beef soup, sandwich cookies canned pound cake, processed cheese, vitamin fortified peanut butter, pancoated chocolate candies, chocolate coated fudge bars, vanilla cream bars, and dry cream for coffee

Each item is the result of extensive research and study of sci-entific personnel of the Army Quartermaster Food and Container Institute, Chicago, with the ac-tive assistance of American in-

"PERILS OF FREEDOM"

Chaplain (Capt.) Marvin E. Jordan

There is an old Chinese proverb that says, "You cannot build a statue out of rotten wood." How true this is, not only in terms of statues but in terms of civilization, in terms of cultiure as well. Just as surely as rotting wood is poor material for the building of lasting statues, so a civilization that is rotting at the core is doomed to destruction unless the evils that threaten the very life of that civilization can be cradicated.

The greatest perils to our survival are to be found deep within our own culture, for here it is we are suffering from tragic loss or breakdown in those virtues that once made our civilization great.

It was H. G. Wells who said that in the known history of the world twenty-three civilizations have risen and been destroyed. Twenty-three civilizations have risen, flourished, become sinful, decadent, and destroyed. Assuming that Wells has seen clearly the stages through which these civilizations have passed, where in this scheme of things, would you place our civilization? Where would you place the United States of America? Certainly our nation arose from humble beginnings. Certainly America is sinful. Are we now in the decadent stage?

It seems paradoxical to say it but it is nevertheless true that one of the greatest perils to freedom is freedom itself. On every hand there are people who desire to be free. But they act as though freedom meant complete license to do as they pleased. In a sense, this is true, God gave us the power to choose. Therefore, our freedom is limited only by the choice of our actions. We have, for example, the freedom to use our minds. You can choose to study or you can choose not to study. You are free to learn, and also free to be ignorant. You see, in your very freedom lies the great danger.

We have, also, the freedom of our appetites. Many of us eat too much. Then there are those, and the number is tragically large in America today, who had the freedom to drink as little as they wanted or as much as they wanted. But though they had the freedom of choice to do or not to do they have absolutely no choice with the results of their actions.

Good fruit can come only from good trees. By self-discipline, self-control or limiting our actions we can remove the rotting core from our social life. The basic principles of religion continue to be the only guiding light which lead men into true freedom. The greatest perils to us, the perils to our society, the seed of our destruction, are not found primarily in far away places and in the other fellow. The breakdown of those virtues that once made our country great is our real danger. We must have sound character, a vision of the right in order to achieve the good life.

Captain in Charge

WASHINGTON (ANF) — A captain once was the commander of the United States Army.

From June 20 to Aug. 12, 1784, the Army was commanded by Captain John Doughty. Under his command were 80 privates with a proportionate number of officers. No officer above the rank of captain remained in service.

The 30 privates were divided between Fort Pitt and West Point, 25 at Pitt and 55 at West Point. Their duty was to guard stores of supplies.

Second Army Marks

(Continued from Page 1)

ime in American military history, two field armies, Second and Third, were opposed. It involved about 400,000 men, plus extensive use of armored force.

Territorial Army

The Second became a sevenstate territorial army on June 11, 1946, with headquarters at Baltimore. One year later, headquarters was transferred to Ft. George G. Meade, present headquarters. The Second Army area includes Pennsylvania, Maryland, Virginia, West Virginia, Ohio, Kentucky and Delaware.

Second Army, always alert and ready for demanding situations, will forever remember the objective given it by General Lear; "An army fit to fight . . . an army fit to meet veterans in the field and take the field from them and suffer the least losses."

Sports Sidelines

By George M. Glasser

LAST SATURDAY AFTERNOON WAS A DARK PERIOD in my life. There I was, parked cagerly in front of the television set waiting in vain for the Cleveland Indians to come to life. I, as most other enthusiastic fans, thought that the record-breaking club could almost walk away with the series by making an appearance on the

THE BASEBALL EXPERTS ARE NOW TOSSING OUT ALIBIS for the dismal showing of the Indians. Not that I consider myself a baseball expert, but I do have an opinion on the matter. The winning of 111 games in one season took a lot out of Cleveland, just as it would any other club that could pull off such a feat. Losing the four games in the series certainly isn't anything to boast about, but by the same token it shouldn't detract too much from the greatness of the Cleveland team.

THE FIRST TWO GAMES OF THE WORLD SERIES could have gone either way, depending on who got the breaks. At that point, it appeared to me that the Indians ran out of gas. In the third and fourth meetings, Lopez's boys did their best to aid the Giant cause. It reached the point where I cringed everytime Wally Westlake got his hands on the ball in the final game.

LIKE ALL GOOD BASEBALL FANS ALL I CAN SAY is wait 'till next year. At least I hope things will be different.

Trivia: A lot of fine football teams bit the dust last week. WIS-CONSIN topped MICHIGAN STATE. ILLINOIS bowed to a surpris-ing STANFORD cleven. The biggest upset of the week was PUR-DUE taking a two touchdown victory over NOTRE DAME . . . FORT ORD captured the All-Service Baseball Title. They defeated the NORFOLK NAVAL AIR STATION, 5-3, in the deciding contest.

761st Tankers Devise New System; Profit Sharing Works Wonders

It's "one for all and all for one" over in the 761st Med.

Tank Bn., as Community Chest ticket salesman have abandoned "profit making" in favor of "profit sharing." And the system is paying off in terms of increased proceeds for the Fort Knox Campaign.

Customarily, when a man sells a book of ten Community Chest

worth one dallor each, he is entitled to turn in nine dollars to the campaign and keep one dollar for himself. Now, the 761st Battalion has come up with some thing new.

Each one dollar profit is turned in to a battalion fund administered by CWO Robert W. West, battalion adjutant. The money to purchase two prizes that are given away in a drawing at the end of the week. To make the contest possible, each ticket stub, bearing the purchasers name, rank and unit is laboriously reproduced (Continued on page 8)

AWOL Report

The end of another month saw four more companies preparing to take that week-end pass for the best AWOL record in their respective commands. Here are the final results for the month of September:

In CCA, C-84 came up with the best record for the month. Able 709 won out in CCB and A-29 took top honors in CCC. The winning company in Div. Trains was Able 23 and two companies came out all tied up in DivArty with the official winner still unannounced. The

A-509 Steady Best Mess Winner; 3 Wins - 4 Awards In Two Months

By Sgt. Leonard Meshak
September 24 marked a red letter day in Co. A, 509th
AFA Bn. mess hall. By winning the 3d Armored Division
Best Mess Plaque on the 24th, Able set a record of three
consecutive wins and four awards out of four tries in the past two months.

Since the 1st award on march 12, the Best Mess Plaque has hung in Able's mess hall on seven occasions — March 26, May 28, July 23, August 27, Sept. 10 and Sept. 24.

In addition, Able's mess has

been chosen as DivArty "Best Mess" on nine separate instances. The credit is about evenly divided among the outstanding mess stewards, past and present, and an experienced force of cooks. M/Sgt. Clarence Reed, steward from January to April, Sgt. Fred Miley, from April to August, and Sgt. Sheldon O. Melton, steward from Sept. 1, have contributed many long hours of extra duty aimed at improving the unit mess Cpls. Bill Weaver and Jim Murray, PFCs Al Wiedmann, Joe Smith. Chest Sales Reach 39% of Goal \$24.000 Collected First Week

The 3d Armored Division Fall Community Chest Drive got off to a fast start last week as major and separate commands reported a total collection of \$24,021, nearly 39% of the quota set for the entire campaign.

Hq. Co., 3AD sets the pace with has collected 55% of its quota and other commands are in this order: DivArty 44%, Div Trains 40% 45th AMB 33%, CCA 27% and CCC with 23%.

It was reported that several ompanies have already exceeded their quota for the campaign, but at press time all the facts were not available so those companies will be listed in the next issue.

The Division's goal this fall is \$64,036. Last fall the opening week of the campaign collected only \$8,000 or one-fifth of the \$40,-000 goal. Last spring, the first week's sales totaled \$15,291 or nearly 50% of the goal. Percent-February of this year was designed to be bolted on the standard Army cot. A Company

Company A is in the midst of an eight week basic combat training program. Last week's training consisted mostly of the men mastering the PRI circle along with a few other classes in Military Justice, CBR and Preliminary Driving Instruction. The company is still considerably under strength but is fast filling up what with new men being con-stantly assigned. Tension is mounting in the company as the men anxiously await the arrival of their new tanks which are due to arrive in the very near future.

Brig. Gen. Samuel Myers Named Asst. Spearhead Commander

Tobacco Leaf IV Held October 30

Tobacco Leaf IV, a continuation of last year's successful mythical exercise, Tobacco Leaf III, will be staged Saturday, Oct. 30. It will be launched simultaneously from Fort Knox and Fort Meade, with more than 1500 officers and enlisted men from The Armored Center taking part.

Tobacco Leaf IV is a 2d Army CPX and map maneuver of 24 hour duration based on a tactical problem of an army in an attack of a prepared enemy defensive

The imaginary campaign, pitting mythical invaders against theoretical defenders, will be renewed in its seven-state area, including Kentucky, exactly where it left off last year. Last year's cessful crossing to the eastern shores of the Susquehanna River. The Tobacco Leaf exercises are series which started in 1950. Lt. Gen. Floyd L. Parks, com-

mander of 2d Army, will have overall supervision of the exercise. Maj. Gen. George W. Read. Jr., commanding general of Armored Center, will command I Corps. I Corps will consist of five skeleton divisions, including the 3d Armored Division, an mored cavalry regiment and two regimental combat teams

There will be no direct move ment of troops in the exercise which is a test of staff functioning and communications systems. But commanders will be called upon to solve on paper a succession of problems that might occur during the course of a campaign.

Kindergarten Prep Still Enrolls Kids

Fort Knox parents may still en roll pre-school age children, two to five years old, in The Armored Center's pre-kindergarten school.

Classes at the nursery school meet in the mornings, Monday through Friday, from 8:30 until 11:30. The school program in-cludes story telling, song and dance group work, art and clay work and supervised organized team play.

The school, located on Bullion Blvd., north of Chaffee Ave., can accomodate 125 students with classes for age groups of 2-3, 3-4 and 4-5 years old.

A complete reorganization and remodeling of the school took place during the past year. Five large classrooms and additional playground equipment are now in

regardless of the date of registration. For more information phone 6753.

WASHINGTON DISPATCH REVEALS BRIG. GEN. BEISHLINE'S SUCCESSOR

Brig Gen. Samuel L. Myers this week was named the new assistant commanding general of the 3d Armored Di-vision, succeeding Brig. Gen. John R. Beishline who left last month for Fort Riley.

Gen. Myers' appointment was revealed in a brief dispatch received here Wednesday from Washington.

Neither his last assignment nor the date he was to assume his Neuner nis last assignment nor the date ne was to assume nis duties with the Spearhead Division was available at press time. A native of New York, Gen. Myers was born Jan. 31, 1905. He received a Bachelor of Science degree and his commission from the United States Military Academy in 1928.

Among the awards he holds is the Distinguished Service Medal, Legion of Merit and the Bronze Star.

He is a graduate of several service schools, including the Command and General Staff School, Troop Officer Course and the Quartermaster School.

Gen. Myers began his Army career as an enlisted man in 1923. In July, 1924, he received his appointment to West Point.

TAC Officers See Ealin Firepower Show

William Gaunt, Jr., of Louisville, civilian aide to the Secretary of the Army, and Brig. Gen. Charles V. Bromley, assistant commandant of the Armored School, were joined by nine other officers of the Armored Center last Sunday in a flight to Eglin Air Force Base, Fla., to witness a special aerial firepower demon-

stration. duced by the Air Force Proving Ground Command, one of the major Air Force commands whose job is to test and evaluate weapons used by the Air Force. According to Lt. Col. Howard T. Wright, Air Force liaison officer at The Armored School, the demonstration, which is put on thrice yearly, is limited to 2000 persons, all of whom must be

specifically invited. It was the first time, according to Col. Wright, that an Army School was given a quota for attending the demonstration with the idea of promoting cross-service education.

An Air Force C-47 flew the Armored Center group to Florida Sunday morning, returning to

Staff Sections Switch To OD Uniforms Monday Personnel assigned to the Gen-

eral and Special Staff sections at The Amrored Center will switch to the winter uniform Monday.

Jackets may be removed in office but, upon leaving the offices, jackets will be worn and buttoned.

Changing of uniforms to the OD is also set for Monday at The Armored School.

Other major unit commands at Fort Knox may go into ODs any-time until Nov. 1, when ODs are mandatory for the entire post.

Italian Training Chief Tours Armored Center

Col. Lazzaro Dessy, chief of training for the Italian Army General Staff, toured the Home of Armor last Wednesday and Thursday.

Primarily interested in the methods of instruction and training at The Armored Center, Col. Dessy visited the Armored School headquarters, made a tour of its departments, inspected training in the 3d Armored Division, and was briefed on the Army's system of processing and discharging soldiers at the 2048th Personnel Center.

THOUSANDS CAME TO GODMAN Army Air Field last Saturday to witness the huge air show which was the featured attraction to the state of the largest assemblies of air power ever put together for a civilian as well as millarly audience. Highlight of the show was a daredevil act of precision flying at low altitude by the famed Thunderjels. Estimated turnout was more than 10,000.

"THE GOAL OF HAPPINESS"
Chaplain (Capt.) John J. Cunningham
When we look at the bewildering complexity of man's work and the manifold motives that drive him to work, we cannot help asking what inner compulsion moves man to his labors. Does the poor man work just for a crust of bread or a roof over his head? Is the rich man seeking only to build up large reserves of wealth? Is the roue interested only in pleasure? Is power the only goal of the ambitious? If mankind is really one, if all men really possess a similar nature, what is the key to all their actions?

nature, what is the key to an ineir actions:

The search for happiness is the common ground on which all human desires, all human ambitions meet. The child riding the tight circle of a merry-go-round, the jet pilot flying swifter than sound the vast circuit of the earth, the beachcomber avidly sifting his little to learn some of the language treasures from the sands of the seashore, and the great banker ser—"But now I'm forgetting a lot of iously charting the course of financial empire-all are searching for happiness.

Happiness consists in the possession of the Highest Good, that Object which alone fills up the longings of every human appetite. The sensual man does not find happiness, for his lust is scarcely satisfied before it breeds disgust or a craving for new objects. The same with the proud, the ambitious, the greedy among men. Each appetite cannot go off on its own tangent; rather, all desires must be reg-

ulated by right reason toward the possession of the Highest Good.
"Our hearts were made for Thee, O God, and they will not rest until they rest in Thee." (St. Augustine)

Maj. Fraser was given a pri-vate audience with Queen Frederika at the summer palace in the mountains. The queen, a charm-ing person, according to the major has taken a personal interest in the nurse corps and has aided it in making progressive post-war but of style.

Along with Maj. Cleopatra Av ayanou, Chief of the Queen Fred-erika Nurse Corps, Maj. Fraser helped formulate a law which was passed establishing an Air Force and Navy Corps to work with the Army Corps under one director.

PETER POTTER'S JUKE BOX JURY radio show originated the phrase above in connection with determining the merits of new records and their sales potential. The slogan has been "borrowed" by the Spearhead staff in the hopes that the current safety cam-paign under the direction of Col. Charles Parsons. Division G-1, will set a new safety record for the 3d Armored Division.

The purpose of the campaign is to reduce the number of private vehicle accidents. This display will appear in various spots in the 3d Armored Division area. The display is accompanied by a sign with a safety slogan. This photo was taken at the corner of Wilson Road and 7th Ave. by PIO photographer SFC W. D. Tilton.

17 3AD Units Pass Chest Quota \$35.325 Collected At End Of Second Week

AWOL Report

Once again sights are being set on that week-end pass at the end of October as companies in each 3d Armored Division command begin another month of competition for the least number of AWOLS

In last week's returns, C-84 was off to an early start in CCA. CCB's top outfits were Charlie 709 and Baker 122. CCC started off with a bang

eight companies came un with a perfect record in the first week. Those companies were Able, Baker and Charlie of the 13th, Dog 29. Able and Dog 36, Charlie 37, and Charlie 367

Just about everyone was rid-ing on top over in DivArty as 14 companies were reported without AWOLs. They included Able and Baker 54; Baker and Charlie 57; Able, Baker, Charlie and Service 65, Able and Charlie 67, and Able, Baker, Charlie and Service 509.

The boys of the 761st Med. Tk. Bn. must have a rabbits foot in every locker beacuse two of their men, Pvt. Leonard F. Mulheren of Charlie Co. and Thornton Byrem of Baker Co. have each won a clock radio as a weekly prize in the Community Chest raffle. Pvt. Mulheren was the first weekly winner in the Division and Pvt. After the second week of last Spring's campaign, \$23,652 had more money has been turned in, the Division is 21% behind the record set in April of this year.

The remaining 47% is within reach if we each do our part. Perhaps if Fort Knox residents would contribute one dollar for each member of the family we'd smash the 100% mark and set a new all time high in contributions. When you contribute, each additional ticket boosts your chances of winning a prize. Those three '54 automobiles will be won by somebody, so why can't that somebody be you?, and there is a long list of other awards plus the two weekly prizes.

Only four fund raising campaigns are permitted on Fort Knox each year. The Commun-ity Chest Campaign is the biggest because it supports many varied activities such as the Boy Scouts, Girl Scouts, and the Salvation Army to mention a few. The camprizes

Well, the 3d Armored Division will leave the weather situation to meteorologists, but it has done something about the AWOL problem. The answer to the AWOL woes of other Army posts might be solved by the Spearhead Division's solution to the absence problem.

Maj. Gen. Gordon B. Rogers

commanding general of the 3d Armored Division, initiated a new program during the month of August which was designed to re-duce the incidence of AWOLs within the Division. The general's program utilizes the principles of

fair play and team spirit. General Rogers authorized Saturday morning off for the company of each major command which had the lowest record of ew AWOLs for that command for each calendar month. If a man goes AWOL now, he hurts the Saturday morning off, and when he returns to the outfit, he has the sour looks of his companions to bear. Team spirit enters the picture when a pal talks his buddy out of going AWOL with a phrase such as this-"Yeah, for two days you'll ruin a pass for all of us. Be a pal and forget buggin' out."

Perhaps this program sounds too simple to work, so here are some figures to back it up. The AWOL rate for the Division in July was 634; the program came into effect August 1. The AWOL rate dropped to 504 in August and

Individual Attitudes Stressed

(Continued from Page 1) of some tragic auto accident and thought the "dumb fool" shouldn't have even had a license? Safety is everybody's business — so the slogan goes — but how often do most drivers think that phrase applies to them?

Three Kentucky State High way Troopers are trying to im-press the student drivers of Division Trains that every highway safety factor applies to them individually. These three men— Cpl. Walton G. Evans, and Troopers Mac E. Brady and Paul Simms, ave been giving freely of their time to lecture the men on the causes of driving accidents. Everything is taken into consideration from the condition of the vehicle to the manners of the driver and his skill.

These lectures are given every two weeks in the Automotive Battalion of Div. Tns. and each drivtalion of Div. This, and each driv-ing student attends the class during his second week in the school. The lectures began in April and approximately 3,000 men have attended the talks.

After the troopers complete the talk, M/Sgt. Ralph Short, sergeant major of the Automotive Battalion, emphasizes that strict obed-ience of traffic laws and post driving regulations will constantobserved and that any breach of these driving rules will result in a strong reprimand. Then he distributes the following message which is taken from the back of a book of matches:

ST. CHARLES TOPS

KNOX HIGH 12-7

Loss of aggressiveness and a multitude of injuries combined to put Knox High on the short end, of a 12-7 score in a clash with a spirited St. Charles eleven at Lebanon last Friday evening.

St. Charles crossed the goal line in the opening period and again in final quarter, while the Eagles were only able to hit pay dirt in the game's dying moments.

in the game's dying moments. Right tackle Otto Havens and fullback Bernie Smith have been added to the injured list. Havens with a charley horse and Smith with a buised hip. Bill Luther played in the contest, but was the hampered by an ankle injury incurred in the Elkhorn clash along with a shoulder seperation and a pulled leg muscle suffered earlier in the season.

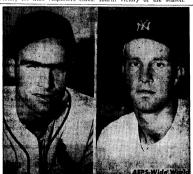

The host St. Charles squad marched to a touchdown midway in the opening stanza when the left halfback romped 35 yards around his own right end for the six-pointer. The boot for the extra point was wide and score was 6-0.

Neither team scored again un Neither team scored again until the last period when the left half again broke loose on the same play that was successful earlier in the evening and were 40 yards for another TD. The Saints were unsuccessful on their second point after foundhown attempt of the evening and the score stood at 12-0.

The Eagles came back to life in the game's final moments when crippled right half Bill Luther ran to the left and heaved a run-ning pass to left halfback Gary Perry. Obbie Fryxell picked up the extra point on a quarterback sneak as the Knox suffered its second defeat of the season 12-7.

Knox High's punting was woe-fully poor and repeatedly put them in the hole. Defensively, the Eagles showed flashes of bril-liance, but both of the victor's touchdowns resulted from lapses in alertness.

The Eagles dominated the sta-tistics, but that doesn't alter the final outcome of the contest. Knox had nine first downs to six for the St. Charles eleven. DivArty Takes Opening Football

Lt. Flavious Smith of Instructor Group, CCB, 3d Armored Division, is a men anyone would like to meet — but not on the gridiron. He is a veteran pro foot-ball player who has seen action with the Los Angeles Rams and the Pittsburgh Steelers.

During the 1952 season, he played the opposite end of the Rams' line from his good friend the famous Elroy "Crazy legs" thirsh. The next season he was traded to the Pittsburgh Steelers, where he remained until he decided upon a coaching career and returned to school.

Lt. Smith began his football career as a tackle for Central High in Cookeville, Tenn. In his senior year he switched to end and has been an outstanding performer at the position ever since.

While in high school, his pig-skin ability caught the eye of many college scouts and offers poured in from both large and small in-stitutions. He decided to attend a smaller college because "Things would probably be more friendly," Tennessee Polytechnic Institute where he played four years of varsity football and basketball.

After playing with the Rams and the Steelers the husky lieutenant decided that he'd like to coach a small college eleven. He entered George Peabody in Nash-ville, Tenn., last fall to work toward a Master's Degree in Physical Education.

Lt. Smith, a big jovial fellow came on active duty Jan. 20 of this year and is currently as-signed to the CCB Instructor Group.

May 5, 1954, was an important day in the life of Flavious Smith. The hearts of TV viewers throughout the nation were very happy for Lt. Smith and the former Mary Jane McMurty as they exchanged matrimonial vows over the Bride and Groom TV Program.

Bow And Arrow Deer Hunt Oct. 23-31

A controlled bow and arrow deer hunt will be held on nonrestricted areas of the reservation Oct. 23-31.

The areas that are open to hunting each day will be clearly marked to avoid any misunderstanding.

A registration station will be established at the Rod and Gun Club where all hunters are required to check in and out daily. Hunters are requested to report the number, sex and location of all deer seen. Hunting areas will be assigned to individuals for safety purpose.

Registration of hunters will be-gin on Oct. 22, with hunting get-ting underway at daylight on Oct. 23. Shooting is permitted during daylight hours only, with hunters allowed in the field one-half hour before and after shooting hours.

Archers cannot take firearms or crossbows into the hunting areas. Deer may be hunted only with a long bow of 45 lb, pull or over. The minimum width of sharpened steel broad-head arrow points is 46 of an inch. The use or possession of barbed arrows while hunting is prohibited.

Hunters will be allowed to take ne white-tailed deer of either

officers, Ninety members Armor Officers Basic Class No. 1, making up 30 crews, participated in the problem that cov-ered a 52 mile course on the reservation. The record time for completing the problem was ten hours.

The chief objective of the problem is to develop better and more competent officers.

staff of The Armored School hope that the exercise will give officers better appreciation of terrain and the value of moor terrain and the value of mo-bility. The night activity will increase officers' training and confidence in ability to move cross-country at night and arrive at designated destinations. opportunity is given to the officer to test the knowledge acquired in school and his ability to put that knowledge to work.

Lt. Col. J. R. Degenhardt, of the Command and Staff Dept., The Armored School, conceived the exercise and supervised the running of it. Brig. Gen. Charles V. Bromley, assistant commandant, The Armored School, witnessed the problem and complimented the students and the fac-ulty on their fine work. He stated 'It was a job very well done.'

Lt. George L. McMillin finished the exercise with the highest number of points, 895 out of a possible 1000.

WE'RE CLEARING THE DECKS FOR NEW MODELS - WHY NOT CASH IN ON THE SAVINGS

We are determined to completely clear out our stock of used cars prior to show date of our new 1955 Chrysler and 1955 Plymouth, which is scheduled for November 17. We have only one way to reach this goal and that is to pass big savings on good, clean used cars on to you, our friends and customers. Come in and work out your own terms on these cars, or the other bargains you find on our lot

1951 CHEVROLET - \$675

Fleetline Deluxe two-door with radio and heater. Extra nice condition. Priced unbelievably low at only \$675.

1950 CHRYSLER

Windsor Deluxe four-door sedan that is specially priced for this sale. Don't miss this value. Equipped with radio, heater, automatic drive.

1950 PLYMOUTH - \$585

4-door special deluxe in good condition, yet priced low! Radio, heater and other accessories. A real buy!

1952 CHRYSLER

Saratoga club coupe with V-8 engine. Radio, heater, white wall tires and au-tomatic drive. Many other accessories. Far above average. Must see to appre-ciate. Exceptionally fine bargain on this

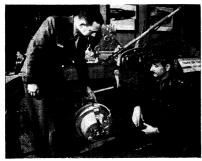

We ask you only to compare these prices and come in to see us. Check our cars. There are no gimmicks in this sale. It is just a complete wash-out of our stock of good used cars to make room for the trade-ins we will soon be taking on 1955 model Chryslers and Plymouths.

Low...and behold!

The motoramic Chevrolet for '55

Chevrolet and General Motors took a whole new look at the low-cost car—and just look what happened!

NOW BEING SHOWN!

The valve-in-head V-8 as only the valve-in-head leader can build it!

Now Chevrolet, the leading builder of valve-in-head engines, introduces the "Turbo-Fire V8." It carries the V8 design to a new high in efficiency with its high horsepower (162), high-compression (8 to 1), high performance and surprisingly high gas mileage. Available with standard transmission, or with the extra-cost options of Overdrive or Powerglide.

You can choose from two new sixes, too!

Chevrolet also offers the last word in six-cylinder performance and econ-omy! There's a new "Blue-Flame 136" teamed with Powerglide and a new "Blue-Flame 123" with either standard transmission or Overdrive.

Can't you tell just by looking that Chevrolet and General Motors have come up with a completely new idea about the low-priced car? The idea is this: to build a car that offers the very newest thing in styling, the most modern features, the finest kind of performance and the highest quality of manufacture—all at a modest price. It's ng that took a lot of doing and that only the world's leading car builders could do. Everything's new in this Motoramic Chevrolet from its lower top right down to its tubeless tires. Come in for the most fascinating visit you ever made to an automobile showroom!

The boys in A-7, CCA, think he His name is Wedge-Nut and he's no ordinary "troop dog." Wedge-Nut is a bull terrier (Stafford-shire Terrier, if you want to get technical), and his history goes back to 1865. That's when the Nut's ancestors were called "pit dogs." They were bred especially for the gentlemen's sport of dog-fighting. A couple of mutts were put in a pit and it was dog ent terriers, bred especially for fighting, son earned the nickname "gladiators of the canine world."

At the beginning of November, the ancient Druids had a three day feast. On the eve preceding this celebration, the Druids spirits and the dead roamed through the villages and fields in a search for humans

upon which to cast spells of evil. Druids lighted gigantic bonfires to drive away these ghosts from their homes. The festival of Pemona, goddess of fruits and gardens, occurred about this time of year in the days when Rome was the greatest city in the then known world. The re-membrance of this goddess was an occasion of gayety associated with the bountiful harvests. Nuts and apples served as symbols of the store of food for the winter months and were roasted before huge bonfires in the streets of

Today, most of these Hallowe'en celebrations remain unchanged in festivities on that black night of Oct. 31. Both the young and sometimes the old, mainly in the British Isles and the North American continent, still gather together to hunt nuts and goodies by going from door to door in their neighborhood, dressed in costumes, playing the game, "Trick or Treat." Usually they are treated, because to turn them away emptyhanded is to invite goblins to your home who will prob-ably soap your windows or commit some other visi-ble form of mischief. From the goddess of fruits and gardens of ancient Rome we get the game of ducking for apples bobbing in a tub of water, and the scarey pumpkin jack o'lanterns, rustling cornstalks and white-sheeted ghosts roaming the countryside creating an air of mystery similar to the Druids and Birtons of ages long ago. Later innovations are the black paper witches, skele-tons and frightening black cats, all omens of evil which are used as modern day party decorations

HIGHLIGHTS FROM THE 701st

Battalion Headquarters saw the "Topside" brass making news this week. Lt. Col. Slattery, battalion commander, spent much of the week on the range knocks annual range practice was accomplished with a high score, Maj. Glass, battalion executive officer, returned from his leave behind the wheel of a spanking new Mercury Minner S.3, began preparing for his semi-annual PT Test.

Company "A" greeted two new arrivals in the persons of Sgt. Norwood, coming from an Army Reserve unit. and Sgt. Lake, arriving from the MP Detachment, Sendai, Japan, where he served as desk sergeant.

Leaving Able Company this bast week were Sgt. Manns to the Louisville MP Detachment, SFC Milby to the Highway Section, and PFC Clarke to the Battalion Training Aids Section.

With the advent of training, Company "A" looks forward to, and longs to look back on, their week of range firing. Also, during the past week the men completed the PT (Many of the men claim "PT" for physical torture) test.

Dennis Delaney, obviously shaken by the birth of a baby son and the Michigan State - Notre-bright of a baby son the state of the state

Cpl. Herbert Jones is the newest member of the Baker Company roster, but is far from being a new member of the army. Jones enlisted in this man's army in November 1929—that's about twenty-five years ago!

Baker Company cooks have challenged any of the other companies to a weight contest. No, yours truly didn't make a missake, I didn't mean weight lifting contest. Our cooks all weigh many, many pounds but I doubt if they could lift much.)

Company "C" has lost the services of SFCs Prewitt and Shannon. Prewitt has been transferred to the Louisville MP Detachment, while Shannon has gone to Headquarters Company for future service with the Highway Patrol.

Waiting patiently to become fathers are Cpls. Spinner and Mattingly. From the nervous look on their faces, one would be inclined to believe they are the ones having the babies.

Tobacco Leaf Lessons Termed "Invaluable

Lessons of a "new warfare" were evaluated this week after bursting atomic bombs heralded the end of Exercise Tobacco Leaf IV last Sunday.

The chess-board type of map war, involving men and weapons that existed only on paper, ended at 11 a.m. Sunday with the I Corps of 2d Army still short of its goal of seizing and securing Philadelphia from the imaginary aggressor.

3 Bns. in Louisville's Veterans' Day Parade

Three battalions from Fort Knox will be featured in the annual Veterans' Day Parade to be held in Louisville, Thursday, 7:30 p.m. Participating will be the Battalion, the 526th Armored Infantry Battalion and a composite battalion from the 11th Armored Cavalry Regiment.

Approximately four hundred men will be in each battalion.

The parade, which has been held for a number of consecutive years, but was cancelled last year, will begin on Brook St. and march west on Broadway to 18th St.

Col. Willis T. Smith will be the Commander of the Troops and music will be furnished by the 3d Armored Division band.

Also included in the contingent from Fort Knox will be five M-48 tanks from the 131st Tank Battalion, five M-47 tanks from the 30th 'Tank Battalion, and five-M-41 tanks from the 38th Reconnaissance Battalion. Eight M-75 Armored Personnel carriers will Dec. 18 through Jan. 2. be sent by the 11th Armored Cavalry Regiment.

RO Personnel Ad Payday Boom Breaks Mecks 1400 Here Last Spring's Record

The Fort Knox Community Chest Drive went over the top with a booming payday collection this week making the total contributions, as of last Wednesday, a record-smashing \$104.139.00.

Besides surpassing the \$100,000 goal, the amount beats the record collection made in last Spring's Chest Drive by almost four thousand dollars.

VETS' DAY NOV. 11 On Nov. 11 the United States

takes time out to remember all the men and women who served in the Armed Forces during WWI, WWII and in the Korean War-the officers and EM: the regulars reserves and draftees:

All served with the spirit that has been a hallmark of the Armed Forces since the day of the Revolutionary War.

Some did heroic jobs. Others performed the small, seemingly unimportant tasks necessary to keep a huge fighting machine in action

Nov. 11 was named Armistice Day originally. But it was so named when people hoped that WWI would be the last war in history. Much lead has passed through the air since 1918 and manu- men and women have worn the uniforms of our nation since then.

And so Armistice Day has become Veterans' Day to honor them all. Prior to the Monday payday impetus, 25% of the goal was lacking.

Lt. Col. Edmond J. Padgett. Special Services officer and chairman of the drive, said "I wish to express my gratification to all units and personnel at Fort Knox, both military and civilian, for their enthusiasm and whole-hearted support in exceeding our objective?

A-2128 And Hq. Det. School Troops Fare Well In Co. Level Football

Co. A, Hq. Bn., 2128, and Hq. Detachment, School Troops, are gaining attention in their respect-ive drives toward The Armored Center Company Level 11-Man Touch Football Championship.

Hq. Detachment has three victories under its belt, a:30-0 romp over the 522nd Engineers, a 6-0 triumph over 38th Recon and a win over the 487th Transportation Co. to the tune of 18-0.

A-2128 also has a perfect rec-ord in three contests: They can boast of two victories over units in the 701st MP Bn., 13-12 and 9-0, and a hard-fought 13-7 tri-umph over B-2128.

The Co. A roster shows that a representative group from the representative group from the unit is participating in the sport. The list is headed by Cap. Howard, commanding officer, 2d Lt. Westlake, executive officer, and SFC Adams, duty sergeant.

The winning team in each league will participate in The Armored Center Championship Tournament that is scheduled to begin December 6.

Mrs. Artman states that Early American Decoration is somewhat of a misnomer, since much of it is neither early not American, but it has come to be the generic term for painting furniture, trays and odd pieces of tin. It is a craft and once the techniques are learned, skill is developed by practice. Creative artistic telent practice.

3AD ON MOVE AS CPX ENDS

Armored Division Spearhead was drawn back, muscles flexed, ready to deliver its best Sunday punch in the Second Army campaign to wrest Philadelphia from the hands of Aggressor forces.

This was the part the famed Spearhead Division was to play in Exercise Tobacco Leaf IV, the 24-hour Command Post Exercise that began last Saturday morning, October 30 and was concluded on Sunday morning, October 31.

Poised to move eastward through Quarrysville, Coatesville, Downington, Marshalton, and the Community Chest quota Westchester, Spearhead forces can show the entire state of Kention northeast of Philadelphia thus denying Aggressor the capability of reinforcing from the Newark area. The mission was to be accomplished after attacking and seizing a vital crossing over the Schuylkill River in the Norristown-Conshohocken - area.

The campaign began officially at 1100 hrs., Central Standard article, it is very likely that the Time (0600 hrs., maneuver time) quota has been reached because on the morning of October 30. of contributions on payday this By the night of the 30th, Spearhead commands, being held in reserve, had moved to a forward assembly area 10 miles from the starting point at Wrightsville, 65 miles from the final objective. This position brought them closer to the front formed by the 100th and 83rd Infantry Divisions. Here, the 3d Armored Division would be poised to move out without delay when the go-shead signal

26% Away From Goal

If you are reading this article on Friday, Nov. 5, there will be exactly six days remaining in the community chest campaign. On Nov. 11, there will be fifteen delight ed persons around Fort Knox; winners of the fifteen the grand prizes. The way to boost your chances of being one of those fifteen prize winners is to buy more tick-ets and lower the odds.

Whether or not you win a prize in the drawing, each of us is a winner. Remember the slogan, "When everybody gives; every-body benefits." body benefits.

Although Fort Knox is a military post, it is actually a city. In fact, the fourth largest in Kentucky. By reaching or exceeding especially the Spearheaders, are civic minded and that they have a pride in their city.

Ticket sales in the 3d Armored Division for the last week in Oc-toher reached a total of \$49.032. This is 74% of the quota representing a per capita contribution of \$2.59. As you are reading this past Monday.

Hq. Co., 3d Armored Division, still leads the way with 106% of its quota reached. Per capita contributions in that unit figure at \$3.70. CCB has collected 90% of its quota, Div. Tns. 80%, DivArty 79%, the 45th AMB 70%, CCA 66% and CCC has attained 60% of its quota.

Next week the Spearhead Staff is hoping to report 100% ri

3AD Finance Office Is A Busy Place; 23,000 Payments Made Since Sept. 16

23,000 payments have been made since the 2 officers and 29 enlisted men of the 12th Finance Section opened for business in the old G-4 building on Sept. 16, 18,500 pay records are handled by the Class "B" Finance Office, which services approximately 79 units or detachments of the 3d Armored Division.

which accumulate 4% interest, a higher rate than normal bank in-terest or the interest on Savings Bonds. One sergeant in the divi-sion who had been thrifty throughout his tour of duty, with drew \$8800 from his sol-diers account when he was dis-charged recently. That is the largest single payment which has gone through the office. Several other enlisted men have made withdrawals in the neighborhood of five thousand dollars upon their discharge.

The 3d Armored Division had finance office 18 months ago but it moved to Post. In September, the Class "B" Finance Office moved from Post to the Division to bring about quicker set-tlement of payments due members

of the Spearhead Division.

Previously, Spearheaders had to

There is a somewhat amazing trek to Post for advice on money story concerning soldier's deposits problems. Trainees often found it difficult to make the trip during office hours. This closer contact between the 12th Finance Section and the men it serves, has resulted in greater efficiency and satisfaction for those with financial problems.

Permanent party desiring to attend the language school should initiate their application in their company. Trainees may inquire during their Specialists Interview during the first week of training. The chances of being assigned to the Chinese Mandarin classes are very good as the quotas have been increased and men are urgently needed to fill the classes.

Chinese Mandarin classes begin on Jan., 13, Feb. 10, Mar. 17, April 21, and May 19 of next year.

It's a good deal! The presidio of Monterey is approximately 120 miles from San Francisco — an ideal distance for a three day pass. It's worth looking into. If you'd like to learn more about the school, see your company commander now.

3AD On Move

(Continued from page one) One of four possible plans of action was to be followed by Spearhead forces.
Plan No. 1 called for CCA and

CCB to move abreast through the lines of the 100th Inf. sector, first directly toward and then North of Philadelphia, Plan number two would utilize the 83rd Infantry Division sector south of the 100th Infantry position, CCB and CCC would move abreast under this plan of operation, pouring through the lines of the 83rd across Oxford, West Grove, Kenneth Square, Concordville and Media. The third possibility would move the d Armored Division commands astride the boundary lines sep-trating the 83rd and 100th Diisions on a direct line toward Philadelphia. The fourth plan of attack called for a drive on a Philadelphia. narrower front in the south portion of the 100th Infantry Divi-

ion sector.
On he morning of October 31,
he 3d Armored Division was laced on 30 minute alert. Major General Gordon B. Rogers, 3d Armored Division Commander, received the I Corps order committing Spearhead forces in the 100th Infantry sector. Highway routes No. 3 and No. 4 in south portion of the 100th Divi-sion sector were specified as the two routes of attack. After passing the front lines, CCA and CCB, the two commands involved, were to fan out and advance as scheduled to the final objective northeast of Philadelphia.

After commitment, the 3d Armored Division picked up supporting attachments to aid it in its advance. These supporting bodies included the 307th Engineer Group, the 107th Armored

TRAIL OF THE EAGLE is the grinding road to the highest award of the Boy Scouts of America. Scouts receiving the Eagle Badge of Fort Knox Troop 128 at a Court of Honor held at the High School auditorium on Oct. 28 are, left to right, Patrick Cummings, Blake Keasey, J. Roy Degenhardt and Gary Goldman. Brig. Gen. William H. Wood, deputy commanding general of The Armored Center, (right) presented the badges.

By Chaplain (1st Lt.) George R. Young

Most people are "Blind followers of the blind," they let others think for them, act for them, or influence their actions. Mental inertia has been the curse of all ages. Thought is the main process of finding ways and means for improvement. Cattle cannot think they are easily stampeded; people do not think as a rule, and are easily carried away on a wave of passion or excitement. One man who thinks in an emergency, often saves many lives. The faculty for, and act of thinking is proof of individuality, and this mark of distinction and worth is stamped on every thing yet give the world to further the progress of man. Your individuality, whether of high or low degree, is you reflected in words, deeds

Individuality is that quality which distinguishes one person from another. Individuality is your true self, the truth as God has incarnated it in you. You cannot be true to yourself unless you are true to your true-self. The man who is true to himself is thus true to his 'God, true to mankind, and true to the universe of which he is a chosen unit. Never 'try to be someone eise. The man who tries to be someone else, rather than himself, is a double railure: he is not himself, he is not someone else. he is a counterfeit.

To be fiatural, to be yourself, to be original, to be independent, to stand four-square against all opposition that would thwart a worthy purpose, is a mark of high individualism. To cry aloud for liberty at the peril of life, as did Patrick Henry, to stand for your convictions at all times, is the mark of distinctive individuality.

God gave each bird its own wings with which to fly; He gave God gave each bird its own wings with which to fly; He gave each person a brain with which to think, a life to live. To neglect this individuality means to fail not only yourself but God and all mankind. To full your mission in life, whether artist, musician, worker, or contributor is to write indelibly your individuality upon your work. The world honors its men of great and enduring things—"Holl to those who live their lives without fear or fawn; hall to all who build for tomorrow."

Funeral Held Here Wednesday For School Superintendent

Funeral services were held Wednesday at the Post Chapel for William E. Kingsolver, 56, superintendent of the Fort Knox Dependent Schools for the past 14 years.

Mr. Kingsolver's body was recovered from an abandoned well Monday morning in a range area at Dorrets Run, approximately eight miles from the main post. He was reported missing Sunday afternoon after he failed to return from a trip to the range to exercise his hunting dog

An all night hunt, headed by his son, Leon, basketball coach at Elizabethtown High School, resulted in the discovery of his body in the weed-obscured well at 10 a.m. Monday. Medical examina-tion showed that the well-known Kentucky, educator suffered a bruise on his right temple, apparently when his head struck the cement wall rim after he stepped into the hole. The autopsy showed that he had died as a hours. Burial in Indiana

Another Big Term Expected at AEC

Registration begins Monday for the next term of the Army Education Center's USAFI night school program.

A registration as big (or even bigger) than last term's recordbreaking registration is expected. The registration will continue until Nov. 26.

Classes at the Army Education Center on Old Ironside Avenue will begin Nov. 29 and end on Feb. 18. There will be a recess for Christmas on Dec. 16 to Jan. 3, according to Capt. John A. Quigley, head of the TI&E De-

ONE LAW By Chaplain (1st Lt.) Leif N. Frandsen

Some people go through life plagued by two laws of living; one for themselves and one for their felly man. The one which they apply to others is very strict, and they are always ready to criticize the other if one least particle of that law is violated. How ever, the law they apply to themselves is rather loosely constructed in fact it is full of loop holes. And the owner of this set of laws is very familiar with all the loop holes. He uses them often: It's only human, I was forced, 'Charlie got me, into this ...' and lots more.

But can we really live under a different law from that of our fellow man? Could we have two rules of mathematics? How would you like to use one rule when you paid out change to another, and and a different rule when you received change? Very confusing, wouldn't be? But we cannot expect others to treat us kindly, courteously, or honestly if we do not do the same to all with whom we have dealings.

God gave one law to Moses-a law that has been expressed in many ways throughout history. The important significance of that law is LOVE. Love God and mankind—seek the universal welfare, good, for all people, a good that will not depend on place, or persons, or doctrine, or creed, a good that is love in action.

When we seek that which is good for all mankind, we are un-selfish, generous, thoughtful, and considerate of others needs. We are too busy to think, about our own wants, because we are doing a job; and we want that job to be done well. The busiest men are the happiest men. They are happy because they are obedient to the spirit of God's law of unselfish love. Their reward is in the oratifuled of seeing their work believe howelings and is in the gratitude of seeing their work bring happiness to others. This happiness cannot be destroyed by any attacks on the workers, for they have the satisfaction of knowinge that they have lived according to one law—they have loved God and loved man impartially.

Armor Packets One Year Old This Week Col. William Luther First Packet CO Recalls Early Problems

It was one year ago last Wednesday that the first Armor Familiar Face Recalls packet company went into cycle in the 3d Armored Division. packet company went into cycle in the 3d Armore Bivisin. And the man who holds a special's set of memories concerning Nov. 10, 1953, is Capt. Clarence B. Roberts, newly appointed S-3, CCA, who was commanding officer of the first company to receive advanced Armor training under the

new system. stem. V Roberts came to Fort Knox from Korea in July, 1953, and became Assistant Committee Chief of the CCA Gunnery Comchief of the CCA Gunnery Com-Group):

On November 10th of last year, after a month of arduous preparation, Capt. Roberts took over the reins of Able 83 and the experiment was officially underway.

The company was at full strength for that initial cycle with one officer (or platoon leader) and one NCO for each of the nine platoons. Such is not always the case at present when the problem of furnishing nine officers to each of the many units in cycle has become a more difficult one to cope with. Consequently, many of "growing pains" of that first cycle in Able 83 were counter-balanced by a fine degree of organization and integration.

One of the problems faced by Capt. Roberts was the status of his tank commanders. Unlike the tank commanders of later months, these men were experiencing the training for the first time. Fresh from leadership school, they lacked the advantage of a preparatory cycle.

To solve this situation, Capt. (Continued on page 8)

Story From The Past

When M/Sgt. Eugene Grant stepped through the Freedom Gate into Freedom Village during the prisoner exchange of "Operation Big Switch" in Korea, August, 1953, he was greeted by a group of American soldiers and led to a vehicle which would take him to a hospital, warm bed, good food, a beer — the things of which a POW might dream.

Three months later, Sgt. Grant, now serving in DivArty, came to why CCB can maintain such a the 3d Armored Division and was assigned to the CCB Instructor Group. He taught first aid, map reading, pistols and machine guns. Of his 13 years in the service, over seven were spent in overseas duty as an infantry platoon sergeant of a TO&E outfit. This experience gave him the back-ground to not only teach these subjects, but to make each lecture vivid and interesting, to the delight of restless trainees.

During one or these lectures,

Sgt. Grant saw a face at the back of the classroom which looked familiar. He'd seen it before, but where he couldn't remember. Overseas? Maybe. But some guys had been just have a habit of looking like capable of destroying the best people you might know. Sgt that any enemy could offer. Grant went on with the class.

New Maintenance Plan At Able 32 Points Way To Greater Efficiency

Credit for the newest experiment in tank maintenance goes to Able 32, CCB, where an "assembly line" maintenance plan is demonstrating the way to place greater efficiency and broader know-how in the hands of the tank commander.

The idea, originally conceived by Capt. Harold I. Shue; CO, Able 32, calls for an eleven station work area. These eleven "check points" each deal with a different phase of maintenance. In charge of each station is an NCO specialist whose job it is to uncover deficiencies and supervise their correction.

Basically, the idea is serving a two-fold purpose: First, the "assembly line' meth-

leaves no stone unturned as far as maintenance is concerned. By the time a tank has passed through all eleven stages of the work area, vital details have been checked and rechecked. All nec-essary adjustments are made so that upon completion of its processing, each tank is in nearly perfect operating condition for start of the next cycle.

Secondly, the plan enables the men selected as tank commanders for the coming cycle to learn each phase of tank maintenance in a more, thorough manner than the busy weeks of training permit (Continued on Page 8)

AWOL Report

The Division contest to reduce the AWOL rate produced a difficult problem for Div. Tns. last' month The 143d Signal Co. and D-23, AEB, had an even tie. Both units are getting a Saturday morning off. Other recipients of a free morning off are C-84 of CCA, B-33 of CCB, B-13 of CCC. Diva Arty had no report available for the unit of that command getting a Saturday morning off.

Low companies this week are C-761 of CCA, Hq. Co., B-122, A and B-32, A, B, and C-33 and B-709 in CCB; B, C, and D-13, B and C-29, A B, and D-13, B and C-29, A B, and D-36, C and D-37, and the en-tire 367th Bn. of CCC. One in-teresting note — CCC's D-36 has gone two months without a single AWOL:

DivArty had nine low companies this week - A and C-54, C-57, A and Svc. 65, C-67, A, B and Svc. 509. Congratulations.

Maintenance, although still a major problem in every advanced Armor cycle, was even a greater challenge in that first 10 weeks. The training schedule was a full one and left no time for maintenance during the course of the day. after duty hours and on week

"Out of that first ten weeks," said Capt. Roberts, "we had only about three week ends off."

Even in those early weeks, the tremendous value of the new packet system of training was apparent. "It was the best thing that ever happened to Armor," added Cant. Roberts.

Operating under obvious diffi-culties, the quality of instruction in that first cycle spoke for itself. In gunnery alone, 98% of the men, in the company qualified. Of this number 18% were Experts and 137 were Gunners First Class. The idea of training men to become all around tankers seemed to act as an added incentive. It increased the interest and enthusiasm of the trainee in the job he faced,

"We faced many a problem in that cycle," said Capt. Roberts. "and did our best to iron out all the bugs beforehand. But when new bugs developed, they were, of necessity, ironed out on the snot "

At the completion of the first cycle six platoons shipped to the Far East, two to Alaska and one to Europe. Since then more than

and shipped under the new system. 71 have gone to Europe, 21 to the Far East, four to Alaska and five to the Caribbean. Within the United States, 34 Spearhead platoons have gone to the 3d Army, 34 to the 2nd Army, 123 to the 4th Army, 11 to the 5th Army and ten to the 6th Army. Most of these platoons were scheduled for further training with TO&E outfits before shipment overseas.

The packet platoon system has As a consequence, the bulk of come a long way since its birth maintenance work was carried on in November of 1953. In one short year of operation it has proven to be a "precocious child." Its great 'success has been plainly evidenced by reports of outstanding achievement from points all over the world where Spearhead trained outfits have served. The challenge of the field has proven the tremendous effectiveness of such a plan of training.

(Continued from Page 1) It is simed at making daily m tenance procedures almost second nature to the tank commander.
In this way, he becomes capable of spotting existing deficiencies and can quickly point out to the members of his crew exactly where there is work to be done and instruct them how to do it He has gained a head start for the cycle that faces him and the results will soon pecome apparent in terms of the overall condition

of his tank. Under the "assembly line" all "gigs" of a first echelon nature are worked off as they are detected at each station, and a final T.I. (or technical inspection point) catches the deficiencies that may have been missed at previous check points. If at this point a deficiency is caught the tank is sent back to the station where that particular phase of mainte nance is handled.

In order of succession, check points deal with: 1. Suspension system 2. Body bolts (Armor system 2. Body Doits (Atmor plate) 3. Commo equipment 4. Main engine (oil and battery check) 5. Greasing 6. Artillery 7. T.I. (final check point) 8. Second echelon work (welding, ex-tensive engine repair and other jobs performed by trained me chanics only) 9. Cleaning 10 10: Washing 11. Painting. The tanks spend approximately

average of from six to eight tanks will go through the entire operation in a day. Work has been un-avoidably slowed down by training commitments that have kept several tanks out in the field.

Spirited Teamwork

The demonstration utilized three platoons of tanks furnished CCB, one acting as a base of fire body, the other as a maneuver element, and the third as reserve strength for the second. Supporting fire was provided by 105-mm. howitzers firing High Explosive and White Phosphorus ammunition. An additional maneuver element, a single platoon of Armored Infantry, provided .30 cal. M-1 ritle fire 23 7 Amorea

The FIRE and MANEUVER

plan was utilized to gain maximum effect with minimum loss. The task of the base of fire was to pin down the enemy, keeping him occupied while the maneuvering force moved in to strike us ing whatever cover and concealment was available.

The first platoon, in laying down its base of fire, covered not only the area from which it was receiving enemy fire, but also the stretch of ground covering the probable route of the maneuver element. When at last the second tank platoon and the Armored Infantry moved to a point where they could deploy and assault the enemy position, mortar fire was thrown in for additional support to the 90-mm, base of fire. For safety reasons, all base of fire

are in the shops for monthly and one hour at each station and an quarterly repair, not all of them will go through the new process

Instrumental in the success the experiment have been 2d I.t Burton Bailey, Able 32 Motor Officer, 2d Lt. James C. Stoner, Bn. Motor Officer and overall superseveral tames, out in the next.

Now, in 183 second week (of op- viscos) 2d Lt.P.C. As Parinim, Baker, cration, the "assembly line" has 32 Motor Officer, and 2d Lt. many of the company's 45 tanks tive officer.

and mortar support was kent at least 800 yards from the maneuvering elements, although under actual combat conditions would come as close as 100 or 200 varde

The final phase of the action began began as the second platoon moved toward its objective after the base of fire and mortar support had sufficiently ed the enemy position, laying it open for attack.

At no time during the demonstration did fire upon the enemy's position cease. One section move un as the other section fired until a position of defilade near the objective had been reached.

The Armored Infantry carriers (M-59 Full Track Personnel Carriers) followed at a distance of approximately 120 yards behind the firing second tank platoon. Closing in with the tanks upon the assault position, the Armored Infantry were then dismounted for a full scale mopping up action.

For the 3,000 trainees on hand to see the show, CS Fivette was a convincing demonstration of the importance of "teamwork within tank, teamwork within the platoon, and teamwork within the company." Once again it was proved that "Armor is truly the Combat Arm of Decision."

3rd Battalion

In order to develop a keen com-petitive spirit and maintain high esprit de corps, the 3rd Battalion under Lt. Col. Paul L. Jolley has instituted a new sports program. It revolves around the presentation of permanent type trophies for the unit wihin the battalion for the unit winh the battanon that is tops in each major sport. The trophy itself is presented at the end of each sports season after a regular tournament has been run off.

On a point basis, i.e., winner receives 20 points; 2nd place receives 15 points; 3rd place 10 points etc., a beautiful 19" trophy is to be awarded in January 1955 to the top sports company within the battalion.

Major sports in which the units compete include; Volleyball, Bas-ketball, Softball, Bowling and 11 man Football.

Up to this point the Volleyball trophy has been awarded to Com-pany I, the Softball Trophy to Company H while Bowling, Foot-ball and Basketball competition still underway.

He reside on post with his wife, Kathryn, and eight-year-old daughter, M. y Anne.

Ninety-nine persons signed un in the first two days of registration for the night classes offered at the Army Education Center. The figure, AEC officials pointed out, indicates an even bigger registration than last term's record

More than 500 persons at Fort Knox took advantage of the excellent education program last term in what is considered the "greatest" scholastic term ever conducted here.

Registration, which began last Monday evening, will continue until Friday, Nov. 26. It is being conducted in Building T-217.

Classes at the Army Education Center on Old Ironsides Avenue will begin Nov. 29 and end on Feb. 18. There will be a recess for Christmas from Dec. 16 to

The classes offer an opportunity to work toward a high school diploma or college degree at absolutely no cost to servicemen. Textbooks and other supplies are furnished free. Civilians are welcome to enroll for the cours where servicemen enrollment eaves vacancies

Hospital Patients To Be Feted At Annual Christmas Party On Dec. 16

Initial plans were made at a meeting Tuesday morning for a Hospital Christmas Party, to be given December 16. The party is sponsored annually by volunteers of the American Red Cross service groups here at Fort Knox for the enjoyment of patients in both the Brick and Old Cantonment Hospitals.

Chairman of this year's party is Mrs. Eva Maples, who is also airman of the Gray Ladies.

Plans for this year's party will follow very closely those of last year. All bed patients will be entertained royally in their wards and all ambulatory patients from both hospitals will be brought to

THE WINNING WAY . . COURTESY!

ANNOUNCING CHRYSLER FOR 1955 WITH THE 100-MILLION-DOLLAR LOOK

It's HAPPENED! Here's a wholly new direction in automotive styling for all cars to follow. And it took Chrysler for 1955 to do it: America's top performer and the first in the coming generation of motorcars! Come see it! Everything about it is completely new, and dramatically different. Here's the car with the 100-Million-Dollar Look . . . and when you own it and drive it, you'll feel like every million of it!

Chrysler for 1955 is long and sinewy and low. It's a sleek, clean length of steel that looks as if it might have been born in a wind tunnel. Washed free of clutter.

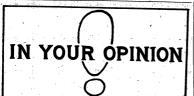

Purposeful as an arrow shot from a bow! New front-end . . . you can spot it a mile away! New Super-Scenic sweptback windshield . . . with corner posts that slant back to allow safest possible vision. New tapered rear deck. New sweeping silhoutet that's inches lower than other big cars. New Twin-Tower tail-lights that say "Stop!" with great authority. New PowerFlite Range-Selector on the dash that completely outmodes conventional levers on the steering column. And new fashion-forecast luxury interiors that surpass in color and richness anything you've ever

seen in any but custom-built motor cars!

Come drive it! Every Chrysler is now a V-8 -with engines up to 250 HP, the most powerful type in the world. Famous Chrysler engineering brings you Power-Flite, most automatic of all no-clutch transmissions. Full-Time Coaxial Power Steering and new double-width pedal Power Brakes. Plus new tubeless tires! Everything is here you need . . . to drive, as well as look, ahead of all others. Come see America's most smartly different cars today. See for yourself why now, more than ever, the power of leadership is yours in a Chrysler.

This is the first of a "Turret" inquiring reporter series. We're calling it "In Your Opinion," and that's what we're interested in — getting your opinion . . . on questions that we'll dream up week to week.

We'll be around to see you one of these days, with a question and a photographer to take your picture. Hope you'll be looking for us.

This week we open by ask-ing what kind of questions you, our readers, would like to have aired in this column. We posed it this way to the four surprised persons you see pictured below: "What kind of questions do you think ought to be asked for "In Your Opinion." These are the answers we got.

The most recent call came from Hardin County Memorial Hospital for donations of type O, Rh neg-ative blood which is possessed by only 15% of the American popu-

Eugene Harris, age 42, of As Cycle Graduates Lugene Harris, age 42, of Leitchfield, Ky, underwent sur-gery for an abdominal condition on Monday, Nov. 8. He began hemorrhaging and blood transfu-sions were administered.

The hospital only carried one pint of the type needed and local donors were called upon in Elizabethtown. Soon that source was exhausted and a plea to the Louisville blood bank was turned down as none was available there.

Gaston Hurd, administrator of the hospital, contacted Col. A.
L. Tynes, The Armored Center
Surgeon and asked for his assistance. Fort Knox officials dispatched a pint of the needed blood immediately.

After 12 transfusions, the pa tient's condition improved, but the next morning he began to hemor rhage once again. Another phone call was placed to Col. Tynes and a quick search of 3d Armored Division medical records revealed two men with the rare type blood. They were Cpl. James Brush of Bridge Co., 23d AEB, and Pvt. Jack Steele of Hq. Co.,

Chi Coll Henry L. Gillenwaters, this Octette from the Youth for Christ Choir there did great credit to the post. They were exceptionally well trained, were very sincere and earnest. They are looking forward to another similar group in our church.

The Chaplain brought a most excellent message in the evening service.

Rev. Jones is the popular young minister of the Hillsboro (Ohio) Christian Church. He is a noted speaker for civic, youth and religious groups throughout the Ohio Valley Area. An invitation is extended to all to attend.

Another Youth For Christ note.
The YFC choir will sing at the
Beaver Dam Baptist Church on
Sunday, Nov. 21 at 7:15 p.m. The
service will be broadcast over

CCA and Div The came up with perfect records in Army Motor Vehicle Accidents during the month of October, CCA personnel drove a total of 23,691 miles withdrove a total of 23,691 miles with-out an accident while Div Tns racked up a total of 37,009 safe miles: In the six month average it was CCA leading the way with .63, or one accident in 158,960 miles. DivArty, took second place with three accidents in 124,905 miles: (2.40).

Div Tns, CCA, and CCB finished up one, two and three re-spectively as far as relative standing of training was concerned. These ratings are based upon the results of TAC and 3AD Training Inspections, End of the Cycle Proficiency Tests, and PT Fitness
Tests. All three commands were
rated Very Satisfactory. CCA
moved into first place in the six month standings, dating from May with Div Tns running a close second. Both received ratings of Very Satisfactory. The Div Tns average, however, was compiled from inspection results for the months of August, September and Octo-ber only. These were the only figures available.

In three other fields, including In three other fields, including Delinquency Reports, Courts-Martial and IG Complaints, top ratings went to DivArty. CCC was second in Delinquency Reports and Hq-3AD took second place in both IG Complaints and Courts-Martial. For the six month rating in these same three fields, Hq.-3AD led the way with .148 in Courts-Martial, DivArty showed a perfect record in IG Complaints and attained first place with a 1.39 in Delinquency Reports.

Out of 34 men eligible for re-enlistment in CCA during Octo-ber, a total of twelve reenlisted. This put CCA in first place in that department with 35.2. Div six men reenlisting out of a total of 32 eligible. (18.7) The standor 32 eligible. (18.7) The stand-lings were reversed for the six month ratings as 46 out of 117 eligible reenlisted in Div Tns (39.3) and 54 out of 160 reupped in CCA (33.7), 45th AMB ran a close third, with 31.4.

CCA outclassed the field in Soldiers' Deposits by piling up some impressive figures both in October and for the six month period dating from last May. 160 period dating from last May, 180 CCA men participated in Soldiers' Deposits during October for a total of \$10,800.00 (7.36). A total of 2287 men have participated since May and this number is good for a figure of \$27,529.00 (13.15). In second place for Oc-tober was Hq-3AD with 14 men participating for a total of \$900.00 and CCC rated second for the six month period with 215 men par-ticipating for a total of \$6,820

In Beltline Discrepancies, Hq-3AD came out on top in October with 14 men beltlined and only one deficiency (7.1). Winding up in second place was 45th AMB with 449 Beltlined and 42 defice iencies (9,3). Over the six month period, 45th AMB climbed into first place with 2559 Beltlined and 273 deficiencies (10.6) while Hq-3AD dropped to second with 109 Beltlined and 23 deficiencies

From know-how gained in building

50 MILLION CARS

an all-new General Motors masterpiece

TIAC FOR '55

The 1955 Pontiac is getting a royal welcome. "It's hot," they're saying, "the hot car of the year." And no wonder! With its Vogue Two-Tone styling and Strato-Streak V-8 engine, Pontiac wraps up more beauty, luxury, size and power than a like amount of money ever bought before. The price is near the lowest, but the car is way out front ineverything that makes an automobile great.

The reason lies in the achievement General Motors is now celebrating-the vast experience gained in building 50 million cars. Research experience that uncovers what you want and need. Design experience that creates new trends. Engineering experience producing more dollar-fordollar quality year after year.

That's the background of this All-New General Motors Masterpiece. Come in, drive it, and find out what it means to you. Let your own eyes tell von that here is the smartest car on the highway. Let your own hands report the new handling perfection brought about by recirculating ball steering and other advancements in the all-new shock-proof chassis. And let the great new Strato-Streak V-8 whisper its tale of getaway, response and compelling power that make driving a brandnew experience.

Then let us tell you about Pontiac's new thrift and reliability—and how little it costs to buy this future-fashioned beauty. Come in soon and get the exciting facts!

"RE-ENLIST! - DO IT NOW!"

Chaplain (1st Lt.) Paul R. Hansen

"I don't get is! MUST be a mistake, All" Cpl. James Mix ex-claimed. "But there it is hanging over the front of the Chapel! 'S' funny place for it, if you ask me. Why would the Chaplain let anybody hang something like that, on the outside of the Chapel? Why it's big enough to be seen for 300 yards!"

Cpl. Alan Dawson was confused, and countered, "Say Jim, What d'ya say we go over and ask the Chaplain tonight about it? Curiosity has really got me!"

has really got me:

That evening two curious young gentlemen strolled over to the lighted front steps of the Chapel, walked quietly down the siste, paused briefly to look at the softly lit altar, and then stepped to the door of the rear office. Al knocks—a few moments of silence and then the door opens.

"Good evening, men! Come in, please!" The chaplain warmly says. They all sit down, but before the three are settled. Jim asks: "Chaplain would you tell us I mean, why did you ... well,

present way of seit-inving, and turn to Jésus Christ again . to rededicate themselves . . to re-enlist in Christ's on-moving Armyl "For you see when you believe in Jesus Christ as your Savior, you must also take Him as your Lord . . Fon who ever would save his life will lose it, but whoever loses his life for my sake, he will save it.' Guike 9: 23-24).

"Yes, Jesus Christ, is the Commander-in-Chief of the whole Universe—to belong to His Army means that we ENLIST EVERY

area of our life!" ...
"But I'm not so sure it will do it," Al suggested

"No," the Chaplain replied, "the sign won't do it. Only the per who reads it and takes it seriously can do it."

You see, the sign read, "Re-enlist!—Do it now!"

It's got a "V" in its bonnetor your choice of two new sixes!

The motoramic Chevrolet for '55

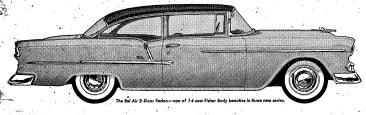

It's the valve-in-head V8 as only the valve-in-head leader can build it!

You'd expect Cheviolet to out V8 the field—and it has! Chevrolet's new "Turbo-Fire V8"; puts a brand-new kind of excitement under your foot. The excitement of 162 horsepower! The excitement of an 8 to 1 ultra-high compression ratio that squeezes more, pure fun out of a gallon of gas than you ever dreamed possible! The new "Turbo-Fire V8" is so efficient that it requires only four quarts of oil instead of the usual five or more. And it has the shortest piston stroke in the low-pire field, for longer engine life. But we can't even begin to give you the whole story here. Come in and drive the new "Turbo-Fire V8".

With enough new advances to fill a book!

Chevrolet offers two new highstepping sixes for 1955! There's the new "Blue-Flame 136" (teamed with Powerglide as an extra-cost option) and the 'new "Blue-Flame 123." Both bring you new, higher-rated power-the zippy, thrifty high-compression kind. Both have new, more efficient cooling and lubrication systems . . . new engine mounts that result in almost unbelievable smoothness. And, like the new "Turbo-Fire V8," both are sparked by a new 12-volt electrical system for finer performance and faster cold-weather starting. They're the liveliest, noothest sixes Chevrolet ever put into a passenger car!

More than a new car...a new CONCEPT of low-cost motoring (and much too good to miss driving!)

ABRIGHT NEW FRESHNESS greets your eyes and tells you. Buick's done it again.

You see it in the bold distinction of that gleaming Wide-Screen Grille. You see it in the rakish sweep of the rear-end contours. You see it in the whole fore-and-aft newness of fleet-lined grace that marks Buick the beauty thrill

New horsepower - up to 236

You learn more when you get the power story. Up to new peaks go the horsepowers of every Buick V8 engine—a walloping 188 hp in the low-price SPECIAL—a mighty 236. hp in the CENTURY, SUPERand ROADMASTER.

And it's new, more responsive, far abler power you can literally feel as von do

But even bigger Buick news for

1955 is something more than style and power. It's what the "variable pitch propeller" now has done for Dynaslow Drive.*

Up goes performance and gas mileage too

When you find it necessary to push the pedal to the floor board, you do more than call on the greatest high-compression V8 power in

You do what a pilot does when he heads his plane down a runway.

You do in oil what he does in airyou cut down take-off time by using "variable pitch propellers."

In this case, the propeller blades are inside the Dynaflow unit. But they're engineered to swivel or change their "pitch" just like plane propellers-and with the same

result: one pitch for getaway, another pitch for gas-saving fuel efficiency.

And what you get in the way of instantaneous safety-surge with absolute smoothness; you can only believe when you feel it.

This you have to try

Of course, we want you to come and see the trend-setting new Buicks-look into the betterments in gasoline mileage that add new thrift to these spectacular cars.

But this year, "seeing" is only the beginning. So—while you join the crowds, viewing the new Buicks this week end, make a date to get behind the wheel as soon as you possibly can. We promise you the thrill of the year.

LT. COL. SUTTON LEAVING FORT KNOX Knox Gives \$5000 TO RETURN TO "MERRI AULD" ENGLAND To Children's Fund

Military personnel always look forward to spending Christmas at home with their families, but few will appreciate this Christmas at home more than Lt. Col. S. P. M. Sutton of the British Royal Tank Regiment.

Col. Sutton has been at Fort Knox the past two years as British Liaison Officer under the Standardization Agreement between Great Britain, Canada and the United States.

His tour of duty here expired this week. He will be succeeded by Lt. Col. J. M. Strawson of the 4th Queen's Own Hussars who perpetuates the long and distinquished line of English liaise officers to serve at Fort Knox.

Upon his arrival in England next month, Col. Sutton will attend the Joint Services Staff College for six months, then go to Germany to rejoin the 8th Battalion Royal Tank Regiment.

Traveling has occupied a big part of the colonel's spare time while stationed in the United States. He has seen 41 of the 48 Canada, states, in addition to Cuba, Jamaica and Mexico, put-ting 37,000 miles on his car during these travels. He has especially enjoyed visits to historical battlefields of the Revolutionary War, like Bunker Hill, Lexington and Concord.

The well - known - about - post Englishman is an amateur photographer and will take back to his home in Teignmouth, Devon, movies and snapshots of his travels here.

Having practiced magic since the age of eight, Col. Sutton will also take back with him a mem-bership in the Louisville Magic Ring. He is also a member of the Louisville Beagle Club, an organization-which he says uses "hounds

we use teabags in making tea and we don't serve what we call warm beer.

Col. Sutton has vowed that "I'll never complain of England's climate again, after having experienced the greatest heat and cold of my life right here at Fori Knov."

Unmarried, the popular colonel will spend Christmas in Devon with his mother, brother, sister and their families.

He is very proud of the fact that during England's dark days of the war every member of his family, both male and female, was in the service of His Majesty the King.

Col. Sutton expressed his thanks to "everybody who has made my tour of duty at Fort Knox so exhilarating and enjoy

Training Suspended For Yule Holiday

All training, except basic and advanced individual training in the 3d Armored Division, will be suspended during the Christmas holiday period from Dec. 18 to Jan. 3, according to a directive from Armored Center Headquarters this week.

The holiday leave policy ex pressed in the memorandum said that it is desired that commanders grant leaves of absence to th maximum possible number of nnel during he holieligible pers day period. However, in granting insure that sufficient personne are available to meet organiza tion, main guard and special duty requirements, and to permit immediate manning of disaster and security forces.

The requirement that 50 per cent of all personnel be available is suspended during the holiday period provided essential functions can be performed with less personnel.

Hospital Cagers Edged By Western Kentucky In Practice

Hospital casers celebrated Vet-Day, Nov. 11, by taking on one of the nation's top teams Western Kentucky, in a practice game. The final score of the scrimmage session was 90-78 in favor of the Kentuckians.

Jim Paxson, former Dayton U All-American, led the scoring for The Armored Center aggregation with 19 points. Other high scorers for the Hospital squad were George Marshall, with 16, Bill Eckstrom, who netted 13

The victor's big man, 7'1" center Weber, was held to only eight points for the evening, but Cole came through to pour 27 points through the hoop.

Men of A-122 **Host Orphans Thanksgiving**

Approximately forty children from the Protestant Orphans Home in Louisville were treated by the officers and men of Co. A, 122 AOM Bn. to a dandy turkey dinner on Thanksgiving afternoon.

No one in the company can remember for how long the unit h been doing this fine deed, but Capt. Oscar Harig, transportation officer, reported that for the last three years at least, even while A-122 was in the 84th Bn., the youngsters were treated royally each Thanksgiving and Christmas

At Christmas, Capt. Harig becomes Santa Claus in a borrowed continued the men of Able company become his Brownies.

Not only is a tremendous amount of food placed before the chil-dren, but old St. Nick has a bag

full of gifts to distribute as well Maj. Samuel Brown, command-ing officer of A-122 stated that the men voluntarily contri-buted whatever they could afford to make this Thanksgiving one which the youngsters would long remember. And the Mess Officer, WOJG Boyd W. Wooten was well prepared for the many requests for second helpings, especially of ice cream, which the youthful appetities readily consumed.

Merry Christmas!

45th AMB Orientation Aims At Combatting 'Fear Of Unkown'

The bridge between civilian life and the regimentation of military service and group living is a long one. For some of the young men who are delivered to the 2048th Unit Personnel Center here each month, that bridge must be crossed with one step.

Within a few short days a re-|vice, what is to come, and mos

cruit is transformed from an in- of all, how he have spent evenings with the himself. gang in a high school hangout, to what seems like a small; insignificant cog with a serial number, covered with the same uniform other little cogs are wearing.

This feeling helps promote a lost sensation; sometimes a case of homesickness which for many is often unbearable. Fear of the unknown is common to all of us and for the teenager thrust into this man's Army, it is occasionally over-powering.

The 45th AMB has an orientation program which it presents to each recruit the first day he enters the Division. It is designed to remove this "fear of the un-known", by explaining to the young man why he is in the ser-

dividual, who at one time might his tour of duty, if he applies

'The orientation begins with a Hollywood movie production en-titled, "THE HOAXTERS". This movie, more or less, lets the box decide for himself why he is in the service by showing him how twice within one generation the United States was plunged into world war and acquainting him with present world circumstances

Then, Lt. Col. Kenneth C. Haycraft, commanding officer of the 45th, welcomes the men in behalf of Maj. Gen. George W. Read, Jr., commanding general of The Ar-mored Center and Maj. Gen. Gordon B. Rogers, commanding general, 3rd Armored Division.

Units training in Basic Combat and Common Specialist Schools who are due to graduate on either Friday or Saturday of Christmas or New Years week will in each case be graduated the Wedn preceding Christmas or New Years so they may be beltlined and shipped no later than Thursday.

Units in training in Armor who are due to graduate on Saturday of the week of Christmas or New Years will in each case be graduated the Thursday preceding Christmas or New Years and may be given passes for the Christmas weekend to include Christmas day or the New Years weekend to include New Years day, and will be required to return to the Division for outprocessing and packet platoon shipment.

All this - and more miles per gallon too!

Be sure to test out the phenomenal effect of "variable pitch propellers" in Dynaflow Drive*!

MAYBE-among the upcoming crop of new 1955 modelsthere's another car with an advance that can hold a candle to this one. But we doubt it. We doubt it because nowhere-among the rumors of what's cooking in automotive laboratories - is there anything to compare with what's actually happened at Buick.

It all started with the fact that modern air liners get two big advantages because they can change the pitch of their propellers.

First, they get off the ground hundreds of feet sooner than they used to.

Second, they can stretch their gasoline by setting propeller blades at just the right "pitch" for cruising.

MILTON BERLE STARS FOR BUICK the Buick-Barle Show Alternate Tuesday Ever

So Buick engineers asked themselves-"If you can do it with air, why can't you do it with oil-the oil inside a Dynaflow Drive?'

And to make a long story shortthey could, and they did.

They designed and engineered the propeller-like blades inside the "stator" of a Dynaflow Drive so they can change their pitch as much as 75 degrees.

That provides one setting for more-

miles - per-gallon, and another for an instant safety-surge of power when it's needed.

All you have to do is push the accelerator pedal down to the last half-inch beyond the full throttle positionand a-way you go! Of course, there's a lot more to

make a visit to our showrooms the 'must' of the new-car year.

There's a step-up in styling as sensational as the step-up in power.

And the step-up in horsepower is this: 236 in the ROADMASTER, SUPER and CENTURY-188 in the low-priced SPECIAL.

> But the thrill of the year is Buick's latest engineering "first"-and what it does for the man or woman who drives the latest and greatest Dynaflow Drive.

Thrill of the year is BUICK

Pay-off on progress!

Buicks today go a lot farther-on a gallon of gas, thanks to constant improvement in Dynaflow and in engine design. Even the new 236-hp ROADMASTER averages 4.8 more miles per gallon than Buicks of six years ago.

This is one of the most significant new-car announcements in Cadillac history.

For it introduces to the world's motorists the most magnificent creations in Cadillac's fiftythree years of motor car production.

Three new Cadillac series are offered for your

consideration in 1955-the famous Series Sixty Special, the beautiful Series Sixty-Two, and the distinguished Series Seventy-Five . . . in addition to the spectacular new Eldorado.

They are, as you can readily see, magnificent

in beauty-with a new, jewel-like grille and front-end assembly . . . with dramatic and graceful new sculptured side styling . . . and with added dignity and bearing in every detail.

They are magnificent, too, in performance. There is a new Cadillac engine, the most powerful ever offered in a production motor car . . . an improved Hydra-Matic Drive . . . advanced Cadillac Power Steering . . and, as an option at extra cost, refined Cadillac Power Braking. And they are magnificent in luxury . . . to a degree unusual even for Cadillac. Their interiors are almost unbelievably beautiful . . . and they are offered in a remarkably wide selection of gorgeous new fabrics and leathers.

Beyond any question, these new Cadillac creations represent a new Standard of the World -and we urge you to see and inspect them today in our showroom.

You will be most welcom will find your visit one of the most interesting experiences of your motoring life!

A GUIDE FOR LIVING

We need desperately today a guide for living. Such a philosophy of life is basic in the Sermon on the Mount, found in the 5th, 6th and 7th Chapters of Matthew in the New Testament.

Chesterton says that on the first reading of the Sermon on the Mount, it turns everything upside down, but the second time you read it, you discover that it turns everything right side up. The first time you read it you feel like it is impossible; the second time you read it you feel like nothing is impossible.

The Sermon on the Mount describes a Christian person. It is a guide not only to our conduct, but it indicates what our attude should be. Maintam Gandhi, once said, "The greatest need of Christianity is for Christians to practice their religion without toning it down."

Christians need to cease trying to tone down their faith, or to skip parts of the Sermon on the Mount. Instead, we need to live our faith. The world asks today, "Will religion work?" Those of us who believe in God, must demonstrate that His way of life works by the manner in which we live—by our unselfish attitude toward others.

Truly, a guide for living is found in such words of our Lord as:
"Blessed are the poor in spirit, for theirs is the kingdom of heaven.

"Blessed are they who mourn, for they shall be comforted.

"Blessed are the meek for they shall inherit the earth.

"Blessed are those who hunger and thirst for righteousness, for they shall be satisfied.

"Blessed are the merciful, for they shall obtain mercy.

"Blessed are the pure in heart, for they shall see God.
"Blessed are the peacemakers, for they shall be called sons of God.
"Blessed are those who are persecuted for righteousness' sake, for theirs is the kingdom of heaven.

"You are the salt of the earth; but if salt has lost its taste, how shall its saltness be restored? It is no longer good for anything except to be thrown out and trodden under foot by men.

"You are the light of the world. A city set on a hill cannot be hid. Nor do men light a lamp and put it under a bushel, but on a stand, and it gives light to all in the house. Let your light so shine before men, that they may see your good works and give glory to your Father who is in heaven."

Sgt. William Jones Cited In Food Service School

Sergeant William O. Jones, Co. A, 33d Med. Tk. Bn., CCB, has been cited by Lt. Col. Ralph B. Major, commandant of the 2d Army Area Food Service School as the honor graduate of his class.

Sgt. Jones completed the mess management course earlier this month with the highest course average of his class, 330 out of a possible 1,000 grade points. Col. Major said the enthusiasm which Jones displayed throughout the entire two month course made possible his high standing.

When word reached Sgt. Jones that he was top man in his class, he was left speechless. He was asked what meal he especially liked to prepare, and his reply was, "Any of 'em."

From all indications, Sgt. Jones likes his work and has set himself to the task of winning a few Best Mess Awards in the near

Hq. Co. CCC Wins Best Mess 3d Time

Three letters of commendation were sent last week by Maj. Gen. Gordon B. Rogers, commanding general, 3d Armored Division, to two officers and one non-com.

Capt. John G. Vasilake, commanding officer of Hq. Co., CCG, and Mess Steward SPC Henry F. Hamilton of the same unit were winning the Division Beard for Award for the third consecutive time. The Division Food Service Section of G-4 announced that this accomplishment ties the record recently set by Co. A' of the 599th APA En.

At the press deadline, the semimonthly competition for this half of November had not been held. However, if Hq. Co. can win for the fourth consecutive time, a new Division record will have been made. One interesting note is that A-509 is also in this contest and it's a sure bet they will the content of the content of the contest and it's a sure bet they will entrants. But the 509th has a special interest. If Hq. Co. should lose, it will mean that although their record is tied, no unit at least will have topped A-509.

attaining auch a high standard.

522 ARMD. ENG. CO.

Our loss will be the 160th Engineer Group's gain when Capt. Matteson leaves us on the 29th of November. This brings to an end his 13 months of duty with the company.

The gold bars that recently arrived in the company belong to Lt. Miller. He transferred from B Company of the 484th Engineer Battalion, where he served part of his seven years in the Army, six of which were as an enlisted

The week's three T/R's produced two excellents and one superior. The superior went to SFC Cline and 11 EM mine specialists, while the excellents were given to Capt. Matteson and the First Platon; and to SFC Rock-wood and his group of NCO mine specialists.

The bowling team still leads its league, with a little help from the schedule—no games this week.

SFC Parnell is happy again. His companion in the Operations of fice, Cpi. Beck, has returned. The Cpi. was moved to the order of the Cpi. Was moved to the order of the Cpi. Bowers, left on emergency leave, but now that Cpi. Bowers is back things are normal again. The space vacated by Cpi. MP Was Spy On German Soldiers As Thirteen - Year-Old in Greece

Pvt. Dionysios Demetrios Gavanas is a tall, mild, softspoken Greek gentleman with a crop of curly hair and light complexion. He has a begulling manner and could surely stump a panel of television experts on a quiz show. He to be a spy.

"When I was thirteen years old I spied on German soldiers who then occupied Greece and once they almost captured and killed me," he said casually.

Gavanas, now a naturalized citizen of this Country and attakes most things with Old World etoicism

Twenty-two years old, he cam to the United States following the War, enrolled in Tufts, a college in Massachusetts, and majored in Biochemistry.

His Father, a newspaper editor who worked for the Allied Un-derground during World War II, first used his 13-year-old son as a newspaper "leg-man," a form of employment which had him hustling for three-squares gathering bits of information for the weekly newspaper. But soon his duties expanded. He became a spy and his "beat" included sneaking-up on the German ammunition dump and open the activities of the Invaders.

"Once I got too risky," he said. "A few S. S. troopers spotted me but I ran and hid; I

they never found me." Often his "cloak and dagger"

activities included organizing All-Army Art Contest at the childish street games along the Pentagon, Fort Knox placed nine childish street games along the road which the German units used for transportation. As they passed, mitted. he would identify the units, count

Won Ten High School Letters

Lt. Ashburner started his athletic career back in high school at Swissvale, Pa. During thes four years he won a total of te letters in the three major spor to set an all time record for th history of the school.

All in all he played three of football as regular halfback three years as guard on the bas-ketball team and four years of baseball, playing every position but specializing in center field. A teammate of his on these teams was Dick Groat, who later went to star at Duke University and as shortstop with the Pittsburgh Pirates. During this time he was also honored by being selected to play in the Hearst All-Star basegame, held in Pittsburgh for two years.

r graduation from high he journeyed down to school Bloomington, Ind. and matriculated at Indiana University, majoring in physical education

Soon after arrival at Indiana was out practicing with the Indiana U. footkall squar in the unfamiliar role of quarterback in the T-formation. Heretofore most of his experience had been acquired as a halfback running out of the single wing. It wasn't long, however, before he was alternat-ing with All - American Lou d'Achille as regular Indiana quarterback. In fact each played al-most as many playing minutes of time as the other during this period. Tosses 55 Yard Pass

One of the biggest thrills of his gridiron career, and in the his-tory of football at Indiana University, came in a game against Michigan State in 1951. With but a few scant seconds left to play in the game against an undefeat-(Continued on page 8)

Eagles Lose Second And Third Contests

Knox High took it on the chin twice last week, bowing to Rineyville, 43-32, and Caverna, 53-35, for a record of three losses in three outings

In the Rineyville encounter, Eddie Rudeen was high scorer for the Eagle quintet with eight points, while Brangus netted 15 for the victors.

Although Fort Knox ended up on the short end of a 53-35 score, Coach Hackett was heartened by the Caverna encounter. The squad displayed more aggressiveness than in any other contest played so far this season. The Eagles played a spirited game indicating that they are capable of catching fire to end their winless streak in the near future.

Obbie Fryxell contributed 12 points to the Knox total and Harper had 21 points for the Caverna

ARTILLERYMEN END THEIR SUCCESSFUL PIGSKIN SEASON AGAINST CCC SIX

DivArty is favored to close out its Regimental Football season this evening with an unblemished record to take top honors in the loop. The Artillerymen go into tonight's clash nonors in the loop. The Artiflerymen go into tonight's classic against CCC, a team that has won only two games so far this season, with an 8-0 mark.

The 11th Cavalry, which ap-

There was a three way tie for second place in the American Loop, with the 695th AIB, Food Service, and the 509th Tk. showing 3-1 records. The 30th Tk. held down the second spot in the National League, with a 3-1 record.

It was the 131st Tk, that handed the 695th its initial defeat to the tune of 44-29. Whittington and Ross each posted 12 points to lead the winners. Tesar had 16 points for the losers. The second win week for the 131st was a 42-30 defeat of the 701st MPs. It was the MP's third straight loss. Whittington and Ross again posted 12 points each for the 131st while Gritzmacher with ten was high for the losers.

The 695th AIB handed Food Service a 66-34 thumping and then beat the 3rd Ord., 41-36. Hyder got 14 points in the 695th game and 20 points in the 3rd Ordnance to lead Food Service Tesar was high for the 695th with 24 points and Rinquist, with seven points, was high for the 3rd Ord. The 509th Tk, edged the 784th ACW 43-41 in a real close one. The score was tied at half time with 18 points and the 784th was leading 33-30, as the fourth quarter opened. Course Completion Time Cut for ECI Students

Gunter AFB, Ala. (AFPS) -After Jan. 1, 1955, all USAF Extension Course Institute students must complete each course requirement within 12 months. The one year deadline will replace the current 18-month participation policy.

Under the new policy, the stu-dent will receive three or four volumes in a multiple volume course at the time he enrolls. Each volume will be stamped with a due date. If all examinations are not received at ECI by the due date, the student will be "cancelled."

Students cancelled for non-par ticipation will not be allowed to enroll again for at least six months.

Hold Monthly Lunch

Continuous rehearsals have been held since September and to make the program more effective, the members of the Chorus will appear for the first time in robes which they have designed and made and which they will wear at all of their planned appearances in the future. The ladies of the Spearhead Division held their monthly luncheon meeting at the 3d Armored Divi-Club on Nov. 18.

Hostesses were Mrs. Arthur Watson, Mrs. R. J. Thompson and Mrs. E. B. Boust. in the future.

The program will feature the traditional Christmas music of many countries and will close with the singing of familiar Christmas carols by the Cherus and audience. Following the program, there, will be a social hour, during which refreshments will be served.

Mrs. Watson made the nouncements and greeted newly-arrived wives.

There was a special show of handwork, linens, both items and imported music boxes by the Maude Hundley Studio of Anchor-age, Ky.

Theater Group's World War II Drama Features Knox Sergeant

In the Little Theater Group's production of The Hasty Heart, Dec. 9, 10, and 11, Fort Knox theater-goers will see M/Sgt. Clifford Taylor in one of the leading roles.

Sgt. Taylor of 240th Engineer Bn. will portray "Yank," the only American in the play, which tells the story of an injured World War II Scottish soldier who is placed in an English hospital when he has only a few months to live.

When The Hasty Heart was first produced in New York in 1945, John Lund played "Yank." The role was later acted by Ronald Reagan in the movie version.

322nd Tank Bn. Sends Praise **Of Spearhead Trained Packets**

The 3d Armored Division received a pat-on-the-back last week in a letter written by Lt. Col. Thomas J. Howard, commanding officer of the 322d Tank Battalion, now serving in Europe. Col Howard wrote Maj. Gen. Gordon B. Rogers, commanding officer of the Division, that the packet platoons he has been receiving are paying off.

3AD Youth For Christ (Continued from Page 1) mately 900 miles.

From information available, is believed that this is the first trip of its kind by Division personnel. All the Octette member are permanent party.

Upon its return from this tour, the Octette will immediaely begin rehearsals for a Christmas pro-gram to be given in one of the Chapels during Christmas week. In addition, they are scheduled to perform a Christmas Concert on the Songs Of Faith program over WHAS-TV either Dec. 11 or 18. The date is not yet definite.

A highlight of the YFC Octette performance before church congregations is an address by Chaplain Gillenwaters.

His talks concern the answers to many problems frequently asked by parents who have sons or daughters in the military service. Chaplain Gillenwaters concludes his talk by assuring his audience that Army personnel are not left to shift for themselves entirely, that any problems or entirely that any problems of difficulies they are unable to cope with themselves can be taken to any chaplain for assist-ance. When Chaplain Gillenwat-ers finishes, there is evidence of relief among his listeners. Many of the persons personally express their thanks to the Chaplain and the Octette, not only for their fine singing, but for the little known information brought to light con cerning the extensive work of Army Chaplains.

Col. W. R. Pershall (Continued from Page 1) Texas

His military activity during World War II was with Hq. 6th Army through New Guinea and the Phillipines. In August of 1945 he returned to this country to at tend Advanced Officer's Cavalry School at Fort Riley, Kansas.

Col. Pershall's next assignment carried him to Washington with the Department of the Army's G-2. He remained there until 194 when he came to Fort Knox the Advanced Officer's Class at The Armored School. The years between 1948 and 1951 were spent overseas once again, this time with USAREUR in Heidelberg. Following those three years, Col. Pershall returned to the G-2 Sec-tion, Department of the Army, in Washingon, where he remained until last month. The Colonel and Mrs. Pershall

the former Doris Morgan, of East St. Louis, Illinois, are currently making their home at 4080 Edwards Street. They are the parents of one daughter, Mary Ann, who is six years old.

If Steak were 25c a pound -who would eat Hamburger?

Or put it this way - who would drive a Chevy if a Cadillac cost only a few dollars more?

Thanks to the armed forces Post Exchanges, you can buy the best products in the world at the very lowest prices anywhere.

For example, your Post Exchange carries a wide assortment of watches. Some are the finest money can buy - others are the more popular makes. But the difference in cost between the best and the popular brands is but a few dollars. When you spread this slight difference over the long life of a fine watch, it amounts to only a few pennies more a year.

That is why Zodiac watches—famous the world over for precision, accuracy and dependability—offer you the most exceptional watch value in America to day. And remember, too, that in Switzerland — home of so many superb watches — Zodiac is "Official Watch of the Swiss Federal Railways."

So the next time you look for watches your Exchange be sure to ask the in your Exchange be sure to ask the clerk to show you the many fine Zodiac vatches he has in stock

$\operatorname{CADILLAC}$ for 1955

Presents the Most Beautiful

and Finest Performing Motor Cars in Its History!

This is one of the most significant new-car nnouncements in Cadillac history.

For it introduces to the world's motorists the most magnificent creations in Cadillac's fiftythree years of motor car production.

Three new Cadillac series are offered for your consideration in 1955—the famous Series Sixty Special, the beautiful Series Sixty-Two, and the distinguished Series Seventy-Five . . . in addition to the spectacular new Eldorado.

They are, as you can readily see, magnificent

-with a new, jewel-like grille and front-end assembly ... with dramatic and grace-ful new sculptured side styling . . . and with added dignity and bearing in every detail.

They are magnificent, too, in performance. There is a new Cadillac engine, the most power-ful ever offered in a production motor car...an improved Hydra-Matic Drive . . . advanced Cadillac Power Steering . . . and, as an option at extra cost, refined Cadillac Power Braking. And they are magnificent in luxury . . . to a

degree unusual even for Cadillac. Their interiors are almost unbelievably beautiful . . . and they are offered in a remarkably wide selection of gorgeous new fabrics and leathers.

Beyond any question, these new Cadillac creations represent a new Standard of the World -and we urge you to see and inspect them today in our showroom.

You will be most welcomeand we know you will find your visit one of the most interesting experiences of your motoring life!

Once upon a time, when men were less sophisticated but read their Bible very carefully, a certain wise old gentleman was having a bit of a problem with the quaint little story of the Tower of Babel. After all, he reasoned, the men who built this tower were trying to come closer to God—a very good thing, indeed. Why, then, should they have been punished? There must have been more to the story than that, he decided. And this was his reconstruction

The builders of the Tower of Babel got pretty involved in their task. From morning to night they labored, and nothing else mattered. In the process, one worker might drop a brick on the head of another, It so, his concern was only for the lost brick—not for the man on whose head it fell. In other words, these men became so wrapped, up, in their work that they completely lost sight of human values. This, concluded the wise old gentleman, was the reason for their punishment.

And isn't this same failing evident in our own age? Have we not all at times become so involved with pursuing our own goal of the moment, that we never bothered to stop and consider how we might be harming others in the process? Yes, we too go through life dropping many bricks, but thinking only of the lost brick, not of the harm it may have done to the one on whom it fell. Eventually, of course, some one else's bricks drop on our head, and we realize the selfishness and the futility of our behavior. But then it's usually too late.

Our world consists of many individuals, all of us pursuing our own personal affairs. But only as we do so with full respect for the dignity, integrity and well-being of our fellow man can our lives really prosper. And in this manner will we find true happiness and fulfilment

course. This unique goal was achieved through a comprehen-sive program to link troop education with the military mission of the organization. The program was begun with a concentrated information drive.

Initiated by Lieutenant Colonel Taylor C. T. Hayes of (247 Jefferson Ave.) Oak Ridge, Tenn., battalion commander, and administered by First Lieutenant Richard Van Ness of (8 Lincoln-Ave.) Cobleskill, N. Y., troop education officer, the drive got under way in mid-April.

"The only reason why every soldier does not join the troop education program, as I see it, is ignorance of its advantages," said Van Ness. "We found that once man knows what it's all-about, he joins the program."

Besides explaining to the men that they could better themselves by taking part in the educational program, Van Ness showed them how it would better their chances for promotion. "Men who take courses related to their jobs in the battalion are able to do those jobs more efficiently," he said. After the applications began to

come in, the competitive spirit in the battalion took over to complete the job. Charts were posted showing numbers of men enrolled in the program, and the compa-nies soon started vying with one another to see which one could be the highest. When one company reached the 100 per cent mark, the others quickly followed suit.

New replacements to the bat talion were given orientations or

Although soldiers of the battal ion are enrolled in every type of course offered by USAFI, most of the men are taking courses in auto-mechanics, electricity, and other technical subjects. "All of these talents are used in the battalion," said Hayes, "and quali-fied persons in these fields have always been hard to find."

The striking feature of the bat talion's education program is that effort was made to tie in off-duty, education with the regular, tactical training. The troop education program has been emphasized as part of a general emphasis on all types of training.

Said Hayes, in describing the program, "Our increased TI&E program does not interfere with our regular tactical training—it supplements it. Men taking technical courses are better able to perform their technical jobs and they understand their

January's Soldier of the Month has been in service for 11 years, having started his career in 1941. seeing combat action in Germany in the closing stages of World War II, Sgt. Brown was separated from service and spent two years as a moulder in a Rad-ford, Virginia, foundry.

Upon his reenlistment late in Upon his reenlistment are in 1946, the winner began his career as a tanker and finds that armor "has grown in importance and should become a bigger factor in our defense planning through the years." Brown received his early schooling in Radford, but now claims Parrott, Va., as his home

Among the awards and decorations he has earned are the Bronze Star, with a V device; Commendation Ribbon, two Purple Hearts, Good Conduct Ribbon ETO Ribbon, with three battle stars, and the Korean Service Ribbon, with one battle star. M/Sgt. Brown saw action in the Eastern zone of Korea in 1953.

Before joining the 11th Cav Brown served with the 6th Ar-mored Cavalry Regiment, the 1st Armored Division and the 40th Infantry Division.

Although he plans to complete years service in the Army January's outstanding soldier says he will always look back on his selection as Soldier of the Month as the "highlight" of his career.

"I am also proud to have been selected as a representative of such a fine organization as the 11th Cav.," he added.

The sergeant will begin to reap the rewards of his triumph when he reports to Second Army Head quarters Jan. 24 to receive a \$25 cash award, a set of Army dress blues and an all-expense paid trip to Washington, D. C., for several days. The winner was most enthused about getting an oppor-tunity to wear the new uniform. He has visited Washington before, but knows that his wife, Virginia, and his son, Harry, Jr., will enjoy their first visit there.

Other members of the selection board were Lt. Col. George D. Jacobson, Regimental Executive Jacobson, Regimental Executive

178 Years Old, Armor Goes Rolling Along ...

"Armor will observe its 178th anniversary Dec. 12, 1954. Established as a branch of service of the U. S. Army by Congress in July, 1950, Armor has inherited the lineage and fine traditions of its distinguished predecessor, the U. S. Cavalry.

The brave deeds of Cavalrymen are told in every history book. To the battle honors earned by Cavalrymen in more than a century and a half of service, Armor has added

Tanks were first introduced on the field of battle in France, in 1916. From its bap-tism in combat during World War I, U. S. Armor grew in stature as, a fighting force and was given a major role in important battles during World War II.

We of Armor may be justly proud of our branch of service and its past record, The future of Armor and its effectiveness in combat depends greatly on the officers and men now serving at Fort Knox. On this anniversary, let us redouble our efforts in training men as superior tankers and welding U.S. Armor into the most decisive mobile striking force in the world today."—Maj. Gen. George W. Read, Jr.

'I am building secure and covered chariots, which are invulnerable, and when they advance with their guns into the midst of the foe even the largest enemy masses must retreat, and behind them the infantry can follow in safety and without apposition.

The Armored Center's Foreign Visitor's Bureau was the scene of apprehension and anxiety last Tuesday. While they were trying to map out a schedule that will start the UPPs rolling in after the first of January, the Associated Press released a story from Washington, D. C., that General, Guiseppi Manchielli from Italy was on his way to Fort Knox. This was after all previous arrangements for his visit had been cancelled. When Tuesday passed without sign of the general, several people started breathing again.

The plan to place Louisville on Eastern Standard time is a goo. But as yet nothing has passed but rumors. In the even that it does h come effective, will The Armored Center change clocks? Off-post men can count on keeping two watches if Fort Knox stays on Central time. Also look for PX wristwatch sales to boom if it happens. Or else the watch repairers will have a field day on broken springs and stems.

A unique addition to Fort Knox will make its appearance soon This leftover from the days of the mounted cavalry is a burro which has been purchased by the 784th AC&W Squadron as a mascot Shades of the Black Knights of the Hudson.

New switch on an old game . . . Since the Scrabble boom started to simmer, variations of the game are a dime a dozen. Bar racks scrabblers are now playing "Psych-Scrabble," using only started to summer, variations of the summer racks scrabblers are now playing "Psych-Scrabble psychological terms. How is your libido these days?

As the weather turns colder more and more commuters between The Armored Center and Louisville are dreading the first snowfall and the condition of the Duite Highway. More than one car has fallen prey to the Muldraugh Hill and without any precipitation either. Let's take it easy when the flakes start to fall.

Portrait of Stamina.

And speaking of commuting to Louisville, M/Sgt. Kurt Steiner of The Armored School's Foreign Liason has his own way of getting to the big town. His means of locomotion is known as walking. Sgt. Steiner would like to walk his way into Louisville as a way of preparing himself for the celebrated Boston Marathon next April. No American has won this race in the last eight years . . . Steiner claims he can walk from The Armored Center to the center of town in six ... If he runs all the way, two and one half hours,

Sgt. Steiner would like to enter the 1956 Olympics and claims that running and walking to Louisville would condition him for the try-outs. His prefolose experience shows that he arrived too late to compete in 1952 but that year he beat the Japanese. Asiatic champion named Sato in the 10,000 meter walk. That event took place in Japan during the Tokyo metropolitan games in which the US Army Far East Command track team appeared.

Of one thing I am certain, there will be no one singing, "I'm

walking behind you" when Sgt. Steiner starts his trek to Louisville.

The United Press released an article urging dentists to triple the speed of their drills for faster service to patients 'to make them happy.' According to Col. A. N. Kracht, Fort Knox Dental Surgeon, dentists here are using diamond burrs that rotate at speeds Surgeon, centrais nere are using diamond burrs that rotate at speeds up to 12,000 rpm/s. But as far as Col. Kracht's concerned, it hasn't reached the stage of being 'amazing yet. However, he added that when perfected, speed drilling will prove to be tremendously advantageous. They have been toying with speeds as high as \$0,000 rpm/s, accord. ing to the Dental Surgeon. There'll be a hot time in the old mouth tonight when that drill starts going.

The Army's new achievement in research which combines two disease anti-bodies into one injection will wait its turn before reaching hospitals at Fort Knox. Too new to be distributed, the medicine is supposed to insure immunity from both lockjaw and dighteria. Recruits can now be 'ijbed with the crokserw-hook needle in one breath before getting this shot.

Why don't mess sergeants in each company select a KP of the wif don; mess sergeants in each company select a KP of the month. Submit his name to their major unit command and hen in turn to a post which committee. With some incentive, KP's should do a better job and at least they will be compensated for the arducus task. Too long these galley slaves have scrubbed pois and pans 'al-most as big as they, mosped floors, peeled positons, cleaned trays and silverware, and worked for 14 hours a day. And their reward? A chance at week-end kitchen police. In some small way why not choose a man, not for his appearance, not for an everday job, but for initiative, ability, and attitude toward his work,

A horde of explorers armed with geiger counters swoped down upon Lyon County, Kentucky and mineral rights to at least 1000 acres of Lyon County territory have been leased or sold. What would happen if a rumor that uranium was discovered here at Fort Knox got started. With all the shells fired into the sod out on the ranges, taken into account, the dial should beat like a metronome.

KEYNOTE PERFORMANCE DEPARTMENT

This week'sstellar performance was given, not in person, but on the screen. As a matter of fact the stars were not even human. No, the cast was strictly for the birds, birds and animals, that is ... It's 'Walt Disney's 'Vanishing Prairie.' As a sequel to "Living Desert" this latest wildlife production dramatizes animals in their natural habitat with startling reality. How some of the pictures were taken is beyond credibility but nevertheless the warmth and courage of the cast of thousands is exhibited to its fullest.

Platter Data . . . Most noteworthy achievement in records occurred oddly enough through the medium of television. Studio One used a song called "Let Me Go, Lover" on one of its productions a few weeks back. The recording, made by an unknown, Joan Weber, used all the gimmicks allowed in pop music. Needless to say, its used all the gimmicks allowed in pop music Needless to say, its on the production of the

Randy Atcher Show At Club 2 Tomorrow

Randy Atcher and The Old Kentucky Barn Dance Crew will be at Service Club 2, Saturday, for Dec. 11, at 7:30 p.m., for their regular weekly radio broadcast. There is no admission charge to this live network broadcast, and out at 11 p.m. you'll really enjoy the top notch show that Randy brings with him.

Atcher's hillbilly and country music is rated tops in this area and his many radio and television appearances are fast making him one of the nation's top hillbilly showmen. The seating at Service Club 2 is limited, so come early to enjoy this old fashioned country hoedown

Tony Pastor Concerts At Sadowski Dec. 19

The Armored Center Special Services continues its parade of winter concerts with Tony Pastor and His Orchestra. The Pastor aggregation will be at Sadowski Field House, Sunday, Dec. 19, for two shows at 2 and 7 p.m.

Both concerts by this famed vocal-instrumentalist are free to all Fort Knox personnel, their families and friends. Uniform their regulations will apply.

Reservations Left For Officers' Dance

There are still some reserva-tions left for the Tony Pastor Dance sponsored by The Fort Knox Officers' Open Mess. The dance will be an informal affair at Sadowski Field House, Saturdary, Dec. 18. The doors and bar service open at 8 p.m. with the dancing scheduled to begin at 9. The reservations are 75 cents

per person and they are limited. They are on sale in the Main Office in Yoeman Hall. No tele-phone reservations will be accepted.

Dance December 14 At Service Club 4

James Moody and his Orches tra will play for dancing at Ser vice Club 4, Tuesday, Dec. 14, beginning at 7:30 and running to 11 p.m. And if this sensational saxophonist was not enough of an attraction, Club 4 is also fea-turing singer Eddie Jefferson.

Moody's music is just what his last name implies. It has many different moods, ranging from the jumpinest to the dreaminest. The James Moody Orchestra inte-grates the best features of traditional jazz with the really good stuff from the new school. It is great band, an astounding jumping, versatile, thrilling ag-gregation, great for listening and

General Read Commends Division For Outstanding Chest Contribution

The impressive record chalked up by members of the 3d Armored Division in the Community Chest campaign which ended on Nov. 6, brought forth the praise of Maj. Gen. George W. Read, Jr., commanding general of The Armored Center in a letter to Maj. Gen. Gordon B. Rogers, commanding general of the 3d Armored Division.

The Spearheaders, representing only 43% of the personnel at 1 Knox contributed 62% of all Chest donations, and of the 25 in centive prizes awarded, over half of them went to tanker ticket holders in the Division.

Below is a copy of Gen. Read's letter

Commanding General 3d Armored Division (Spearhead) Fort Knox, Kentucky

 I should like to take this opportunity to express my deep felt appreciation to all personnel of the 3d Armored Division for their outstanding response to the successfully concluded Fall 1954 Community Chest Campaign. The contribution or \$83,503, amounting \$4.33 per capita, is another example of the superior results always obtained from your organization, and of the large part you play in the successful operation of The Armored Center

2. A campaign of this scope to produce results requires a great deal of initiative; planning and time. The resourceful and effective measures employed by the 3d Armored Division in this, the largest of all our Community Chest Drives, is commendable. Your success in this charitable cause is but a continuation of the fine record of the Spearhead Division.

3. I sincerely appreciate your outstanding cooperation and the response displayed by all personnel. On behalf of the many worthy charities benefited, I wish to express my gratitude for this generosity Your willingness to contribute to such a worthwhile purpose will stand along with your contribution to the security of this nation as a job accomplished in the true tradition of the service of your country.

SD Day - Safer Driving & No Accidents

National Observance Set For Wednesday By President's Action Committee

S-D Day is Safe Driving Day, Wednesday, Dec. 15. Safe Driving Day is sponsored by the President's Action Committee for Traffic Safety, in cooperation with various national organizations, and with-

in the 3d Armored Division by the Division Safety Officer, Lt. Col. Charles J. Parsons; Jr. Safe Driving Day is a time set aside to demonstrate that traffic accidents can be reduced to zero when all motorists and pedestrians

do their part. That's the goal. The traffic accident problem is a na-tional one which extends right down to our garage door and ignition

or friend, possibly a relative, who at some time. The traffic problem is with us every hour of every day, everywhere in the nation as

the following facts make clear.

DRIVE DEFENSIVELY! lion fatal and personal injury ac-EXPECT the other driver to jump the light or to conveniently go color blind when the green changes to yellow, This carelessness American drivers killed one per-son on the average of every four-000 persons injured last year. For

THE ECONOMIC TOLL, CARE-PECT the other driver to pull LESS drivers violated the right out from the curb unexpectedly, of way; falled to come to comto bulldoze his way into traffic plete stops where required; they got to allow one car length for son as it right in front of you. This sort nudged their way onto the high-

ways: they drove too fast for road conditions or they didn't give another driver enough room on slinpery highways. Those same less drivers can boast of thrills

cars can hold the road while tak-ing a hairpin curve at high speeds: Some thrill - they thought! The cost of highway accidents last year cost four billion dollars, in-cluding medical expense, property oss and other costs.
THE NUMBER OF ACCI-

DENTS. In 1953 there were nearly ten million traffic accidents. In addition to approximately one milone-half million property damage accidents involving twenty-five dollars or more. Five and onehalf million accidents cost somein property damage each time it cost his life. body twenty-five dollars or less

counting their profits. They for- to kill the second millionth per-

them and the car they were following.
HOW MANY ARE DOOMED?

The United States required fifty years to reach its millionth traffic fatality in 1951. Maybe that millionth person was the victim of some driver who didn't believe in signaling when he was going to cross lanes, or maybe the millionth traffic victim was a driver who firmly thought he could cross from the wrong lane and get away with it every time. Maybe the millionth victim was making better time getting home after work each night by weaving in and out of traffic. He did, that is, until he became the millionth victim. Then too, the millionth victim may have made that silly little mistake of forgetting to dim his headlights for an oncoming car. It might have been silly, but

At the present rate, American People who forgot sudden stops drivers are killing themselves so kept parts manufacturers busy fast it will take only half as long got to allow one car length for son as it did the first. Nice record,

The other driver seems always at fault. Few persons ever admit they were wrong-it would cost too much, in both money and pride. But remember, even the most blameless driver can be as dead as the faulty one.

35 000 persons are killed in auto accidents in a "good" year. It is hard to imagine that all 35,000 were guilty of bad driving

Being in the right is not enough to protect you from an automobile accident. YOU HAVE TO DRIVE DEFENSIVELY. Drive so that the other driver can do you no harm. Drive as though every single other driver were incompetent. Believe that he's out to get you, that he'll do crazy things, that he knows no traffic rules, that he isn't paying attention to what he is doing, that his brakes will never stop in time.

SAFE-DRIVING DAY Wednesday, Dec. 15 with the PHILADELPHIA "EAGLES" last Sunday.

Champs Win Nine During Season

DivArty wrapped up the Armored Center Regimental Football Championship in Football Championsnip in grand style last Friday by pasting CCC 46-0. This marked the ninth victory of the sea-son for the Artillerymen against no losses.

In DivArty's grand finale, Finowski started the scoring parade with a 70-vard punt return that brought spectators to their feet. Then Slonac to their feet. Then Slonac passed to DeCarlo for 30 yards and another TD. Estell crossed the goal line a few moments later after taking a lateral from DeCarlo.

Kenniston tossed a 20-yard aerial to DeCarlo and then to prove that turnabout is fair play, or more accurately here good play, Kenniston was on the receiving end of a toss from DeCarlo that proved good for a marker. Finowski made good on five out of six extra points.

Soldiers Creating **Nest Eggs Through** Systematic Saving

WASHINGTON (ANS) WASHINGTON (ANS) — The U. S. Army is fighting inflation in friendly nations where our troops are based — and at the same time guaranteeing nest eggs for participating soldiers when they leave the service.

Chief weapon in this campaign the soldier's oldtime friend, Soldiers Deposits. A total of 440,000 enlisted men have salted away approximately \$49,000,000 (M) in accounts ranging from \$5 to \$27,000. To encourage systematic savings by our soldiers, the government pays them a higher rate of interest than do bank savgovernment accounts or bonds-four percent.

The Army's finance office reports that, a definite link is found between existence of surplus American spending money and in-flation in dollar-shortage areas. spending by U.S. troops were uncontrolled, value of the left foreign currency would drop rapidly.

With this in mind, overseas commanders are stressing advan tages of saving through Soldier deposits for enlisted personnel-a privilege not available to officers.

The four percent earnings are compounded every three years. Cash deposits may be made by the individual soldiers at any time in the long-term savings program Except in a true emergency, dollars cannot be withdrawn by the depositor until he is discharged at the end of each three-year period.

Many soldiers prefer to use the Army's convenient allotment system for investing their money in U. S. Savings Bonds. Soldiers now are buying bonds at a rate of \$4,500,000 (M) monthly. Added to the \$3,250,000 (M) Soldier Deposits recorded for the same period, these savings will go a long way toward guaranteeing financial independence upon separation or retirement.

Life is hard for all of us, at times very hard, and we find many stumbling stones in our path. The good things of life suddenly grow unattractive, at times even repulsive; and evil things charm us un-expectedly. Then too at the end of the road of life is the wooden box and the grave's narrow hold, which seems all too dark and cramped for us to gaze upon for long.

Yet as Christians we know that this is God's world and that Re-put us here for a definite purpose. It is not His wish that life be is hard as it is It was Adam who foiled His purpose. As far as the as hard as it is, it was Agam who ioned his purpose. As all we in Him lies, He will have us come home to Heaven happily, for as St. Jude says, He "is able to keep you from stumbling, and to present you blameless before his glory in gladness."

It should not be so hard to walk "without stumbling". It should not be so hard to walk "without stumbling . . . in gladness", if only we keep our eyes lifted up on high. But as long se we keep our eyes fixed on the earth alone, we shall stumble and fall and find little lasting happiness in life. We cannot, of course, foreset the carth or the things of the earth or the things of the people on earth, for we have a job to do here and now, and upon the way we do that job will depend our whole eternity. But we do keep lifting up our eves to God the Fab who made us and to God the Son who our eyes to God the Father who made us, and to God the Son redeemed us, and to God the Holy Ghost who sanctifies us. Thus the way of life is lighted up and the pitfalls are revealed and the stumbling blocks made visible.

Heaven is our home and we are are always mindful that we are wayfarers; we are travelers, not permanent residents here, and so we use all things about us as "sids to travel, not as enticements to lotter." Death lies shead, yes, but only as the dark tunnel-passage loiter." Death lies ahead, yes, but only as the data tunner passage that leads from the dimmer light of this world of probation into the blinding brilliance of the Vision of God.

if a Cadillac cost only a few dollars more?

Thanks to the armed forces Post Exchanges, you can buy the best products in the world at the very lowest prices anywhere.

For example, your Post Exchange carries a wide assortment of watches. Some are the finest money can buy — others are the more popular makes. But the difference in cost between the best and the popular brands is but a few dollars. When you spread this slight difference over the long life of a fine watch, it amounts to only a few pennies more a year.

That is why Zodiac watches-famous That is why Zodiac watches—famous the world over for precision, accuracy and dependability—offer you the most exceptional, watch, value in America, to day. And remember, too, that in Switzerland — home of so many superb watches — Zodiac is 'Official Watch of the Swiss Federal Railways.'

So the next time you look for watches in your Exchange be sure to ask the clerk to show you the many fine Zodiac atches he has in stock

HIS pedal does more than just feed gas to an eager and high-nowered V8 engine.

When you give it the extra nudge that moves it beyond the full throttle position, something happens that never happened before in an automobile.

You hear a businesslike purr, which tells you that twenty power vanes, deep inside the 1955 Dynaflow Drive,* have changed their pitch-just like the variable pitch propellers on a modern air liner.

And with the same result in the way you get-up-and-go, with a safety-surge of power for pulling out of a tight spot on the highway.

MILTON BERLE STARS FOR BUICK See the Buick-Berle Show Alternate Tuasday

Words can't describe it. It's a new sensation - something you simply must try for yourself.

There's nothing like it on the 1955 new car horizon.

Fact is, there's a whale of a lot to see and sample at your Buick dealer's.

There's fresh new styling. There's higher horsepower in every Buick V8 engine. There's a new Airpower carburetor. And beneath it all there's good old. fashioned integrity in every nut, bolt and rivet.

But, this year, don't simply make a visit to the showroom where these trim and thrilling new beauties are on display.

The smart thing to do-if you want to

know what's what in new automobiles -is to get behind the wheel of a 1955 Buick and drive it. How about doing that soon?

The exciting new idea behind the motoramic Chevrolet

Maybe once in a car-buying lifetime, you come across something that breaks all the old patterns and establishes new ones. This is that kind of car. This is the true story of how Chevrolet and General Motors shaped a new idea in steel

Like most good ideas, this one is pretty simple. Chevrolet and General Motors set out to build the first low-priced car that

- · bring you the very freshest and finest styling to be had
- bring you the most advanced engine design and engineering features.
 bring you the kind of performance and the kind of ride that have never been available before in a low-priced car.
- · bring you the highest quality of manufacture and materials.

All this in Chevrolet's price field? That did take some doing! n't it logical that only Chevrolet and General Motor And isn't it logical that only chevrolet and General MOLONS have the people, skills, resources and facilities, to carry out this exciting new idea? Here is how this new Chevrolet changes all your ideas about cars!

Real Show-Car Styling!

Your eye tells you the Motorami

A Sensational Ride!

You live the new idea instantly because spherical joints "roll with the punch" of the road in Chevrolet's new Glide-Ride front sus-

rolet's new Ginde-Kude front suspension. And outrigger rear springs mean new balance in
turns:: turns made so effortless by new ball-race steering.
And when you stop suddenly, new Anti-Dive Parking control
checks that nosing down in frogt... you get "heads up" stopping. "Dubelss tires mean much greater proceedion against
blowouts. And with new high-level ventilation there's fresher air."

Power Beyond Compare!

You also feel the new idea quickly . . . quick power like a panther's paw with the new Turbe-Fire V8". (162 h.p.) and two new "Blie-Flame"60's. And sparking this performance is a 12-volt electrical system giving you better igni-

tion, faster starting, greater electrical reserve for any of the power assists you might desire. You have a transmission choice of economical Overdrive and improved, automatic Powerglide (optional at extra cost) or standard shift

Even Air Conditioning!

And if you desire the convenience of power assists (optional at extra cost) . . . you'll find new power-steering and improved power brakes on all models. Power-controlled windows and powershift seat are available on the Bel Air and "Two-Ten" models, while air conditioning may be added on V8 models.

Won't You Try It?

Here, we can only tell you how successfully the Motoramic Chewrolet expresses the new idea behind it. But the car itself can quickly show you! Come in for a demonstration drive, won't you, first chance you get.

· MORE THAN A NEW CAR.

Soldiers Find Army Radio Easy On Ear —No Commercials!

Sapporo, Japan — The U. S. Army's Far East Radio Network is an ad man's dream—but he's strictly off limits.

With a captive audience of American military men tuned to English language broadcasts, com-mercial writers would have heydey. However, Army policy forbids forcing hard-selling spot announcements into the ears of this captive audience. The Army also feels it cannot imply spon-sorship of any product or com-pete with American outlets for

advertising dollars.

At times when commercials normally are heard — at station breaks or at the beginning, mid-dle or end of programs — Army commanders get their messages across to the troops in brief an-nouncements. These "spots" may be designed to further fire pre-vention campaigns, make soldiers cost conscious, help safety drives, raise funds for the Red Cross and other charitable agencies, or similar 'public service' activities.

The Far East Network consists of 18 stations, serving listeners in Japan, Korea and Okinawa. Typical of these stations is FEN-Hokkaido, heard mostly by men of the Army's First Cavalry Division and Regional Camp Craw-

PFC ROBERT CORDY . . . "I LOVE KP . . . "

Louisville - born PFC Robert F. Cordy, a phenom in the physiology of farinaceous tubers (better known on menus as paysiology of sarinaceous tubers (better known on menus as potatoes), this week smiled obliquely over a caldron of 'staters, and said without flinching: 'T like peeling potatoes. It's warm in the klichen, it's clean and IT IS better than marching in the rain...'

Reports from Co. B, 2128th ASU say that 25-year-old Cordy often volunteers for KP duty, a task which ordinarily confronts the soldier once every two weeks. So adroit is he with a peeling-knife that he once peeled eleven potatoes in one minute. Said his first-sergeant Leonard C. Murray: "Cordy is so good I'd like to have him on KP every day."

A veteran of Korea, Cordy became the first KP of the Month, newly-created bouquet to be tossed to crack KPs at The Armored Center. The winner was determined by the vote of mess sergeants. He was awarded a three-day pass for the distinction. Cordy said he would like to own a restaurant after he is discharged next July. (Photo by Clarence Collins)

11th CAV. ON MOVE

The 11th Armored Cavalry Regiment will take part in Operation "Follow Me" of an Infantry Division under simulated atomic warfare conditions — the early pa - the early part of next year, according to an announcement made this week by Col. Benjamin W. Heckemeyer, 11th Cav. CO.

The 2d Bn. plus Regimental Headquarters and Headquarters Co. and other service elements will proceed to Fort Benning, Ga, while the 3d Bn. will leave for Camp Rucker, Ala., sometime within the first two weeks of 'January.

Their exact mission once they arrive, has not yet been disclosed, although it is believed that one of the two battalions will serve as an aggressor force in the operation. It is also possible that both bettalloons may face each other since the operation itself will lake place in an area between both camps.

The battalions will take part in an overland road march to the sites utilizing all available organizational equipment. Tanks, howitzers and other heavy equipment will be shipped to the opera-tion area by train. The whole trip should take three days and two nights to cover the 600 miles to the destination.

Lt. Col. Paul L. Jolley, regimental executive officer and the advance officer for the move, left this week for Benning to look over the situation and prepare for the arrival of the Cavalry.

A BEAUTIFUL presentation of Handel's "The Messiah" was given last Sunday at Sadowski Field House by the Fort Knox Community Chorus, 2 crowd of more than 1200 turned out in the rain to hear the famous yule-time oratorio. At intermission Chaplain [Col.] Harold Donovan read an open letter from Maj, Gen. George W. Read, Jr., lauding the efforts of the chorus director, PFC Robert Fleck, a chaplain's assistant, who "conceived, trained and organized the production with such professional skill in bringing The Messiah' to Fort Knox."

By Chaplain (Capt.) George M. Rumbley "CHRISTMAS WITHOUT CHRIST"

For vast multitudes this holy season will be a Christmas without Christ, a mere shadow without the substance. I sometimes fear that we who call ourselves Christians are least Christian during Christmas. will we be like the innkeeper who had no room for them at the inn? Will we receive him and let him come into our hearts?

There are, perhaps, many who are wondering how we can receive Him. If we can sing with genuine sincerity, "Come to my heart, Lord Jesus, there is room in my heart for thee," that is enough. One of the most beautifully suggestive names given our Lord by the holy men of old is the "Dayspring." The word is in Lord by the noty men of our is the "Dayspring." The word is in tiself a poem. "Dayspring" means the dawning. It is the sunrise. And when Zacharias spoke of the little Baby that was soon to be born at Bethlehem, he said, "The Dayspring from on high shall visit us." Now, since he is the Dayspring, the Light of the World, we do siot have to coax him to enter our hearts. We no more have to coax him that we do the sunrise. We do not have to persuade him. He persuades us, "Behold, I stand at the door and knock: if any man hear my voice, and open the door, I will come in to him, and will sup with him, and he with me."

For many, doubtless this will be a rather trying and lonely Christmas. Some will feel the pinch of poverty and will grieve that they have so little to give. Some will be forgotten and lonely. But whatever may be your circumstances, there is One who will remem-ber you. There is one Guest that will, if permitted, take up his abode with you. We may all have Christ, and it is His presence that makes

HIS FIRST VISIT to the Main Post Exchange was one that Nick Clooney won't soon forget. At the record counter he had the thrill of hearing for the first time his sister's recording of "Young Mar", a tune which Nick composed in collaboration with his famous brother-in-law, Jose Ferrer. The song is part of Rosemary's new album, "While We're Young."

That Famous Clooney Personality Quite Apparent In Brother Nick

By PFC Bill Gerson

If you didn't know who the tall, soft-spoken young man happened to be, you'd probably miss the little mannerisms that tell so much. But they were all there, the warmth of voice, the smiling eyes, the gesture of the hand, and the familiar tilt of the head. He was Rosemary Cloney's brother, alright, and the similarities were as roystal clear as a family portrait by Norman Rockwell.

Nicholas Clooney, third young-Clooney did a great deal of radio est member of the famous family work before entering the service

of singing Clooneys is in the Artaking his eight weeks my now, of basic Infantry training at Fort Knox with the 3d Armored Division's Company B, 65th Armored Field Artillery Battalion.

Composed Song Before the service, the good looking, 20-year-old brother of Rosemary and Betty was a celebrity in his own right. It was young Nick Clooney who com-posed one of Rosemary's recent hits called, "It Just Happened To Happen To Me". But like his two sisters, Nick can't read a note of music. The Clooney kids all grew music. The Clooney Rids all grew up with that rare inherent musical touch. So coming up with any kind of a tune, much less a big hit, is a major chore that requires repeatedly humming a melody for about half an hour until the tune is firmly implented in his mind. From then on it's up to someone else to set down the notes in black and white.

Nick wrote another tune that made the big time, only this one was composed in collaboration with Rosemary's famous husband, Jose Ferrer. The tune is a folkballad called "Young Man". It is included as part of the new semary, Clooney album titled, "While We're Young"

The honor of being selected Soldier of the Month at Hq. Co. 3AD came just a little too late to be fully appreciated by Cpl. Joe Grenick, AG Administration Joe's proud of his accomplishment but finds himself unable to take advantage of the 30 day exemption from all details that comes as a part of the Soldier of the Month's reward. But then again, where Joe is going, you don't pull details. His two years of service are up this week.

The Future

Regardless of what the future Regardless of what the future holds, Joe can look back now to what might be termed a "strong finish" to his short military career. After shooting for the dis-tinction with a great deal of determination and never quite mak-ing the grade, Joe achieved his goal with just a couple of days to go.

A native of Pittsburg, Pa a graduate of Shaler, High School, Joe spent the major part of his military service here in the 3d Armored Division. As far as plans for the future are concerned, he's still a little uncertain. Before the

Operation Gyroscope

800 to 900 Regulars Are Needed In 3d Armd. Cav. Reorganization

Major James L. McHenry of the 3d Armored Cavalry arrived here last week with his special recruiting team to receive applications of from 800-900 enlisted men to serve with the 3d Armored

Cavalry in Germany.

Under "Operation Gyroscope," the 3d Armored Cavalry will ship to the vicinity of Nuremburg, Germany, sometime in July of next year. The 3d Armored Cavalry needs technicians and nontechnical men, especially cooks, mechanics, clerks, tank crewmen, and riflemen. Men with the rank of E-4 are greatly needed in these MOS's. In the lower grades, radio operators, drivers, and instructors are needed.

The unit will replace the 2d Armored Cavalry when it arrives in Europe and will remain there for 33 months.

The 3d Armored Cavalry must be 55% Regular Army at the time it shins for overseas. Men who have an ETS through August of 1958 or those willing to sign an intention to reenlist will be accepted.

Interested persons may make application for transfer to this unit, and their applications will be forwarded regardless of approval or disapproval. If you have any questions or desire-further information on the subject, contact Capt. Owen at the AG recruiting office.

Applications are expected to be heavy from the 3d Armored Division, because many of the MOS's needed are held by Spearhead personnel.

Operation Gyroscope is being undertaken by Department of the Army to stabilize overseas assignments through a sound, unit rotation system which will keep major units intact as to personnel and thus boost esprit de corps.

Armor took the major portion the Colonel's time during this initial visit. He attended a turret familiarization class which was being given, to Baker 84 and a briefing and tour of the CCB Instructor Group.

On Wednesday, Col. Abrams took the long trip to Dorrets No.
4 tank range to observe service firing exercises, and then moved on to Cedar Creek tank range where the sub-calibre moving tank exercise was being fired.

On the South Boundary Road the basic trainees of Able 13 gave a demonstration of a rifle squad in the attack and the Triple A boys of Charlie 57 demonstrated squad defense formations. After this, C-57's bivouac site was in-

spected by the Colonel.

A quick trip to Rose Hall, Di-Headquarters, terminated Col. Abrams first visit to the Di-

vision area. The Colonel is noted by his fellow Armor officers as a second Patton because of his daring in Armored warfare. He served as chief of staff for each corps in Korea and had just returned from the Far East prior to assuming his present, post. Col. Abrams is the wearer of six battle stars, and aduring World War II he distinguished himself as one of the youngest commanders of a combat command.

of 462 beltlined, or 6.7, Positions good disc jockey. Nick was a DJ with several large radio stations around the nation. The deep, warm-toned voice with a built-in personality personality (found commonly amongst the Clooneys) was a natural for the airways.

Young Nick was a popular rec-ord spinner for WFTM in the fam-ily's hometown of Maysville, Kentucky. Later, he had his own disc show in Wilmington, Delaware show in Wilmington, Delaware over WDEL. In 1953, shortly after graduating from St. Patrick's High School in Maysville, Nick did his record spinning over WXYZ, Detroit. At that time, WXYZ, Detroit. At that this, sister Betty was appearing on a late evening show over the same station and quite frequently Nick had the opportunity to team up with Betty before the cameras.

According to Nick, the Clooney family has been a traveling clan ever since he can remember. His mother, who managed a chain of clothing stores, did a great deal of moving about. Usually, all the kids, including Nick, Betty, Rosemary and 10-year-old Gayle, trav-eled about the country with her.

Felt Like Gypsy

"Sometimes I felt like a wan-dering gypsy", said Nick. "I at-tended about thirteen different schools before I finally graduated from St. Pat's in Maysville."

Most of the time, when mom Clooney's business excursions took her too far away for any long period of time, the kids remained with their grandmother in Cin-

"Grammy practically raised u said Nick. "Grammy" Mrs. Ada Guilfoyle, who gave lov-ing care to nine children of her own in addition to the four young Clooneys. She's proud of her popular grandchildren, but, in Nick's words, "still doesn't hesitate to words, "still doesn't hesitate to scold her famous girls whenever she thinks it's necessary.'

It was Nick's grandfather who was actually responsible for the initial appearances of the fabulous sister act. That was way back when Rosey was five years old and Betty was only two. Their old and netty was only two. Their granddaddy was Mayor of Mays-ville and running for reelection. Two little girls with two little voices sang for their grandfather's

campaign appearances.

"They must have been pretty good even then," Nick added.

"Granddad was reelected."

Such was the first evidence of

Such was the mass the Clooney

When the girls grew up a little (some 16 years later, to be exact) the Clooney sisters were first heard as a team over WLW in Cincinnati. Still as a team they moved on to do the vocal chores moved on to do the vocal chores for Tony Pastor's great band. Then, in 1949, Rosey went to New York alone and Betty who, according to Brother Nick, was "young and exhausted" went back home with "Grammy" in Cincinnati.

Bargain Day

Rosemary's success story began with an unobtrusive record called "Bargain Day", which sold about 6200 copies. It was a long way from "Bargain Day" to "Come On To My House", the Ross Bagdas-arian gem that needed only the Clooney touch to sell 1,320,000

Right now, sister Betty is working in New York out of CBS. She currently appears daily along with comedian Jack Paar and crooner Julius LaRosa on a popular morn-ing telecast. Rosey, of course, is living with hubby Jose Ferrer in their home at Beverly Hills, California. Living with them is the youngest member of the Clooney family, 10 year-old Gayle, who

"She sings pretty well, too," commented Nick proudly. "Her voice isn't bad at all. I wouldn't be a bit surprised if she outdid both of her sisters." (this, of course, with a smile.)

"Incidentally," added Nick "Incidentally," added Nick,
"you probably know that Rosemary is expecting a young one
of her own around the 10th of
January, If I'm lucky, the stork might hold off until my birthday on January 13".

Speaking of Rosemary's hus-and, the renowned Mr. Ferrer, Nick had this to say:

"If ever there was a real genius, he's it. Anything you can do he can do better. Not because he wants to outdo you, but because he has to try everything once. He's a terrific guy and I'm proud to have him for a brother-in-law. He's one of the hardest workers I've ever seen and does a brilliant job of whatever he undertakes.

Jose and I are the best of friends."

As far as his military training is concerned, Nick says that everyone — officers, cadre and trainees alike have been "just great?

"I don't get any favors and I don't expect any," he said. "Whatever anyone thinks of me should depend upon my attitude and the way I do my job. I dont intend to let anyone down in that re-spect."

Unknown

When Nick came into the Army a little over a month ago, hardly anyone realized who he

"That's the way I wanted it," Nick added. "Even now only about four or five guys have found out that my name isn't Clooney by coincidence. The fellas were a little awe-struck when they found out who my sisters were and some of them were a little standoffish at first. But all that finally wore off."

Everyone, of course, has asked Nick the same questions. "How did Rosey get her start?" "Is she married?" "What's she really like?

"I actually met one fellow who never even heard of her," said Nick. "Incidentally, he's my best

The future for the male member of the Clooney act looks like a bright one. There's a DJ job awaiting him at station KLAC in Los Angeles. That would the in pretty well with his plans to attend UCLA for a course in the Foreign Service. Nick, like his sister Rosemary, who seems to take foreign dialects much in stride, is a bit of a linguist himself. He can speak a little French, a bit of Sanaish and a deb of The future for the male member a bit of Spanish and a dash of Italian. These, he would like to learn more thoroughly, and pos-sibly a couple others as well. Of course, should his interests turn in a different direction, there's allways the race horse business. A short while ago, Nick, Betty and Rosemary went into partnership with their uncle, and manager Mr. George Guilfoyle. The newly established stables are located in Paris, Ky. and the first crop of sleek two-year-olds will soon be ready to take to the turf. One thing for sure, the first big winner in the Guilfoyle-Clooney stables almost certainly be named, "Come On To My House." Nick is a real horse enthusiast and spent a lot of time caring for his Uncle's horses shortly before receiving his draft notice.

(We Can - We Will) Hqs. Hq. & Svc. Company

After reviewing the color guard of the 509th Tank Battalion, Lt. Col. Stevenson, 15th Armor Group Commander, ordered that the color guards of all units attached to the 15th Armor Group will copy the uniform of the 509th.

The uniform consists of yellow gloves, yellow scarves, yellow scarves, yellow shoe laces, white pistol belts, white flag harness, white weapon slings and chrome heimets. These distinctive designs were suggested and worked out by SFC Raymond Nicholson, a member of the color guard. The personnel of the color guard were chosen from Hq. Hq. and Svc. Compahy.

Able Company

Last week Able Company had a most profitable cake sale. The profits were more than normally would be expected. The proceeds of the sale were applied toward one of the most were applied toward one of the most her side of the North Pole. Able Company is looking toward more cake sales. The big desire is to get a TV set for the dayroom. The way the cake sale went last Wednesday we are sure our big desire will come true. Every man in Able Company makes obeisance to the wives of the Battalion Officers. It was due to their untifing efforts, by making the cakes and running the sale, that we were able to reach this goal.

Baker Company

Baker Company had its grand opening of the Day Room. In an impressive ceremony Saturday. Master of ceremonies for the occasion was none other than Pvt. "Ron" Gatza, DRC, who impressed upon the men the significance of taking care of all the facilities, in particular, the newly purchased Admiral 21" TV Set. The popular Gatza went on to inform us that preparations were in the making for a gala ping pong tournament and an announcement is due shortly on this matter.

Christmas Messages from Our Commanders.

At this year's Christmas season I send to each of you personal greedings and the earnest hope that this time will be a joyful one for you. "Above all may it strengthen within you the satisfaction that comes from knowing that you serve a just and worthwhile cause, and that for your efforts your fellow countrymen are grateful. Wherever your post, station or billet, and whatever your assignment, your goal is to help bring closer a peaceful world of justice and freedom and of brotherhood among men of good will. May this Christmas time inspire in all of us a warm and humble dedication never to rest until in homes throughout the earth men, women, and children can know such a world.

and children can know such a world.

And as I salute the Armed Forces of the United States, I wish for each member a Merry Christmas and a Happy New Year.

DWIGHT D. EISENHOWER

I would like to take this opportunity to express to all military and civilian personnel and their families my sincere best wishes for a Merry Christmas and a Happy New Year. During this holiday season, let us remember with pride the progress of our installation and of our nation during the past year.

May each of you enjoy the blessings of the yuletide season and find continued success and prosperity during the coming year.

> GEORGE W. READ, JR. Maj. Gen, U. S. Army Commanding

In anticipation of the Christmas season and the advent of the year 1955, I urge the military and civilian members of the Second Army, and their loved ones to enjoy happily and safely the festivities normally associated with the holidays. I also wish to extend my personal season's greetings to all ranks both civilian and military, as well as my commendation for the efficient manner in which they have supported the missions of this command during the past year. Let us strive to make the New Year a productive and happy one for ourselves, our friends, families, and country.

If you're ever roaming through the main PX aimlessly, stop at the music counter. Carelessly breeze through the racks of LP recordings and suddenly, you begin to notice strange things.

Music has now taken on greater definition. It is no longer a medium for appreciation only, but recent recordings prove that a psychological stimulant will tend to cause physilogical results. Music has en recorded to reflect your every passion, whim, urge and even distress.

There is music to wake up to; music to eat breakfast with; and if your ego needs bolstering there is "Music for Courage and Confidence." To show how abund it can get, manufactures have released music for the housewife entitled. "Music for Washing and Ironing." And so it goes until every pang of remosse, every show of emotion has been exuded, then they will permit you to go to bed with "Music talkan Rev." to Sleep By.

The big swing toward this type of soft, lazy, fully orchestrated music seems to have started with the success of the Jackie Gleason Orchestra. It has grown into a "Frankenstein" and the only solution is 56 produce a long playing record with nothing but 30 minutes of pure, unadulterated, undistorted SILENCE. That's about the only thing they've neglected thus far.

Let me take this opportunity to wish everyone of you who ha severed and read down to this line . . . A very MERRY CHRISTMAS AND A JOYOUS HAPPY NEW YEAR.

OCAFF Board Children Entertained at Party

Children of the personnel at Board 2 AFF were treated with a wonderful .Christmas party on Saturday, Dec. 18 ° at Godman Field House. The party which lasted from 2 to 5 p.m. gave the children a little bit of everything.

Entertainment started with three 12 minute Walt Disney technicolor movies. Following this the kiddies got a chance to exercise their vo-cal chords as they sang Christmas

The group singing was followed by the highlight of the party, a pre-Christmas strival of none other than old Santa Claus him-

Santa gave the children a 'big thrill' by getting in a jeep decor-ated as a sleigh and drawn by reindeer, which drove around for all to see.

Everyone then went into the fieldhouse where Santa lived up to his reputation by presenting all of the kiddies with presents.

The party was concluded with refreshments which included cookies, cocon and ice cream.

Santa was aided during the party by four elf men, who probably were his helpers down from his North Pole headquarters. They acted as ushers to seat the children, passed out gifts and candy and entertained in general.

Many off-duty hours were spent in planning and preparing pro-jects used at the party.

German 'Fixitmen' Keep Army Tanks Ready For Action

ESSLINGEN, Germany (ANS)—A nationwide "fix it" campaign has saved U.S. taxpayers about \$1,000,000,000 (B) during the past seven years.

Five U.S. Army "rebuild shops" in southern Germany employ 10,497 Germans who annually earn more than the German currency equivalent of \$6,000,000 (M) by 'repairing trucks, tanks and other materiel,

Tanks which cost \$190,000 new are rebuilt for \$10,000. Trucks are remade for \$500, compared to a \$3,200 original price-tag. Fourron werekers roll off the re-assembly line for \$1,400; newly bought, the purchase price would be \$13,100.

Supervised by U.S. Army personnel, about 65 percent of the 1,000 employees at the Boeblingen shop, a typical plant, are refugees from behind the iron curtain, Although eight percent of the workers are at least 50 percent disabled, the over-all safety record is excellent with only 3.79 accidents per 1,000,000 GMJ man hours. Safety talks, given in German and supplemented by training aids, are a contributing factor to the low accident rate.

Typical of the workers at Boelingen is 60-year-old Anton Kieingen is 60-year-old Anton Kiement, who was expelled in 1946 from his home in Buchen, Czechoslovakia. Appenticed as a blacksmith at 14-and-a master of his craft at 23. Klemen! lost everything, he possessed. Ejected from his home, he stood by -helplestly as his steel shop and money were confiscated. After months of dreaty: refugee camps, he began to work at Boeblingen.

Today he supervises production of spare parts. The Army has awarded him bonus payments for his suggestions aimed at facilitating and improving work at the plant. He lives in Maichingen, in a home built with the help of fellow refugees. His story vividly shows that the Army rebuild program is one of mutual benefit.

While building a higher standard of living for themselves, these craftsmen indirectly are helping to defend Europe by providing military machinery for North Atlantic Treaty Organization nations.

Monkey Shines

BAMBERG, Germany (ANS)— Baseball has taken to the trees. High climbing field wiremen of the 33rd Field Artillery Battalion stationed here now are playing catch at treetop level.

"Treetop baseball" was devised to conquer fear of heights and increase the wiremen's confidence in their equipment while they string overhead communications.

When the soldiers go aloft for their sport they rely only on their safety belts and spike climbers to keep them secure.

THE REPORT OF THE PROPERTY OF

Versatile Soldiers **Making Xmas Gifts**

WASHINGTON—Santa has re-cruited as helpers thousands of Army men and women who are bent to the task of shaping wood, metal, leather and clay into Christmas gifts for the folks back

Stop in at any of the 400 Craft Shops in Army installations the world over and you'll find the "do-it-yourself" devotees hard at work in off-duty time.

At this table, a master sergeant is busy with metal snips and tin cans; he's making Christmas tree decorations to his own imaginative designs-stars, angels, birds, fish

A WAC is throwing clay on the wheel; she's making a pottery bowl. Amateur silversmiths are howl. placing stones in metal frameworks- special gifts for special

Over where the noise is loudest where the whine of the bandsav competes with the rasping of files a corporal is putting together a toy chest for his son. Next to him a major patiently sands the coffee table that will go under the tree for his wife.

Wallets, belts and key cases are in the making at the leather work table; plastics are being bent into book ends and trays; oil paintings and prints are taking form.

Activity in the craft shop is

much the same every evening and over the weekends, but special care goes into these Christmas offerings — often they represent the first evidence for the family of the new art or craft learned in the Army's arts and crafts pro gram.

Organized in 1942, this off-duty program is a part of the Adjutant General's morale and welfare services. Available to enlisted and officer personnel alike, the shops are well equipped through funds provided, in the main, by profits from the local post exchanges and movie houses.

Sometimes supplies cost nothing at all as the use of salvaged ma-terial—tin cans, scrap metal and lumber-is encouraged. In addition, certain geographic areas free materials for the searching.

Supervising all this activity is a highly trained civilian specialist in the Special Services uniform Volunteers are recruited for the teaching staff - a Signal Corps specialist for radio repair classes, local community arts and crafts experts, and professional artists on Army duty.

There's a lot of friendliness around the Craft Shop—the good humor that is kindled when a man is satisfying his need to create. This is true especially at Christmas time when a man is also satisfying his need to do something for someone else.

MISCELLANEOUS

FROM THE U. S. ARMY HOSPITAL

To Occupants of all Family Quarters

The United States Army Hospital, Fort Knox, is adequately staffed and equipped to cope with the routine medical and surgical needs of our post population.

Our medical staff is however in the process of being curtailed and orther losses of medical officers are anticipated in the very near future. Only by utilizing our remaining medical staff with the utmost economy shall we be able to continue to carry out our dual mission of giving medical support to our troops as well as to our families.

The hospital's primary responsibility is adequate professional

for our hospitalized patients. Equal priority has to be given to the medical support of the entire military population.

Therefore, it may be unavoidable that certain activities of our Outpatient Service, as far as dependent care is concerned, will have to be curtailed. Though the Outpatient Clinic will always endeavor has proven an excellent optical to provide adequate medical care to our families, there are not enough medical officers available to individually attend to each common cold and upper respiratory infections as they are presently prevalent

and will continue to be so during the winter months.

The following information, "Medical Self-Care at Home" is offered in the hope that it will be of assistance as a guide in determining what should be done for the sick patient at home and when to eek the advice of a physician:

a. ADULT COLDS

1. There is no special treatment or cure for this disease. The following home remedies are suggested: bedrest (if possible), in-creased fluid intake, nose drops for nasal congestion, moderate use of aspirins or APC's, and a cough mixture. Avoid fatigue, unfavorable weather conditions, and drafts,

2 These medications can be obtained at the Outpatient Clinic

 These medications, can be obtained at the Outpatient United any member of the family without waiting to see a doctor.
 Pericillin "shots" and the variety of antibiotics are of no value in the treatment of common colds, and the best interests of he patient are served if these medicines are not given in these relatively mild, self-limited diseases,

4. As long as there is little (101°) or no fever, the patient is generally safe without seeking the aid of a physician. The same is generally sate without seeking the aid of a physician. The same is true for mid cases of "flu" or "Grippe," including those with mid gastro-intestinal symptoms like diarrhea and nausea. Reporting to the Clinic with the above conditions its not of value to the patient and serves to spread the infection unnecessarily to others.

5. Of course, if any of the complications of a cold, flu or grippe, such as a severe sore throat, earache, severe headache, cough associated with chest pain, persistent diarrhea or abdominal cramps should develop, professional advice should be sought.

b CHILDREN'S COLDS

1. In the case of the infants and children with a cold, the same principles apply. If they do not have a temperature over 101°F., more than a moderate cough, do not appear in pain or are not unusually listless or sleepy, do not vomit or have diarrhea or abdominal pain, they are better kept at home. There is no specific treatment for these colds; again penicillin or other antibiotics are of no value. By keeping the child comfortable, providing extra rest, giving him a light diet, urging fluids, the child will be made as comfortable as possible. Aspirin, for a few days when the cold is fresh may relieve some of the aching and discomfort. Nose drops may be used before feedor the acting-ana.cuscommer. Arose crops may be used before reed-ings and at bedtime to make-breathing easier. (Avoid nose drops which are in an oil base) A vaporizer, using just water (no medicine in it is neededland.simple cough mixtures may also help.

(a) Avoiding contact with other children in the early stage is important for it may prevent the child at a time he is more susceptible, from contracting a more serious infection, such as an ear infection.

(b) It cannot be emphasized enough, that children with colds, thu, or grippe or other mild upsets should be confined to their bed or to the living room couch (converted into a bed, the little patient

(c) If the child appears to have any alarming or unusual symptoms especially those of being sleepy and not responsive, or to be in pain, he should be seen by a physician—if possible, by the pediatrician during clinic hours.

(d) Do not give oily nose drops, cathartics (castoria, castor oil) or drugsused for previous infections (sulfa drug, pencillin, auremy-cin, terramy-in, etc.) Chest rubs, menthol, etc., while of doubtful value, are not harmful as long as they do not burn the skin.

value, are not harmful as long as they do not burn me skin.

SUDDEN FEVERS: Sudden fever may occur in infants and children: This may be the beginning of a serious infection, a mild infection or a short "one-or-two day fever" with no other symptoms. The child should be seen promptly by the doctor when:

3 The fever is over 102" or complicated by a convulsion or fit.

(b) Fever advantages (decadiace) at united behavior (12).

(b) Extreme drowsiness (sleepiness) or unusual behavior (talk-

ing "out of his head," etc.) c) Or if the child complains of severe headache, earache, sore

throat, stiff, neck, stomach ache or other definite pain.

If none of these complications are present and the child is not especially fussy, it is perfectly safe to treat him at home for 24-48 hours, and then if he still appears sick or is running a fever, bring

hours, and then it he still appears such or is attempt to a doctor.

3. The proper treatment the first day at home is simple bedrest and plenty of water, fruit juices, ginger ale or oher soft drink. A double dose of aspirin may be given once and then a single dose every six hours. If more is needed, a doctor should then be seen. For fevers of 102°, or when the child seems unusually hot, it is wise to place the child in a tub of water that is coul to the hand and bathe him for 15-30 minutes by sponging, being sure that the bathroom is 7.4 cool. This will not bring on pneumonia. Again no cathartics or laxatives should be used and no medicine given that was used for past illnesses

THE COMMANDING GENERAL'S CHRISTMAS MESSAGE

During this happy and holy yuletide season I wish to extend to each member of this famous Spearhead Division my personal good wishes for a very Merry Christmas and a Happy New Year.

Since last Christmas, the Division has continued and improved its high standards of performance. We have trained many thousands of young men in citizenship as well as in the military virtues, and in the skills with which to defend our liberties. We should take a justifiable pride in the increasing quality of our graduates. This progress has been made possible by your professional skill, high standards, devotion to duty, and leadership. For this I wish to thank each of you, and to ask your continued loyal support, to the end, that during the New Year we shall preserve and enhance the proud traditions of the Spearhead Division.

Let us join in thanks to God for the joyful occasion of the Nativity.

Buddy Morrow And Dorsey Bands To Play Here Soon

The Armored Center Special Services will present Morrow and the Dorseys in concerts at Sadowski Field Mouse Buddy will bring his fine band in on Sunday, Jan. 23 and Tommy and Jimmy Drosey will play on Sunday, Feb. 6.

Besides these two big events, Special Services has planned many more functions for the Enlisted Men of Fort Knox. Each week there are six dances: Tuesday and Friday nights at Service Club's 2 and 4; Wednesday night at Service Club 1, and Thursday night at Service Club 3. At all of these affairs, girls from Louisville will be present for dancing partners.

On Jan. 22, at Service Club 2, Special Services will present Randy Atcher and The Old Kentucky Barn Dance radio broadcast. Randy and his fine hillbilly and western group are a regular monthly feature of Service Club 2. Watch the Turret for the date each month

Each Sunday night at all of the Service Clubs, there will be a variety show from Louisville. There six different groups that bring out fine musical shows for presentation in the clubs. Plans are underway for a big Enlisted Men's dance at Sadowski Field House in January, but no

Lt. Col. Edmond J. Padgett and the personnel of The Armored Center Special Services wish to extend these events to the Enlisted Men of Fort Knox as their gift for the New Year.

As the year 1954 draws to a close, the first half of the PTA school year is being completed. Lt. Col. Wilbur. H. Stufflebeam, PTA chapter president, feels Lt. Col. Wilbur, H. Stufflebeam, PTA chapter president, feels that this is a fitting time for all members to reflect on the aims of the association and its accomplishments. With, his jest-ceutive committee, therefore, the has prepared the following the complex of the property of the pr

Briefly stated, the aim of PTA to bring the parents closer to the teachers and to invite their participation in the education of their children. The PTA strives for better homes, better schools and better communities for the and better communities for the children. It is not a political organization and does not engage in banner waving campaign Much of the work of this organi zation is accomplished "behind the scenes" and is not generally evident to the public.

Probably the greatest accom-plishment of the Ft. Knox PTA is the enrollment of more than 2250 parents this year. This is the largest membership in Kentucky, and although statistics are not available, undoubtedly one of the largest in the country. At-tendance at meetings has continuously been near or above the 1000 mark. Were it not for an organization of this kind, many hundreds of parents would never get to know the teachers and school officials to whom they have en-trusted the education of their offspring.

It is true that parents who are not members of PTA may effect intimate and friendly cooperation with the teacher through individual effort; however, much more can be accomplished if the effort is coordinated by a single agency the PTA

purposes, is free. The nominal PTA dues of fifty cents per mem-ber is a simple means of acquiring the minimum required funds to meet operating expenses. In reality, most of this money is with the lunchroom concessionused by the local chapter for pay- aire to effect changes in the types ment of prizes for classroom participation in various contests sponsored by the PTA, for purchase of refreshments served at meetings, etc. A parent need not be a member to attend meetings, but by paying dues, the parent indicates his, or her, sincere de-sire to support the activities of

the group.

While the monthly meeting serves to accomplish the purpose of bringing the parents and the teachers together, and enables them to "get acquainted," it also presents an opportunity for the members to present "projects" for consideration of the assembly. These projects may range from a suggestion that a policeman be

Most so-called "projects" are accomplished by either appointed committees or by members of the executive committee. For example, the Home Room Committee consists of a group of mothers who aid the teachers in decorating classrooms for holiday seasons, providing refreshments for classroom parties, and taking chil-dren on hikes and picnics. The work of this committee may also extend to assist the teacher in grading papers, or in some in-stances, a member of the com-mittee may substitute for a teacher who must be absent.

Problem Children

In every community and in every school system, there are children who present special problems to the teacher. These problems may be caused by such things as speech defects, physical impairments, mental or psychological disorders, or may be due to just plain "orneriness." The Unusual Child Committee of the local chapter consists of a group of parents, teachers, doctors, and chaplains who consider the indichapians who consider the indi-vidual cases in a confidential mamer and attempt to aid the parents and teachers concerned to help these children adjust nselves to normal school-life School Lunchrooms Improved

The Health and Safety Committee concerns itself with, among other things, insuring that traffic is regulated for best protection of the children, that lunchroon conditions are sanitary, that athletic activities are properly su-pervised, and that an adequate physical examination and preventive medicine program is in effect. A typical example of the work of this committee is the improvement effected in the school lunchroom during this year. Members of the committee with school officials

the children during the lunch endeavored to obtain student par time.

The local chapter has paid approximately \$400.00 of its funds each year for payment of a lunch-room supervisor. Through the efchildren presented a program in keeping with the holiday season. The PTA does its work quietly, efficiently and without fanfare. It consists of people with a common interest—school children forts of the association, this bur-den has been assumed by the schoolboard. The funds previousbe used to provide additional incentive prizes for school activities tinue in the future to exert its efforts toward the development of and for support of other projects benefiting the school children

Among the prizes awarded by the PTA to the local schools are a classroom prize for 100% and 200% parent enrollment in the chapter, a prize for the best dec-orated classroom at Christmastime, and an award for largest attendance at monthly PTA meetings.

KISS THE BOYS GOODBYE was the order of the day when 92 Cubs departed for a week's stay at Camp Patton last June.

"I LIKE IKE" buttons were much in evidence as the President made a whirlwind four of Fort Knox in April; was presented famous painting as he boarded plane at Godman.

VOLUNTEERS HAD THEIR DAY in June at the semi-annual capping and award service. Col Tynes noted that 662 volunteers worked \$2,000 hours here (not including blood bank hours) in a 2½ year period.

THE FINEST IN ENTERTAINMENT was brought to Fort Knox audiences with the Little Theater Group's excellent presentation of "Arms and The Man" in late May.

A KISS TO THE WINNER was Benny Wild's reward when he won the Fort Knox Soap Box Derby in May.

CO-EDETTES AT KINDERGARTEN PREP SCHOOL called their pals in October to tell them about the "good deal" to be had at the renovated Armored Center Nursery School, which is open to all preschool age children on post.

IN THE SPORTS WORLD, the Lindsey ladies ended a successful golfing season with a luncheon at the Brick Club in October.

OVER THE TOP in the membership drive was announced by PTA in November, with 2250 enrolled in the local chapter. Membership committee was aided by PTA officers above.

NCO AUXILIARY ADVISORY BOARD MEMBERS were elected in November, stressed advantages of membership in the active group that meets each Thursday.

Special Women's Club Meeting Held to Hear Noted Political Analyst

Mr. Shane MacCarthy, recog-Mr. Shane MacCarthy, recog-nized by prominent American leaders as a sound analyst of problems affecting the national and international scene, will speak before the Fort Knox-Women's Club next Friday.

Mrs. Percy Brown, club presi dent, has called a special meeting to be held at 2 p.m., January 7th, at the 3d Armored Officers' Club, to give club members an opportunity to hear the brilliant orator who has received nationwide acclaim for his approach to the problems forced upon Americans by suggesting a 10-point check list to guide Americans in resisting communism.

A graduate of Catholic Univer sity, as well as New York Uni-versity, Mr. MacCarthy has ap-peared before business and professional groups and student bodies in almost all of the 48 states, and has been a D.A.R. National and has been a D.A.R. National Convention speaker. He is cur-rently a lecturer in the Political Science Department at George-town University Graduate School. Tea will follow Mr. MacCar thy's address.

TOP DOGS GET TÖGETHER... The outdoorsmen really had a field day at Fort Knox this year. Championship dogs from all over the nation came to the Home of Armor to participate in two field trials.

CCA won the 1954 Post Swimming crown, but all eyes were on 2d Lt. Robert Clotworthy, who captured the springboard laurels. He exhibited the diving talent that brought Olympic and Big Ten honors to him.

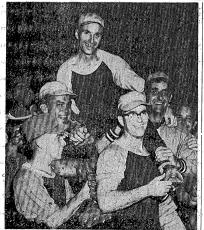

CHAMPION CAGERS... Hospital won the Fort Knox Regimental hoopster title last season and are well on the way to a repeat performance as they lead the league once again.

FUTURE DIAMOND STARS PERFORM . . . In 1954 practice sessions for full scale Little League activity were begun. It now appears that Fort Knox will have Little League ball in 1955.

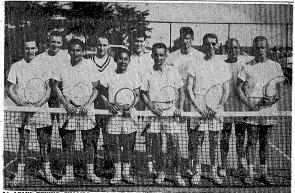

PREP GRIDDERS... "Eagle" gridders recorded a successful session with three victories, four losses and a fie. Prospects for next year are good, barring unforseen changes in the high school player personnel.

POST SOFTBALL TITLISTS.../The 45th Medics were joyous as they left the field after capturing The Armored Center Soft-ball crown.

Reviewing 1954 ABig And Successful Year Kept The PIO Photog Busy SPEAR

Each year about this time, we do a smart, right-about-face for a look at what is now behind us. It would take Each year about this time, we do a small, highwatch face for a look at what is now behind us. It would take many words and many pages to review events within the 3d Armored Division over the past twelve months, so our tribute to the year 1954 will concern only the highlights. But words alone could not do credit to the 365 days of Spearhead activity. That is why we have given a free reign to SFC W. D. Tilton, the man-fehind the PIO camera. Our words can only supplement the action that his busy-camera has captured so well and so vividly during 1954. The photos on these pages depict only a small portion of the part played by Sgt. Tilton in helping to shape our day to day documentary of the famed 3d. Armored Division's vital role in this, our peacetime Army.

Here then, is our last look at 1954.

The Art of Forgetting

An artist once painted a picture of a winter twilight, the tree heavily laden with snow, and a dreary, dark house, lonely and deso-late in the midst of the storm. It was a sad picture. But then with a quick stroke of yellow paint he put a light in the window. effect was magical. The entire drab scene was transformed into a vision of comfort and cheer.

a vision of comiori and eneer.

The birth of Christ was just such a light in a dark world. How badly we need this light of Christ in our world today.

Seldom have men crossed the threshold from the old year into the new with deeper fears and misgivings than today, as we enter There is trouble and confusion on every hand.

1955. There is trouble and confusion on every hand.

But to the Christian the new year is a symbol, not of fear but of hope. He knows that his God has brought him safely through another year and that regardless of what this new year may hold for him, he need never fear because his Saviour has promised never to leave him or forsake him.

Many people face each new day with fear. God would have use face out draw with feath and truth.

face our days with faith and trust.

As we look back over the past year, we see many happy moments As we look back over the past year, we see many happy moments but we also see many failures and disappointments. However, the Christian can say with the Apostle Paul, "Brothers, I count not myself to have arrived; but this one thing I do, forgetting those things which are before, I press toward the mark for the prize of the high calling of God in 'Christ Jesus." In other words, don't

the nign calling of God in 'Christ Jesus." In other words, don't let your yesterdays ruin your todays. DO YOU BELIEVE IN JESUS CHRIST AS YOUR SAVIOUR FROM SIN, DEATH, AND THE POWER OF THE DEVIL? If so, FRUM. SIN, DEATH, AND THE POWER OF THE DEVIL? If so, then the Apostle Paul's words are yours and you can face the future unafraid because you know "that all things work together for good to them that love God, to them who are called, according to His

Librarians usually have the reputation for being the best read persons in town. In the 3d Armored Division area, it might be added they are the best dressed too.

Miss O'Hare is a 1948 graduate of the University of Kentucky, where she majored in library science. After spending several years working in the University of Kentucky, the control of the Contr library, she came to the 3d Armored Division as a Special Services Librarian in July of 1953.

(Continued from Page 4) receives 43. In newspapers, Library No. 2 carries 20 publications and Library No. 3 gets 15 each day. These papers represent the major regions for the United States extending from such cities as New York to Los Angeles, Denver to Pittsburgh, and from St. Louis to Minneapolis.

Approximately 50 to 80 books are checked out daily at each library, and there's never charged for their use. All that is requested is prompt return of the books. Of course if a book is lost or stolen, the responsible person is required to pay for the book or replace it with one of equal value.

In every crowd there is always one fellow who will spoil things for the majority. In this instance, the "one fellow" is the lad who fails to return a book he has borrowed before he leaves the Post By trying to start his own pri-vate library in this manner, he is denying the use of that book to his buddies who are staying here at Fort Knox.

Of course, every organization operates on a budget, and to make every expenditure do the most good, the librarians must, as Miss Genevieve Friday, Post Librarian, stated, "Get the pulse of their patrons' wants in order to better meet their demands." To get that "pulse of demand," you will find suggestion boxes at both libaries
This is one of the handlest means for readers to suggest book titles for future purchase.

Library No. 2 has approximate ly 7,500 books in its shelves and Library No. 3 has about 5,000 titles available. Each library is adding 50 new books a month with the ultimate goal of having a combined total large enough to cover any subject, everything from taxidermy to cooking.

As a source of information, these libraries are indispensable

to the various I&E sections and instructors responsible preparing lesson plans. The libra rians are often called upon to find little known tidbits of informa tion for these people.

In addition to their regular duties, the Special Services librarians in the 3d Armored Division operate a telephone information service. Every week they receive numerous requests for data on some of the most inconceivable subjects. And on Saturdays when homework is the heaviest, the Fort Knox school children keep these librarians busy with such

TE'VE seen some high peaks of interest in our new cars over the years - but never anything like this.

Since the day we unveiled these glamorous new Buicks, people have been coming in-not only to see and study and sit in these great cars - but, very definitely, to drive them.

They want, it seems, a firsthand taste of the thrills that Buick engineers have conjured up for this new year.

And who can blame them?

For the word's around that Buick has what no other car has-a new kind of performance from a new kind of transmission.

It's called Variable Pitch Dynaflow Drive.* It uses the principle of the modern airplane's variable pitch propeller. And it does in oil what that aeronautical marvel does in air. At one pitch of the blades inside the Dynaflow unit, you get more fuel efficiency in normal cruising and driving-which means better gas mileage, pure and simple.

But push the gas pedal beyond the full throttle position and you switch the pitch. Instantly, you get electrifying response - a sudden safety-surge of accelerating power to get you quickly out of a tight spot-and with the absolute smoothness that is constant in Dynaflow Drive.

Maybe you, too, have made a mental resolution to drive a '55 Buick-but why wait?

We're ready, willing and eager to let you try one - feel the spectacular new power that gives life to this bounteous beauty - and see for yourself that here is a performance thrill too exciting to miss. Drop in on us this week. won't you?

Late in May, the 7th Infantry Division, setationed in Korea, sent word that it had received its first Spearhead trained "tank packet" crew. The tankers were all from Charlie Co. of the 83d Recon Bn., the outfit that had the distinction of graduating the first body of men to complete a cycle of Armor packet training. This particular crew, the first to arrive in Korea, became a part of the 7th Division's 73d Tk. Bn., com-manded by Lt. Col. Raymond W. Darrah.

One of the biggest days of the year was Saturday, June 19, when the Spearhead Division celebrated wartime activation day with a full-scale Division review, Commanding General's luncheon, reg-imental baseball game, 3d Ar-mored Division Band concert, Honor Guard performance and formal retreat ceremony. Alceremony. Although the Division was actually born on April 15, 1941, the June 19 date was chosen this year for Activation Day observances.

Saturday, July 17 was moving day for many of the units in the 3d Armored Division, as a wholesale reorganization got underway months of careful preparation. The biggest single change in the Division's new setup was the elimination of Advanced In fantry training and the placing of additional emphasis on Armor by markedly increasing the number of men receiving Armor training.

Many other happenings have helped make the year 1954 a memorable one for the Spearhead Division. Although we have written of the big things, the little things are not to be denied. We have not forgotten them, by any means, for the worth of any event is by no means determined by its newsworthiness alone. We have not forgotten, either, the trainee the non-coms and the company officers, who by merely carrying out the duties of an average day, contributed immeasurably to the shaping of events over the past

To all of the officers and men of the 3d Armored Division our sincerest wishes for the hap-piest of New Years.

Since nostalgia and a review of the year's most impressive hap penings seem to be the theme of this edition, let's leaf through the Turret and see if we can come up with news highlights from The Armored Center in 1984.

January saw the arrival of Maj. Gen. Gordon B. Rogers as command January saw the arrival of Maj. Gen. Gordon B. Regers as command-ing general of the Third Armored Division . . . The slegan "Desti-nation Korea" was first heard in a plea for old clothing for war orphans . . . The Fort Knox "Follise of 1845" the bouncy less of Lionel Hampton and the visit of Maj. Gene William P. Dean, brought January

Februarys attractions were the fabilious Dorsey Brothers at Sadowski. . . Gen. Charles Bolte asserted at The Armored Center that "Armor is here to stay" . . The first Sout-O-Ree was held at Fort Knox in which scotts of all sizes, shapes and description participated . And. February drew to a close with the graduation of the first armor packet platfon.

March blew in with the smooth artistry of Duke Ellington and his March blew in with the smooth artistry of Duke Ellington and his concert depicting 25 years of jazz. . The Armored Center's eyes grow wider as did its movie screen when chemascope was introduced with "The Command" . The Little Theater became provocative with Elmer Rice's "Home of the Free" . Ralph Marteis was swaying at Sadowski as the enlisted ranks shuddered when the new NCOspecialist ratings were adopted.

April was one of the highspot months of 1954 for Fort Knox as April was one of the highspot months of 1954 for Fort Knox as President Eisenhower made his visit to the delight of professional and amateur cameramen . Hal McIntyre and his band came out of obscurity to play at the Service Club and the 547th AFA Bn., came obscuring to play at the Service Club and the \$47th AFA Bn, came out of the jurged mouritains of Colorado to "noie-up" at The Armored Center. Three-year old Dianne Pendygraft was found alive after a two day search by GI's. Fort Knox won the Second Army boxing crown while funds were being appropriated for a new nine-Knox.

May found Louis Armstrong blowing like a March wind and Theima Middleton shimmying her 180 pounds to the trumpet master's hot licks. Fort Knox WAC's celebrated their 12th birthday while Gen. Matthew Ridgewsy trooped, the line at Gogman. Shaws "Arms and the Man" was presented by the Little Thester, the Cub Scout soap box derby ran rampant on the Dixis Street speedway and Maj. Gen. Collier was notified of his new command in the Far East.

June bloomed and blossomed with the new Commanding General of the Armored Center, Maj. Gen. George W. Read, Jr., being named and Brig. Gen. William H. Wood assumed the position of Deputy Post Commander. The Black Knights of the Hudson toured the Center as the US Army, and the 3d Armored Division celebrated birthdays

as the US Army and the 3d Armored Division celebrated birthdays.

Ground breaking ceremonies for the new hospital were held while Woody Herman and the Third Herd made werfd sounds for GPs. Wiewers were treated to an even more faschating and exotic scene as the Koshare dancers performed their strange ritual.

As the heat of July began to take its toll at The Armored Center Secretary of the Army, took his honors and things got hotter when Secretary of the Army, took his nonors and inings got notice when Joy Cayler and her all gill orchestra came in . . M-5gt. Herbort Hobbs became the first Fort. Knox, soldier of the moth, Brig. Gen Charles V. Bromley became Asst. Commandant of The Armored School and Johnhy Long and the Ravens made hitney real cold

It got hotter in August . A new telephone system was installed. The tennis team won the Second Army championship . Maj. Gen. Moshe Dayam of Israel visited, and found the climate pleasant . Whew! . The heat intensitled as Brig. Gen. Beishline left for a new assignment.

September found the weather still hot . . . a ten year wildlife conservation program was started . . . Saluting of post became effective . . . Gen. Hayashi of Japan foured the installation and Relph Marterie . Gen. Hayashı or Japan Adda sounds like Glenn Miller.

Big news here in October was the Air Show at Godman Field Isig news nere in October was the All Show at Gournar Frank.
Woody Herman liked it here and came back for seconds. Brig.
Gen. Samuel Myers was named Asst. 3d Atmored Division Commander and Col. Creighton W. Abrams became The Armored Center's new Chief of Staft... Halloween came and so did Tobacco Leaf IV Time ran out and Philadelphia remained in enemy hands

November fell upon us and the Community (thest fought back with a fantastic 39 per cent sale of all trickets. ... Billy May's organization showed off its new sound but all of Fort Knox mourned the passing of Superintendent of Schools, Mr. William Kingsolver . . England's Canada commanders olivated the Canada communities o Gen. Prior-Palmer toured the Center and companies played host to orphans on Turkey Day.

December wound up as usual, the last month of the year. Safe-Driving Day proved we could do if. I The "Hasty Heart" and Handels "Messish" were offered. The 11th Cav. gave up "squat-ter's rights and started preparations for their move toward "Oper-tion Follow Me". This column winds up the year wishing you all a very HAPPY NEW YEAR.
