

USAARMS COMMANDANT'S READING LIST

As Armor Leaders developing a course of personal study is essential to self-development. Each of us must improve our minds through reading and critical thinking, to ensure we're armed with the ability to solve the tough problems that we will face now and well into the future. The Army operates in a complex operational environment that requires every leader to improve their knowledge of not only military affairs, but economics, politics, and international affairs.

The below titles are available at the Donovan Research Library. Contact library personnel to register for an account and inquire about additional services such as access to our eBooks and eAudiobooks through this email: usarmy.moore.mcoe.mbx.donovan-ref-desk@army.mil.
